

CONFERENCE ON JAPANESE MATTER

California Delegation Holds One On Question With the President at White House.

IS PLEASED WITH SITUATION.

Rep. Hayes Has No Fear of Diplomatic Crisis or Trouble of Any Kind With Japan.

Washington, Jan. 31.—Representative Hayes today made the following additional statement concerning the conference held at the White House yesterday between the president and members of his cabinet with the California delegation:

"The California delegation is pleased with the situation with reference to Japan as developed at the conference. We feel very hopeful that the result of this conference and of others that will follow will be a solution of the Japanese difficulty that will be perfectly satisfactory to the people of California."

Speaking for himself, Mr. Hayes said: "I have no fear of any diplomatic crisis with Japan, nor of any serious trouble of any kind with that nation. It is stated that the war department has received from the Japanese government a message indicating that the Japanese military organizations are drilling with a view to acquiring control of the island. Regarding the appeal of the Japanese government to Congress for the defense of the Philippines, I am sure that the Japanese government does not show any indication of hostility to our government, and we feel no hostility to Japan."

Secretary Taft, upon leaving the White House today, said:

"I have striven for years to secure suitable coast defenses for our outlying dependencies. In the case of Hawaii I suppose Congress is more willing to give what we ask for than in the Philippines or Porto Rico. The Japanese government does not show any indication of hostility to our government, and we feel no hostility to Japan."

JAPANESE QUESTION IN CALIFORNIA SENATE.

Sacramento, Jan. 31.—One of the liveliest debates on the Japanese question that has occurred in the senate during the present session was precipitated today by the reading of a message from the governor conveying to the senate a telegram received from the California delegation at Washington, urging at the request of the president that the California legislature for a short time defer all legislation on Japanese matters. The governor asked that in view of the apparent importance of the matter as indicated by the telegram, the senate take no further action on the Japanese question for the present.

Senator Keane's joint resolution protesting against the naturalization of Japanese, which was up for passage, was immediately referred to the committee on federal relations. The reading of the governor's message brought forth a resolution from Senator Cammeltt embodying a demand that the attorney-general of the state be authorized to go to Washington to represent the state in the conference asked for by President Roosevelt and the secretary of state with the president of the board of education and the superintendent of schools of San Francisco. Cammeltt made a sharp attack on the California delegation in Washington for its failure to take some action in Congress on the Japanese question and was replied to by Senator Wolfe, who defended the delegation. The resolution was sent to the committee on federal relations.

The message from the governor was read in the assembly without comment and will be acted on.

FURIOUS ITCHING HUMOR ON CHILD

Bleeding Sores Covered Her Whole Body After an Attack of Measles—Nursed Every Night for Three Weeks—Nothing Helped Her.

THEN CUTICURA MAKES COMPLETE CURE IN 5 DAYS

"It is in my opinion my duty to join those who praise the Cuticura Remedies. After my granddaughter of about four years, who had been afflicted with a furious, itching and painful eruption all over her body, especially the upper part of it, I found in Cuticura Remedies, especially under the arms, of considerable size. She suffered from it every night, using all the remedies we could think of. Nothing having been of much avail, I remembered that I had used Cuticura Remedies twenty-four hours before. We sent for them and after improvement, and after using only one bottle of Cuticura Remedies, the eruption in five consecutive days the little one, much to our joy, had been entirely cured. F. R. Ruffalo, H. P. D. 3, Bakersfield, Cal., June 25 and July 20, 1906."

HUMOR ON FACE

Cured by Cuticura Remedies No Return in 20 Years.

"My son, when a lad of sixteen, was troubled with humor on his face and head. He used Cuticura Remedies and was freed from every humor and has continued so to the present time. After twenty years have passed, your Cuticura Remedies have been used in my family for several years and I have faith in the Cuticura Remedies. A. H. Smith, Marion, Me., Dec. 1, 1905."

Complete Internal and External Treatment for every humor of the face and head, including Measles, Eruptions, Eczema, and all other skin diseases. Cuticura Remedies are sold in all drug stores and by mail. Send for free literature. Cuticura Remedies are sold in all drug stores and by mail. Send for free literature. Cuticura Remedies are sold in all drug stores and by mail. Send for free literature.

Feeble Old People

Are Much Benefited by the Use of Vinol.

