ROCKY MOUNTAIN ROBBERS.

TRAIN WRECKERS, ETC.

The Lake Storm.

CHEYENNE, 27.—Severe and protracted storms have prevailed in the northern, northwestern and remote portions of Wyoming within the past two weeks. The southern ranges experienced spells of severe weather with the thermometer 10 and 12 degrees below zero, but the snowfall is comparatively slight and no damage has been done to stock about Fort Laramie, and northeast part of the Territory. Fort McKinney, the northwest part, the weather for nearly two weeks has been very severe. In some places the snow is eighteen inches on the level, making it impossible for cattle to reach the grass. Hence, in those quarters where it has drifted badly, it is impossible, from lack of communication, to get quick reports of the extent of damage done so far. A few reports of dead cattle are received from various quarters, but none to cause alarm. Stockmen here say that everything is satisfactory so far.

The weather has now moderated throughout the territory, and the snow is rapidly melting under the warm sun. There is no real snow blockade along the line of the Union Pacific in Wyoming. Trains are running on time, and have never arrived here later than five hours this season.

Lost at Sea.

NEW YORK, 27.—J. W. Catherine, master of the steamer *Chattahoochie*, makes the following statement: About 2.30, December 20, 15 miles north of the Winter Quarters light-ship, I sighted a three-masted schooner, under close-rigged main and mizzensails, ensign union down. I bore away for her and the vessel was reported having sprung a leak, and the crew wished to be taken off. They said their boat was stove. I then placed the steamer in such a position as to shelter the schooner as much as possible, lowered a boat in charge of my second officer. The boat returned in about an hour failing to rescue any of the schooner's crew because of the high sea, which prevented it getting along side. The second officer had received injuries in the boat which made it impossible for him to again attempt the rescue. Another boat's crew volunteered to make a second attempt. They were supplied with life buoys and lines, and after several attempts succeeded in getting a life buoy on the schooner. The first mate of the schooner secured himself to the buoy, jumped overboard and was picked up by the life boat. The life buoy was now broken and useless, and it was impossible to get very near the schooner on account of the severe gale and high sea. As night was setting in, with rain and sleet and increasing wind, which was drifting the ship into shallow water, I was compelled, for the safety of my own vessel, passengers and crew, to abandon the schooner, and was forced, very reluctantly, to put my ship to sea. The name of the ill-fated schooner was *Avis Pardee*. She was loaded with cement for Philadelphia. The schooner and the remainder of the crew were probably lost.

Infernal Machine.

EASTON, Pa., 27.—The infernal machine found on the Jersey Central railroad track yesterday, near Westfield, consisted of a square package bound by a shawl strap, placed near the rail so as to appear that it had been accidentally dropped. The track-walker found it. The package was so constructed as to explode if struck a heavy blow. It contained 58 cartridges of dynamite and a lot of No. 1 Giant powder. Had the package not been discovered it would have been struck by the next train, and terrible must have been the result.

Four Companies of Armed Socialists.

CHICAGO, 27.—In view of the threats made by Socialistic leaders and the recent demonstrations by their followers, the commander of the first infantry has established a volunteer guard to protect the arms and property of the regiment stored in its armory. The statement is made that four regularly organized military companies of Socialists are now in existence in the city, two of which are armed with breech-loading rifles.

Mountain Robbers.

OTTAWA, 27.—Information of further robberies of the mails along the Rocky Mountain division of the Canadian Pacific Railway has been received by the postoffice department, but the particulars are not attainable, as the government and the railway company think the publication will tend to thwart their efforts to catch the robbers.

Filibustering.

WASHINGTON, D. C., 27.—The Secretary of the Treasury has received a communication from the collector of customs at New Orleans, saying that he is informed by the Spanish consul that one Gomez had recently left that city for some point on the Gulf coast, with the view, it is believed, of fitting out a filibustering expedition to Cuba, to be conveyed by the schooner *Phoenix*. The collector says he has notified the collectors of the Gulf ports with a view to intercepting the proposed expedition. The Secretary of State has been furnished with a copy of the letter.

Train Wreckers.

