DESERET EVENING NEWS: FRIDAY, NOVEMBER 23, 1900.

TO TAKE CHANCES OF DEPORTATION

Filipino Junta at Hongkong So Determines.

WILL SEND ARMS TO REBELS

Launch Carrying Them Will, it is Enniored, Most Probably Fly the German Flag.

New York, Nov. 23 .- United States Consul Wildman, says a World dispatch from Hongkong, has information that the Filipino junta, at a meeting held November 15, decided to brave the chances of deportation rather than quit

Hongkong. Recent correspondence between the junta and the insurrectionists proves that Aguinaldo is still allve, but he is said to be suffering from a gunshot wound in his stomach.

The Hongkong junta has also decided to make another attempt to send arms to the Filipinos, in a launch which, it is rumored, will probably fly the Ger-man flag. The venture will be in charge of Colonel Julio Del Pilar. Hays and Garcia, two Filipino agents,

have a large stock of munitions of war at Macao.

at Macao. The Chinese general, Pana, who was recently deported from the Philippines, has been conferring with the junta at Hongkong but has gone to Singapore.

Population of Mississippi.

Washington, Nov. 22.—The population of Mississippi as officially announced today is 1,551,270 as against \$1,289,600 in 1850, an increase of 261,670 of 20.2 per cent.

Boers Attack British.

Maseru, Basutoland, Nov. 20, Tuesday.-Natives report that former Presi-dent Steyn and Gen. Dewet with a thousand men traversed the Biltish lines between Alexandria and Wardingham's store and attacked a British post; subsequently retiring by the road to Dewetsdorf, in the Orange river country

Rep. Hull on Army Increase.

New York, Nov. 23.-Representative J. A. Hull, chairman of the House military affairs committee, is quoted in a Tribune dispatch from Washington as saying

"I shall call a meeting of the House military affairs committee right after Thanksgiving. My desire is to have the committee get to work on the bill for the army as soon as possible and get it over to the Senate before the holidays.

Continuing he said:

"I advocate a military bill which will put the army on a modern basis, which will provide an artillery arm for the great coast defense establishment we are building. I would make it so the President can have a force sufficient for an emergency with power to reduce it when there is no further demand for its continuance. A regular army with a maximum of 96,000 men and a mini-

BAD BLOOD. **BAD COMPLEXION.** The skin is the seat of an almost endless variety of discases. They are known by various names, but are all due to the same cause, acid and other poisons in the blood that irritate and interfere with the proper action of the skin.

To have a smooth, soft skin, free from all eruptions, the blood must be kept pure and healthy. The many preparations of arsenie and potash and the large number of face powders and lotions generally used in this class of diseases cover up for a short time, but cannot remove per-manently the ugly blotches and the red,

disfiguring p Eternal vigilance is the price of a boautiful complexion

when such remedies are relied on. Mr. H. T. Shobe, 274 Lucas A venue, St. Louis, Mo., says: "My daughter was afflicted for years with a disfiguring eruption on her face, which resisted all treatment. She was taken to two celebrated health springs, but received no bene-fit. Many medicines were prescribed, but with-out result, mith we decided to try S. S. S. and by the time the first bottle was finished the eruption began to disappear. A dozen bottles cured her completely and left her skin perfectly smooth. She is now seventeen years off, and not a sign of the embarrassing disease has ever returned."

S. S. S. is a positive, unfalling cure for the worst forms of skin troubles. It is the greatest of all blood purifiers, and the only one guaranteed purely vegetable. Bad blood makes bad complexions.

Bad blood makes bad complexions, purifies and invigo-rates the old and makes new, rich blood that nourishes the body and keeps the skin active and healthy and in proper condition to perform its part towards carrying off the irrunwities from the body carrying off the impurities from the body. If you have Eczema, Tetter, Acne, Salt Rheum, Psoriasis, or your skin is rough and pimply, send for our book on Blood and Skin Diseases and write our physi-cians about your case. No charge what-

ever for this service. SWIFT SPECIFIC COMPANY, ATLANTA, GA.

