WORDS FAIL to express my gratitude," says Mr JERRY CARTER, of Nashville, Tenn., "for the benefits derived from

Ayer's Sarsaparilla.

Having been afflicted all my life with Scrofula, my system seemed saturated with it. I came out in Pimples, Ulcers, and Mattery sores, all over my body." Mr. Carter states that he was entirely cured by the use of AYER'S SARSAPARILLA, and since discontinuing its use, eight months ago, he has had no return of the scrofulous symptoms.

All baneful infections of the blood are promptly removed by this unequalled alterative.

AMERICAN.

Transported Children.

NEW YORK, 15.—The *Tribune* fresh air organization to send tenement house children to the country for two weeks, has begun its summer's work. Already ten parties have left the city and many more are soon to go. The work was started in 1877 by Rev. Willard Parsons, its present manager. The money is sent to the *Tribune* to pay the traveling expenses of the children who are entertained by the farmers for two weeks without compensation. There are no office expenses or salaries paid from the funds. Every dollar is used for transportation, which is furnished at a reduced rate from half-fare rates. The little ones are selected by the city missionaries and others who know the individual needs of every family, and great care is taken to send only those needing a change. Many children sent last year have been invited to return this summer, and some found homes in the country. Nearly 4,500 children enjoyed a fortnight's outing last year, while upwards of 4,000 spent a day at Coney Island. The parties send off today number 523 children.

Phallas Reduces the Stanton's Record to 2:18 3-4.

CHICAGO, 15.—This was the ninth and closing day of the Chicago driving summer trotting meeting. The events on the card for the day were the concinsion of the 2:27 race, in which six heats were trotted yesterday, and the race open to all trotters. The weather was cool and cloudy, with a light breeze. The track was fair. Unfortunately the attendance was limited, as one of the most sensational performances of the year was witnessed. At Hartford, Smuggler trotted a mile in 2:15¼, and from that day to this that figure has stood as the best record for stallions. For years all great trotting stallions have been shooting at this mark, and their fame and value have gone up in the ratio of their approach to it. Last season, Phallas trotted in 2:15¾, and it was admitted to be but a question of time when he would obliterate Smuggler's performance. That time came to-day, when this great son of Dictator and Betsy Trotwood trotted a full mile in 2:13¾ in the fourth heat, after having won the two preceding heats in very fast time, thus beating Smuggler's record one and a half seconds. This is not only the fastest stallion time, but the fastest fourth heat ever trotted by any animal. The first quarter was trotted in 33½ seconds, the half in 1:07¼, three-quarters in 1:40½. The first and second quarters were trotted at a gait of 2:15, the third at the rate of 2:12, and the last quarter at the rate of 2:13.

Important Ruling.

CHICAGO, 15.—In the circuit court to-day Judge Tulley decided that those who were stockholders in the Republic Life Insurance Company of Chicago at the time of its failure, are individually liable to the full amount of their stock, notwithstanding the resolution adopted at the annual meeting of the stockholders in 1873, authorizing the holders of the stock to surrender the certificates, on which 30 per cent. had been paid, and receive instead paid up certificates. The judge holds that the action of the meeting was a fraud on the creditors, and invalid as to the stockholders. This was the case in which Ward, the receiver of the bankrupt company, in order to provide for $900,000 due the policy holders entered suit against the stockholders for the amount of the stock unpaid. Seven hundred and fifty thousand dollars of the sum was claimed of J. V. Farwell, well known as a capitalist and as the brother of ex-Congressman Farwell. The extent of the financial liability of J. V. Farwell, who was sued both as a stockholder and as president of the company is yet undetermined.

An Amazonian Warrior.

CHICAGO, 15.—The *Daily News* Marshaltown, Iowa: A woman who kept a saloon here before the prohibition law went into effect began selling beer again to-day. The temperance people caused her arrest yesterday. She gave bonds and continued to sell. The sheriff attempted to arrest her to-day, when she drew two revolvers and defied him. He procured assistance and after a turbulent scene in which the mob came to the woman's assistance and flourished revolvers, she was arrested. The crowd surrounded the jail and threatened to tear it down. When released on bail she was triumphantly carried through the streets by the yelling population. Her action is supported by the Marshall Brewery, which proposes to make it a test case.