CHATTANOOGA, 27.—A few days ago an obstruction was placed on the Queen and Crescent track, near Purvis, Miss. A passenger train dashed into it and was ditched, the engineer killed, several cars wrecked and a number of passengers injured. Railroad detectives traced the deed to a merchant at Purvis, Miss. It was ascertained that his cattle had been killed by a train. He had appealed for damages and failing to receive any, took this means of wreaking vengeance. His son assisted him. The populace were driven to fury over the diabolical deed, and to-day, at daybreak, they took him from jail and hanged him. The man confessed the deed and exculpated his son. His name was not learned.

SUNDAY NIGHT'S DISPATCHES

The Storm Over—Trains Running On Time.

DENVER 29.—The storm which recently visited a large portion of the mountain region has subsided. All the roads are open and trains now running nearly on schedule time. The first train for three days from Salt Lake, over Marshall Pass, reached here last Friday. Stages to Aspen and other interior points are making regular trips.

The Car Strikers in New Orleans.

NEW ORLEANS, 28.—The strike of employees of the street lines continues. As the cars came in the drivers were notified by the committee of strikers not to return. And these warnings were obeyed. At 4 p.m. an Annunciation street car came on Canal Street. It was quickly surrounded by a large crowd of strikers. The mule was unhitched and turned loose. The party who unhitched the mule was arrested and one of the railroad officials was arrested for assaulting a striker. Throughout the city all experience great inconvenience from the stoppage of the cars, the continued rainy weather keeping the streets in bad condition for pedestrians.

It is understood that assemblies will uphold the drivers, and will render them every assistance in their effort to carry the strike to a successful conclusion.

Henry Ward Beecher.

NEW YORK, 28.—Henry Ward Beecher, after he had concluded his sermon today, touched upon the alleged disaffection of his congregation, in consequence of his action in the late campaign. He alluded to his forty years pastorate, and said he never mixed politics with theology in the pulpit. He said he did not know how far the trouble had spread, but only learned it from the newspapers. If there were any pew holders offended, he did not know them. He had hoped the republican party, which had done so much for the nation, would get wisdom, but he was bitterly disappointed. He would have shed tears of joy, if that party had put in its platform a welcome to the South, and made one of its great candidates a southern man. From convictions, deep as any he ever had, he entered the canvass, and when he went into anything, he never went in by halves. He cared nothing for life, refutation or influence, if the country might not live together in harmony; that under certain conditions, he did everything wisely. He would not say that he made no statements that he would not now make in a better light; he would not undertake to say this. He said his congregation should have had confidence enough in him not to have taken his impetuous speech—making a special plea—and distort its application. So far as his political judgment and endeavors were concerned, he looked upon them with unfeigned admiration. If there were mistakes and errors, he was sorry for them, and apologized. He did not want any dissatisfied person to sneak away; let him come to Beecher face to face and tell him he is dissatisfied, and Beecher would bless him. In relation to pew rents, he did not care if they were diminished. He had lived on a salary of $1,500 when he first became a pastor and, if necessary, could live on it now. If there was a majority in the church, or a strong minority, who no longer wanted him he would go. If the great majority wished him to stay, he would die with them, and nothing would drive him away. If he stayed, his congregation would have to receive him—not on pitchforks, but in the palms of their hands.

FOREIGN.

WOOLSELEY'S MARCH THROUGH THE DESERT.

ERICSON'S SUBMARINE GUN AND TORPEDO.

FURTHER DETAILS OF THE DISASTROUS EARTHQUAKE IN SPAIN.

IMPROVEMENT OF THE RIVER NILE.

LONDON, 27.—The news from Egypt is not of the most satisfactory character. It appears Wolseley has decided to abandon the attempt to reach Shendy by the desert route from Korti, thus cutting off the great bend in the Nile. The difficulties of the way seem to him to be too great to be surmounted with the resources at his command. Instead of the desert route he will use the road from Merawch to Berger, thirteen through the desert, but much shorter than the other. He has accordingly changed his base from Korti to Merawch. This change places the relief of Khartoum two months further into the future than expected. General Wolsley is far from satisfied with the arrangements for the expedition. he has sent furious complaints to the war office of the inefficiency and absolute breakdown of the transport and commissary services. Although a good two months, have elapsed since the pioneer corps left Sarass, only 1,500 of the 7,000 men composing the full force of the expedition have reached Korti, British envoys left Korti for Kabbabish. Envoys will endeavor to persuade the Mahdi's tribes to enter into an alliance with the English. The admiralty has awakened to the fact that the present facilities for coaling war vessels at home and foreign stations are not what that ought to be. It has therefore appointed a special naval committee to look into the matter, and instructed it to report means to improve the present facilities which could be easily and quickly extended in case of an outbreak of war, and which would make such a step necessary or desireable.

