BY TELEGRAPH.

PER WESTERN UNION TELEGRAPH LINE.

FORTY-SEVENTH CONGRESS.

HOUSE

WASHINGTON, 3.—Political discussion ensued, in which the House, 122 yeas to 77 nays, (not two-thirds) refused to suspend the rules.

Knott moved to suspend the rules and pass the bill authorizing the Postmaster-General to readjust the salaries of third, forth and fifth classes, whose salaries have not heretofore been readjusted under the terms of section 8, act of June, 1866. Agreed to. Yeas, 149; nays, 33.

Dunnell moved to suspend the rules and pass the bill to amend the law relating to internal revenues. Agreed to. Yeas, 123; nays, 23. This is the bill which was some weeks ago reported from the committee on ways and means, and a synopsis of which was published at the time. It extends the bond period for retention in warehouses of distilled spirits, and places distilled spirits on the same footing as snuff, tobacco, cigars and fermented spirits.

The bill passed for the erection of a public building at New York. There was a good deal of opposition manifested to this bill by Holman and others who said it was the precursor of a number of similar measures, some of which afterwards passed.

The Speaker laid before the House a message transmitting a communication from the Secretary of State in further reply to the resolution calling for information of Thomas Shields and three other Americans in Mexico. Referred.

(Documents accompanying the message disclose no new facts which have not already been published).

Adjourned.

AMERICAN.

Reduction.

WASHINGTON, 3.—The March reduction of the public debt is the largest, with but one exception, of any year. Total reduction since 1865 is $10,000,000, total remaining is $1,500,000,000. The interest in 1865 was $150,000,000 per year, now it is $60,000,000.

Death of Jesse James.

KANSAS CITY, Mo., 3.—The news of the killing of Jesse James created an immense sensation in this city, although the report was generally treated with incredulity, and even at this late hour many unbelievers can be found. This afternoon, as soon as the news was received here, Police Commissioner Craig left for St. Joseph with a heavily armed posse of men to guard the body of Jesse James, and to protect the man who killed him. At the police station it was learned that Bob Ford, a young man who has been hanging about the station for the past two weeks, was the person who shot and killed James. Ford left this city about a week ago, and joined James in the vicinity of St. Joseph, remaining with him until an opportunity to kill him was found. From the police it is learned that Ford, who is said to be a member of the gang, was under the control of Craig, and was being used as an instrument for James' destruction. Ford is a young man about 22 years old, and looked like a verdant youth from the country. In appearance he is a mere boy, and is the last person in the world to be taken as the slayer of an outlaw.

Asylum Burned.

YANKTON, D. T., 3.—The Territorial Insane Asylum burned this afternoon. It was a temporary structure, used while the brick building now nearly completed was being constructed. There were 54 insane patients in the asylum, and of these the following were burned to death: Osmum Iverson, of Yankton County; Peter Peterson, of Cass County; Frank Lynch, of Union County; Joseph Haverly, of Lawrence County. The property loss is about $10,000, including the temporary building and its contents, comparatively nothing being saved. The origin of the fire is a mystery. It was first seen in the roof, and spread with such rapidity that there was no time to save property at all. The patients killed were at once removed from the building, but ran back into the flames after escaping from the custody of their keepers. The new asylum is not completed, but it can be used, and the survivors have been removed into it. All the bedding and furniture is destroyed, and the patients cannot be made very comfortable for a day or two. Citizens are contributing to their wants.

The Denver and Rio Grande.

COLORADO SPRINGS, 3.—The annual meeting of the stockholders of the Denver & Rio Grande Railway was held to-day. Over $20,000,000 were represented. The annual report was submitted, showing that the gross earnings for 1881 were $6,240,000; net earnings, $2,624,000; fixed charges, $1,369,000; amount applicable to dividends, $1,255,000. Four quarterly dividends were paid, amounting to $814,000; mileage increase for year, 380 miles; increase of gross earnings of 1881 over 1880, 79 per cent. The amount of freight carried in 1881 exceeded that of 1880 by 74 per cent.; the number of passengers carried increased 143 per cent. The Board of Directors of the company was increased to nine members, and the following were elected: Wm. J. Palmer, Wm. A. Bell, Charles F. Woerishoffer, D. C. Dodge, Lyman K. Bass, H. A. Risley, H. A. Engler, C. B. Lambern and J. W. Gilluly. The meeting approved the policy of the directors in deferring dividends until the completion of the road to Utah, and also authorized the lease of the Denver & Rio Grande Western Railway.

