

## LOOKS GOOD FOR GEO. E. BURBIDGE.

Canvass of Second Precinct Returns  
Gives Him a Small Majority  
Over Dean.

## ONE DISTRICT IN QUESTION.

Plurality Hinges on the Number of  
Votes Received in the Fifteenth—  
Contest Expected.

The canvass of the returns of the Second precinct last evening by the city council showed that George E. Burbidge, Democrat, is elected as one of the short term councilmen over George D. Dean, Republican. The exact plurality will not be known until tonight, when the returns from the Fifteenth district will again be canvassed and the judges of that district will be present with the other tally sheets so as to determine which one is correct. The tally sheet submitted to the council shows that Burbidge received 82 votes, while it is claimed that the other sheets will show that he only received 72.

With the vote as canvassed last night Burbidge has a plurality of 11 votes, but should it appear that there is a mistake as indicated in the Fifteenth district his plurality will only be one vote. It is quite certain that Burbidge's election will be contested in the courts and a recount of the ballots will then be had. In the Fifteenth district he gained 14 votes and in the Nineteenth he gained 3. Dean made a gain of 15 in the Twentieth district, thus cutting down Burbidge's gain to only two votes.

### A STRANGE COINCIDENCE.

It is rather a strange coincidence that Mr. Dean should be defeated this time by exactly the same plurality by which he was defeated for the council eight years ago. At that time M. J. Chessman defeated Mr. Dean by 11 votes, and, as the returns now stand, Burbidge has defeated him by 11 votes.

### ERRORS DISCOVERED.

The first errors discovered in the returns of the Second precinct were in the first district canvassed, No. 12. Fisher lost 25 votes owing to an error in footing up the returns. On election night he was reported as having 100 votes, while the canvass showed only 75 votes. Mrs. Johnson, the Socialist candidate for auditor, gained three votes in that district. She should have been credited with 20 votes instead of 17. The poll book of the district showed that there were 281 votes cast, whereas there were only 259 cast, checked on the register.

In the Thirteenth district there were 29 names on the poll book, but only 27 were checked on the register. There were two challenges in the district, both parties being sworn in and allowed to vote. In the Fourteenth district the returns were correct, the number of votes on the poll book and those checked on the register being 263.

Burbidge made a gain of 14 in the Fifteenth district, the canvass showing that he should have received 82 votes instead of 68 as first reported. It is claimed that the tally sheet canvassed last night is not correct and that Burbidge only received 72 votes. This matter will be determined by the council tonight. The pollbook of the district contained 251 names, but only 248 were checked on the register.

There were no changes in district 16, neither were there any challenges in the district. The pollbook contained 425 names while only 424 were checked on the register. Two challenges were reported in district 17, one of which was sustained and one overruled. There were 260 votes cast and 257 checked.

### FREED FOR MAYOR.

A new candidate for mayor was discovered in the canvass of the returns of the eighteenth district. One vote was cast for a man named Freed for that office. The initials of Mr. Freed were not given in the returns so his exact identity is not known. This was the first scattering vote encountered during the entire canvass. There were no challenges in the district. There were 24 votes cast according to the register, 233 according to the report of the judges and 232 according to the pollbook.

In the nineteenth district there were no votes cast for M. J. Isaacs, Socialist candidate for mayor. This is the first instance where that has occurred during the canvass. Burbidge made a gain of three votes in this district, the canvass showing that he received 307 votes instead of 304. There was one challenge in the district, which was overruled.

### A GAIN FOR DEAN.

George D. Dean made a gain of 15 votes in the Twentieth district, the correct returns being 150 instead of 135. R. C. Badger also gained one vote in this district. There were six challenges in the district, two of which were overruled and the other four were sustained. There were four challenges in the district, two being sustained and two overruled. There were eight challenges in the Twenty-third district. One was sustained, six were sworn in and one refused to be sworn.

### BIG GAIN FOR MACKNIGHT.

MacKnight, Republican candidate for treasurer, made a gain of 60 votes in the Twenty-second district. This is the largest gain yet discovered. The canvass showed that he was entitled to 195 votes instead of 135 as first reported. There were four challenges in the district, two being sustained and two overruled. There were eight challenges in the Twenty-third district. One was sustained, six were sworn in and one refused to be sworn.