Lost Schooner—Skull Fractured.

NEW YORK, 15.—The *Times* has a story from Philadelphia of the loss of the schooner *Deborah H. Diverty*, from Richmond for Albany with a cargo of gas coal. The vessel sailed June 17th with a crew consisting of the captain, captain's mate, steward and four men before the mast, besides having on board the captain's wife and child, and the wife of the steward. On the night of June 27th, during a hurricane which swept the Atlantic coast, the schooner was seen to founder near eight miles off Beck's Beach, New Jersey coast. No assistance could be rendered. Diver Latch visited the wreck and made out the name *Deborah H. Diverty*. Since then the weather has been such that he has been unable to make an examination, but he saw what he took to be a man lashed to the wheel. He thinks the bodies of the woman and child are in the cabin.

Galveston, 15.—*News* San Antonio: Emile Castillo, a Mexican cowboy, was thrown from his horse and his skull fractured. He died while being carried to the hospital.

Fatally Shot by George Washington—Killed by a Cowboy.

GALVESTON, 15.—News is received of the killing of John A. Gibson, Indian Territory, by a cowboy named James Cass. Gibson had charge of a herd of 3,000 cattle en route to Wyoming. He left San Antonio in March last. Cass' home is at Goliad. He was an employee of Gibson.

Baltimore, 15.—At a picnic yesterday of the Gallican fisherman, a colored society of Howard County, Rufus Thomas was fatally shot by George Washington.

POLITICAL.

Ratification Meetings.

NEW YORK, 15.—A republican mass meeting to-day, called to ratify the nomination of Blaine and Logan, was held to-night at the Grand Opera House, Eighth avenue and Twenty-third streets. There was a crowd of several hundred people about the doors as early as 7 o'clock, and in less than five minutes after access to the hall was obtained, every seat was filled, and a little later every foot of standing space in the house (except the aisles) was occupied. The stage was tastefully draped with flags and bunting, and on either side were hung portraits of the candidates. The audience was enthusiastic from the beginning, and as the prominent republicans who took their places on the platform were recognized, they were greeted with cheers. Some of the more prominent persons present were A. A. Stewart, John Jay, Judge Noah Davis, Gov. Cornell, Senator Warner Miller, Geo. Bliss, Elliott Shepard, John C. Fremont, Hiram Russell, Jessie Seligman, Edward Mitchell, ex-Postmaster General Thomas L. James, John Jay Knox and Whitelaw Reid. The meeting was opened with a song by the campaign glee club. The meeting was called to order by Col. Chas. D. Spencer, who nominated as chairman Chas. Emory Smith. Mr. Smith in his opening address asked what was going to be the issue in the canvass. A voice in the gallery replied "protection."

At this the audience got up and cheered long and loudly. Mr. Smith then went on to say that the issue was of immense importance, and made an argument to show the great benefits that would be derived from a protective tariff. A long series of resolutions were read. The secretary [illegible] Chauncey, interrupted by applause, when the names of Abraham Lincoln, General Grant and Presidents Garfield and Arthur were referred to. The resolutions stated in appealing to the people for continued support the Republican party referred to its record for the past twenty-four years. It was organized as a party of free soil and free speech, and as a protest against slavery. As such it was bound and pledged to maintain civil and political rights and freedom. The services of the party in reducing the war taxes and the National debt were recited, the resumption of specie payment had furnished the people with a sound and stable currency, and 20 years after the Treasury was overstocked and the country's credit unprecedented. In all that pertained to the wages of the people, it had shown itself to be progressive. The republican party of today was declared to be the same as that of other years in its devotion to principle and its prompt response to the demands of the country, and confidence was expressed that no true republican would be deceived into giving aid and comfort to the democratic party, which, although now masquerading as a party of patriotism and reform, was essentially the same as when it declared the war of the Union a failure, and denounced the amendments to the Constitution, and persistently opposed all efforts to improve the civil service. The resolutions then declared the republicans of this city heartily approved of the policy of the party in protecting American industry, and American workingmen from competition with any form of cheap or servile labor. The party was pledged to a protective policy, and at the same time it was declared that whatever inequalities existed in the present tariff would be corrected. The democratic party it said could not evade its responsibility for the late attempt in Congress to legislate in the interest of free trade, for which policy it also declared in the Chicago platform, but in vague and evasive terms. The republicans had also favored any policy which tended to increase or extend American commerce, and had opened up many markets for American products in the Western Hemisphere. This wise and dignified administration of President Arthur was commended. Full faith and confidence in the character, capacity and patriotism of James G. Blaine was expressed with warm appreciation of his eminent public services, and pride in his abilities, which placed him in the front rank of American statesmen. General Logan was eulogized as a representative volunteer soldier, whose civil record is as distinguished and pure as his military services were brave and effective, and his nomination was hertily ratified.

