

UNIVERSITY OF UTAH.

President Kingsbury spoke at River-ton Thursday evening on "Establishing High Schools."

Last week Professor Lyman's students in surveying began making a series of observations on the sun, for the purpose of determining a true meridian. Results thus obtained will be checked by observations on the North star as soon as the weather permits.

Judge W. H. King was shown through all the departments of the University by Professor Stewart on Wednesday.

Professors Stewart and Allen will deliver their illustrated lecture at Springville Friday evening, March 14, and at Spanish Fork the following Sunday night.

The question, "Resolved, that the duties on the imports from Cuba to the United States ought not to be reduced," was debated at a meeting of the Social League on Monday. The speakers were affirmative, Wm. Sharp, Ray Hubbard, and E. T. Cannon; negative, David Davis, Ray Jones and Seba Parney. The decision was in favor of the affirmative.

At a special meeting of the Athletic association last week the constitution was adopted. The following are the newly elected officers: George C. Riser, president; James Wade, vice president; Ben Roberts, treasurer; Louis Seckels, secretary; W. L. Rideout, Varsity Kingsbury; John B. Hume, George Brown, executive board.

The Senate and Current History class met in debate on Tuesday. The question was: "Resolved, that the whites of the Southern States are justifiable in using every peaceable means to maintain their supremacy over the negroes." The Current History class took the negative side, and were represented by Messrs. Will Ray, Geo. Gibbs and Will Dunn. The Senate speakers were Messrs. Frank Holman, "Cand. Barnes and Elbert Thompson. The Current History boys were given the decision by the judges.

Miss Pearl Foster has withdrawn from the university.

Fred J. Park has just finished a map of the Douglas reservation, including the university grounds, Mt. Olivet cemetery and the land for which the university has made application. Fred Elgren has made one of the university campus, showing the buildings already completed and those needed at present. The map of the Douglas reservation is being made by the university.

The following program was given by the "Orphans" at Normal society yesterday: Piano solo Grace Nielson Recitation Ellen Tibbitts Address H. R. Driggs Piano solo Donna Mills Professor Marshall's students in English are studying "Burke's Speech on Conciliation with America."

State Senator Mackay of Wasatch county visited the University on Thursday. The University Summer school will open June 9. Course in English grammar, literature, Latin, history, pedagogy, psychology, political economy, domestic science, physics, mathematics, and drawing will be given. The following is a list of the instructors: Prof. Marshall, Merrill, Bennett and Coray, and Instructors Beckstrand, Evans, McGhie, Holmes and Pincomb.

Yesterday Prof. Marshall, deputy state superintendent of public instruction, went to Elmore. He was accompanied by Miss May. They conducted the teachers' institute of Sevier county at that place today. Last night the professor delivered a public lecture on the "British government as related to America." Tonight he will deliver an illustrated lecture on "Westminster Abbey."

At last Monday's meeting, the faculty made changes in the engineering courses, that from the standpoint of the engineer, still further improved them. The course in theoretical mechanics was eliminated, the course in hydraulics and mining strengthened, and a new course in mechanical laboratory was added. A number of optional courses replace some of the previously prescribed work in the sophomore and junior years of the electrical course. These changes were made to accommodate those who wish to pursue a mining electrical course.

On Tuesday morning Judge King spoke at chapel at Miss Helena Taylor sang "Plains of Peace." Judge King spoke again Wednesday and Miss Milla Williams, the child soprano, sang the "Holy City." The speaker Thursday morning was Judge H. P. Henderson, and Miss Julia Jones sang "North the shade of palms." Yesterday morning Instructor Best held a singing rehearsal.

UNIVERSITY TRAINING SCHOOL.

The first grade pupils, in their constructive work, are studying the equipments of a fire department. They are making models of caps, coats, bells, ladders, hose, horsecars and other articles used by the fireman.

A number of school patrons visited the kindergarten on Wednesday.

The other day the beginners in charge of Miss Munt visited the Z. C. M. L. shoe and overall factory.

The pupils of the second grade in their domestic science work, were engaged this week in weaving hammocks.

