# BOSTON WOOL MARKET.

Boston, Feb. 13 .- The wool market maintains a steady tone, but the gener-al demand continues quiet. The demand for quarter-blood grades continued sharp, and some good lines have been bought by manufacturers. The move-ment in Territory wools continues quiet, although dealers are looking for the present values to be sustained. Fleece wools are quoted nominally the same with medium grades ranging up more nearly to the fine, the call being largely for medium. For XX and above 25 to sign at 38640c. For quarter and three-cighths blood unwashed fleece values hold firm and the demand is good. itations

sion.

ery strong.

The mine is looking very good and its New York, Feb. 13 .- The wildest exowners think that in the very near fucitement prevailed on the cotton exture they will have one of the mines in the Rocky countains. Every indication is that before much more change today throughout the entire ses-No official record was kept of work is done on the property a large body of ore will be struck, and then the stockholders will begin to realize some dividend from their money insion. No official record was kept of the transactions, but it is estimated they reached close on 800,000 bales. This would be near the record. From the closing of Saturday's market to the highest point today there was an ad-vance of 24 to 29 points. The upward movement, however, was by no means steady. Numerous periods of reaction gave the market at times the appear-ance of going to pieces under liquidavested.

# IN WASHINGTON COUNTY.

#### Jean F. Webb Secured Option on the Paymaster.

Hon, Robert C. Lund arrived home from Sait Lake City Mondav via Mo-dena accompanied by Earl V. McCune, says the Washington County News. They left for Kingman, Arizona, Thursday on mining business which will probably take them to California. But Mr. Lund is not certain what they will do until they arrive at Kingman. Thos. F. Fillan, of Richfield, and John Murray, of Gold Mountain, left here Tuesday on a prospecting trip. They go to examine some mining property near Littlefield first, from there to examine mining property near Bunker-ville, and will then make their way via the Grand Guich, Savanac, Cunning the Grand Guich, Savanac, Cunning-ham, and other mining properties in that direction to the Colorado river. They expect to be gone some time. Jean F. Webb while here recently

ad of the ore being haules by wagon to Modena, it may be haufed to the little station of Chloride on the Arizona & Utah railrpad, After a rather rough haul of about two miles the Grand Wash may be reached, which then insures an easy down-hill grade to the Colorado river, which is only 15 miles from the Savanic mine. By cross. ing the river with Pierce's ferry Chio-ride may be reached in another 50 miles,

making 65 from mine to railroad, as against double the distance by the other route. The dolonel says that the rails have been ordered for the extension of the Arizona & Utah road to White Hills, which is 25 miles north of Chloride. When this is done the haul will be reduced that much more. It is anticipated by a number of parties in that vicinity that the Arizona & Utah road, which is believed to be a branch of the Santa Fe system, will shortly build to the Colorado river and that the Utah & Pacific will be built south from Uvada and connect with the Santa Fo at the Colorado river, which is about 160 miles from Uvada. But of this nothing is certain. The colonel would rather see the Utah & Pacific go west

from Uvada, as it would in his opinion open up some rich mineral country.

Another car load of copper has gone to the Eastern refinery from the High-land Boy smelter. The carload weighs 60,180 pounds. A. L. Jacobs has returned from a

ticipation, and the complete display is certain to command admiration not onvisit to the Sharp mine at Stockton. where he says two carloads of ore are ready for shipment. The last of the 500 ton shipment of

zinc ore from the Horn Silver was sampled today, and will be dispatched at nce to Galveston, Texas, where it will be loaded for Germany.

Engineering and Mining Journal: Mr. Charles J. Devereaux, of Boston, has returned home from a week's visit in Utah, where he attended the annual meeting of the Mercur Company. is greatly pleased with conditions at the mines.

The Sacramento of Mercur reported at the rooms of the Consolidated Kan-sas City Smelter & Refinery with a consignment of gold cyanides weighing 350 pounds. Preparations are being made to install roasters with which to handle the base and talcy ores at the mine, some of which assay as high as \$150 in gold per ton.

The shareholders of the Omaha Gold Mining Company held a meeting yes-terday afternoon and decided to put up 2 cents a share with which to meet the company's indebtedness and resume work. The articles of incorporation do

not provide for assessments and as they were not changed the present may be considered in the light of a voluntary contribution.

ioddard, however, was clearly outclasesd and was saved in the middle of the fourth round from an almost certain knock out by his trainer, Jack Dougherty, throwing up the sponge. Sharkey, in a series of terrific rushes, had warmed things for the veteran until defeat seemed to be due in the next blow, when Dougherty surrendered. Goddard was still anxious to fight and made a lunge at the sailor.

hall in what was to be a six-round bout.

points.

No.

The two mixed things up and after rapid exchanges Goddard slipped to the floor and with Tom on top came near rolling through the ropes. More than rolling through the ropes. More than 4,000 persons witnessed the fight and Sharkey was given an ovation as he took the corner with Tom O'Rourke and Jack Fogarty by his side. Clever little George Dixon, who acted as one of the sailor's seconds, was also cheered. Goddard, too, came in for a welcome. The veteran pugilist, John S.Clark, was the referee

## WHEELMEN IN SESSION.

#### American League Scheduled to Meet at Philadelphia Today.

A New York dispatch this morning says the opening session of the annual assembly of the League of American Wheelmen will be held at Philadelphia today. The assembly may last until Saturday, as there is considerable business of importance to the organization to be transacted. Today will be given

up to good roads discussion. It is ex-pected that there will be no regular meeting of the good roads enthulsasts, but merely an informal gathering. The politicians, however, will be busy ar-ranging their "slates" for the regular meeting, which will begin tomorrow. There will be the usual discussion over proposition to divorce the league from racing, and just how this discusion will come out it is difficult to predict at this time. There will be meeting of the representatives of the meeting of the representatives of the racing board, and they will not seek to influence the other delegates in any way. If the league decides to divorce itself from racing it can do so by a vote of the majority. There is little probability that there will be any op-position to Conway W. Sams of Mary-land for the treaddance. land for the presidency

### May Repeal Horton Law.

A New York dispatch this morning says: It is expected that the bill realing the Horton boxing law will pas the assembly today, and that it will pass the Senate with equal facility. The bill as amended sets the date of its ing law as September 1. It is believed that immediately upon passage f the bill the enemies of prize fighting ill begin an egitation for rigid enforce-tent of the Horton law during the remainder of its life, and thus seek to prevent the Corbett-Jeffries battle. Strict construction of the Horton law forbids prize fighting.

#### Another Association.

Chicago, Feb. 13 .- At a stormy session at the Great Northern hotel, the new American Baseball association was American Baseball association was formally organized, with seven clubs today. John McGraw and Phil Peter-son of Baltimore were appointed as a committee to secure the eighth city. As the circuit now stands, it includes Chi cago, Milwaukee, St. Louis and Louis-ville in the West, Boston, Philadephia and Baltimore in the East. It was the expectation of those present today that Washington would complete the eighth

## SPORTING NOTES.

Arrangements will probably be per-fected tonight for a bout between Joe Cotton and Jim Morria. The men are now in the city.

By making good his promise to put \$5,000 to insure good faith for a fight with Jeffries, "Bob" Fitzshumons shows that he means business.

Judging from the way in which Shar. key "went at" Joe Goddard he has cer-tainly recovered from the injuries re-ceived in his fight with Jaffries. A number of local sports, however, de-clare that Tom will never be able to "run up against big game again."

The connections at St. Louis are
