EDITORIAL NOTES.

The popular way of attacking "Mormonism" is to state for its doctrine something altogether foreign to its spirit and the letter of its recognized standards. Then when these are adduced in refutation, to cite the saying of apostates and flaunt them as convincing proofs of the falsehoods first advanced. This is a method of argument as honorable as it is conclusive,

The latest news from Maine shows a little more favorably for the Republicans. But even if they gain the offices which the first tidings proclaimed they had lost, the closeness of the election is still a triumph for the Democrats, for the expected and predicted majority in favor of the republicans was from 10,000 to 15, 0.0.). It looks quite possible new that trickery will save the State to the Radicals, but the effects upon elections in other States cannot fail to be in favor of the Democracy.

We notice in several papers allusions to the way in which President Hayes "saubbed the Mormons," on his recent visit to Salt Lake. The "Mormons" are perfectly content to be "snubbed" in that kind of fashion by every distinguished visitor to their Territory. They had much more of his company than they expected, and received from him and his estimable lady and party the kindest and most respectful consideration. We would like to see an outside paper right for once on some "Mormon" question, just by way of a little variation.

About three months ago a man named Mack Perow, near Grand Rapids, Michigan, under the impression that he had a cancer in his extirpate polygamy by such meth-

mighty he founded and established, teach in the most direct and positive manner the folly and wrong of paying attention to any of these influences connected with what is called

Spiritualism. The movement under THE DESERET NEWS COMPANY, that name did not commence until several years after the date named by the gentleman in Astoria, and did not originate in Ohio where Sidney Rigdon lived, but in the State of New York. the Book of Mormon and connect Sidney Rigdon with its authorship, this medium business has never been mentioned, although Rigdon's history has been scanned and pulled to pieces and microscopically examned over and over again.

If this new theory should be caught up by preachers and editors, desperate for some plausible pretence to account for the Book of Mormon, they will have to drop for ever the hackneyed and thoroughly riddled old table called the Spaulding story. The best refutation of all the attempts to prove the Book of Mormon anything but what it purports the Chicagos lose every game. to be, is the Book of Mormon itself. It does not harmonize with any of those pretended accounts, but bears within itself the evidences of its own

divinity and correctness. And it shows the way by which all can know of its truth, and many thousands have walked in it and obtained the promised testimony.

A SENSIBLE OPINION

THE Sacramento Record-Union has the following to say about Mr. Evarts and the "Mormons" in an editorial with that title:

"Mr. Evarts is said to have exressed an intention to prosecute all foreigners who may henceforth emigrate toUtah and there enter into poygamous relations. It is in Baird: truth a very difficult matter to proceed against a community, and especially in a relation which enters so deeply into their religious beliefs. Right or wrong, it is impossible to prevent them from regarding all such measures as persecutions, and persecution, as every one knows, always strengthens a faith. This is what makes the task of the Governever produced. ment so difficult, and this is why we cannot believe that Mr. Evarts has it in his power to effect anything against polygamy in the present instance.