Mr. Peterson's pupils have just finished a set of simple experiments in electricity. They made their own apparatus in the manual training room.

In their manual training, the pupils of the eighth grade are working with hard wood. This week they made nut crackers.

Miss Herman's pupils are studying the practical phases of colonial history. Under the direction of Supervisor Pincomb they have been making soap in the primitive way. This work was done in the domestic science room.

The teachers of the training school were surprised when told of the death of Col. Parker. Nearly all of them have been students under Col. Parker at Chicago.

The Parents' club will meet in the kindergarten room of the training school next Friday evening. Supervisor or Pincomb will talk on "Domestic Science" and the subject will be discussed by Mrs. C. E. Allen.

SALT LAKE CITY SCHOOLS.

The pupils of room 12 Union school, have been hard at work on the essays which are to be sent to the superintendent's office, and some very creditable work has been done.

Mrs. Barker of the Franklin very pleasantly entertained a company of the Franklin teachers at her home on Thursday afternoon.

Misses Reynolds and White, teachers from Mantt, inspected the work at the Oquirrh during the week.

Lee Foreman of room nine, Franklin school, was awarded a special promotion this week.

Visitors at the Oquirrh during the week were Messdames Couch, Hannah Taylor, May Taylor, Hesselberg, Brown, Kingsbury, J. D. Doolittle and Misses Morrison and White.

Supt. Pinney was a visitor at the Franklin on Tuesday.

Forest Walden of room 17, Oquirrh school, who has been ill with typhoid fever, has returned to his duties.

Mrs. Emerson Young was a visitor at the Union school on Wednesday.

Among the Franklin visitors the past week were Messdames Baldwin, Hansen, Brennan, Johnson, Allen, Brown, Jensen, Edwards, Williams, Anderson, Cheshire, Hawley, La Belle, Sinclair, Thomson, Clark and Bachelier.

The pupils of Miss McKenzies' room at the Oquirrh have been doing some fine review work in geography consisting such subjects as "Niagara Falls," "Yellowstone Park," "Mammoth Cave," "Florida Caves," "The Colorado," etc., which have been most interesting and instructive.

Mrs. Gibbons of the Franklin has been absent from her duties this week. Miss Mitchell substituted in her stead.

Miss Ure of the Lincoln visited Miss Evelyn Kelly of the Oquirrh on Tuesday morning and Miss Martin of the Washington Tuesday afternoon.

Supervisor Wetzel visited during the week the Bryant, Lowell, Fremont, Irving and Washington. Mr. Wetzel has inaugurated the scheme of written tests in music, which is productive of very gratifying results, so much so that the plan will be in vogue hereafter in all of the schools of the city.

Miss Brown of the Wasatch visited Miss Scholtes of the Grant on Wednesday.

Miss Hunter of the Wasatch visited Miss Brown of the Webster Thursday morning and Mrs. Roy of the Washington Thursday afternoon.

Miss Anderson of the Jackson was absent from her duties on Monday, Mrs. Simpson taking her place.

The fine showing made by the Jackson school in its exhibit during this week is certainly very complimentary to Principal Bradford and his associate teachers. During the coming week, work from the Jordan, Uintah and Bonneville will be on exhibition.

Supervisor Pollock visited during the week the Webster, Lincoln, Riverside and Uintah. Principal L. M. Van Cott and her corps of teachers at the Irving have earned the gratitude of some parents if children of that school by providing several children with substantial clothing in order that they may attend school.

Supervisor Elliott met teachers of the first grade on Tuesday, fourth grade on Wednesday, and eighth on Thursday. Supervisor Pollock met teachers of the second grade on Wednesday.

The Longfellow school has a new piano which is greatly appreciated by teachers and pupils.

Supervisor Elliott made an excellent

A CAUSE OF HEADACHE.

One Very Common Cause, Generally Overlooked.

Headache is a symptom, an indication of derangement or disease in some organ, and the cause of the headache is often overlooked. Headache is a common complaint, and is caused by many diseases have headache as a prominent symptom; derangement of the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or fit fitting glasses, all produce headaches, and if it could always locate the organ which is at fault the cure of obstinate headaches would be a much simpler matter.

