

# RAILROAD WAS AFTER LA FOLLETTE

Chicago, St. Paul, Minneapolis & Omaha One Accused of Attempt to Beat Him.

EMPLOYEES WERE IN POLITICS.

Permitted to do Political Work in Wisconsin, Salaries Allowed and Expenses Paid.

St. Paul, Minn., Sept. 21.—Late this evening the state railroad and warehouse commission, which is conducting a hearing regarding the reasonableness of commodity rates, decided to "take the lid off" with reference to testimony which Atty. James Mannahan of the Receivers and Shippers' association has been endeavoring to get into the records for the past two days, concerning money alleged to have been spent by the Chicago, St. Paul, Minneapolis & Omaha in an attempt to defeat Robert LaFollette of Wisconsin in his last gubernatorial campaign. The commissioners yesterday decided that this testimony was not germane to the hearing. Today, however, Commissioner Staples expressed the opinion that such testimony was material. He stated that by showing how much money the railroad had spent in politics and had taken from its gross earnings, it might be shown that because of this expenditure the rates on commodities had been kept higher.

With a free hand then Mr. Mannahan questioned Gen. Manager A. W. Trenholm regarding the allowing of employees of the road to leave their duties to do the political campaign and the payment of their expenses from the earnings of the road.

Mr. Trenholm admitted that he had allowed leaves of absence to 10 or 15 men to do political work in Wisconsin during the last campaign of LaFollette for the governorship. He admitted that the railroad had paid \$900 for expenses incurred, besides allowing the salaries of the men. He said that personally he had only honored vouchers for the sum stated, but admitted that other sums might have been paid without his knowledge.

The hearing will be continued Monday.

## U. S. GRAND JURY RETURNS EIGHT INDICTMENTS.

Boise, Ida., Sept. 21.—The United States grand jury made its final report was returned. One of these was against T. B. Snyder, the United States court commissioner at Meadows. It is not known who the other persons indicated are. This makes eight indictments returned, two against Snyder and two against George Lee, both of these men being charged with subordination of perjury and conspiracy to defraud the government. Some of the indictments include more than one person and more than one count.

Judge Beatty, in dismissing the jury, said he regretted that some of the worst cases had outlawed. That was because former government officials stationed here were incompetent or negligent.

A. W. Cook of Brookville, Pa., has sent word that he will soon be here. He seems to anticipate that he has been indicted. B. S. White, the man said to have been agent in getting the \$20,000 acres of timber, has disappeared, and the officers do not know where to locate him. The supposition is that he has been indicted, as it is known the marshal is endeavoring to get track of him. Dist. Atty. Rulick states the unanimity of the people in the vicinity of Meadows in going into the timber loot, and brought out by the witnesses, was amazing.

## MYSTERIOUS AUTOMOBILE SEIZED IN ST. PETERSBURG.

St. Petersburg, Sept. 21.—According to the newspapers the mysterious automobile which the police have been trailing for several weeks on the belief that it belonged to revolutionists and was being used as a base for a terrorist conspiracy, has been seized in the vicinity of the palace of Grand Duke Nicholas Nicolaievitch at Peterhoff. The machine bore a false number. The passengers were armed and could not properly identify themselves.

This automobile was first observed at the military maneuvers at Krasnoye-Selo, which the emperor attended. An order was then issued to capture the machine, and two soldiers who attempted to detain her were met with revolver shots. The machine got away. Last week it appeared in St. Petersburg, repainted, and passed repeatedly under the windows of Premier Stolypin's apartments in the winter palace. It again turned up at Peterhoff during the funeral of Gen. Treppoff. The most daring exploit of this machine is reported to have occurred at Tsarskoe-Selo, where the revolutionists are said to have crashed through a fence surrounding the little palace and made a rapid trip through the enclosure and out again, presumably in rehearsal for an attempt on the life of the emperor after his return from the present cruise in Finnish waters.

## SUN STROKE

Followed by Partial Starvation.

The effect of sun stroke upon the digestive system are often very severe, as well as upon the nerves.