### NOT CANVASSED.

The council did not canvass the returns of District 24 for the reason that the tally sheet submitted was not properly carried out. The total result of the vote was entered on the council and not the tally of each ballot counted as required. A messenger was sent to the homes of the judges of the district.

### "THE OLD SCRATCH."

How the Evil One Came to the Popularly Known as "The Old Scratch."

One of the many familiar names of his satanic majesty is "The Old Scratch." It is undoubtedly due to the fact that scratching is so disagreeable that people thought it no worse than the evil one. A scarp full of dandruff keeps one scratching all the time; not only is it disagreeable but considered very indecent in polite society—as it should be—because one ought to keep the scalp so clean that it would not itch. To cure the scalp of dandruff effectively, use Newbro's Herpicide. It kills the germ that creates the dandruff, which is preliminary to falling hair, and, finally, baldness. No other hair preparation kills the dandruff germ. Herpicide also is a very efficient and effective hair-dressing. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. For sale by Z. C. M. I. Drug Dept.

## NOW IS THE TIME.

Take Scott's Emulsion of Cod Liver Oil now. Not next week or next month, but now. You need it to put fat on your bones and strength in your body to stand the cold and trying weather of the next few months.

Nine-tenths of the population would be benefited by taking Scott's Emulsion regularly three times a day for a month or more every fall to fortify and strengthen the system against the cold and constant changes that occur through the winter. The benefit is particularly marked with young, delicate children. No food that they can take begins to compare with Scott's Emulsion.

Pure cod liver oil is scarce but if you get Scott's Emulsion you'll be sure to get only the purest and best oil.

We'll send you a sample free, upon request.  
SCOTT & BOWNE, 405 Pearl Street, New York.

trict to secure the other tally sheets but he had not returned when the council finished the precinct so the canvass of that district was passed until tonight. The returns were the same as those reported on the night of election so it is not expected that any change will be made in that district. There were no changes in the vote of Districts 25 and 26. There was a slight discrepancy in each in regard to the number of votes cast and the number checked on the register.

Among those present at the canvass last evening in addition to the councilmen were Dennis C. Eichner, J. U. Eldredge, Jr., Auditor-elect C. B. Felt, Councilman-elect J. H. Prosser, A. P. Barnes and L. J. Wood, J. J. Meyers, defeated candidate for auditor, Atty. P. P. Christensen, Atty. W. H. Brannmel, Ben D. Luce and others.

**The Old Camper**  
has for forty-five years had one article in his supply—Borden's Eagle Brand Condensed Milk. It gives to soldiers, sailors, hunters, campers and miners a daily comfort, "like the old home." Delicious in coffee, tea and chocolate.

**Lace Curtains, Portieres, Carpets, Rugs.**  
Great reductions. Average 20 per cent to one-third off. AT WALKER'S.

## UTAH'S PRODUCTS.

What Dan's Review Says Regarding  
Beet, Sheep and Canning Industries.

The last number of Dan's Review has the following to say about beet sugar, sheep and the canning industry in this state:

The beet sugar industry has made rapid growth in the past year. The output is 50,000,000 pounds, an increase over last season of 50 per cent. The output for the new Idaho factory will run about 10,000,000 pounds more. The beet acreage is probably 30 to 40 per cent over last season, and with the ample water supply in most sections the output per acre is increased and is of excellent quality. It is estimated that the factories in active operation will pay out to the farmers alone for beets during the next three months about \$400,000 per month. Labor for the operation of the factories is plentiful, except skilled, which is in demand.

The sheep and wool growers' losses last winter and spring were unusually heavy, so that there are one-third less sheep in this territory to go on the winnages. Though the wool brought great prices, averaging 12 1/2 or 14 cents, the severe winter and heavy losses were hard on owners. The sheep, however, have done well through the summer, and are in good condition, and the ranges are in good shape, so that the outlook is considered good.