However, for that form of headache called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head and throat; when the headache is located in back of head and neck it is often caused from catarrh of the "mouth or liver."

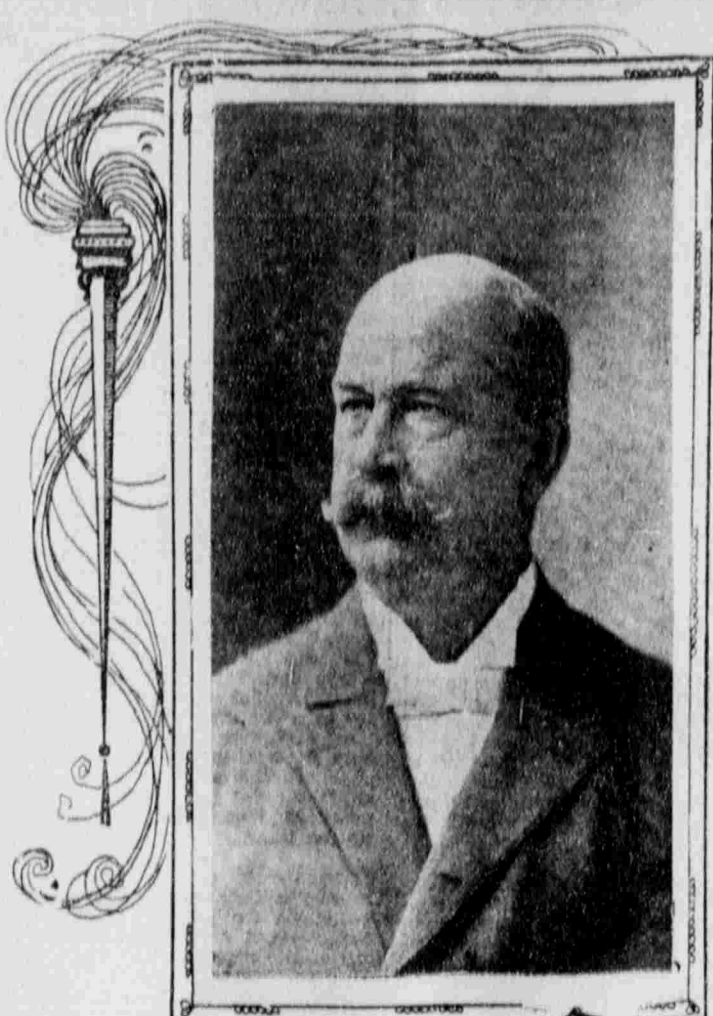

At any rate catarrh is the most common cause of such headaches and the cure of the catarrh causes a prompt disappearance of the headaches. There is at present no treatment for catarrh, but a convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form, composed of antiseptics like eucalyptol, guaiacol and blood root which act upon the blood and cause the elimination of the catarrhal poison from the system through the natural channels.

Miss Cora Ainsley, a prominent school teacher in one of our normal schools, speaks of her experience with catarrhal headaches and eulogizes Stuart's Catarrh Tablets as a cure for them. She says: "I suffered daily from severe frontal headache and pain in back of the eyes, at times so intensely as to incapacitate me in my daily duties. I had suffered from catarrh more or less for years, but never thought it was the cause of my headaches, but finally became convinced that such was the case because the headaches were always worse whenever I had a cold or fresh attack of catarrh."

"Stuart's Catarrh Tablets were highly recommended to me as a safe and pleasant cure, and after using a few boxes which I procured from my druggist I was surprised and delighted to find that both the catarrh and headache had gone for good."

"Stuart's Catarrh Tablets are sold by druggists at fifty cents per package, but they contain absolutely no cocaine (found in so many catarrh cures), nor any harmful drug. They contain simply the wholesome antiseptics necessary to destroy and remove from the system the germs of catarrhal disease."

COLONEL FRANCIS WAYLAND PARKER.

