CAPT. HAMMOND BACK.

### Met Many Brake Beam Tourists Driven Out of Tonopah.

Capt. G. A. Hammond of the reclamation bureau returned this morning from a professional trip into the Sierras. north of Lake Tahoe. He reports plenty of mountain lions in that section whose roars at night terribly frightened the borses of his party. The captain found a spring on the mountain side which was so cold that it pained the hands in washing, and was in fact to cold to drink with comfort. The weath-er is very cold at that altitude, water freezing every night, but the air very bracing and strengthening. In-numerable burns and beats were found Truckee, driven out of Tonopah, wh braced every traveler with hopes o getting something. "I'm up against it pard," said one of them to Capt. Hamnond, as he sidled up with leer, "can't you do something for : feller?" "I'm up against it myself. was the laconic reply. "That is really a sad state of affairs," mused the bund as off he shambled. Tonopah has been suffering from a great inroad of the pass tourists, and brake beam trapeze performers, nature's own royalists, uncould stand their presence no longer, so the burns are being rounded up every day, and run out of the camp at the point of the bayonet.

### RUN DOWN BY WAGON.

### Joseph Douglas, the Victim, Was Injured Internally Today.

Joseph Douglas, residing near State and Fifth South streets, was painfully injured this morning on Third South between State and Main streets, by being run down by a milk wagon. The wagon came out of an alleyway at n high rate of speed, and ran into Mr. Douglas before the latter could get out of the way. He was knocked to the pavement and, it is feared, was injured internally. The police patrol wagon was sent for, and after responding took the unfortunate man to his home.

### Is Demanded in Contest for Possessioa Of Eleven Year Old Lena Stringham-Suit for Divorce.

A contest over the possession of 11year-old Lena Stringham is on before Judge Armstrong today in the district court. Mrs. Lena Stringham Ander-

on, the mother of the child, filed a petition for a writ of habeas corpus to recover possession of her daugnter, who, for the past four years, has been in the custody of James Karren and wife, vho live in the southeastern part o According to the evidence the city, stroqueed at the hearing today, Mrs. Anderson, formerly Mrs. Stringham, was left a widow with six children and she gave Lena to Mrs. Karren about four years ago for the reason that she us unable to support all of the chiliren. She married Mr. Anderson over year ago, but not until Saturday

ast did she decide to take her daughter back home. She then went to Mrs and talked the matter over with her and again went to the Karren will meet as a board of equalization of water rates tomorrow afternoon at 2 clock in the office of the water-works department in the City and Couper building. Anderson then consulted an attorney and filed the petition for a writ of habeag corpus.

### MOTHER BROKE DOWN.

During her cross-examination, Mrs. Anderson broke down and sobbed bitteriy. Retween sobs she said that she loved her child and wanted her home, she also testified that her present hushand is perfectly willing to provide for Lens. In answer to a question by an attorney, she said that Lena was geting round shouldered because of having to carry children around so much for Mrs. Karren, and that that was one reason why she wanted to take her home. She admitted that she had not visited the girl very often and that the child acted as though she were afraid to speak to her. During the four years she said that she had only given the girl one present and that was a handkerchief. She declared, nowever, that she had visited her as four a she could togethy do so often as she could possibly do so. At the conclusion of the hearing this

morning, Judge Armstrong continued the case until Saturday morning, when additional evidence will probably be introduced.

### DAVID ECCLES SILENT.

### Ogden Millionaire Figuring on Building Eagle Valley Railroad.

A special to the Portland Oregonian from Baker City, Ore., is of interest to Utah people from the fact that David Eccles is apparently figuring on build-ing another road. This is what it says: Will David Eccles build the Eagle Valley railroad? Baker City is asking that question now, and it is hard to get an answer. What David Eccles will do usually is a matter that Mr. Eccles alone knows, and the man who built the Sumpter Valley road and behind the Oregon Lumber company and is financing many other big busi-uess ventures is not gratifying the curiosity of Baker City to any great extent. "Til build a road wherever there is business enough to warrant. That is all Mr. Eccles says.

Baker City wants the Eagle Valley road and no mistake. The town is showing its positive faith in the proposed venture in a positive way. The scribing generously for stock in the scheme, William F. Vinson, the proscheme. moter, expects Baker City to put up \$100,000 for stock, and the town will 10.11

do it. No wonder Baker City was inter-ested when Mr. Eccles and his chief engineer, Mr. West, spent an evening going carefully over the Vinson blue prints, which point out the directions and grades of the proposed road. Mr. Eccles and Mr. Vinson did not

verlook any details in that conference. Mr. Vinson's plans were outlined in full, and the promotor went ove the advantages of the proposition thoroughly. The showing he made must have been good. Mr. Eccles admitted that, "but, he said, "I am skeptical regarding these propositions until I know what is in

used with the electric engines and the expense will be considerably decreas.

## IT IS TO SMILE.

Electric Trank Line Across Country Scheme is Floated.

From an electrical railroad - from New York to Chicago the scheme has grown (on paper) from New York to San Francisco, with electric line feeders connecting every town in the coun. try more or less, if some newspapers are to be believed. Recently the glad tidings were flashed

across the wires that articles of incor-poration of the Chicago-New York Air ine railroad had been filed in Maine. This company, which proposes to shoot cars through from Gotham to the Windy City in 10 hours by the slop watch, or something like 100 miles an hour running time, is now offering its stock for sale, with one Frederics H. Wood of Chicago as the sales agent.

