the ricks of hay and corn grouped in disorder the around, fall a prey to the remorseless destroyer. The farmer, however, is not without his consolation on these occasions. The ashes of the herbage form an excellent manure for the grunnd, and the next crops invariably repay him grunnd, and the next crops invariably repay him a nortion of his loss. Indeed so beneficial is an ortion of his loss. Indeed so beneficial is a nortion of his loss in the departure of our military brethere put on a nortion of his loss in the departure of the light and of Bombay, matters there put on a nortion of barries and of Bombay, matters there put on a nortion of his loss in the departure of the light and of Bombay, matters there put on a nortion of barries and of Bombay, matters there put on a nortical substitution of barries and of Bombay, matters there put on a nortical substitution of barries and other necessary cxpenses; h a portion of his loss. Indeed so beneficial is the effect, that many of the large proprietors subject their land regularly every four or five years to the process of burning; but this op-eration is then performed with much caution wide trenches being first dug around the space

to the reeds, and these motives are powerful enough completely to neutralize the dread of Siberia; in the first place, the reeds serve as a of the sultry sun approaching his meridian. The most difficult tasks. The unest difficult tasks are unest difficul the open plain, are easily destroyed by their re-morseless enemies, the shepherds and herdsmen. The second motive is, the hope of obtaining a better supply of young reeds, by destroying the chief material for huilding.

David J. Peck, Esq, of New Haven, recently returned from the East, lectured last evening on the Allied troops in Turky, at Clinton Hall, Astor place. The audience was not very The following is a brief sketch of the lecturer's remarks.

He c. mmenced with a review of the Turkish race, and the subjugation of Greece. In Turkey, at the present time, the nation is made up of different people; and while other nations are key, at the present and while other nations are the into the period of different people; and while other nations are the into the above of the action of the whole civi-decaying. The attention of the whole cividecaying. I next made application through the Quarter-Gangeal for permission to reside, preach,

collarizing Sculari, where British soldiers first encamped. The streets of Constantinople are narrow and dirty, and the houses low. Destruction and decay are visible on every side. The architecture is simple, all the mosques being constructed in imitation of the Church of the Gospel, in visiting, preaching constructed in imitation of the St. Sophia. To the surprise of the stranger, he finds the streets throaged with Turkish women who are always veiled. Towards Christians

wise sovereign. The agriculture of Turkey is in a wretched condition. Around the capital are a few old cultivated fields and vineyards, but has proved a most s'ubborn, and in many in stances, an insu mountable barrier to the Gospel's stances, an insu mountable barrier to the Gospel's stances, an insu mountable barrier to the Gospel's stances. elsewhere nothing meets the eye of the traveler, often for thousands of acres, but a barren waste. The corn consumed in the capital comes from Odessa and the Crimea, and the wood comes from Asia Minor, and is sold by the pound. The country possesses vast mines of copper, coal, and silver. The revenue of Turkey is estimated at forty millions of dollars. With America and England the duty on all imports is

five per cent, while exports are twelve per cent. The lecturer then described Para, where are the residences of Lord Stratford de Redelisse, The lecturer then described Para, where are the residences of Lord Stratford de Redeliffe, the English and Baraguay d'Hilliers, the French Ambassadors. He next reviewed, the causes that have led to the present war. He justified that the same rights also demanding that the same rights are loved to the Greek subjects of the Porte as those enjoyed by Protestants, Roman Catholies, and other Christians; though he did not may be permitted to call native simplicity, a most trial we doubt 25. ones. The reeds, it must be borne in mind, of great value in the steppe, when in absence of timber and stones, they form the whispered it was well. I had anticipated evading a military collision here, by making my quarters in the native village, but found it so thickly popu-Six Months with the Allied Troops in Turkey.

Turkey.

LECTURE BY DAVID J. PECK.

In the native vinage, but found it so thickly populated that a vacant but war rare and then the prejudees of caste secmed to forbid the white face a resting place. Forced back to camp, I rented in the bazar, a small ground floor, minus of ceiling or window, save the dozen sundials that of ceiling or window, save the dozen sundials that struck through the appertures of the tiled roof. Here, however, my trunk and trappings were scarcely fixed, when a peon called to ask my "hockham" (authority) for scieling them. The first opportunity was chosen to wait upon the superintendent of bazaars. The Poona edict was referred to, which I mat by relating the favorable features of a latter date. He stated that he would inform the Brigadier-General that I had would inform the Brigadicr-General that had reported my arrival in camp. In a few days after, he informed me that the General wished me to take a house in the village, as the bazaars were

stantinople contains a mixed population of about 700,000. Stamboul is situated on a beautiful peninsula five miles in length. The scene, on approaching from the Marmoa, is grand and magnificent.

The lecturer here gave an eloqueut description of the surrounding country, particularizing Scuturi, where British soldiers first comparative inactivity for upwards of two months, were so overwhelming to the presence of two months, were so overwhelming to the presence of two months, were so overwhelming to the presence of two months, and the store-rooms are placed in the hold. The stores of such a quantity of divers articles in which the gas formed by the heating coal was consumed, instead of forming stude, by the simple method of depositing the coal in an iron box and lighting the fire on the contains provisions for six months, with a neserve contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months; water for 135 and an iron box and lighting the fire on the contains provisions for six months, with a nestree contains finds the streets through with Turkish women who are always veiled. Towards Christians may recibed. Towards Christians may recibed. Thanks to the Lord for overlying it so, proportion of the women are slaves; and, the the Circassian market has been abolished, a brisk trade still goes on.

Mr. Peck then gave a description of the person and habits of the Sultan, and the cremony of going to proyer. He is said to be amiable, but has neither the strength or character of a but has neither the strength or character of Turker is a strength or character of the calibro of the stations are conprogress; so overbea ing is military su'e in the

While the foregoing was pending, I found many to profess a sympathy, but few seemed prepared to offer a helping hand. There was nevertheless, an eye over me for good—that eye that never sleeps to the interests of those enlisted in His ser-

of this people, that ill suits a gospel requiring the sacrifice of all things, which is literally requisite in their case. Upon a profession of Christianity the parental roof no longer shelters the delinquent; to us that if there is a class of men in the country lan, who, in personal appearance, resembles somewhat General Scott. The most imposing brigade was that commanded by the Ouke of ambridge, who is like John Van Buren.

And real Duke was proud of his division, and he who compto be so, for among the 9,000 men height. There it, every one was six feet in ander the Earl of Cawan, which recently suffered to so severely before, who walls of Sebas in the converts with a home, food, aries to provide their converts with a home, food, aries to provide their converts with a home, food, aries to provide their converts with a home, food, aries to provide their converts with a home, food, aries to provide their converts with a home, food, aries to provide their converts with a home, food, aries to provide their converts with a home, food, clothing, &c., which, however, when applied to

heriuage. The flaming torrent advances then with irrestible force, towering up among lofty thittes, or advancing with a stealthy anakelike was seen of the wind can always arrest its destructive course, for a fire of this kind will go steaming in the very like the jenture we have seen of the wind, own slowly and then rapidly, necording to the nature of the fuel that supplies its forces.

At times the invader finds himself compressed between ravines, appears to have spent him strength, but a few burning particles blown across by a gust of wind cnable him to mixed good his position on new ground, and jeas and time in availing himself of the opportunity. A well-beaten road, ravines, or a piece of sunk ground in which some remnant of moisture has kept the gross green, are the points of which advantage must be taken if the enemy's advance is to be stopped. At such places, according type the thing of the opportunity of the continging the supplied of the