Colonel Francis Wayland Parker was born in Piscataquis, N. H., on Oct. 9, 1837. At the age of three years, when he entered the village school, he was able to read. His father, who was a cabinetmaker, died when the son was six years old. The boy was taken then and bound out to William Moore of Gofftown, with whom he worked for five years, attending school a portion of each winter. He acquired an education by working for his tuition and at the age of 21 he was principal of the grammar school of his native village.

He went west in 1855 and established himself in high and elementary schools at Carrollton, Green county, Ill. The pupils of that school had a reputation of having run several of their teachers out of town, but they didn't run this young man out of town or out of the school room. He conquered them by courage and kindness, but not until after several of them had measured their strength.

The southern sentiment practically drove him out of Carrollton, and at the outbreak of the war he went back to New Hampshire and enlisted in the Fourth New Hampshire volunteers. Before he got to the field he was made a lieutenant, and four years later he brought the regiment home as a brevet colonel commanding. He went home on a furlough in 1864 and took part in the Lincoln campaign and also got married to Miss Phoebe E. Hall. He again rejoined his regiment and won his promotion as brevet colonel for bravery at Deep Bottom.

When the war was over he returned to the school room, again in the west. He was made principal of a district school in Dayton, Ohio. He began to introduce new methods and of course met with opposition, particularly from the parents. But the school board knew his strength and repelled to the clamor by making him principal of the city normal school and later assistant superintendent of the city schools. About this time, 1871, he received a legacy of \$5,000, which he promptly used in securing higher training abroad. Mrs. Parker died, and the grief-stricken husband went to Berlin, where he studied psychology, philosophy, history and pedagogy for two years in King William's college. On his return from Quincy, Massachusetts, he accepted the position of superintendent of schools at Quincy, Massachusetts, which he accepted. He introduced his new methods, which separated the teacher and pupil from the text-book and he met with opposition. About this time he was elected one of the supervisors of the Boston school system and he had to abandon his methods temporarily. But his opportunity came when he was offered the position of principal of the Philadelphia of the Philadelphia.

At the same time he was offered the superintendency of the Philadelphia of the Philadelphia. He thought the west presented a better field for his work, so he went to Chicago. It was his ambition to make the normal school the best of its kind in the country, and he gradually demanded a higher standard of scholarship of those who entered the school. But here he was opposed bitterly to the time he resigned to accept the presidency of the Chicago Institute. At the time he retired in 1899 he had full confidence of the superintendents of schools, but not the unrestricted approval of the members of the board of education.

Mrs. Emmons Blaine was a great admirer of his views and she founded an institution in which they might be given their full freedom. When he retired from the normal school nearly all of the teachers went with him, and they worked under his guidance up to the time of his death. There are friends of Colonel Parker, who rank him with Froebel, Pestalozzi, Basedow and Herbart. There are those, not unfriendly, who think he was mistaken, but the consensus of opinion in the educational world of Europe and America is, that he was one of the greatest educators of his day.

address upon "Art in Education" before an enthusiastic parents' meeting at the Emerson on Friday afternoon.

Mrs. Whitaker gave a talk to the teachers of the Fremont last Monday on Muriel and his paintings. The talk was prefaced by a brief account of the history of Spanish art and was an inspiration to all.

Mr. Wetzel and Mrs. Elliott were welcome visitors here this week. Miss Lawson was honored by a visit from Mrs. McKay and Miss Wall of the Ninth school.

Piano are under way for a carnival to be given by the Webster school March 8, for the benefit of the library. It is a gratifying fact that the impetus given by Supervisor Elliott in her work resulted in the department under her directing going forward with the absence with most satisfactory progress.

Professor Wetzel of the Salt Lake City schools delivered two lectures last Saturday to the patrons and teachers of the public schools of Elmore. One in the afternoon on "The Duty of the Parent to the Public School," the other in the evening on "The Importance of Vocal Music in the Public School." Both lectures were excellent and those who missed hearing them certainly missed an intellectual treat—Wasatch Wave.

Superintendent Christensen is expected to be at his post on Monday.

HIGH SCHOOL.