That such a company which would require millions of capital to float should advertise in theater programs to the exclusion of some of the leading financial papers of the country is pass ing strange, but the wording of its advertisement which appears in the current program of the Illinois theater. Chicago, which was received by a Sal

Laker yests my, is stranger. The Chicago-New York Electric Air Line railroad, the advertisement alleges, is "the biggest investment ever offered." Here is another quotation from this interesting advertisement.

"PAYABLE IN INSTALLMENTS."

"A portion of the capital stock, fully, paid and non-assessable, will be sold at \$25 a share, par value \$100, 10 per cent the purchase price to accompany the rder, 10 per cent to be paid on the ith day of each month thereafter until the full amount of the purchase price is paid.

The stock certificates are given a double value and are put beyond the power of man to make them worth any less than par by the following clause printed on them:

'This certificate will be accepted in payment for transportation to the amount of the par value of the shares of stock represented hereby, and at urrent tariff rates over any part of the road in operation."" Railroad Row is having all kinds of

fun today over that projected "Electric Trunk Line Across Country."

# GUERRA'S AGENT ARRIVES.

New York, Aug. 29 .- An emmissary arrived in this city yesterday from the insurgent camp in Cuba, bearing mes-sages from Col. Pino Guerra, the rebel leader in Pinar del Rio province. Maj. lose Augustin Castellanos, the messenger from Col. Guerra, came here by way of Tampa from Havana, after passing unmolested through the government lines.

Among the disputches which he carried was one addressed to the Amercan people. It says that the purpose of the insurrectionists is to invite the intervention of the United States for a new election for president.

To Col. Chas. Aguirre, a local adherent of the insurrection, Maj. Castel-lanos brought an authorization offcially to represent the insurgents in this country and organize a Junta, such as existed in this city during the revolution against Spain.

Maj. Castellanos denied vehemently the reports cabled from Havana yes-terday that many of the rebels were ready to lay down their arms

I can't say fust what I think the scheme, I have not investigated far enough: 1 will say, however, that if we are shown that the railroad can get the pushess its promotors claim for it, we will build a road. We have to have freight and passenger business to operate a road, and we will build anywhere we can get the business. We have conat other ilmes, tapping sidered mineral district and when we are satisfied it will pay we will do so.

Baker City is sure the business is there and is bound to convince Dave Eccles or somebody else. Meantime it keeps adding to the stock subscription Vinson's company

Mr. Eccies was asked about the ru-mored extension of the Sumpter Valley He declared that none would be made this year, but if the company was convinced that the business would justify it would extend next year. He declares that the newspapers by what he characterizes as "an unthinking campaign for higher taxation" have injured prospects for railroad building in Oregon. The Sumpter Valley's taxes have been increased 250 per cent in this year. Materials, Mr. Eccles says, are high, and labor high and scarce He says building is not practicable this year.

This \$100,000 subscription campaign which the local business men have un-dertaken is bringing results. The committees are little more than half done. but more than half the money has been raised. The men are now going over the territory for increased subscriptions from the big business houses and the capitalists. They are getting them, too. The women recognize the importance of the scheme and a committee has pre-dicted that it will get \$20,000 from among the women who pay taxes in Baker City.

### BOBS UP AGAIN.

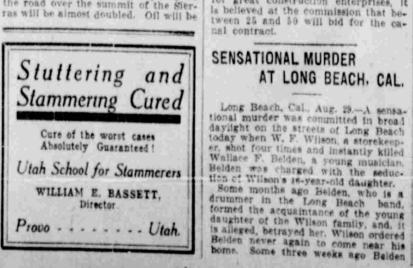

### Revival of Story That S. P. Will Use Electrical Motive Power.

San Francisco, Aug. 29 .- The Southern Pacific is seriously considering the use of electric power to take the heavy freight and passenger trains over the steep grades of the Sierra Nevada mountains. Electric power can he easily installed, according to the pre-liminary reports, to do the work with an increase over the present speed of the trains of about 100 per cent. The best speed the powerful locomotive now hauling the freight cars can at-tain over the steep grades is eight miles an hour and sometimes three locomotives have to be attached to a train. It is understood the new electrain. trie power will take the cars over the grades at minimum rate of 15 miles an hour

It is proposed by the Southern Pa-ific to do away with some of the hardest grades by the use of tunnels, which will be bored in the vicinity of Summit and Truckee. In all probabilities the solution of

the power question will be found in a plant on the mountains. It is urged that such a plant can be built and equipped at a moderate cost, using off as fuel, and can supply all the power hecessary

If the proposed improvements are made it is estimated that the cost of hauling the trains will be cut in half and the freight carrying capacity of the road over the summit of the Sier-ras will be aimost doubled. Oil will be

# IN HOT PURSUIT OF CUBAN REBEL GUERRA.

Havana, Aug. 29 .- The actual pursuit of Pino Guerrera began today, when Col. Avalos, commander of the government forces in Pinar del Rio, left San Juan de Martinez in search of the main insurgent body. The latter is now estimated to number 2,000 men. If Guerrera's recent statements can be considered trustworthy, there will be no battle if he can help it. He has repeatedly declared that he does not want to cause bloodshed. The general opinion, however, is that he will soon be drawn into a battle if, indeed, he does not suddenly assume the offensive. Progress is being made daily in arming, equipping and forwarding government troops to the disturbed districts.