New Mines.

CHICAGO, 3.—Two very promising gold and silver mines have been discovered along the line of the Northern Pacific Railroad in Montana, and rapid strides are now being made towards their development. one is called the Maginnis mine. It is located 69 miles south of the Missouri River 140 miles north of the Yellowstone, 20 miles west of the Musselshell and on the eastern base of the Big Snowy Mountains. The other mine—the Clarke's Fork—is located farther to the south. It is just west of Clarke's Fork River, south of the Yellowstone River, and very nearly touches the northern boundary of the National Park, and is about 60 miles southwest of Coulson.

Sudden Death.

NEW YORK, 3.—The editor of the *World* has been notified by Trescott that General Hurlbut, late United States minister to Peru, died suddenly of disease of the heart, on March 28th, at Lima.

E. H. Talbott, nephew of the late General S. A. Hurlbut, says Hurlbut told him three years ago that he (Hurlbut) would not live over five years. He had been in a poor condition physically. Talbott has a letter of a late date in which Hurlbut says he cannot enter into newspaper discussion, but that he is not complicated in the discreditable Peruvian project, and that Shepherd is a curious mixture of the knave and fool, with a preponderance of the former. His project is insane and illegal, but has somebody behind it who believes in him. Hurlbut expresses a fear that the United States would back down, and this would compel his return.

General Hurlbut's family is not in good condition pecuniarily.

Vigilantes' Work.

PUEBLO, Col., 3.—Thos. Bugnell, who arrived yesterday from St. Charles river, southeast of Pueblo, brings intelligence that three more victims have been hung by the vigilantes. The victims were being dragged toward a thicket by a number of men, and blood was streaming from their mouths and nostrils, from blows received. The lynchers very decidedly requested Mr. Bugnell to move on and not interfere. As he turned away he could plainly hear the doomed men's vain appeals for mercy.

Financial Programme.

BOSTON, 3.—The *Transcript*'s financial article has the following: If the scheme now lying quietly agitated in influential banking and political circles in New York obtains even a fair prospect of ultimate success, it will have a most important effect upon business and speculation in this country. It is proposed to replace the outstanding government 3½ per cent. bonds, which are now payable at the option of the government, with an issue of $200,000,000 legal tender notes bearing two per cent per annum interest, which national banks may count among their assets as legal reserve. This is but an outline of the plan. We have reason to believe that this plan is being not only worked up in New York and Boston, but is before cabinet circles in Washington.

Flour Mill Fire.

SAN FRANCISCO, 3.—A Stockton dispatch says: A fire this afternoon destroyed Sperry & Co's large flouring mill and warehouse containing an immense quantity of grain, also several other buildings and contents. The total loss is estimated at $200,000, insurance, $80,000. Several men were severely injured during the fire.

Half a Town Burned.

Half the business portion of Dayton, Washington Territory, burned last night. Loss not ascertained.

Strikers.

FALL RIVER, 3.—The spinners at the Sagamore mill have decided to strike. They allege the mules are too heavily weighted.

FOREIGN.

Mexico and Guatemala.

CITY OF MEXICO, 2. — Congress opened and President Gonzales read an address. It stated the Guatemala difficulty remains unsettled, and Guatamala must now speedily renounce the idea of acquiring the states of Chiayas or Soconousco or war is inevitable.

The President congratulated the country on the great progress made in building railroad and telegraph lines, the increase of public revenues and the emigration of Latin races of Europe to Mexico. He defended the government's action in the State of Zalasco trouble, stating the time had arrived when all interior strife must be settled in some peaceable manner.

Tempestuous.

HALIFAX, 3.—The steamer *Ayrshire*, from Montrose, Scotland, for New York, with potatoes, put in here short of coal. She had a most tempestuous voyage. The captain had his arm broken, the carpenter had his leg broken, and the boatswain his shoulder dislocated. The second officer was washed overboard, but a returning wave carried him again on deck.