On Wednesday morning in assembly one Mrs. Igleheart spoke to a very interested audience upon "The Literature of the South." Those who heard the lady were simply delighted, and she will be doubly welcome whenever she may again appear. Following Mrs. Igleheart came a vocal solo by Miss Helen Shepard, which added greatly to the pleasure of the occasion. In assembly No. 2 Rev. Dr. W. M. Patten was announced, who spoke upon "The Value of Biographical Reading for Young People." His effort was scholarly and intensely interesting, and his audience gave unmistakable evidence of its keen appreciation.

The High school will have 100 candidates for graduation from its several courses in June. This will be much the largest class in the history of the school.

The opera chairs that have been recently put into use are much appreciated and are of inestimable value in many ways.

The staff of the Red and Black held an important meeting on Thursday afternoon.

L. D. S. UNIVERSITY.

Salt Lake City—Instructors Larsen and Funk were absent from school in the early part of the week, on account of sickness.

On Monday the first year students and the preparatory department moved into the Barrett building. The first floor contains five good class rooms.

Instructor and Mrs. Le Roi C. Snow very pleasantly entertained the faculty on Thursday evening.

Student George H. Taylor spoke to

A HAPPY DELIVERANCE FROM THE AGONIES OF RHEUMATISM

Paine's Celery Compound

Achieves a Wonderful Victory Over the Terrible Disease.

A VERY RECENT LETTER FROM A VETERAN OF THE CIVIL WAR.

If you are a sufferer from rheumatism in any of its terrible forms—muscular, inflammatory, or sciatic, be assured of the glorious truth that Paine's Celery Compound will work for you a permanent and happy cure. The thousands of letters received from people who have been thrown of their burdens and agonies, prove conclusively that Paine's Celery Compound is the one great specific for this awful disease.

Medical evidence freely given by honest and unbiased physicians, places Paine's Celery Compound ahead of all other prescriptions and medicines as an infallible cure for rheumatism, neuralgia, nervous diseases, kidney trouble, liver complaint, derangements of the stomach, and troubles arising from an impure condition of the blood.

The following letter dated 154 East 4th Street, New York, February 18, 1892, should inspire all rheumatic sufferers with new hope of a better and happier life. Mr. Edwin Bullis says:

"I have suffered with rheumatism for five years and have been treated by several physicians, amongst them one specialist. I found no relief until I began using Paine's Celery Compound. After using three bottles of the marvelous medicine, I am entirely cured. I take great pleasure in recommending Paine's Celery Compound as a medicine which will cure all kinds of rheumatism and kidney disease. I really find Paine's Celery Compound worth its weight in gold, and most cheerfully recommend it to my friends and the public. I am a veteran of the Civil War and sixty years of age. Again I say, I am fully restored to health by Paine's Celery Compound."

(Original and Only Reliable) Beware of poor imitations

will put on a play under her direction before the end of the semester.

The boys in the woodwork department have been making some very fine mandolins and guitars. It is expected that by the end of the semester the academy will resound to the music of home made instruments.

Prof. Miller's music classes are doing excellent work. There are now two orchestras, one which plays the regular orchestral music and one which plays dance music only. The orchestras are often called to play in the surrounding towns.

The boys' classes in the gymnasium have been divided into sections, with a leader over each one. In this way all the boys use the apparatus and each is drilled in the various exercises. The leaders meet every day and receive instruction for the following day's work.

Joseph R. Adams, a member of the expedition party returned last week. He related some of his experiences in Sunday school and Sunday night meeting. Mr. Adams says he has gained much by his journey, but is glad to be back again among his friends.

The ball given by the '65s last Friday night was a most successful one. Aside from the social part two special features added to the enjoyment of the evening. The relics and specimens which the expedition brought home were seen for the first time and a few stereoscopic views illustrating incidents of the party's travel were very successfully shown.

Elder Chauncey Spillbury, who has recently returned from a four and a half year mission to Samoa, visited the school on Tuesday and related some of his experiences during devotional exercises. Mr. Spillbury was a graduate of '91, and was much pleased to see the progress the school has made since that time.

