

TORNADO SWEEPS OVER GULF STATES

It Moved From West to East,
Carrying Death and Destruction
in Its Pathway.

FIFTEEN PEOPLE ARE DEAD.

Insane Asylum at Jackson, La.,
Wrecked, Several Inmates Be-
ing Killed.

New Orleans, La., April 5.—Probably 15 lives were lost today by a tornado which swept across portions of three gulf states and which was traceable for a distance of 300 miles. The tornado moved from west to east, traversing the southern extremity of Louisiana and Mississippi and striking into Alabama for a short distance. Portions of four towns were devastated and damage approximating half a million dollars was done.

The tornado began at Alexandria, La., soon after 1 o'clock this morning, instantly killing four persons there, fatally injuring three and seriously injuring 13 more. Soon after daylight it reached the Mississippi river, killing four persons at Jackson, La., while at Bayou Sara, La., at least half a dozen were killed. There was one fatal injury at Jackson, Miss., where great property damage was done. About noon, near Selma, Ala., the inhabitants saw whistling clouds rise in the air and the storm disappeared.

THE DEAD.

Omer Beck, Matthew Dunn, white, and Ora Dudley and Lydia Harding, negroes, of Alexandria.

Three female inmates of the insane asylum, names unknown, and two negroes at Jackson, La.

INJURED.

Miss May Lea, of Jackson, La., and three negroes at Alexandria.

Mrs. Omer Beck and two children, Mrs. Frank Hortense, Mrs. Matthew Dunne, T. R. Conville, wife and four children, Francis Demilio and Edward Steward, white, of Alexandria, La.; H. H. Ferguson, Jackson, La., and A. B. Crothers, of Bayou Sara, La.

About 20 homes in Alexandria were completely demolished 30 were damaged, and altogether about 100 build-

"77" Humphreys' Seventy- Seven Cures Colds and GRIP

Back-ache is one of the mean things about Grip. It may come between the shoulder blades, extend through the chest, or shoot down to the kidneys and take the form of Lumbago and lame you so that you cannot walk, stand or lie still. The back-ache of Grip spoils your disposition, makes you a bug bear to family and friends. The use of "Seventy-seven" for the preliminary Cold, stops the Grip and prevents Pneumonia. "77" fits the vest pocket.

Ings were seriously wrecked, including several business houses.

Several houses were blown down at Pineville, and injuries were reported. The hail did much damage to crops. The insane asylum at Jackson, La., was almost totally wrecked, with a loss of about \$200,000. In addition to three female inmates killed, many sustained injuries. Two negroes were killed on a nearby plantation, while reports from the surrounding country indicate that there was probably more loss of life among negroes, whose flimsy cabins quickly collapsed before the wind. At Bayou Sara several passengers on the steamer Betsy Ann had a thrilling escape. The Betsy Ann was reduced almost to a total wreck. While the breaking timbers, both from the steamer and from the shore, flew through the air the crew got all the passengers safely ashore. Hardly a member of the crew escaped without bruises.

At Carson, Miss., the Mississippi Central railroad depot was blown down, also a church, schoolhouse and two business buildings and several cabins. From Carson the storm crossed the state line into Alabama, where it began to lose much of its destructive powers.

HAVOC IN ALABAMA.

Montgomery, Ala., April 5.—Specials from various parts of Alabama tell of death and devastation from the tornado which swept through the southern and western portions of the state today. The most serious damage is reported at Bradletown. The home of Hugh Farrier, a prominent planter, was blown down, instantly killing Mr. Farrier and his 6-year-old son, and fatally injuring Mrs. Farrier.

Great property loss and loss of life is reported from North Perrico, where, in the plantation of J. D. Moore, a row of houses were blown down.

A special from Pensacola, Fla., says the wind is blowing at the rate of 43 miles an hour.

DETWEILER CLEVERLY ELUDED HIS PURSUERS.

Toledo, O., April 5.—How A. K. Detweiler eluded the San Francisco detectives and thereby gained time to reach a hiding place is told here today. The correctness of the information is vouched for by one who is in close touch with Detweiler, and who knows of the plan.

Foreign post cards, it is stated, were employed by Detweiler to accomplish the deception while he was touring Europe. Secret service men were keeping tab on his movements, presumably through the cards, and expected to arrest him when he landed in New York. Detweiler mailed numerous post cards to friends and relatives in this country from different points of interest. According to the informant, he dated these cards from 10 to 12 days later than the date of his visit. These cards were held and mailed upon the days designated by the dates. Through this plan Detweiler was able to reach a place of hiding before the officers knew whether he was in Europe or America. The secret service men meantime announced that he was in Egypt. At the time this announcement was made Detweiler was in Battle Creek, Mich.

It is believed that Detweiler during his trip abroad was not ignorant of what was going on in San Francisco, and shrewdly conceived the post card idea as a means of deceiving the officers.

USED WHIPPING POST.

Negro in Baltimore Jail Treated His Treatment Very Lightly.

Baltimore, April 5.—The whippingpost was used at the city jail here for the first time in 29 years. Saylor Brooks, colored, was given nine lashes on his bare back with a cat-o'-nine-tails whip, in connection with two months' jail sentence, for wife beating. The negro treated the flogging lightly and smiled after it was finished.

GOLDFIELD MINERS WOULD WITHDRAW

Has Been a Hitch in the Arrange-
ment to Leave the Industrial
Workers of the World.

MEETING TO BE HELD TODAY.

Mine Owners Will Not Discuss Propo-
sitions Until Two Organizations
Have Severed Their Relations.