The captain and crew of the brigantine *William* wrecked on Sable Island, have arrived here. The vessel got jammed in the ice, and provisions gave out. The crew then subsisted for 22 days on oats which had been in the vessel's timbers for two years. Water was obtained from pots in the ice.

British Rebuffs.

LONDON, 2.—The St. James *Gazette*, referring to a dispatch from the New York correspondent of the *Standard*, stating that the American Secretary of State had requested Mr. Lowell to apply for a reprieve of Mr. Lamson, hopes that Mr. Frelinghuysen has not instructed Mr. Lowell to do anything so unusual and so improper, and has the following offensive paragraph: "We trust that if the United States government should really have committed itself in the manner alleged, that it will receive the rebuff at the Home Office which it so richly deserves, and which the Home Secretary, among his other accomplishments, is very well qualified to administer to it."

Terrible Calamity.

The Spanish steamer *Yrurac Bat*, Captain Ugarte, from Liverpool for Porto Rico, came in collision with the Royal Mail Company's steamer *Douro* from Brazil, off the coast of Finnesterre, Spain, on Saturday night. Both steamers sank. The steamer *Hidalgo* rescued 17 persons from the *Douro* and 67 from the *Yrurac*, and landed them at Coruna.

Thirty of the crew of the *Yrurac*, including the captain and pilot, were drowned.

Thirty-five of the *Douro*'s passengers were saved. The number of drowned is unknown.

Sir Henry Wrixen Beecher, Baronet Creagh, of County Cork, Ireland, and Lady Beecher were saved from the steamship *Douro*, which came in collision off Cape Finisterre with the steamer *Yrurac Bat*. The names of 24 of the passengers saved are published, but includes no Americans. The third and fourth engineers of the *Douro* were also saved. The *Douro* had on board 253,000 specie. The crew numbered 81. It is known that the first and second engineers and four passengers are among the drowned.

Stanton Wins as Usual.

It appears from dispatches from Newcastle that the race on the Tyne this afternoon, between Hanlon and Boyd, was a fairly close one. Some accounts state that Hanlon won by from two to three lengths. Boyd won toss for position, and chose the north side of the river. At the start, which was a splendid one, Hanlon led slightly. At Redhugh bridge, four and a half furlongs from the starting point, Hanlon had increased his lead to one and a half lengths. The length of the course was about three miles and three and a half furlongs. An immense crowd witnessed the race. Hanlon's time, 21.08.

BRIEF TELEGRAMS.

At Quebec the snow is several feet deep and blocks all the roads.

The coroner's jury in the case of the woman whose body was found near the wreck of the *Golden City*, censure the bad management for storing in close proximity tar and jute in open packages.

At Portland, the Land League denounce the infamous conduct of Minister Lowell and demand his recall. The President is also requested to demand an immediate trial or release of all Americans now confined in British dungeons.

The statement made by Johnny Roche, Paddy Ryan's trainer, is made public to-day, accusing Ryan of selling the recent prize fight in Louisiana. Roche says: "One day Ryan said to me, 'John, do you know this would be a good selling fight? A man could make $20,000 if he would throw the thing, and no one would be the wiser.'"

Mrs. Mackay is exceedingly indignant at the report current in Paris of her daughter's approaching marriage with a scion of the Bourbons. She informed a *Voltaire* reporter the other day that there was not a word of truth in the story. If a monarch were to propose for Miss Mackay, declared her mother, he would be refused. Mrs. Mackay expressed herself very strongly on the whole subject. She complains that she is besieged by fortune hunters. "If this goes on, I shall have to put up a notice on the door," said the wrathful little lady, "announcing that in conformity with American custom, Miss Mackay will not have any marriage portion."

A VOICE FROM THE SOUTHERN STATES.

NASHVILLE, Tenn.,
March 15, 1882.

Editor Deseret News:

While the common rabble, the hireling priest and the press are busy in denouncing and lying about the "Mormons," of whom they know about as much as they do of the hereafter, and while the National Assembly is framing inimical laws for the people of Utah, the Elders are quietly at work preaching the gospel of truth and baptizing the penitent believer. And the more opposition, the better success attends the labors of the missionaries; the more sharp persecution from without, the more of a unity of spirit is seen among the Saints.