Hundreds of old people right here in Salt Lake City need just such a strength maker and body-builder as our delicious cod liver preparation, Vinol; and we simply cannot understand why they will continue to drag out a half-dead and half-alive existence, when we guarantee Vinol will invigorate every organ in the body, stop the natural decline, and make them well, vigorous and strong.

If you want to know how an aged, feeble, discouraged man or woman may be made active, cheerful and vigorous, read this story.

Mrs. Catherine Therer, of Albany, N. Y., writes: "Six months ago I felt that I was broken down by age, and I was doomed to the weak and feeble condition of old people. The slightest exertion tired me, and I had no strength. My daughter brought me a bottle of Vinol. I took a few bottles; I improved; I continued its use, and am now well, cheerful, and stronger than I have been for years; in fact, I feel ten years younger."

Vinol is not a stimulant which reacts on the system, but it is a genuine cod liver and iron tonic which in a natural manner makes red blood, replaces weakness with strength. We wish every old person in Salt Lake City would try Vinol on our offer to return money if it fails to strengthen and cheer up.

NOTE.—While we are sole agents for Vinol in Salt Lake City, it is for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

UTAH POSTMASTERS.

C. H. Roberts for Bingham and Thos. Brady for Mt. Pleasant Renominated.

(Special to the "News.") Washington, D. C., Jan. 31.—The president today nominated Chas. H. Roberts, postmaster at Bingham Canyon, and Thomas Brady at Mt. Pleasant, on recommendation of Congressmen Howell. They are re-appointments.

WYMAN ANTI-TRUST BILL.

Idaho House Passes it by a Vote of 29 to 19.

Boise, Idaho, Jan. 31.—The Wyman anti-trust bill was passed by the house today by a vote of 29 to 19. This is copied after the Ohio law and prohibits all manner of combinations in restraint of trade.

THE ARMY CANTEN.

President Gives Hearty Greeting to Women Working for Re-establishment.

Washington, Jan. 31.—President Roosevelt today gave a hearty greeting to a committee of the Woman's Army Canteen club No. 1 of Washington, which is working for the re-establishment of the canteen. The committee was accompanied by Representative Kahn of California, who is working for its restoration. The members told the president they intended to organize branch clubs throughout the country which would take up the work of the canteen. The president is understood to have expressed his approval of the work.

SOLDIERS AT CHURCH.

Men Appeal to War Department Against Col. Glenn's Order.

Columbus, O., Jan. 31.—Announcement was made today that 25 Catholic soldiers at the barracks here have appealed to the war department against Lieut. Col. Glenn's order directing them to attend church on Sundays. There is considerable excitement at the barracks regarding his order.

Washington, Jan. 31.—It is said at the war department that no report has been received respecting the recent alleged order of Lieut. Col. Glenn in the soldiers at Columbus barracks to attend church service. Last week Lieut. Col. Glenn was officially informed by the department that he might order such soldiers as he desired to attend church service to their respective places of worship. If necessary, a non-commissioned officer might be designated to conduct the squad to their churches and see that the men were properly seated, but they were not themselves required to take part in the services, and in fact no soldier in the United States army is required to do so.

It is assumed at the department that the last phase of the case had developed from admonition by Lieut. Col. Glenn to his men to attend religious service of some kind, but these officials are confident that he did not order them to do so.

NEVADA RAILROAD FARES.

Carson, Nev., Jan. 31.—Senator Payne of Goldfield introduced a bill in the legislature today establishing a uniform passenger rate for the entire state of 2 cents a mile.

RAILWAY MAIL PAY.

Compromise on the Proposed Reduction is Agreed Upon.

Washington, Jan. 31.—A compromise of the proposed reduction in railway mail pay was agreed upon today between representatives of the various railroads which have mail contracts and the house committee on postoffices and post roads. The proposed compromise was made through Representative Hedge of Iowa. The bill provided for a 5 per cent reduction on all contracts over routes averaging 48,000 pounds per day; a 10 per cent reduction on all routes averaging from 48,000 to 80,000 pounds a day; and a flat rate of \$18 per ton per mile per car on all routes averaging more than 80,000 pounds a day. Through Mr. Hedge the railway men agreed to accept this cut providing the flat rates on routes over 80,000 pounds a day be increased to \$20 a ton. The committee agreed on \$19 and this was accepted.