The resolutions were adopted unanimously amid great cheering.

Boston, 15.—The first republican ratification meeting of the campaign was held to-night in Tremont Temple. Long before the hour of meeting the hall was crowded to overflowing. A meeting was held in the basement, and many were turned away unable to gain entrance. The platform was occupied by leading republicans from various sections of the State.

Not So.

INDIANAPOLIS, 15.—Immediately following the announcement of the nomination of ex-Senator Hendricks, at Chicago, statements were sent from this city by special correspondents, in which the wife of the ex-Senator was alleged to have spoken disrespectfully of Gov. Cleveland, and to have said Mr. Hendricks was placed on the ticket for the purpose of giving it additional strength. Mr. Hendricks, when spoken to on the subject, stated emphatically that the alleged language was not used by Mrs. Hendricks, and added that there was no truth whatever in that portion of the special dispatches purporting to be a repetition of her words.

FOREIGN.

Cholera and Destitution—The Pope and Secret Societies — Iron-clad Wrecked.

MARSEILLES, 15.—Thirty-five deaths last night.

Tourists avoid southern France and Italy, and all health resorts in those regions will be empty until autumn. It is estimated that 30,000 people have fled from Marseilles since the epidemic appeared. The police suppress all socialist meetings.

The ministers of the Interior, commerce and public works have arrived on a tour of inspection. The prefect informed them over 46,000 of the inhabitants had fled by the railway, and 20,000 by other roads. The present moment is threatened with a more terrible scourge than the cholera, namely unprecedented want and misery.

Toulon, 15.—Seven deaths from cholera to-day between 10 a.m. and 7 p.m. Among the victims was the chief of police.

Berlin, 15.—The French Ambassador here is instructed to express to the German Government the regret of his Government at the action of the Alsatian students, who tore down and burned the German flags at the Hotel Continental, Paris, and state that owing to the quickness with which the incident happened the police were unable to interfere. The newspapers of Berlin urged the Government to demand reparation and the punishment of the students.

The Protestant papers of Westphalia allege the Liberals at the next elections for members of the Reichstag will receive the support of British capital, to the damage of the colonial and commercial policy of Germany. The Liberal organs deny the story.

Aden, 15. — The British residents with the gunboats Ranger and Arab have gone to annex Barbera, a seaport of East Africa.

Rome, 15.—The Pope has decided to create a residental Archbishopric at Carthage in charge of Cardinal La Vigerl, at present Archbishop of Algiers. Monsignor Duserie will be appointed Archbishop of Algiers.

The Vatican has issued an appendix to the Free Masonry encyclical suspending for a year the obligation of Bishops to denounce secret societies.

Madrid, 15.—During a hurricane off the Philippine Islands, the Spanish iron-clad *Gravina* was wrecked, and two officers and seven of the crew were lost.

BRIEF TELEGRAMS.

NEW YORK, 15.—Eight families of assisted emigrants arrived to-day, four from Mayo, Ireland, and four from Brest, Germany. All will be sent back.