THE CONDITION OF THE MISSION.

In South Carolina, within a few months, the two Elders laboring in that field have added to the fold of Christ 17 souls. Also in this, the Tennessee Conference, several baptisms have recently been reported. Since last November we have had the pleasure of leading into the waters of baptism 21 souls near Baird's Mills, about 25 miles from this city, who with those previously baptized, make a branch of 30 members, besides a number of children that have been blessed. A late report from hitherto turbulent Georgia chronicles everything remarkably quiet. In the Conference of Virginia, that State, where, above a century ago, such a liberal spirit prevailed as to include, within the mantle of its protection, the Jew and Gentile, the Christian and the infidel, the Mahomedan and the Hindoo of every denomination, now, in this liberal and enlightened nineteenth century, it is not without molestation that the pure doctrine of Jesus Christ can be taught. And though some unpleasant opposition is experienced, still the Elders are ever ready to stem the popular current and to

"Go where duty calls,
Against a world in arms."

WHAT THEY SAY OF US—POLYGAMY.

One cannot pass a bookstore without seeing in its windows scandalous stories about the "Mormons," and ridiculous illustrations, such as task-masters set over the "Mormon" women in the fields. Varied are the comments made by the people about the so-called "Mormon" problem. Some say the "twin relic" ought to be wiped out; but, as the South had no desire to see the other "twin" abolished, so now it refuses to join the "Yankees" in holding anti-"Mormon" mass meetings, though letters have been received by leading citizens in all the large towns of the South, asking their aid in promulgating the "doctrine of hate," as "the curled darling of the nation" hath said.

Of course the present furore is said to be against polygamy, but people have no correct information on the subject, nor do they wish to be correctly informed. The sensational drama, "The Hundred Wives," was performed here about a year and a half ago for a whole week with great success. This serves as a good index to the kind of trash the people devour with greedy appetite. Some will at first try to disprove the doctrine of plural marriage from the Scriptures, but failing, often say, "Well, if the bible does sanction it, I'll burn the myth," so much faith have they in their guide book. They regard one who *believes* in the divine marriage of Abraham and Jacob with holy horror, at the same time their own *practices* are bad enough to call down a similar destruction as that which befel the cities of the plain. Why a genuine black son of Africa will soon have to be sought for on his native soil; they are, forsooth, becoming pretty scarce in the South. Yes, they are a pure they are a holy nation.

HARD TIMES AHEAD.

In several counties of this and the adjoining States, many people are in a destitute condition. Besides the recent floods in the Mississippi valley, which rendered thousands homeless, and the scarcity of provisions from last years' drouth, a small insect is eating up the young wheat, which, in some localities, is already destroyed. Though some still have a meagre supply of corn-bread and bacon, if the wheat crop fails, truly "hoe cake" and greens will be a luxury.

LIGHT WINTER—THE EMIGRATION.

The past winter has been the mildest known for years. We have had but two very slight snow storms, and the "beautiful" lingered but a few moments. The ground is now clothed with a garment of velvety green; the fragrant flowers are unfolding their blossoms to the sun, while the orchards have been in bloom for several weeks. Numerous birds fill the air with their delightful strains, among which the varied notes of the ever welcome mocking bird are most enjoyable.

The first emigrant company will leave Chattanooga on the 22d inst., for Manassa, Colorado. The company will probably number about 75 souls.

Ever praying for the triumph of truth, I remain yours, in Zion's cause,
A. H. SNOW.

I WISH the 50,000,000 of American people to understand that the EDMUNDS bill is not good for payment at the Art Bazar, but almost any other negotiable bill will be taken for pay for any of the different specialties for which the Art Bazar has become famous, to wit:

For gold medal portraits and views,
" the unrivalled assortment of Picture Frames,
" any of the collection of cheap books,
" the cheapest stationery in Utah,
" the thousand and one novelties that are on sale. Always as cheap as the cheapest and sometimes cheaper.

If you want a genuine fit of astonishment as to what a dollar will buy, visit the Art Bazar and see for yourself.

Yours respectfully,
C. R. SAVAGE.
