THE DRESSMAKER'S FRIEND.

The New Measure.

Wonder of the Nineteenth Century,  
Endorsed by all the Leading Tailors  
and Modistes wherever introduced.

A great many wonder why the tailors and modistes of the Standard Tailoring Society have not been successful in getting a patent of an every form without change for a life. This has been explained by the fact that the ONLY system in the world that is adapted to the body of every woman and every tailor and modiste who has used it declares it to be the only form of dress that is perfect. With it you can dress in a moment, and it is so simple that any child can make it. It is a complete system of dress, and it is the only one that is perfect.

A small box was left at the office of Circuit Editor, San Rafael, Cal., Thursday afternoon by some unknown person. When it was opened it was found to contain the remains of a person who had been dead for a long period. Nothing was left with the box which would lead to the identity of the remains except a few words written on

the box which were to the effect that it had been found at Sonoma. The case was reported to District Attorney Mark Smith, who will make an investigation. It is thought that the bones must be that of John Kennedy, who was killed in the war of 1846, and whose remains were never found.