Joseph Adams, one of the expedition boys, has brought some very valuable specimens to the academy. The beautiful quartz or royal bird of Quiche, has attracted much attention and admiration from the students. Among other things, Mr. Adams brought a number of wood-flowers, specimens of the mosses and medicinal plants of Central America and 175 specimens of birds.

The best program given before the Literary society was furnished by the class of 1903 last Saturday evening. "Bacon and His Works" was the subject of an excellent paper by J. O. Mellor, Miss Thurman was at her best in the "Impersonation of a small bad girl." A recitation by Horace Scerist, and an oral story by Del Webb were also much appreciated. Musical numbers were given by some of the best talent in the school.

B. Y. A. TRAINING SCHOOL.

Some very good work in geography is being done throughout the training school.

The third grade is making a special study of the birds. The children are very interested and show marked progress in the work.

The girls in the third grade have just completed a full set of dolls clothes.

Joseph Adams, returning from South America, was a delighted visitor at the training school on Monday.

Prof. Hinkley, who teaches nature work in the grade, took his class on Temple Hill on Tuesday afternoon for the purpose of teaching land forms to the children.

We were pleased to have Chauncey G. Spillbury, a former student, as a visitor this week. Elder Spillbury was a companion of E. D. Smart, teacher of the fifth grade during a four and a half years' mission to Samoa.

Miss Mary Woodruff has presented the seventh grade with Rosa Bonheur's picture, "Flowing." The children are very pleased with pictures of this class and are always grateful to the donors.

Miss Tim Monk presented the seventh grade with a number of beautiful "Bird Pictures." The children have mounted these and thus made a border for the blackboard.

The pupils are moulding some excellent sand maps of "Oceania." The work is done under the direction of F. H. Hammond, one of the practice teachers.

The children are very interested in making a collection of products, pictures, etc., of the various countries studied. These specimens will be placed in a cabinet made for that purpose. Already the pupils have had a miniature Japanese house, a handmade junk and many other interesting things.

BRIGHAM YOUNG COLLEGE

Logan, March 6—A game of basketball will be played again, next Saturday, by the college team, and the team of the Latter-day Saints University.

The last game played by the two teams is thrown out, since both claim championship. Mr. James Langton of Logan will be referee in the game, and Messrs. Stewart and Daniels of Salt Lake will be umpires. The college team is practicing earnestly and making every effort to be conquerors.

In the debate at the Philomathean Literary society last Friday night, the first year class came out victorious over the 1902s. The debate was a hard struggle for both sides, but the firsts convinced the judges that the question should be decided as Resolved, That the Boer war was unjustifiable.

In students' meeting last Monday, the time was principally occupied by Walter Scott Hall, special. He entertained the students by giving an outline of some of his experiences as a soldier in Manila, among the Utah Volunteers.

On Monday, the college was honored by a visit from President Joseph P. Smith, bishop Preston and local members of the board of trustees. A meeting of the board was held in the president's office, and matters of interest to the college were considered and passed upon.

Miss Maggie Jones has returned to school and begun on her work again. She has had a long siege of typhoid fever, but will nevertheless graduate with her class in June.

Professor Done of Salt Lake City, a former instructor in the college, was a visitor this week.

Professor Chamberlain has been granted a leave of absence from April 1st until the opening of school next year. He will spend the summer at the University of Chicago.

The commercial department of the college has arranged an exchange with the commercial department of the Agricultural college.

Three new sewing machines have been placed in the sewing department, one was a gift from Mrs. Linford, the instructor.

Professor Chamberlain will speak to the Saints in Richmond city next Sunday evening.

Melvin Ballard, one of the Bishops of the Second ward, will speak to the students in chapel Friday morning.

W. U. Buchanan, representing Houghton, Mifflin & Co., was a visitor to the college today.

The ladies' shower baths are now almost ready for use.

The students are holding on fine this year. The attendance was never before so great at this period of the year. The boys in the training school, under the instruction of Prof. Jensen, are doing excellent work in manual training.

STOOD DEATH ON.