Canning factories have had an unusually long and satisfactory season. The weather favoring them. The output is chiefly tomatoes and peas. It is estimated that the increase for the present season is 25 per cent over last year, when early frost shortened the season and suspended operations. Prices are satisfactory. Fifteen factories are now in operation, two of which are new this season. Labor is plentiful.

### Anxious Moments.

Some of the most anxious hours of a mother's life are those when the little ones of the household have the croup. There is no other medicine so effective in the terrible malady as Fole's Honey and Tar. It is a household favorite for throat and lung troubles, and as it contains no opiates or other dangerous ingredients it can be safely given. Sold by Johnson-Pratt Drug Co.

"Little Colds" neglected—thousands of lives sacrificed. Every year. Dr. Wood's Norway Pine Syrup cures little colds—cures big colds, too, down to the very verge of consumption.

**Lace Curtains, Portieres, Carpets, Rugs.**  
Great reductions. Average 20 per cent to one-third off. AT WALKER'S.

## SPIKE AND RAIL.

General Agent Walker of the Chicago Northwestern is off down the line on a business trip.

E. J. Seymour, assistant general freight agent, and E. Hoops, general agent of the Chicago & Northwestern at Denver, are expected to arrive here tomorrow.

The annual convention of Traveling Passenger Agents was opened in New Orleans yesterday. President Pittenger, presiding. Nearly 500 members were present, including several from Canada. The morning session was devoted to welcoming addresses. El Paso, Portland, Ore., and Mexico City are after the 1904 convention.

The Bakersfield & Ventura railroad has closed a contract with the Illinois Steel company for 500 tons of steel rails to be delivered in December. A contract for 15,000 tons more will probably be closed within a week. Officials of the new company have announced that final preparations for the commencement of construction are expected to be concluded within a few days. The projected road will run from Bakersfield to Ventura.

James Stillman was yesterday elected a director of the New York Central railway to succeed E. V. Roosevelt. Mr. Stillman, who is president of the National City bank, was also elected a director of the executive committee of the road. The election of Mr. Stillman as a director of the New York Central was regarded as significant in Wall Street because of his close relations with the Rockefeller interests.

## CHANGES ON THE UNION PACIFIC.

Headquarters of Assistant Superintendent Whitney Moved from  
Laramie to Cheyenne.

## NEW TRAIN SCHEDULE SCHEME.

Several Changes Inaugurated as Result of the Contemplated Shortening Up of the Road.

### Special Correspondence.

Cheyenne, Wyo., Nov. 10.—Following upon the transfer of the headquarters of the chief dispatcher of the Union Pacific, which have been located at Laramie for 15 years, to Cheyenne, comes the announcement of the transfer of the headquarters of Assistant Superintendent Whitney from Laramie to Cheyenne. Trains between Cheyenne and Sidney and Cheyenne and Laramie will be handled by the dispatcher at this point. Three men remain at Laramie and will handle trains between that city and Haviland. These numerous changes were the result of contemplated changes in the running of trains and the shortening of the road and the double-tracking of the entire line between Cheyenne and Laramie.

### RECEIVERS FOR RAILROADS.

Court Rules This May Be Done Because of Delinquent Taxes.

The court of appeals in Denver on Monday made the important ruling that county treasurers may have a receiver appointed for railroads that are delinquent in the payment of taxes.

The court holds that treasurers may not sell the property of railroads for the latter's non-payment of taxes, but they may through the proper legal channels place the offending company in the hands of a receiver and keep it in that position until a settlement is made for the delinquent tax.

The test case decided was that of D. E. Dobkins, treasurer of Boulder county, against the Colorado & Southern railway begun in 1898. Dobkins attempted to force the railroad company to receivership, but the trial court denied his petition on the ground that the statutes of the state granted the county treasurers sufficient power to collect delinquent taxes. By this ruling it was meant that the treasurer had a right to seize and sell the company's property in Boulder county for taxes, and therefore a receivership was unnecessary.

Dobkins, who clung tenaciously to the receivership idea, appealed to the court of appeals with the result that Judge Gunter reverses the lower court, ruling that in the case of railroads owing delinquent taxes that receivership is the only remedy of the county authorities.

This is also the contention of Treasurer Elder of Denver.