indefatigable in the prosecution of a campaign. Whether he will be a candi-date for the presidency in the near future remains to be seen, but it is not probable that he will. It is more reasonable to presume that he would decline the nomination, even should it he offered to htm

reasonable to presume that he would decline the nomination, even should it be offered to him. "Reorganization? Oh, that's all nonsense. There's nothing in it, and it will blow over in thirty days. It is participated in by those who deserted the party and gave aid and comfort to the enemy, and does not represent the strength of the spirit of the genuine Democracy. What they would do is to adopt all the policies of the Re-publican party and be Democrats only in name. But, granting that there is cause for so-called reorganization, who has the power within the party to do it now? Not the disgruntled dis-organizers who have raised the is-sues. If there is to be a reorganiza-tion of the national committee or plat-form it cannot be done for four years,

form it cannot be done for four years, or until the next national convention. As to the issues, that must depend largely upon the national and inter-national developments of the next four years. "It may be laid down primarily,

however, that the Democratic party will never vary from its established fundamentals, a strict construction of the constitution and unswerving ad-

herence to its principles and economi-cally administered government for the benefit of the governed. The silver question may slove itself. Should the amount of gold produced be ample maintain a sufficient volume metallic money and insure the stability of prices, the silver question will be subordinated, but should the supply fall short of the demands of trade, the

out to visit the theaters. Late that night he stargered into the hotel where he had been staying and asked for a loan of §2 with which to pay the cab man for bringing him home. The cab man said he had found Mellick out near Lincoln park, on the boulevard, wandering around in a dazed condi-tion. His money, watch, rings and all valuables were missing. The next morning Mellick drew a check for a million dollars, and ordered a thousand dollar banquet to be served by 100 walters in his room. The proprietor called a physician and policeman, and Mellick, after a struggle, was taken to the detention hospital."

Indians Kill Three Whites.

Ensanada, Lower California, Nov. 23. Ensanada, Lower California, Nov. 23. —A report has reached here of the kill-ing of three men near Juarez by Pica-cho Indians. The report states that one Acuno, who had a store at Juarez, was robbed of cattle by Indians. With the assistance c' a neighbor named So-tello and a rurale, he gave chase. Sub-sequently a party taking cattle through to the Colorado river discovered the three men dead. Mounted police are being sent from Ensanada,

Catholic College for Women.

Washington, Nov. 23.-Trinity college, he newly founded Catholic Institution or the higher education of women, was ledicated today with imposing cerenonics, in the presence of a large as-semblage, including prominent officials. any members of the diplomatic corpa nd representative educators from vari-

and representative educators from vari-ous parts of the country. The fustitution is one of the most am-bitious projects of higher education that has yet received the attention of the Catholic authorities. Its inception and actual execution are due to the sisters of Notre Dame The plan is most comprehensive, covering the first hall dedicated today, a science building for physics, psychology and chemistry: an art school, library building, music hall, symnasium and residence building. The art school is promised. The college is.

gymnasium and residence building. The art school is promised. The college is located near the Catholic university and the grounds cover twenty-seven acres, overlooking the capitol and the national library. Cardinal Gibbons, in giving his first blessing to the project, eadd it would relieve the university from the em-barrassment of refusing admission to women, many of whom had applied for its higher instruction, and would com-plete and crown the whole system of Its higher instruction, and would com-plete and crown the whole system of Catholic education. The ceremonies were concluded with the celebration of pontifical high mass, by Mgr. Martinel-II. The dedicatory sermon was preached by Right Rev. Mgr. Conaty, rector of the Catholic university.

Manchester and Bride Coming.

New York, Nov. 23.—The Duke and Duchess of Manchester will sail for New York on the liner St. Louis on Saturday, says a Journal and Adver-tiser dispatch from London. The duke's mandmother the Duches of Duck grandmother, the Duchess of Devon-shire, has sent him the most cordial

RHODES MAY SAIL surfe, has sent him the most cordal message of congratulation. As the Duchess of Devonshire is most powerful socially in England and rich, her action, it is thought, assures the success of the young American duchess in British society.

mergency Ration Not Satisfactory. mergency fration for satisfactory. Fort Reno, O. T., Nov. 23.—Captain Fountain and Captain Foster returned to Fort Reno after an absence of ten days testing the emergency ration, which was compounded at Passaic, N. J. Enlisted men of the detachment say that the ration just tested is not as good as that tested by first detachment. There is too much celery compound in it, and it is seasoned too highly to be palatable any length of time. The tea ration serves well for a few meals, but does not suit as well as the chocolate loes not suit as well as the chocolate ration.

A ration prepared in Chicago will be tested during the next ten days. The last test will be made in December. The board will devote a week to testing again the ration of the three which

proves most satisfactory. A full troop

Indians Starving.