Cincinnat, 15.—At the Grand Opera House to-night, the wrestling match between Carlos Martino and Makado Sorakichi, was won by the latter, who took the second, fourth and fifth bouts, Japanese style. Martino won the first and third, Greco-Roman style.

Washington, 15.—The Commissioner of Indian Affairs offers $800 reward for the arrest of the murderer of Kaskway, chief of the Sacs and Fox Indians, of Kansas.

The draft of the postal convention between the United States and Mexico has been amended by the Mexican government in several particulars, and the consummation of the treaty will be delayed some time by the necessity for its consideration by the Postoffice Department.

Madison, 15.—The convention week of the National Educational Associatios opened this morning with a meeting of the Wisconsin State Teachers' Association, and with public sessions at the conclusion of exercises, and of the Froebel Institute of North America.

Mexico, via Galveston, 15.—The electoral college finished its session to-day and followed by crowds, and preceded by a military band, went to the residence of Gen. Diaz and informed him of his unanimous election to the Presidency. There were patriotic speeches and great enthusiasm.

Baltimore, 15.—Base Ball—Bostons 4, Providences 3.

Cleveland, 15—Buffalos 2, Clevelands 1.

Philadelphia, 15.—New Yorks 4 Philadelphias 1.

Detroit, 14.—Chicagos 0, Detroits 4.

MISSIONARIES AT WORK.

THE SICK HEALED BY THE POWER OF GOD.

AARON, Mitchell Co., N. C., July 1, 1884.

Editor Deseret News:

I left my home in Kanosh, Millard County, one year ago last May for a mission to the Southern States. I reached my destination on the 21st inst. Since then I have traveled with Elders White, Farmer and Garner, the latter being my present companion. We came to this county on the 1st of April and began to open up a new field. We have held from four to eight meetings per month. On the first of June I had the pleasure of baptising a school teacher and his wife and blessing his four children. Since then persecution has began to rage. We have had several threats, but none of them carried into effect as yet.

About the middle of April a Mrs. Johnson, who had been

AFFLICTED FOR 20 YEARS,

so that she had not been able to do her work, sent for us to come and see her, which we did immediately. When we entered her house she informed us that she had not been outside of her home for upwards of two years, and that she had been confined to her bed most of the time, as she was then. She told me that she had never joined any church in her life, that she was waiting to see one that had been set up by an angel of the Lord coming and delivering his message, as is shown in Rev. 14 chap., 6 verse. I then explained to her the principles of the gospel, and she was soon a strong believer. That night we asked the Lord to bless and heal her of her infirmities. The next morning before leaving, she and all the family would have us leave an appointment to hold meeting at their house, which we did, for one week later. Accordingly we returned to fulfil our appointment, and what should we find out Mrs. Johnson up out of bed and the glad news sounded in our ears that she had been out of her house and going about, for the first time in upwards of two years. She felt to acknowledge the hand of the Lord in her recovery. I called to see her last week and she was still improving, and doing some work. She is convinced of the truth of the Gospel, and is holding back a little for her husband, who I think will be ready for baptism in the near future.

On June 24th, Brother Garner and myself called to see Mr. John Smith for the first time. On arriving at the house we found one of his little girls three years old, very sick. As Mr. Smith and wife were worn out by being up so much, we offered to stop with them all night and it up with the sick child. At 30 minutes past ten p. m., all the family were called to see little Mary as they supposed the last time in this life. They all began to weep and the child lay apparently dying, getting more and more feeble, until 3 a. m., when Mrs. Smith felt her pulse, which had ceased to beat and her face was perfectly cold. She exclaimed "My Lord, little Mary will never speak to us again." This caused a renewal of their weeping and they gave up all hopes. Mr. Smith said to me, "I have heard that you men can do miracles and heal the sick." I told him that we claimed no power of ourselves but we are the servants of the Lord and he will hear and answer our prayers and the sick can be healed through the prayers of the Elders, when all physicians will fail. So he said, "I wish I had thought of it and had you pray for her, but it is too late now." I told him it was not if he had faith. He said well if you can heal her that will certainly be a miracle. I would like to have you try. There can be no harm done anyhow. We kneeled down by the bed, and placed our hands upon the little patient's head which was perfectly cold. Before we removed our hands the blood began to circulate and she opened her eyes. As soon as we were done administering to her she called for a drink of water, being the first word she had uttered in five hours.

