SCHOOL TEACHERS RATES TO EAST

Special Inducements Given to Tourists Next Month.

S. P. ASSISTANT CONDUCTORS

Some Changes on Passenger Runs on The Salt Lake Division Go Into Effect.

The Oregon Short Line and the Rio Grande Western announce special rates to Chicago, St. Louis, St. Paul and other points, effective May 5, 6, June 4-5 and 9-10, with a return limit good until September 8. In addition there is some talk of putting in a transit time limit, both going and coming, of ten days. The Sebastian form of ticket will be used and the fare from Salt Lake will be on the basis of a single fare for the round trip plus $2. This rate is put in for the special benefit of the school teachers and will undoubtedly be generally patronized.

Power Company Thrown Out of Gore Canyon for Good.

Denver, April 15.—The attempt to block the building of the Moffat road through the Gore canyon was defeated today by the refusal of the state land board to rescind the lease granted the Denver, Northwestern & Pacific railway. The new Century Light & Power company claimed to have a prior right to the land in question and applied to have the case reopened.

By unanimous vote the board declared "that owing to the great benefit to be derived from the building of the Denver, Northwestern & Pacific road, we, the commissioners, cannot afford to block the building by refusing the right of way through Gore canyon."

Off to Nevada.

Assistant Chief Engineer H. M. McCartney and Col. Moore of the San Pedro, Los Angeles & Salt Lake road are busily engaged today in packing up supplies prior to starting out tomorrow on a trip along the survey in Nevada and visiting the engineer camps that are along the route of the proposed main line.

OGDEN CHANGES.

Southern Pacific Takes Ten Conductors Away From City.

Yesterday there were some changes that went into effect on the passenger runs out of Ogden on the Southern Pacific when the terminals were changed to Carlin, Odgen and Reno, and the runs from Reno to Carlin and from Carlin to Ogden. With the change came the transfer to the west end of the Salt Lake division of 11 passenger conductors who have made their homes in Ogden.

On the same day the order went into effect which established the position of train agent or assistant conductor on the Southern Pacific passenger trains. This order was productive of 10 promotions from the ranks of the passenger brakemen and the advancement of a like number of freight men to fill the vacancies formed.

To Visit Los Angeles.

Senator W. A. Clark is reported as having finished up his business in New York and is now on his way to visit his copper properties in Arizona prior to arriving in Los Angeles on or about April 25, when he will meet with J. Ross Clark, T. E. Gibbons and other officers of the San Pedro.

Wool is Being Held.

Agent Potter of the Erie Despatch, who is looking after the interests of the company in Utah, while Mr. Vincent is holding down the wool situation in Idaho, has returned from a trip to Black Rock and Milford, where shearing operations are now in full swing. He reports that there are no sales as yet as the woolmen are holding off at prices that range from 14 to 19 cents per pound. Mr. Potter says that [illegible] of affairs seems to be out of all reason.

Surveying West.

Denver, April 15.—Surveying of the Denver, Northwestern & Pacific railroad (the Moffat short line) west of Steamboat Springs has commenced. In a brief report received to day the chief engineer says he has found a most favorable route from Steamboat Springs, and that there will be practically no engineering obstacles to overcome.

Loading of Wool.

The Denver Post is the authority for the statement that lines east of Chicago have notified freight representatives in Denver that they must not load wool this season. Incidentally the Post claims the victory for the Western freight men, but concedes that Milton Knight, freight traffic manager of the Wabash, and J. A. Munroe, freight traffic manager of the Union Pacific, have been active in bringing about this reform in wool shipments.

SPIKE AND RAIL.

General Passenger Agent Hooper of the Rio Grande system is expected to arrive in Salt Lake on Saturday morning.

The Rock Island announces the putting on of a new sleeping car service out of Colorado Springs.

Commercial Agent Williams of the Milwaukee is down south. Traveling Freight Agent Kyes is in Idaho, and Contracting Agent McKellar is in Wyoming.

Frank Groesbeck is mourning the loss of his imported pedigree collie pup, recently acquired at great expense. The dog is a black one with a full white collar and white tips. As he has offered a reward for its return a piece of twine with a small boy at one end and a yellow dog at the other is making life a burden to him.

Due Notice is Served

Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. Z. C. M. I. Drug Store, 112-114 Main Street.

Arrangements have just been completed for the appearance at the Salt Lake theater for three nights and a matinee beginning Monday next, of the Thatcher stock company in "Moths." The play is now being produced at Logan by the re-organized "Corlanton" company, and the papers refer to it as the best production seen in Logan this season. Popular prices will prevail. "Moths" is the play produced by Frawley at the opening of the Grand theater, which had such a phenomenal run.

There's nothing better in creation
Than Little Early Risers, the famous little pills.
They always effect a cure and save doctor bills.

Little Early Risers are different from all other pills. They do not weaken the system, but act as a tonic to the tissues by arousing the secretions and restoring the liver to the full performance of its functions naturally.—Z. C. M. I. Drug Store, 112-114 Main Street.

Architect Dallas is completing the working plans of the new branch Normal building for Cedar City, and will be ready in five days to receive bids. The building will be 62x100 feet, three stories, and be divided up into class rooms and laboratories, and an auditorium 60x74 feet. The material will be buff, or Milwaukee brick, and white stone. The architect says it will be the finest building in the southern part of the state.

* * *

Work was resumed this afternoon, on the new Holmes apartment building, corner of State and South Temple streets, and the great building will be under cover before snow flies again. The delay has been occasioned by the inability to get structural iron and steel before this time.