San Diego, Cal., Nov. 23 .- Several

hundred Indians in this county are threatened with starvation. They have

Baking Powder Absolutely Pure

Makes hot breakfast-breads wholesome-no yeast germs, no alum. Makes cake, biscuit and pastry of superior fineness, flavor and delicacy. Makes food that will keep moist and sweet. Is most economical, because it is the purest and greatest in leavening strength. In the easy, expeditious preparation of the finer cakes and pastries appropriate to the season, Royal is indispensable.

Care must be taken to avoid baking powders made from alum. Such powders are sold cheap, because they cost but a few cents per pound. Not only will they spoil the cake, but alum is a corro-sive acid, which taken in food means injury to health.

CATALPA FOR TIMBER. Easy Growing and Most Durable of American Wood.

To those who wish to have a grove of valuable forest trees in a short time the Catalpa Speciosa affords the chance

of obtaining it in a greater degree than any other tree. The Southern reader who has knowledge of the Eastern species and not of the Speciosa, cannot realize the great difference between the two. Although the catalpa was a wellknown tree in the West as well as in the South. It was not until some thirty years ago that it was known that two distinct species existed, and that the Western one, Speciosa, was very much the better one for timber purposes. The Southern one is Catalpa Bignoniordes, and it exists in its wild state as far North as Pennsylvania and nossibly

North as Pennsylvania and possibly further. It is by no means a tender Carter Mrs Packard tree, as some writers say, but it is not Carson Zetta Miss Potts hardly enough for the Northwestern Cameron Lizzie Powell Emm States as Speciosa is. But even if it were, the Speciosa is much the better tree for forestry purposes, growing erect, and attaining height, with a clean, straight trunk. Booker Washington on Lynching,

Boston, Nov. 23 .- Booker T. Washington said last night regarding the recent lynching of a negro in Colorado, that the same class of people who be-gin to break the law by lynching a negro will soon learn to break the law by lynching a white man. "I think," said Mr. Washington, "that the Cold rado lynching emphasizes the fact that the only way to stop such outbreaks is, in the first place, to bring about such general education, not only in books, but in industry and thrift, as will make such acts as that which pro-voked the lynching fewer and then to educate public sentiment up to the point where people in all parts of the country will see that we can only have the highest civilization if the law is

enforced regardless of race or colo "Wherever people begin to lynch for one kind of offense they are soon led into the temptation of lynching for any other kind of offense. Aside from the injustice that is perpetrated upon the individual put to death without a legal trial, we must bear in mind that there is a permanent degradation which comes to the individual who takes par in and witnesses such an outrage as occurred in Colorado.'

Commissary General's Report.

Washington, Nov. 23 .- The report of Acting Commissary General John F Weston covers the operations of the ibsistence department up to June 30 of the present year. Australian froze beef and mutton is now used to supply the troops in the Philippines with fresh This keeps sufficiently well to be furnished to practically all of the posts in the islands of Luzon, Ilollo and Jolo. Since the completion of the present report a great cold-storage plant has been constructed at Manila and arrange ments have been made for shipping the fresh meat still frozen in cars con structed by the quartermaster's depart ment, all along the line of the Manila-Dagupan railway and to the islands south of Luzon.

General Weston recommends the enlistment, with some extra compensa-tion, of competent men as bakers and the institution of a field bakery column modeled upon those now employed by the army. Recommendation is also made for a

regular training school for army cooks, to be established at one of the large military posts in this country. Pro-vision has also been made in the estimates for the coming year, to furnish the army in the tropics with ice wherever it is possible for ice to be obtained The report recommends an increased force of sixty-two officers as against the twenty-two now on the regular roster, it being contemplated to dis-pense with the services of the volunteer officers now in the islands.

J. K. JONES ON THE ELECTION.

Was a Great Surprise to Democrats Who Were All Confident.

Little Rock, Ark., Nov. 22.-United States Senator James K. Jones, chairman of the national Democratic com-mittee spent the day in Little Rock and left tonight for Washington. Be-fore leaving he said in an interview:

"The election result was a great surprise to all Democrats. All were so confident of success that the sweep so confident of success that the sweep-ing Republican victory came as a severe shock. Even on the evening of the day before election re-assuring telegrams came from leaders that New York was safe for Eryan and from leaders that the leaders in other pivotal States that the Democrats were sure to win. It was Democrats were sure to win. It was these forecasts which buoyed us up the last moment and made the actual result more startling.

