NOTICE.

LOGAN, Utah, July 20th, 1878.

We the undersigned, farmers of Cache County, Utah, hereby certify that we have this day witnessed the McCormick Harvester and Binder at work on the farm of John Ash, at Logan, and consider the machine a complete success in the most essential parts, viz: elevating, binding and delivering the bundles after bound. It does the cleanest work of any machine yet introduced into this valley, elevating and binding every straw, and not scattering and wasting the grain as other machines do. The delivery of the bundles is perfect, as each sheave is pushed gently off the platform by the succeeding one, and strikes the ground butt first, thus avoiding the threshing out of ripe grain.

DAVID O. CALDER

BEGS leave to announce to his numerous friends that he will continue the business created by him, and established in the year 1860, and hopes, by strict personal, and intelligent attention to business, asking only the lowest possible prices for Pianos, Organs, Band Instruments, Musical Publications and General Musical Merchandise, and by personally guaranteeing all goods sold by him to be precisely as set forth, to merit the confidence and patronage of the public and the trade.

On application he will be pleased to communicate his three years system of selling pianos and organs, by which purchasers can at once obtain first-class instruments at extraordinary low prices, and on such easy payments as will meet the circumstances of all classes.

THE DAUSMAN & DRUMMOND TOBACCO COMPANY'S

This 16 ounce army pound is marked into 16 equal spaces (1 1/2 x 1 1/2), each space representing an ounce. It being justly divided, the consumer is satisfied with his allotment, and the retailer knows that he has given neither too much nor too little; as he is liable to do where the lump is not so marked. This lump also renders it unnecessary for the retailer to have more than one package of Tobacco open at a time, as he can accurately cut any size lump needed from a 12 ounce lump down to a single thick pocket piece. It is the only plug of Tobacco marked for the benefit of the dealer and consumer. All others marked with tin wood, leather, or other tags, or in any other manner are so only for the benefit of the manufacturer.

It saves interest, as a single package gives the dealer the sizes he requires, it is not necessary to keep six or eight open at a time as is usually the case.

The manufacturer is able to make a better chew in a pound lump than in a smaller one for the same money. No loss can accrue from change of styles or variation in prices. Most dealers know by bitter experience how great an advantage this is. It is manufactured with the utmost care and each plug is perfect in chew and style.

For sale by all Wholesale Dealers.
