LINE OF BATTLE.

Clearly Drawn in the Political Struggle Now Waged.

A SILVER VICTORY NECESSARY.

The late President McKinley's Death Report.

The time of battle for the great political campaign of 1896 is now down. On the one hand the Republican party has declared without flinching, for the gold standard. This is in view of a declaration in favor of a continuation of the money and currency of the country, and for many years has been the policy of the party.

On the other hand, the Democratic party has pronounced its opposition to the gold standard, and has declared its policy in favor of a continuation of the money and currency of the country, and for many years has been the policy of the party.

This policy, if successful, will, in our judgment, secure the fall of prices and give rise to an upward movement, thus stimulating production and industry in every line, and restoring to the country a large measure of the prosperity that has been lost.

The victory of the silver forces in the Democratic party would mean a great deal to the country, and would mean a great deal to the country, and would mean a great deal to the country.

With its offer at Chicago, Ill., and branch offices at Washington, D. C., and San Francisco, Cal., it has, during the last year, literally flooded the country with its literature, and has been successful in its efforts.

Wabey and others are desiring more of the health and happiness of our country than any other literature. They are desiring more of the health and happiness of our country than any other literature.