THE LITTLE GIRL WAS HEALED

from that very moment.

Mr. and Mrs. Smith both testify that they know God healed their child through the prayer of faith, and will no doubt be baptized shortly. The prospects are that much good will be done in this part. But we have threats on all sides, principally originated by ecclesiastical authorities.

C. F. CHRISTENSEN.

CITY COUNCIL.

Proceedings of the City Council, Tuesday evening, July 15th, 1884, Mayor Sharp presiding:

Hyrum J. Worthington represented that he was indigent and incapacitated by ill health from performing manual labor, and asked remittance of license to sell fruit and nuts. The petition was endorsed by John Morgan and ten others, who recommended the remittance. Referred to the committee on license.

A petition from the Salt Lake League of Base Ball Players was presented, asserting that they had been troubled greatly by the Athletic Association, who control the only ball grounds in the city, viz: Washington Square, said association having charged the players 25% of the gross receipts of each game and compelled the players to pay all expenses. That according to the grant of the City Council the 25% paid by base ball players should be turned over to the City Treasurer, as the Association did not improve the ball grounds with said funds and there was no expense whatever to the association during said games. That the base ball grounds were hardly fit to play on, but members of the league had been playing for their use with the expectation that such moneys would be devoted to improvements, but such had not been the case. The petitioners asked that the Council fix a certain price for the use of the grounds and that the money be paid directly to the City Treasurer, in which event they considered the Base Ball League would have some show in furnishing amusement to the people; otherwise the clubs would have to disband. Referred to the committee on public grounds.

H. Brisacher asked that a certain bay window in the second story of his building situated on East Temple Street corner of Third South, which projects one foot further than the ordinance prescribes, be tolerated and allowed to remain as the window was not on the ground floor and did not encroach whatever upon the traveling space of the sidewalk. Referred to the committee on improvements.

O. F. Arnold, Supt. of the Salt Lake City Railroad Co. and 31 others asked that a watering tank be constructed at an advantageous point on First South Street, between West Temple and the Utah and Nevada Railway depot and the use of water granted to sprinkle said street, as it was exceedingly dusty and unpleasant for all kinds of travel. Referred to the committee on water-works.

A petition from Andrew M. Busby and 6 others, property owners on block 91 that "B," Salt Lake City survey, represented that their cellars were more or less filled with water and their lots were becoming useless on account of seepage from the Jordan and Salt Lake City Canal, and they asked that a drain ditch be cut through the block to carry off the water. Referred to the committee on canal.

Mrs. Anna M. Bronson asked protection from damages liable to result from water in the cellar of her house, which is in the First Ward. The water was alleged, by some, to come from the canal. Referred to the Committee on canal with the Watermaster associated.

A communication was read from Chas. Hopper giving notice that he was the original [illegible] of the [illegible] of the [illegible] protesting against the granting of said water to [illegible] and forfeiting [illegible] prior rights to the [illegible] to the use of the [illegible] the City Engineer and Watermaster associated.

Peter Tonney and Lucs and Dubois were granted licenses to sell fruit at retail [illegible] to sell the same.

Leonard W. Hardy and Martin Garn petitioned for redress from damages from the Jordan and Salt Lake City canal and called attention to the fact that this was the third petition they had submitted on the same subject, with as yet, no action thereon by the Council. Referred to the committee on canal.

The committee on finance to whom was referred the Assessor's communication and the assessment roll for 1884, reported, recommending that the rate per cent of taxation for the year be fixed at five mills on the dollar, apportioned as follows: Two mills to defray the contingent expenses of the city; two mills to open, improve and keep in repair the streets, and one mill to control and distribute the waters; that the Assessor and Collector's compensation be fixed at $3,000, and a clerk be employed to assist him and devote unemployed time to the assistance of the Recorder at a salary of $50 per month, and that Tuesday, August 19th next, at 4 p. m., be fixed as the time when the Council would sit as a board of equalization.

