PATENTS

obtained for new inventions, or for improvements on old ones, for medical or other compounds, trade-marks and labels. Caveats, Assignments, Interferences, Appeals, Suits for infringements, and all cases arising under the Patent Laws, promptly attended to—Inventions that have been rejected by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and employing Patent Just on examiners, we can make close researches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS send us a model or sketch of your device; we make examination and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer to Washington, to Hon. Postmaster General, Hon. M. Key, Hon. F. B. Pierpont, Ex-Com'r Patents, Am'rican National Bank, to officials in the U. S. Patent Office, and to Senators and Representatives in Congress, and especially to our clients in every state in the Union, and in Canada. Address

SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and damb the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

Reception of the Vice-Regal Party.

NEW YORK, 25.—A Halifax dispatch says: The triumphal archer, 20 in number, look well, while elaborate decorations appear on many private dwellings. There is a magnificent display of bunting throughout the city and on vessels in port. The city is thronged with people from all parts of the dominion and the United States. Special trains are hourly arriving, bringing many from adjacent towns. Thousands of people are on the citadel viewing the scene; and steamers, barges and boats gaily dressed with bunting, are sailing over the harbor. As the *Sarmatian* passed up along the head of the wharves, the people congregated there and saluted the vice-regal party with deafening rounds of cheers. The demonstration was nearly as imposing is it would have been had the fleet gone to sea and sailed in double line as at first intended. The people are full of enthusiasm and the welcome given the Marquis of Lorne and his royal wife is hearty and sincere. Lieutenant Governor Archibald, the principal members of the dominion government, and many naval, military and civil officers were present. The cheering on the landing of the Marquis and Princess was most enthusatic. The procession at once formed and moved through the principal streets to the Province building, where the Marquis was sworn as governor general. An address of welcome was then presented by the Mayor and corporation, to which the marquis replied. The procession was re-formed and went by a circuitous route to the admiralty house.

Indian Agent Suspended.

WASHINGTON, 25.—The President has suspended Wellington Budd, agent for the Indians at Fort Peck agency, Montana, and appointed in his place Elias H. Webb, of Ills.

Surveyor General Wagner to Secy. Schurz.

Secretary Schurz, to-day, received from Surveyor-General Wagner a long letter, replying to the charges preferred against him by Robert Gardner, ex-state surveyor general. The secretary of the interior and acting commissioner general of the land office decline to state what papers, if any, have been received in support of these charges, or to give any information on the subject except that Wagner has forwarded a reply as above mentioned. It is learned, however, that the matter has been referred to Judge Marble, law officer of the Interior department, for examination and report as to the necessity or propriety of further investigation. Secretary Schurz, though properly guarded as to his expressions, is evidently of the opinion that Wagner's official conduct will be vindicated, and this belief has been greatly strengthened in the department by a general perusal of Wagner's letter addressed to the San Francisco *Bulletin*, immediately after the first appearance of the published charges.

Coinage of Trade Silver Dollars.

The total number of standard trade silver dollars coined since their remonetization up to and including the 23d inst., is 19,814,551 dollars. Of this number about 10,500,000 are in the United States treasury, some 4,200,000 are in the mint vaults, and the balance, a little over 5,000,000, in general circulation. The total is about 1,500,000 in excess of the minimum required by law.

Exports Over Imports.

From the monthly statement of the chief of the bureau of statistics, the excess of exports over imports, in merchandise, appears to have been as follows: October, 1878, $27,743,464; October, 1877, $17,731,155. For the ten months ended October 31, 1878, $237,070,012; for the ten months ended October 31, 1877, $72,191,459. A comparison of the exports and imports of gold and silver coin and bullion exhibits the following: For the month ended October 31, 1878, excess of imports, $2,096,807; for the month ended October 31, 1877, excess of imports, $293,169. For the ten months ended October 31, 1878, excess of imports, $2,416,261; for the ten months ended October 31, 1877, excess of exports, $24,999,949.

Supreme Court Decisions.

The Supreme Court decision, today, in the case of the Giant Powder Company vs. the California Powder Works *et al.*, though nominally a reversal of the decree of the lower court, is really a triumph for the California Powder Works and for the mining interests of the Pacific, which were threatened with an exaction of royalty by the Giant Powder Company upon every pound of blasting powder. Justice Field and Judge Sawyer jointly held that the time of the reissued patents, upon which the suit was brought, were absolutely void, because they were for compounds of nitro-glycerine with gunpowder and cotton, etc., whereas the original patent was only for a process or mode of using nitro-glycerine. This joint opinion and general principle enunciated by it are sustained by the supreme court unanimously. Judge Sawyer's subsequent action dismissing the whole suit because the plaintiffs refused to amend their complaint in accordance with the joint opinion above mentioned, is, however, pronounced erroneous, and the case remanded for trial on the third reissued patent; but this patent was objected to by the California Powder works and its maintenance by the Giant Powder Company will not materially affect any of the Pacific coast interests.