In addition to reducing the price per ton which railroads are to be paid for hauling mail, which will amount to at least \$3,000,000, the committee has approved a cut of \$1,000,000 in the price to be paid to railroads for the rent of mail cars. The committee also decided that the weight of mail bags must not hereafter be added to the weight of mail in computing the amount carried.

GEN. BARON FREDERICKSZ.

Convicted of Fraud in Connection With Famine Relief Scandal.

St. Petersburg, Feb. 1.—Gen. Baron Fredericksz has been convicted by the senate for fraud in connection with the famine relief scandal. Fredericksz was governor of Nihil Novgorod and it was charged that while in that position he granted illegal favors to Boris Lidval, who had secured the contract to furnish grain to the famine-stricken people. The governor was accused of allowing Lidval to lag in the delivery of grain while continuing to sanction advances to him of government money. The senate also found that Fredericksz received 25,000 francs from Lidval. Fredericksz is a member of the imperial household and has stood high in Russia.

FATHER PLEADS FOR SON'S LIFE

Attorney Will H. Thompson Brings Tears to the Eyes of Judge And Jury.

STATE'S ATTORNEY OVERCOME

End of Speech Was an Appeal to Find His Boy Chester Was Insane.

Tacoma, Wash., Jan. 31.—Atty. Will H. Thompson began his address to the jury this morning in behalf of his son Chester, who has been on trial for murder for seven weeks. His address will be concluded tomorrow. Although the father is in bad health his address was an oratorical effort of great strength. His plea brought tears to the eyes of the judge and jury. Nearly every person in the courtroom fell to sobbing. Even the attorneys for the state were overcome. The aged attorney retired from his own poem, "High Tide at Gettysburg" and commented on the fact that he had been a rebel soldier. He claimed that he loved his boy and that he loved the law alike, and he would not make an appeal for the son that was not within the law.

"I shall appeal neither to your prejudices nor to your hearts," he declared, but nevertheless his address was one of the most powerful heart appeals ever made in a western courtroom.

With tears streaming down his face the father begged the jury to find some kind of a verdict—not to make a mistrial. "I am no coward," he cried, "but I cannot go through this ordeal again. If the sun is going down, let it go down today. If you're going to strike, strike now. I'll not flinch at your verdict. If the proof does not protect that boy, let him die. Death is not such a terrible thing. Men on the jury have faced it. I have faced it."

At this point Mr. Thompson launched into a wonderful word picture of the battle of Cold Harbor, a dramatic effort on which he had evidently spent many days of preparation. "It is not death I am fighting against now, but dishonor. There has never been a coward in our family; there has never been a drunkard; there has never been a criminal."

Then followed an appeal to the jury to find the boy who shed Judge Mead Emory, the father's friend, insane.

During all the sobbing and hysteria in the courtroom, Chester Thompson shed not a tear, nor did he even change position.

THE CAUSE OF RACE SUICIDE IN AMERICA.

Chicago, Feb. 1.—Prof. L. C. Marshall of Ohio Wesleyan university, in an address on "Race Effects of Immigration" at the University of Chicago yesterday, declared race suicide in America is due to the influx of immigration into the country. He said America stock had been lowered by the influx of immigrants. Since many notices and declared the present situation is alarming.

America today would have a population of 100,000,000 instead of 85,000,000 if it had retained its original colonial stock, according to his figures. These are based on the country's growth for the first 50 years, at the end of which immigration began to be a severe influence on the rate of increase of population.

"It is still an open question as to whether the early immigrants did not produce a check in colonial stock," Prof. Marshall said. "But it is figured on what appears to be a reliable basis that the population of the country would have been 100,000,000 if it had gone on at the rate of increase of the first 50 years of the country's history."

"The laws of population show that there is probably a causal connection between the immigration and the checking of population. The native stock, of course, has a great race pride. As soon as immigrants came over with their lower standard of living it became necessary to raise the size of families to keep up their standard of living."

"The early immigrant caused a decline of the birth rate and a displacement of the colonial stock although it did not produce a serious racial change. Unless conditions change and restrictions take place in 10 or 15 years hence there will be a considerable racial change. Already there is a noticeable difference."

REMEMBERED THE POOR.

Geo. B. Nutt Left \$31,000 to Buy Them Toys and Gifts.

Pittsburg, Feb. 1.—In the will of George B. Nutt, who died here recently, a bequest is made that his entire estate, estimated at \$31,000, is to be spent for toys and gifts for the poor children of Allegheny county at the death of his wife.

