BALL TEAM IS HOME.

First Game of the Last Series This Afternbon at Walker's.

After a four weeks' disastrous trip fround the P. N. L. circuit the Salt Lake baseball team. the tailenders of the league, have returned. The bunch reach-ed Salt Lake last night, more or less wornout from their long journey. Our team and the Butte aggregation are fue to tangle at Walker's this afternoon. There are seven games in all to be play-ed, one being a postponed game. The lo-ral team has a chance to pull Butte down a little, but it is only a chance. We will have to hand every one of the seven games to crawl into third place. Today's game begins at \$159 o'clock. On Sunday there will be a double-header.

Short Line Changes.

In view of the change about to be made in the yard trackage at Ogden, the Oregon Short Line will enter the yards over a new route. The contena-plated change will greatly improve matters and cause a saving of several minutes in time. Plans are being per-fected and the work is to be done at an early day. Among the changes contemplated will be the relaying of the freight tracks to another section of the yard to give the passenger traing more room.

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc. If you have any signs of Kidney

or Bladder trouble commence taking FOLEY'S KIDNEV CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

How to Find Out.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

G. B. Serhess of Carlisic Center, N. It entirely stopped the brick-dust sediment and pain and symptoms of kidney disease disappeared. I am giad to say that I have never had a return of any of those symp-toms during the four years that have elapsed, and I am evidently oured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffaring from kidney or bladder trouble."

Among the old chemists gold, was symbolically represented by the sign Webster's Dictionary.

It looks like a bulls eve. It is a bulls-eye.

Whoda thought those old chemists knew so much., Hundreds of years ago they adopted this symbolical sign, and yet they knew nothing of Utah politics, tariff reform, nor trust mergers. We all know that the one who hits the most bullseyes in the financial, political and social world generally has the most gold, but we don't know much about chemistry.

It's peculiar our diverted and dissimilar intellects should so theroughly coincide as to the appropriateness of the sign.

Evolve the thought and think-are we evoluting into natural born chemists, or are we going to stop at the bulls-eyes?

We collected one hundred and twenty-five dollars for Mr. William Kirkup of Franklin, Idaho, last week. So far as we know, he is not a chemist, but he hit the bulls-eye, and is one hundred and a quarter shead. It was an old note. It was torn and ragged; had to be pinned together. Its fragments had long lost whatever glitter they ever had, but the gold we traded the note for was as bright as a midday sunbeam. Do you need any of this kind of gold? If so, send us your old. mildewed and mossbacked claims and notes. We will make some bullseves by collecting them, and you will get some gold.