Ericsson's Invention.

The *Army and Navy Gazette* contradicts the statement of United States Senator Blair, that the British government was negotiating for the purchase of Ericsson's submarine gun and projectile torpedo. The *Gazette* says: Ericsson's invention would revolutionize naval warfare, but financial reasons will prevent its use by the various governments."

Sailed.

LONDON, 27.—George Augustus Sala sailed to-day for New York, and on February 14th leaves San Francisco for Australia.

The Earthquake.

MADRID, 27.—Later details concerning the earthquake show the damage to property and the loss of life were both much greater than at first believed. The provinces of Malaga and Granada were the scenes of the greatest disturbances; several places were partially destroyed.

The mayor reports many parts of Albuquerque in ruins, and 150 persons are believed to have perished. At Arenas del Rey 40 persons were killed. Disasters are likewise reported from other towns. Slight shocks of earthquake have been felt in many places in Spain since Thursday.

Navigating the Nile.

PARIS, 27.—De La Motte, agent of the French syndicate, will soon visit Cairo to urge the Khedive to assent to the scheme to improve the river Nile. The syndicate offers to execute works for the protection against excessive inundations; to provide for the irrigation in case of insufficient risings; to utilize the floods and to make the river navigable from the mouth to the equator. The project implies large concessions.

SUNDAY NIGHT'S DISPATCHES.

Over One Thousand Victims of the Earthquake in Spain.

MADRID, 28.—The official report shows 266 persons killed in the provinces of Malaga and Granada by the recent earthquake. The population of Granada is still encamped in the squares, the richer class lodging in carriages along the promenade. The facade of the cathedral was seriously damaged. Many houses were destroyed in Jimena and a whole family killed in the village of Cajar by a falling chimney. Over half the inhabitants of Albunuckias were killed. Alhama is mostly in ruins. The province of Malaga suffered equally as much damage as did Granada. Commerce is paralyzed. Two hundred houses at Alfarnetejo were damaged. The panic is subsiding. The shocks were not felt in the northern and northwest provinces. The government has granted $5,000 from the national calamity fund, for the relief of sufferers in the province of Granada.

Madrid, midnight.—Official returns from the province of Granada state that 526 persons were killed by the earthquake there, in Malaga 100, in Alhama over 350 bodies have been already recovered. In Panama 60 bodies were recovered. Many persons died from fright. Convicts in Seville prison attempted to escape.

Later advices say 300 lives were lost at Alhama; 750 houses and churches destroyed. Thirty persons were killed at Periana. The town hall and many of the houses were damaged. At Torrox the inhabitants fled panic stricken. It is now estimated that 600 persons were killed in the province of Malaga, including those killed at Alhama. In a previous dispatch a donation of $1,000, make it read $5,000.

Socialist Meeting.

PARIS, 28.—Three thousand socialists held a meeting at Salle Louis today. A number of anarchists were present, who wished to nominate the chairman and met with some opposition. A hand-to-hand fight ensued, in which seats were used as weapons. Several persons were injured. Subsequently a resolution was adopted to call an open air meeting of the unemployed workingmen, January 15th.

BRIEF TELEGRAMS.

TORONTO, 27.—Paquet, infidel, paralyzed while denying the doctrine of eternal punishment, died to-day.

New York, 27.—The schedule of Messrs. Opdyke & Co., filed by Wm. Peet, assignee, shows debts to the amount of $296,000; nominal assets, $563,000; actual assets, $256,000.

Vienna, 27.—Two of the chief members of the firm of Wollitz Brothers, of Lemberg, grain merchants and large importers and maltsters, committed suicide, owing to business troubles.