But Mr. Bryan is a great man, one of the greatest in America today, and his influence will be felt for many years to come in American politics. He is a giant in intelligence and simply

'he question of imperialism may also find a solution outside the ballot box. "I believe the Supreme court will decide against the Porto Rican law, and should this be done, there will be a revulsion on the part of the Republicans themselves against the reten-tion of the Philippines. But just what the issues of 1904 will be no one can cat predict with any degree of certainty."

CHOICE OF COURSE SETTLED

of cavalry, consisting of fifty men from Fort Reno and fifty men from Fort Sill

New York, Nov.23 .- The Tribune says: Capt. Rhodes will sail the cup defender against Sir Thomas Lipton's Shamrock I next summer, if the opinion generally expressed among the leading members of the New York Yacht club goes for

anything. August Belmont said last night that the choice of the professional skipper lay solely with W. Butler Duncan, Jr., who had full charge of this and all other matters pertaining to the preparations of the boat.

One of the yachtsmen closely interested in the building of the new boat said:

"I do not know yet whether Rhodes has been arranged with, but I do know that when the defender was prepared to try out the Columbia in the preliminary races of last year Rhodes was at her

SENSIBLE TEMPERANCE. A Word to Temperance Ladies.

It is universally admitted that tem perance women work for their caus with a desire to make life happier; that is, intemperance in drink causes an in mense amount of misery in human life, and the temperance movement is an effort to replace this misery with happiness, peace, and comfort. Many temperance women make the

mistake of going at the subject hamme and tongs and proposing to force peopl to believe their way. It is far better to exercise a broad charity and take the position that one's own peace of mind and happiness, not only of the individ ual, but of the family and friends, de pends upon sensible habits of life.

A very much greater foe to human happiness, than whiskey, exists, and it will startle many an honest temperance worker when the name of that foe is given. It is spelled c-o-f-f-e-e. "I don't believe it." some ardent temperance worker says, who is really a slave herself to the coffee cup.

Cast your thought among your sick friends, nervous, irritable, broken down women whose homes are anything bu peaceful homes because of the irritation and friction brought about by their physical and mental condition. In ninety-five cases out of a hundred, the nervousness, irritability, dyspepsia, kidney trouble, female troubles, and various diseases which such people are subject to, come directly from a broken down nervous system, brought about by the daily use of coffee. Careful chemical analysis proves this statement to be absolutely true and personal experiment will prove the same to any one who cares to make it.

You may have a few friends who are made miserable by whiskey, but you have scores of friends whose lives are made miserable, as well as the lives of their families, by the use of coffee, Hard to believe, isn't it? Many of the most profound truths are not accepted by humanity when first brought to humanity's attention, but they are truths, nevertheless.

Try for yourself, reader, Leave off offee altogether and start in with Postum Food Coffee, which can be obtained at any first-class grocery store You will find within ten days an improvement in the sum total of happiness for yourself and for your friends about you. Life will take on a new aspect; strength, vigor, and vitality will begin o come back for your use. You can de things that you have heretofore been unequal to. You can accomplish some-thing in this world, and you can quietly and without ostentation become a most efficient worker in securing to humanity stent, and happiness that that peace we are all seeking.

JERSEY BLUES DEFEATED.

The Lowell Team Played With the Rush of a Cyclone.

On the Exposition gridiron yesterday afternoon, the Jersey Blues from Sugar House ward ran up against a cyclone in the form of the Lowell school football team, and, indeed, they looked That Are Used Every Day By the Maas though they had been fooling with the real thing when the game came to

The contest was a lively one, and the teams were evenly matched in weight, but the Lowell team was well nigh in-vincible, and ran up a good, healthy score. Each half of twenty-five minties each was played without a hitch. Ten minutes after the play started a touchdown was made by Christy, left half for Lowell. The Jerseys received the ball on the kick off, but were un-able to hold it long, although they made a few slight gains. Woolley scored another touchdown

and the goal was successfully kicked in each instance, making the score 12 The Sugars played better in the lat-ter part of the game than at any other time. Receiving the ball on a fumble, they made many swift plays and ad-vanced the bail to a point dangerously near the enemy's line. They lost it on downs, and the Lowells took it back thirty-five yards and lost it on a fum-ble. Here the Sugars tried a punt, but the ball was stopped in its flight and the Lowells made another touchdown just before the expiration of the twenty-five minutes. Lowells, 18. Jersey

Following was the line up:
