The Turners to Erect a New Hall
in the Near Future.

GUANO SHIPMENTS TO COMMERCE

Huge Business Block to be Located on
East Temple Street—New Gas
is to Be Used in the Business Center.

The German association in this city
known as the Turners has decided
to erect a hall of its own, the one now
occupied being entirely too small for
the purpose. Block in the enterprise
has been placed at \$20 per share and
\$1,000 worth has already been deposited.
The Turners are enthusiastic in their
work and it is expected that within a
short time they will have erected a
fine hall near the business center of
the city.

GUANO SHIPMENTS.

It has been decided to put into motion
at once the "Halls of
Gymnasia" for the purpose of carrying
guano from Guanape Island to Lake
Park for loading on the cars at that
point. A very large order from
St. Louis, besides numerous others,
on the part of the various
Utah gas companies, is expected to
take this action. It is expected that the
carriers of carrying the enormous
quantities of guano will be carried
on regular trains.

NATURAL GAS.

In a few days the main in the principal
business portion of town will
be opened to the reception of
natural gas and in many places
where the manufacturers of
gas are now located the product
will be substituted. This will practically
place the city on the natural gas
line and results will be watched with
interest.

REDUCTION IN GAS PRICES.

The report that a war to price of
electric light and power had been issued
by the Chinese to the entire
light company, was an editor of that country.
While it was not true, the reduction of from
15 to 20 per cent would be made
if lights were not intended to be understood
as introducing a general outburst of prices.

The reduction is expected to come from the use entirely
of the new system, so that people will
not be compelled to pay for what they
do not want.

MONEY FOR THE CITY.

When the books of the city treasury
were opened yesterday they showed
a balance of \$20,000 more in the vaults
of the municipality than they did
when the office opened twenty-four
hours earlier. The amount was
carried from Collector John O. Spencer,
and is entirely an installment of the
regular full tax.

Brewer, Uticaian. For some time past there has been a strong effort put
forth to weaken the interest of the
subject of irrigation. To this end a
representative has been sent between
the miners in the lead and zinc
mines in the various countries.
This results in a general mass movement
among them who are on Monday evening
going to a meeting at the Uticaian.
The meeting was called to order by Mr.
John, who introduced Hon. J.
H. Mulligan, the chairman of the
committee. The chairman then outlined the
object of the meeting in the interest of
irrigation which is intended to stimulate
the proper legislation in this state.

Left by the next legislature. After
a lengthy debate, the bill was
offered for adoption, but the bill
was withdrawn by the chairman. President J.
F. Tolson, ex-governor, P. D. Parrot,

Horn, Dr. H. L. Miller, etc., was
elected to hold regular meetings and
defray expenses.

Manz Meissner: The young son of
Peter Anderson of Uticaian had
run away from home. He was
known from the wagon and his
clothes and his identity were known
by Dr. Mulligan. The boy is 17 years old
and was a member of the miners' committee.
He is a good boy, but has
been known to carry on. He is
about a half mile from the mine.
The parents have the sympathy
of every one in the neighborhood.