New York, 27.—Orrin Skinner, *alias* H. M. Scudder, who, it is alleged, swindled a large number of people, including James G. Blaine, out of money, was arrested to-day by the sheriff in an action begun by H. M. Munsell.

New Orleans, 27.—The car drivers' strike was renewed to-day. Ten thousand people at the Exposition have finally secured steam transportation by rail and boat to the city.

Paris, 27.—The Senate adopted the clause of the budget establishing the principle of taxation of religious bodies.

Warm Springs, N. C., 27.—The Warm Springs Hotel was burned to-day. It was one of the largest hotels in the South. Nothing was saved. Loss, $150,000; insured for $50,000. Colonel Rambough, who owned a two-thirds interest, says the hotel will be rebuilt.

Shenahdoah, Pa., 27.—The Philadelphia and Reading collieries, of this vicinity, shut down indefinitely to-day, throwing out of employment 2,000 men and boys.

New York, 27.—The Aldermen have been cited to appear before the grand jury on Monday.

New York, 27.—Imports of specie at the port of New York for the week ending to-day, were $422,000.

The *National Gazette* says: "A majority of the Reichstag intends to place a new check upon Bismarck, by rejecting his demand for a credit of 50,000 marks to conduct explorations in Africa.

The editor and manager of the Anarchist paper *La Flamme*, at Marseilles were sentenced respectively to imprisonment one year and eight months for inciting to plunder during the cholera epidemic.

One of the 30,000-barrel oil tanks, situated at West Junction, five miles from Elmira, N. Y., exploded at 7.40 yesterday morning. Both tanks were soon a mass of seething flames. The shock was felt at Elmira. Loss $100,000.

In the case of the Central Pacific, Oregon branch, vs. the heirs of Silas Wolford, involving lands in Shasta District, Cal., the Secretary of the Interior has sustained the decision of the land office in favor of Wolford.

New York, 26.—A dispatch from Charles Francis Adams, Jr., to the directors of the Union Pacific Co. has been made public. He says: "All stories that the company is in distress for money with which to meet the January and February interest are simply preposterous, and manufactured out of whole cloth. We have made no application for money anywhere. Our coupons will be met promptly as they mature."

San Francisco, 26.—In reference to the dispatch received here from San Antonio, Texas, that the east-bound passenger train on the Southern Pacific, near the end of the Pecos River bridge, was boarded by cowboys, who drew revolvers and compelled the conductor to stop the train, on the 24th inst., General Manager Towne telegraphed the division superintendent, who replied that the only damage done was two windows broken. Nobody killed.

SUNDAY SERVICES.

In the Tabernacle, Sunday, Dec. 28th, 2 p.m.

Choir sang: "Mortals, awake! with Agels join, and Chant the Solemn lay."

Prayer by Bishop O. F. Whitney.

Singing: "While Shepherds Watched their Flocks by Night," etc.

Apostle Brigham Young expressed pleasure in meeting again with the Latter-day Saints here. While it is a great satisfaction to labor abroad in the ministry, the association of friends and brethren at home is exceedingly pleasant. There is a great field of labor for the Priesthood at home among both young and old. Had enjoyed exceedingly his labors with Brother Heber J. Grant, in Southern Arizona. They had found a few who had, some time ago, resolved to keep the word of wisdom, but who had commenced their old habits again. Many of the young also were indulging in violating that revelation. Hoped to see the time when such things will not exist among this people. We should exert ourselves to the utmost to discountenance such things and be united in our opposition to them. The way to get rid of these pernicious practices is for each man to cleanse his own family. There are specified terms that admit all into the Kingdom of God and all must comply. Then parents should not be judged severe if they make their children comply with certain righteous rules and regulations.

Faithful members are called upon to be presidents, teachers, Sunday school officers, etc., and kept so busy they feel like they had too much on their shoulders. Let all be waked up and bear a part. Another thing we should guard against is what we say about our neighbors, and be not so ready to surmise and tell things to the detriment of those who are trying to serve the Lord. Let us be wise and live our religion with all the power that God gives us wherever we are, and persecution will do us no harm. This people are not wise they do not manifest the wisdom they should do. Had they been wise, not one of our brethren need be under bonds or in prison to-day. They gossip too much and tell all they know and often more, too.