The decision announced by Chief Justice Waite, to-day, in the case of Barney vs. Dolph, is not of much importance to settlers on public lands in Oregon and Washington Territories. Under the donation act of September, 1850, the Supreme Court unanimously hold that the wife of a settler under this act, whose husband has resided four years on the land, cultivated it and made it proof of such residence and cultivation, could, before the patent was issued, by joining in a deed with her husband, convey a legal title so as to bar her children and heirs from all claims to it after her death and after the issuance of the patent. The decision affirms that of the supreme court of Oregon and is in conflict with Judge Deady's (United States district court,) decision in the case of Palmer *vs.* Wythe. The case was argued by Attorney-General Williams for the appellant and by Senator Mitchell for the appellee, who finally wins the suit.

Clerks Discharged.

About 70 temporary clerks, the majority women, have been discharged by the Treasury Department, the appropriation being exhausted. Secretary Sherman will not recommend the renewal of the appropriation.

Mint Transfer.

The joint committee of Congress to consider the transfer of the Indian Bureau to the War Department will sit with open doors.

Railroad Consolidation.

CHICAGO, 25.—The *Times* has what it believes to be trustworthy information that Jay Gould has originated, and the stockholders of the Central Pacific Railroad have seconded a plan to consolidate the Union and Central Pacific Railroads under one management, with Sidney Dillon as president, Clark, general manager of the Union Pacific Railway, as general manager, and with one board of directors. This will greatly reduce the clerical and office force, saving enormously in the salaries and cost of transportation, and will form a continuous line under one management from Omaha to San Francisco. It is stated that the particulars are nearly arranged, conferences having taken place with General Manager Clark in New York and with General Freight Agent Vining, of the Union Pacific, in San Francisco during the week. A consultation will be held this week in New York between Gould, Dillon and the president of the Central Pacific. It is further stated that the principal owners of the Central Pacific are anxious to retire in order to take part in the construction of the Southern Pacific Railroad.

Fatal Accident.

POTTSVILLE, 25.—While a party of men were tunneling under the street in Manhanoy City, this afternoon, the earth fell on them, killing John and Anthony Richor, Christopher Post, and seriously injuring Michael Junipher.

Canvassing Votes.

ST. PAUL, Minn., 25.—The canvass of the votes for congressmen of the third district is going on here to-day and is still unfinished to-night. Though Washburn, republican, has 3,000 majority on the face of the returns, Donnelly, democrat, objects to several counties on account of technical irregularities; it is understood to furnish a basis for contest.

WESTERN.

A Forger Arrested.

SAN FRANCISCO, 25.—A man giving the name of G. Saville, who registered at the Baldwin Hotel on the 8th inst., induced E. J. Baldwin to purchase for him mining stock to the amount of $25,000, and transferred as security a letter of credit on the Union Bank of London and two £10 notes on the same bank. Inquiry made through the Bank of California shows the letter and notes to be forgeries. Saville was arrested, after a prolonged search in this city and Oakland. He claims that he purchased the letter and notes in good faith, but information in the hands of detectives renders it almost certain that he is one of a gang of which a certain W. J. Foswell, arrested in New York on the 17th inst. for passing forged notes of the Union Bank of London, was the leader. Saville, after leaving New York, went to St. Louis, where he passed for an English nobleman and married a beautiful girl from Boston; he thence went to Denver and to this city. He denies complicity in the crime and urges that he simply resembles the man wanted. He further alleges that C. C. Joy, of the Rocky Mountain Detective Association, got from him several thousand dollars in money and jewelry on threats of arrest. Saville was formerly a bank clerk in London. In general appearance and tatoo-marks on his hands, he answers the description of the man sought. Saville was wanted in New York for passing forged notes of the Union Bank, on Thomas Kirkpatrick, a jeweler.

The Sierra Nevada Mine—A Compromise.

A compromise was to-day effected between Flood, representing the Union Consolidated, and John Skae, representing the Sierra Nevada, by which the Sierra Nevada deeds to the Union its interest in 35 feet of ground lying within the Union, and also 48 feet of disputed ground lying next to the north line of the Union. The remainder of the 298 feet of disputed ground, becomes the undisputed property of the Sierra Nevada. This brings the the incline of the Sierra Nevada, in which ore was lately discovered, within 24, or, as some accounts say, within 12 feet of the southerly line of the mine. The trustees of both companies met to-day, and ratified the terms of the compromise. Some accounts are to the effect that Flood & Co., have, in the settlement, obtained control of the Sierra Nevada; others that Skae retains his control. News from the mine is similar to that previously telegraphed concerning the appearance of the cross cut.

CONSTANTINOPLE, 25.—In pursuance of the treaty of Berlin the Bulgarian assembly, composed of bishops, functionaries and notables, has been summoned to meet at Tirnova on the 27th of December, to prepare organic laws for the provinces. The assembly is to complete this task in April and then elect a prince.

GERMANY.

The Afghan War-After-Effect.

BERLIN, 25.—The *Post* says: The after effect of the Afghan war will be that England will have to renounce the idea of maintaining the Turkish rule in Eastern Roumelia because, if successful in Afghanistan, she will need her Indian forces in Asia and be unable to brandish them as a threat on the European theatre of war.