An Ind. lady had a striking experience:

"Four years ago I was sun struck, and my stomach so congested it was terribly painful even to swallow liquids, and as nothing would stay on my stomach, I began to fear starvation. I finally became perfectly helpless and was given up by my physician. "A neighbor told me how much good Grape-Nuts had done her husband, who suffered with dyspepsia, and her son with typhoid fever, so I began to use this wonderful food, and slowly began to recover until now I am strong and well again. I can eat anything I want, and think Grape-Nuts one of the greatest blessings that was ever given to suffering humanity."

"When I began to use Grape-Nuts I only weighed 118 lbs. Now I weigh 148, and the past two years have been a blessed almost beyond belief, and if I had not personal experience, I could hardly believe what I know is true. My nerves are steady, memory clear and I owe my fine condition to Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

"There's a reason."

informed the international policyholders committee today that they have refused to accept the nominations on the "fusion" ticket.

## WILL BE DEPORTED.

Esther Mitchell and Maud Greffield From Washington.

Seattle, Wash., Sept. 21.—Superior Judge Prater this morning ordered Esther Mitchell and Maud Hart Greffield, charged with murder in the first degree for the killing of George Mitchell, deported to Oregon by the sheriff. The order of the court was made upon the report of the insanity commission that both women were insane. The sheriff is directed to turn the women over to the superintendent of the Oregon insane asylum.

Prosecuting Atty. MacKintosh, through his chief deputy, denounced the insanity commission and demanded that the women be tried. Judge Prater, however, struck their cases from the trial calendar. Prosecuting Atty. MacKintosh will apply to the superior court for a writ of prohibition preventing the deportation of the women. He will wage a fight in the supreme court to compel Judge Prater to try them. The women are being deported under a statute passed by the last legislature providing that insane persons, who are not legal residents of the state, may be taken

by the sheriff to the place from whence they came. The superintendent of the Oregon insane asylum cannot receive the women without a legal order from the Oregon courts. This will necessitate a hearing in Oregon. The women, if found sane in Oregon, will have to be liberated.

## AT CONEY ISLAND.

Six Hundred Thousand People at Mardi Gras Have Rough Time.

New York, Sept. 22.—It was estimated last night that 600,000 persons were at Coney Island, it being the next to the last night of Mardi Gras. That is the biggest crowd the island ever saw, not excepting Labor day and Fourth of July. The streets were solid masses of humanity.

With the streaming thousands were gangs of young roughs who took advantage of the immunity from arrest offered by so unwieldy a gathering to perpetrate a number of petty outrages. Some of the roughs went through the crowd cutting the dresses of the women. Others had feather-stick "ticklers" with nails in them. These they jabbed into the faces and hands of the people as they passed. It was fun to hear the victims yell and scream. Some 30 men and women were taken to the Coney Island emergency hospital to have slight wounds of this kind dressed.

## TO PREVENT MERGER.

New York, Sept. 22.—At the office of J. P. Morgan yesterday there were signs of apprehension, according to the Times over the announced intention of Atty.-Gen. Ellis of Ohio to pre-

vent the proposed merger of the Hocking Valley and Kanawha & Michigan railways on the ground that the merger is in violation of the law. Deposits of stock under the plan were being received as usual, and it was said by one of those interested in the consolidation of the two roads that the attorney-general's opposition would not be deterrent unless the courts decided that the consolidation as proposed is illegal. This man said that it seemed that criticism of the merger plans on the ground that the two roads were "parallel and competing lines," were entirely captious, since the two systems were parallel for only a short distance between Corning and Athens, Ohio.

## WRECKED CREW ARRIVES.

That of Whaler Alexander in an Open Boat for Thirteen Days.

Seattle, Sept. 22.—Thirty-one of the crew of the wrecked whaler Alexander, arrived here last night on the steamer Harold Dollar. The crew tell a story of wonderful hardships and suffering, being 13 days in an open boat, and living on whale blubber during the entire time. The Alexander was wrecked during a fog at Cape Terry, near Banks Land on Aug. 12. The ship sank almost immediately and the crew had to take to the boats with very scanty preparations. When they were picked up by the whaler Herman, care only saved them. The crew took them to Point Barrow, where the Dollar picked them up and brought them to this city. Only men of strongest physical powers could have survived the terrible sufferings of the men endured.