By the will Mr. Nutt, provided for the wife's interest during life, and states that at her death the estate is to be held in trust for the purchase of playthings for poor children especially for those in institutions.

SECY. SHAW ON CURRENCY SYSTEM

Its One Great Weakness, He Declares, Is Its Utter Lack Of Elasticity.

BANK NOTE CIRCULATION.

Favors Issuance of Volume of Money In Excess of Par Value of the Bonds Deposited.

New York, Jan. 31.—Secy. of the Treasury Shaw spoke on "Pending Financial Legislation" at the annual banquet of the Missouri society at the Waldorf-Astoria tonight. Mr. Shaw said in part:

"The only weakness in our currency is want of elasticity. Credit currency, by which I mean against which no collateral is demanded, is the only elastic currency known to man. There are several reasons why the credit currency system must not be adopted in its entirety in this country, and every reason for safeguarding in several ways whatever issue may be authorized."

"There was recently reported from the committee on banking and currency a maximum issue of a fraction over \$200,000,000. Every national bank in the United States should avail itself of this new privilege and if the authorized issue should prove relatively as satisfactory as does the credit currency of Canada there would be an additional contraction of about \$50,000,000 in banknote circulation between the maximum issue in the fall and the minimum issue in midsummer, and a corresponding \$50,000,000 increase in banknote circulation when the crop-moving period arrives. This would be equivalent to a deposit in national bank depositaries of \$12,500,000 from the treasury. I believe the proposed measure wholly inadequate."

"The bill provides that there shall be kept against this new issue the same reserve as is kept against deposits when the crop-moving period arrives. This is required against deposits would be sufficient."

Mr. Shaw pointed out that the proposed law would not be added to the New York banks when they were below their required reserve last December because in order to issue currency they must increase the cash reserve, whereas if the cash were obtainable the currency would not be needed. He continued:

"I am strongly in favor of the issuance of banknote circulation in excess of the par value of the bonds deposited. I am not, however, in favor of a separate and distinct kind of currency. In my judgment the national circulation should be guaranteed by the government and the fact recorded on the present banknote to the effect that the same is secured by deposited government bonds should be eliminated and in lieu thereof the note should contain the following: 'This note is guaranteed by the United States.'"

"The smallest thinkable tax on this additional circulation would afford abundant protection to the government. The banks should be required to retire at least once a year any excess above the par value of the bonds deposited."

"In addition there should be authorized an 8 per cent issue, taxed at not less than 5 per cent, with no

requirement as to reserve. It is idle to require a reserve against emergency currency, for the exhaustion of reserve is what makes the emergency. "If any legislation is to be had, let it be solely for the purpose of relieving the country from these frequently recurring stringencies. We are confronted several times a year with conditions admittedly dangerous. Let a plan be devised which will effectually protect against this danger and all will be well. I doubt not the proposed legislation would prove profitable to national banks, especially elsewhere than in reserve and central reserve cities, but I do not believe it would result in my perceiving elasticity."

Concerning the recent stringency in the money market, Mr. Shaw said: "I realized the imminence of a panic, and I was asked to deposit \$30,000,000 in the United States banks, but I thought that the fact that the money was with the government would assure a feeling of security."

SECOND CLASS MATTER.

Periodical Publishers' Association Will Fight Proposed Changes.

New York, Feb. 1.—The Periodical Publishers' association of America, representing the leading magazines and weeklies in this country will determine whether to fight the changes in second mail regulations proposed in the report of the joint postoffice commission of Congress made public last Sunday. It was decided at a meeting yesterday in an interview with the directors yesterday to point out to the public, through the editorial columns of the magazines and weeklies what are considered inconsistencies in the report, to have a special committee wait upon Congress in the interest of publishers and to enlist in the fight the co-operation of trade papers, daily newspapers and others affected by the proposed changes.

Frederick L. Colver, president of the Periodical Publishers' association, said yesterday in an interview with the commission are adopted the position taken by the government in the last hundred years will be reversed and the publishing business will be revolutionized.

"Ever since the foundation of the government Congress has encouraged by legislation the distribution of good literature. If it accepts the measures proposed it will undo all its work in this line. It is safe to say that if the changes proposed by the commission are ever put in operation, three-fourths of the magazines now published will be forced out of business or will have to increase their prices. In either case the people will be the sufferers."