E. B. Munday, a lawyer of Henrietta, Tex., once fooled a grave-digger. He says: "My brother was very low with malaria fever and jaundice. I persuaded him to try Electric Bitters, and he was soon much better, but continued their use until he was wholly cured. I am sure Electric Bitters saved his life." This remedy expels malaria, kills disease germs and purifies the blood; aids digestion, regulates liver, kidneys and bowels, cures constipation, dyspepsia, nervous diseases, kidney troubles, female complaints; gives perfect health. Only 50c, at Z. C. M. I. Drug Dept.

"Let the GOLD DUST twins do your work."

GOLD DUST is a woman's best friend when wash day comes around. It makes the clothes sweet and clean. Takes only half the time and labor of soap. Follow directions on packages. Made only by THE N. K. FAIRBANK COMPANY, Chicago, New York, Boston, St. Louis. Makers of OVAL FAIRY SOAP.

NOTICE TO THE PUBLIC:

THE NEW STAR GROCERY

Has opened at 132 So. State Street, under new management, where the FRESHEST AND CHEAPEST GROCERIES In the City will be found.

We want your business. A trial will convince.

WE GIVE TRADING STAMPS.

Others Are Offering Bargains

At this season of the year in order to make room for new goods, but "Bargains" is no name for the prices we are making to clean out stock. As an instance of this we offer you this week

A Solid Brass Rochester Table Lamp for \$1.99.

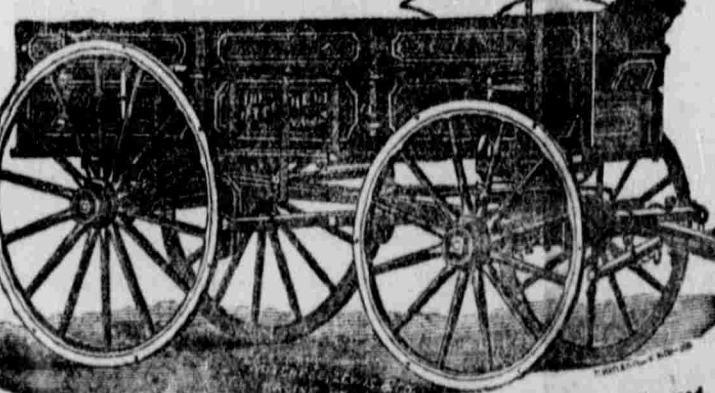

With lift-out oil pot and fitted with colored 3-inch globe. We think this hard to beat. Come and tell us what you think.

SCOTT-STRELL HARDWARE CO.,
103 Main Street.

P. S.—By the way, you will soon need tools for your spring work around the house and yard. Don't forget that our list is complete.

MITCHELL & LEWIS CO., Limited.

RACINE, WISCONSIN.

Manufacturers of the old reliable MITCHELL wagon, monarch of the road. Also all kinds of spring wagons. The Mitchell steel skin wagons are the best in the market, and are made expressly for the Utah trade. Call on the Utah Implement Co., Salt Lake City.

67 Laxative Bromo-Quinine Tablets

This signature is on every box of the genuine. The remedy that cures a cold in one day.

Dr. David Kennedy's Favorite Remedy

Cures Kidney, Liver, Bladder or Blood Disorders, or what is commonly known among women as Female Weakness. It is the only Kidney Medicine that does not constipate. It has cured thousands of sufferers. It will cure you. That's why most physicians prescribe it. That's why it is used so generally in hospitals. In every direction you will find it described for these troubles.

WILL CURE YOU.

Don't fool away your health, time, money and strength on attending to worthless remedies. DR. DAVID KENNEDY'S FAVORITE REMEDY, which has a record of thirty years of cures to its credit, and get well.

Trial Bottle Free

The readers of this paper can have a trial bottle of this wonderful medicine, and a guarantee of valuable medical advice, absolutely free, by sending their full post office address to DR. DAVID KENNEDY, 1111 Broadway, New York, and mentioning this paper. The medicine of this paper is guaranteed to be a cure for all diseases of the bladder, kidneys, liver, blood, or what is commonly known as Female Weakness. It is used in every direction you will find it described for these troubles.