### FLAT RATE TO NEW YORK.

Agitation to Abolish Passenger Differential Between Chicago and Gotham.

New York, Nov. 11.—Trunk line association's officials are arranging the appointment of a board of arbitration which will be called on to decide whether passenger differential between New York and Chicago shall be abolished. In case the question is decided in favor of the New York Central, and the Pennsylvania, the non-differential lines, a regular rate of \$20 will be imposed by all lines operating between Chicago and New York. Under the present arrangement the other roads are permitted to charge \$18.

### D. & R. G. TIMBER CASE.

New Trial is Ordered by the United States Supreme Court.

Washington, Nov. 10.—In an opinion by Justice Brown, the Supreme court of the United States yesterday reversed the opinion of the supreme court of New Mexico in the case of the United States vs. the Denver & Rio Grande Railroad company. The action was for damages for timber cut on the public lands in New Mexico by the railroad company, and the territorial court supported the contention of the company that the timber was for the purpose of construction and repair of the railroad, and that its cutting was therefore justified. Justice Brown said there was no testimony to the effect that timber was to be used for these purposes, and held that as no other person or company could produce the proof as to motive the burden of proof was on the company, notwithstanding the government was the complainant. A new trial was ordered.

### C. M. & ST. PAUL EXTENSION.

Railroad Man Discusses Proposed Line Through to Coast.

A prominent railroad man who has recently returned from the east, and who is close to the Chicago, Milwaukee & St. Paul people, said today that there was considerable more than rumor in the extension of that line to the coast. While there is no definite route settled on at the present time, the route from Everett, South Dakota

### DRIED UP.

Coffee Was Drying up Her Blood.

"Coffee had the peculiar effect on me of thickening the blood and lessening it in quality, in other words drying it up," says a young lady of Shelton, Neb., "and so long as I drank the drug coffee I had terrible headaches frequently accompanied by sour stomach and a very bad breath."

"My condition was serious and I knew something had to be done so I decided to quit coffee and drink Postum."

"A few days after I quit drinking coffee and shifted to Postum, I felt much better and continued to improve on the Postum until I am now entirely free from headaches and stomach trouble and steadily gaining in flesh and health and feel happy and full of rich, pure blood."

"My parents were ailing as long as they were coffee drinkers. They were certainly great coffee drinkers and admitted that they could not get coffee strong enough for them and my father in particular was a regular slave to coffee, drinking many cups of it daily although he had terrible headaches about once a week, while my mother complained of her liver and took different liver remedies but all to no avail."

"Then I persuaded them to quit coffee and drink Postum Food Coffee and the result was all that I had hoped for and both are now very content and are strong and well. I know of many other cases where leaving off coffee and drinking Postum has resulted in wonderful changes in health." Name given by Postum Co., Battle Creek, Mich.

MELLIN'S FOOD CO., BOSTON, MASS.

to some point on the Sound, probably Seattle, is the one most favored. The reason for this is somewhat apparent to a novice who examines the railroad map of the country. It will be seen at a glance that west of Everett for a number of hundreds of miles, the line would penetrate a virgin country where there are no railroads whatever. All western Dakota and eastern Montana are noted as a stock country and the traffic for the road would be very heavy. The line would tap the rich mining region around Butte and on go through the panhandle portion of Idaho, into a country which at the present time has no railroad facilities.

Another route which is greatly favored is the one by the way of Chamberlain, through the Black Hills and

EDWARD L. WENTZ, WHO IS HELD FOR A RANSOM OF \$100,000.

Edward L. Wentz, who disappeared some time ago and was not heard of again until nearly a month later, when a letter in his handwriting was received by his father, whom he requested to pay a ransom of \$100,000 to secure his liberation. It now transpires, was abducted from a lonely portion of his estate near Big Stone Gap, Va. He was the manager of the Virginia Coal and Iron company, and as he had caused the arrest of many of the miners for cutting timber without authority it was thought that he had been murdered. Later developments, however, showed that he had been taken into the fastnesses of the Cumberland mountains in southwestern Virginia.

TO ACCOMMODATE those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm, Price including the spraying tube is 75 cents. Druggists or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 56 Warren St., N. Y.