The committee on finance reported that they had examined the City Auditors report for the quarter ending May 31st, compared the figures contained therein with the books and papers in the auditor's office and found the same correct. That the receipts as stated agreed with the amounts received by the treasurer, and reported disbursements agreed with warrants issued. The committee also found that no warrant had been issued except upon appropriation by the Council. They therefore recommended that the auditor's report be accepted as a full, true and correct exhibit of the receipts and disbursements of the corporation for the term specified and as such be published in accordance with the city charter.

The committee on streets and alleys reported that the supervisor's report for the quarter ending May 31st had been examined, found correct and recommended that it be approved. Adopted.

The committee on fire department reported that the Chief Engineer's quarterly report had been found correct and recommended its approval. Adopted.

A bill of $18 for special policemen July 4th, was allowed.

An appropriation to the Watermaster's contingent fund of $1,000 was made.

Adjourned.

HAS JUST BEEN RECEIVED AT

HENRY F. CLARK'S FASHIONABLE TAILOR SHOP

OLD HERALD BUILDING,

MAIN STREET,

Which he will MAKE TO ORDER at PRICES LOWER than ever before quoted in this city.

☞ *CALL AND BE CONVINCED.*

Rev. Father Wilds EXPERIENCE.

The Rev. Z. F. Wilds, well-known missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts supreme Court, writes as follows:

"78 E. 54th St., New York, May 16, 1882.

MESSRS. J. C. AYER & CO., Gentlemen:

Last winter I was troubled with a most uncomfortable itching humor affecting one especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation, of many other cases, and from personal use of former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After about one week the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, and I am now exceedingly [illegible] hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. F. WILDS."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, purifies, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all *Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility*, and all disorders resulting from poor or corrupted blood and a low state of the system.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists. $1, six bottles for $5.

AYER'S CATHARTIC PILLS,

For Strength, Medicine

BROOKLYN'S GREAT CHEMIST.

"This is to certify that I have made a careful analysis of **Dr. Price's Cream Baking Powder** and also of the Royal Baking Powder."

"I find that **Dr. Price's Powder** is made of pure materials and mixed in the best chemical proportions for the object to be attained."

"It contains no Carbonate of Ammonia, but one-half as much starch as the Royal Baking Powder, evolves more carbonic acid gas, both by analysis and by a practical test in the preparation and baking of biscuits, makes a lighter, better flavored, and, in my opinion, more wholesome article of food."

"I regard the **Price Baking Powder** as superior to the Royal Baking Powder for the following reasons:

1. It contains no Ammonia, a substance which is not advisable in articles of food and unnecessary, if it is not positively injurious.

2. It contains less starch and, therefore, weight for weight, contains more of the active ingredients and is a purer article.

3. It evolves more carbonic acid gas and therefore more efficient, as shown by analysis and by experiment with a weighed quantity of biscuit dough.

4. The ingredients are mixed in better proportions, so that there is less free alkaline carbonate remaining in the dough to impair digestion by neutrilizing the gastric juice.

5. It gives a lighter and better flavored dough, owing to the facts stated in Nos. 3 and 4 above."

"I know of no respect in which **Dr. Price's Cream Baking Powder** is inferior to the Royal Baking Powder."

I am very respectfully yours,

ELIAS H. BARTLEY, B. S., M. D.,

Chemist to the Dept. of Health, City of Brooklyn. Lecturer on Physiological and Practical Chemistry in the Long Island College Hospital, Medical College.

May 20, 1884.

Do not take our Word for it. Let every Housekeeper Prove it.

PLACE A CAN OF THE ROYAL, TOP DOWN, ON A HOT STOVE UNTIL HEATED, THEN REMOVE THE COVER AND SMELL.
