One of them carries on his breast, suspended from his neck, a picture of a disaster at sea, where it is supposed they lost their arms. They sing in their native tongue.

Last evening, the sense of feeling had descried his body entirely, with the expertion of the head, and although he retained consciousness, his physicost said that if any of the patients limbs should be taken off he would not be aware of what was going on unless he saw the operation. He was sinking gradually, spoke with difficulty and among other things told his attendants that he could not live till morning. Mr Nelson Emney, a relative of the injured man, paid a visit to the sufferer this mornmg and returning, reported an improvement in his condition. Among other favorable symptoms, he spoke more easily and the feeling was steadily returning to one of his

THE proper course to be pursued by any one troubled with a disease of the skin is to procure and use SOAP, the most reliable of purifiers. It completely removes those eruptions which ointments so often faul to cure and remedies irritation, abrasions and roughness of the skin. Pimples, blotches, tan, freckles, in short all complexional blemishes are eradicated by it, and it affords prompt relief to muscles and joints racked by rheumatism. Clothing and linen which have been used in the sick room can be thoroughly disinfected by it, and diseases of an obnoxious nature prevented by its use, It completely does away with the necessity of costly Sulphur Baths, since at a merely nominal expense it produces the same effects. Physicians of eminence speak in the highest terms of its remedial properties, and it has been used as a disinfectant and deodorizer in hospitals and infirmaries with the most satisfactory results. It is extremely popular with the fair sex on account of the clearness and smoothness with which it endows the cuticle, thus heightening personal comeliness as well as