Goldfield Nev., April 5.—That the mines of Goldfield will be running full blast within a week is the belief of every well informed man in the district. During the past few days the miners have sought conferences with the mine owners repeatedly, and yesterday, asked the attorney of the mine owners' executive committee for a construction of resolutions adopted early in the trouble against the Industrial Workers of the World and also asked that the attorney submit in writing a proposition for a settlement that would be acceptable to the mine owners and this was done. The proposition did not differ in a single word from the original demand for the entire separation of miners from the Industrial Workers of the World.

Last night the Industrial Workers of the world held a protracted meeting which was attended by the miners, and a motion was carried by a very large majority to permit the miners to withdraw from the Industrial Workers of the World. It was agreed that a committee from the miners and one from the Industrial Workers of the World should divide the funds of the organization, and the miners would retain the hospital. By this action, the miners became a separate organization, retaining their western Federation of Miners charter, and accede to the demands of the mine owners. When this action is finally ratified, the lockout will cease, the mines operate and all trouble disappeared. The miners have called a meeting for tomorrow. The people of Goldfield, both miners and mine owners, are greatly elated over the prospect of an early resumption of work.

The result of the miners' meeting last night seems to have been negative by the officers of the miners' union, who say today that the action was really misunderstood. The miners themselves apparently did not understand the purpose of the question before them and voted blindly. It is claimed that the motion which was placed before the

DURING THIS MONTH.

Now is the time to get the rheumatic poisons and foul acids from the blood and system, states an eminent authority, who says that Rheumatism and Kidney trouble are caused by the blood, which often becomes sour from excessive acids, and also tells what to do to make it pure and healthy.

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple blood cleanser and tonic at the first sign of rheumatism, or if your back aches or you feel that the kidneys are not acting right. Any one can easily prepare this mixture at home.

commission and which was intended to sever the relations between the miners and the Industrial Workers of the World was juggled. At any rate the officers of the union today state that no favorable action toward a segregation of the unions was taken.

Another meeting, in consequence of the misunderstanding, has been called for tomorrow. It will be an open air meeting, to be attended by Industrial Workers of the World and miners jointly. Acting President Mahoney refused to state what the meeting was called for, contenting himself with the assertion that it was purely to consider matters of general interest to the miners. Today the executive committee of the Mine Owners' association gave out the statement that there were absolutely no negotiations pending between them and the miners. There have never been any tentative propositions even for a long term contract for wages and hours now prevailing. Such propositions will not be discussed until the miners have severed their relations with the Industrial Workers of the World.

ASST. DIST. ATTY. HENEY ISSUES A STATEMENT.

San Francisco, April 5.—Asst. Dist. Atty. Heney today issued the following statement to the Associated Press: "Two more sessions of the grand jury will be required to finish the investigation of bribery charges in connection with the obtaining of franchises by the Home Telephone company of San Francisco and the Pacific States Telephone & Telegraph company. "The grand jury has under consideration five more indictments against high officials in connection with the

Home Telephone affair and three more indictments against high officials in connection with the affairs of the rival company. It would not be proper for me to say at this time that these eight indictments will be returned. I can merely say that they are being considered."

Mr. Heney said that instead of giving precedence to the United Railroads investigation next week the gas company's affairs would first be probed. F. E. Bowles, superintendent of the American National bank of San Francisco and of the First National bank of Oakland, who with his family is now in New York, and will soon sail for Europe, has communicated to Mr. Heney a desire to take legal action as a result of the published charges that he ran away from the grand jury. Mr. Heney authorized the following statement:

Mr. Bowles did not leave San Francisco surreptitiously or through any fear of the bribery graft investigation. He came to me and told me all he knew. It was not of importance and I freely gave my consent to his going away. Special Agent Burns of the prosecution today received a telegram from George Detweiler at Toledo, O., saying that he would, at once confer with the attorneys of his brother, A. K. Detweiler, and endeavor to arrange without further delay for the guarantee of the bail bonds of \$100,000 required. Mr. Burns is now in San Francisco on charges of bribery in connection with the Home Telephone company.

The telegram received by Mr. Burns was in response to one sent by him to his son at Toledo, in which he informed the latter that unless Detweiler surrendered at once the prosecution would take vigorous measures for his arrest.

EARTHQUAKES IN ALPS.

Geneva, Switzerland, April 5.—There were two earthquakes today in the Rhaetian Alps, on the Austrian-Swiss frontier. They caused numerous avalanches, and sections of forest lands were swept away by the landslides.

EDWARD COLLIER CONVICTED.

Kenoche, Wis., April 5.—A jury here today found Edward Collier guilty of manslaughter in running down and killing William Iyer with his automobile.

DOING BUSINESS AGAIN.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treadwell, N. Hurry and Worry

Hurry, like a cyclone, whirls you along at a rate that quickly exhausts your energy, and leaves you a nervous, wretched, broken-down physical wreck.

Worry accomplishes the same results in another way. It drags you through the dark, gloomy tunnel of forbodings, wrecks your nerves and breaks down the constitution.

Then don't hurry; don't worry. But you will; and your nervous, exhausted condition brings headaches, neuralgia, heart, stomach, liver and kidney troubles. The thing to do is: Strengthen the nerves with Dr. Miles' Nervine.

"Six months I was bedfast with nervous prostration. I had sinking spells, a cold, clammy feeling, couldn't stand the slightest noise. At times I would almost fly to pieces; stomach very weak. My husband insisted on my taking Dr. Miles' Nervine, and I began to improve before I had finished the first bottle, and to-day I am entirely cured."

MRS. JOSEPH SNYDER,
224 Hudson St., Tiffin, O.
Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.