LATE LOCALS.

The relief that will be experienced in this state when the Colorado Fuel & Iron company get to turning out structural iron and steel is illustrated by the fact that a Utah manufacturer placed a large order one year ago with a big Pittsburg establishment, and only a few days ago received word that part of his order had just been shipped and the rest would be later on. The Utah man wired to cancel the entire order, and stated that what had been shipped would be held subject to the order of the eastern iron master.

Judge Powers has returned from a brief vacation on the Pacific coast, where he says he saw more Salt Lake people than he sees in this city. He went for recreation solely, and steered clear of all the courts and lawyers' offices. He witnessed the savory attractions of Chinatown, and went fishing in San Francisco bay. The judge neglected to bring a seine along with him, so his catch did not amount to much.

The infant son of State Superintendent of Schools Nelson, who has been seriously ill for several days past with pneumonia, is reported as improving today.

Secretary of State Hammond is in Ogden today attending the funeral of a relative.

Joseph Geoghegan was insured in the Home Fire of this city, $6,500 on the house, and $400 on its contents.

The many friends of Mr. and Mrs. Melvin D. Wells will be pained to hear of the death of their infant daughter Rebecca, which occurred at the family residence, 423 Second street, this morning. The little one had been ill for but a short time and its death was sudden and unexpected, and a great shock to its parents. The funeral will be held from the family residence tomorrow, Friday, at 1 p. m. Friends are invited.

The season's band concerts have begun at Fort Douglas, and are being given every other day at 3 p. m.

The party of 100 Raymond & Whitcomb excursionists who are spending the day in the city were driven to the Tabernacle this morning, where they were treated to an organ recital by Miss Coray, who handled the great instrument very well. The regular organist, Prof. McClellan, is now on his way to Denver.

Miss Bessie Knecht, the sleeping girl at the Holy Cross hospital, was reported slightly improved today.

Representative Barrett continues in a critical condition at St. Mark's hospital.

Eleven Salt Lake "hello" girls left last night for Butte, under the direction of General Manager Murray. The occasion of the exodus is the strike of the telephone girls in Butte, and the Salt Lake talent goes to fill the places of the strikers. The Butte girls organized a union some time ago, and demanded concessions which the company does not see fit to give. Mr. Murray will remain north until quiet is restored.

There will be a wedding this evening in the East Side Baptist church, where Rev. Frank Harnett, the pastor, will unite Miss Emma F. Parsons, local missionary of the East Side Baptist church, and W. H. Pratt, Sunday school missionary of the Baptist Publication society for Utah. The church auditorium will be attractively decorated. Both parties have many friends in this city, and a large number of them will welcome the bridal couple.

A local wholesaler says that if butter in San Francisco goes down one cent, it means shipment from there into the Salt Lake market.

MINE IS SOLD FOR $500,000

Property the Eagle and Blue Bell Of Tintic District.

BINGHAM CON., PURCHASER.

The Transfer is on the Basis of $2 a Share—Silver-Lead and First Class.

Unless the unexpected happens a control of the Eagle and Blue Bell mine of Tintic will pass into the hands of Capt. Duncan McVichie, for the Bingham Consolidated Mining company within the next few hours. While the agreements had not all been signed up at press time it was stated that a meeting would be held later in the day at which all arrangements would be concluded for the formal transfer.

An option has been in existence for some weeks for a majority of the stock. The basis upon which the deal is being made is at the rate of $2 per share, or $500,000 for the entire property, the capitalization being 250,000 shares. The Eagle and Blue Bell mine is one of the best mines in the Tintic district, and by men who claim to know it thoroughly, is said that the purchasers are getting it at a low figure.

The Bingham Con. needs the class of ores produced by the mine to blend with those from its Bingham properties.

Jackson McChrystal and brother have been among the heaviest shareholders in the Tintic property. It is said that the first payment to be made will amount to $10,000 and that the balance are to come soon. Captain McVichie and a crowd of experts recently made a thorough examination of the mine.

NO UNCERTAINTY ABOUT IT.

Paine's Celery Compound.

The Wondrous Spring System Cleanser and Health Builder Makes Sick People Well.

It is a Heaven-Sent Blessing to Disease-Burdened Men and Women.

There is nothing doubtful or uncertain about the working and effects of Paine's Celery Compound. It stands supreme as a spring system cleanser and health builder. It reaches without loss of precious time the cause of sickness and disease in a way that no other remedy can do. Its first and most important mission is the purification of the life stream, increasing its volume and quality. It then stirs all the organs that work sluggishly. It restores strength, renews vitality, regulates the kidneys, liver and bowels, and makes people well and strong. For these reasons Paine's Celery Compound as a spring medicine stands far above all other prescriptions and remedies that promise so much and accomplish so little. Mrs. R. O. Starkey, Jackson, Mich., says:

"For many years I suffered more than tongue can tell from eczema and blood troubles. In the spring season my agonies and distresses were increased, and I often wished to die. Boils and pimples added to my sufferings, and for weeks I was not fit to be seen. Doctors afforded me but small relief. I spent scores of dollars for advertised medicines, but got no cure from them. I got hold of one of your books and read about a lady who had been afflicted as I was and cured by Paine's Celery Compound. I procured a bottle of your Compound without delay and began to use it. After I used the third bottle, I experienced a blessed change, the eczema and eruptions were disappearing. So happy was I that I continued with the medicine till my face and body were clear and smooth. I am a new woman in every respect. I am now well and strong, and believe the cure is a permanent one. May heaven bless you in your work of doing good to suffering humanity."