Let us maintain order in all our meetings; train well the children whom God has given us and seek with all our might to serve the Lord, and all will be well with Zion.

President John Taylor wished the Saints the compliments of the season. We are gathered here in order that we may be instructed in things pertaining to our salvation. We are simply babes and sucklings in the Kingdom of God, and there are many great and important truths for us yet to learn before we arrive at our desired place in the Celestial kingdom. It is our duty to carry the Gospel to the nations and gather the honest here as we were gathered, that God may give them teachers after His own heart that they may be taught in His ways. We comprehend very little of the means whereby we are to come into possession of the great principles of salvation. We have received a portion of the Spirit of God through the ordinances of the Gospel, and inasmuch as we have kept our covenants and lived our religion, that Spirit has taken of the things of God and shown them unto us. Many have neglected their duties and are not preparing themselves for an exaltation in the kingdom of our God. We are here as the children and elect of God, and are instructed how to approach our Heavenly Father, that we may operate with Him and the Priesthood behind the veil. This is the object of our existence, and to magnify our priesthood and calling. If we have repented of our sins we ought to forsake them and be progressing in the right way. If the Bishops have Teachers who do not perform their duties, get those who will. We want none of the officers in the Priesthood who will continue to neglect the duties of their callings. Reference had been made to the fact that our children do not all act as they should; neither do all of God's children. Mentioned the mission of our Savior and His perfect submission to the Father in all things, and contrasted Him with Lucifer, His brother, showing the different results of righteousness and wickedness. Those that fight against the Saints will, in a short time, have more than they can cope with. The singer in Zion also shall tremble, and the day is not far distant. It is necessary that we should suffer for we are made perfect by suffering; but woe unto those that fight against Zion, for as God lives, he will fight against them. Referred to the organization of the earth and the introduction of man upon it, and how the two contending powers of good and evil manifested themselves in Able and Cain. The reason Cain's sacrifice was not accepted was because he was in league with Satan, and the history of these early events is burdened with principles and ideas that the Saints should study and understand. We are building temples in which our knowledge of many hidden things will be increased and we will learn if we are faithful, those things necessary for our salvation. We have the right, in common with all American citizens, to serve God according to the dictates of our own consciences, and we cannot be deprived of that right if the officers of government regard their oaths to support the Constitution. Let the Latter-day Saints stand up for their rights, and trust in the Lord. Amen.

The choir sang an anthem.

Benediction by Elder George C. Lambert.

COHN BRO'S
Offer their entire stock of CLOAKS and WRAPS, BELOW COST. This part of their stock must be cleared out, no matter what the sacrifice may be. d 6t

Hats, Caps, Gent's Furnishing Goods at DUNFORD'S.

H. B. BARTON, J. B. TORONTO. I. BARTON, A. S. GEDDES.
Have you called on Barton & Co. within the last week? If not you should not fail to do so and examine their styles and prices on underware, as they are closing out their stock in that line and have reduced their prices to the lowest figures. They also have an elegant line of fur and sealskin caps which they are quoting very low. And as to their elegant styles of clothing and furnishings, you need only examine their stock and prices to be convinced that they are dealing fairly with the people, and are desirous of establishing their firm on the most legitimate business.

Home Cured YARMOUTH BLOATERS, at H. E. FYSON'S, d 40 Market Row.

(SUCCESSORS TO A. VOGELER & CO.) Baltimore, Md., U. S. A.

THINK OF IT NOW!
Although much is said about the importance of a blood-purifying medicine, it may be possible that the subject has never seriously claimed your attention. *Think of it now!*
Almost every person has some form of scrofulous poison latent in his veins. When this develops in Scrofulous Sores, Ulcers, or Eruptions, or in the form of Rheumatism, or Organic Diseases, the suffering that ensues is terrible. Hence the gratitude of those who discover, as thousands yearly do, that
Ayer's Sarsaparilla
will thoroughly eradicate this evil from the system.
As well expect life without air as health without pure blood. Cleanse the blood with AYER'S SARSAPARILLA.
PREPARED BY
Dr. J. C. Ayer & Co., Lowell, Mass.
Sold by all Druggists; $1, six bottles for $5.
