LEFT SALT LAKE IN 1885.
M. H. Walker, president of Walker Bros. bank, was interviewed by a representative of the Deseret News today, and stated that Mr. D. F. Walker drew out of the old firm of Walker Bros. in 1885, since which time he had had no connection with them. He left for the coast in 1885, where he made a number of large real estate investments in San Francisco and Oakland, from which he realized considerable wealth. Two or three years ago he went on the board of directors of the Western Pacific railroad, and at the solicitation of Messrs. Brown and Bennett took the position of president of the California Safe and Deposit company, merely as an honorary position. Mr. M. H. Walker denies very much the accuracy of the reports that D. F. Walker is a borrower of the bank to any extent, but would rather incline to believe, he said, that the liability was the other way. His position as to Mr. D. F. Walker was only interested to the extent of \$50,000 in the bank, and that under the law his liability would be merely double that sum. Mr. D. F. Walker is now 75 years of age and his friends here say that the trouble in which the bank is involved is sure to be most keenly felt by him. In fact many regard with apprehension the effect the failure may have upon him.

SON TALKS.
Mr. H. W. Walker of this city, a son of D. F. Walker, declared at noon today that his father, who was president of the San Francisco bank, was an honorary one, and that he actually took no part in the management, this feature being in the hands of Vice President and Manager Brown, and a Mr. Bartenett. Mr. Walker spent most of his time in Europe and New York, and he was in New York, says his son, when the crash came, thinking the failure was the result of the tight money conditions, and with this money he intended to reopen the bank. When he investigated he found that the failure was the result of the tight money conditions, and with this money he intended to reopen the bank. When he investigated he found that the failure was the result of the tight money conditions, and with this money he intended to reopen the bank.

NEW WATERWORKS GAGE.

An Accurate Device for Recording Water Pressure Hourly.

The new recording gage has been installed in the office of the superintendent of waterworks and is working in satisfactory manner. The dial of the recorder is divided into hours, the divisions radiating from the center of the circular disk. Parallel lines indicate the water pressure in pounds to the square inch. The dial is kept moving by clockwork, a record for 24 hours being accommodated on each disk. These disks are replaced at midnight every 24 hours and kept on file for reference in case of necessity. A pen automatically records for every moment of the day the exact pressure in the city's water mains. The record for Saturday shows an unvarying pressure of 120 pounds for nine consecutive hours and during the remainder of the time the record was higher even than that.

What is Catarrh?

A Dangerous Disease Affecting Thousands of People.

It is an inflammation of the mucous membrane, and may affect the nose, throat, stomach, bowels, or bladder. NASAL CATARRH is most common, often coming on so gradually that it has a firm hold before it is suspected. Catarrh is aggravated by colds, but depends on impure blood. When chronic it is liable to develop into consumption. It is therefore very serious. The true remedy for catarrh is Hood's Sarsaparilla, because it purifies the blood, and removes the cause, effecting radical and permanent cures.

Hood's Sarsaparilla

In use liquid form or chocolate tablets known as Sarsaparilla. Antiseptics or Catarrhals promptly relieve nasal catarrh, deodorize discharge, sweeten breath, cure throat. Druggists or promote by mail, C. I. Hood & Co., Lowell, Mass.

STILL UNDER CONSIDERATION.

The management of the Utah Light & Railway company had not decided whether to accept the franchise as amended and offered by the city council. Two of the provisions are objectionable to the company. One requires it to take all streets on which extensions are made 15 feet on each side of the track, and the second allows interurban lines coming from a distance of more than 10 miles to enter the city over the company's tracks if they are not competitors of the local concern. The Utah Light & Railway company built to Garfield or Bingham, an independent concern could parallel its tracks to the city limits and run over them from that point to the center of the city, provided they did not pick up passengers within the city limits. The company claims it unfair to be compelled to carry cars of a competitor over its tracks in the city. The company has the matter of acceptance still under consideration.

COPPERS WERE FREELY SOLD

New York, Dec. 8.—The week's first prices of stocks were lower as a rule, although there were exceptions amongst the recent speculative favorites. The resistance shown by these had the effect of checking the decline after the opening. The Hill stocks, Union Pacific, St. Paul, Reading and Brooklyn Transit were the firm spots, rising 1 1/2 over Saturday's level. Amongst the declines Wabash preferred fell 1 1/2. American Smelting 1 1/2. Southern Railway preferred 1, and Atchafalpa, Chesapeake and Ohio, New York Central, Amalgamated Copper and Anaconda huge fractions.

The rally held for awhile and St. Paul, Great Northern preferred and Delaware & Hudson were benefited 2 points. Southern Pacific, Missouri, Pacific Coast and Chicago & Alton 1. Brink buying of American Ice sent it up 3/4 to 20 1/4. A wave of selling orders swept over the market later, centering on the coppers, and although Reading was rushed up to 95 in an endeavor to check the selling, the decline continued, the advances were wiped out, and some severe losses effected. Distillers securities broke 5 1/2. Anaconda and Rubber declined 1/2. American Smelting 2 1/2. Union 2, and Amalgamated Copper 1 1/2. The constant renewal of the selling of the coppers interrupted occasional rallies elsewhere. U. S. Reduction fell 5, American Smelting 2 1/2. Westinghouse Electric 2 1/2. Amalgamated Copper 2 1/2. National Lead and Southern Railway preferred 1 1/2. American Locomotive 1 1/2. City of Chicago, Union Pacific and New York Central, Union Pacific preferred, Erie first preferred and American Car 1. Westinghouse Electric first preferred sold at an advance of 3. Granite Mining 2, Pacific Coast 2. United States Rubber first preferred 2 1/2. Manhattan 2, and Sloss-Sheffield Steel 1.

PRODUCE.

CHICAGO.

Chicago, Dec. 8.—The wheat market today opened dull and weak, chiefly because of heavy northwest receipts. The arrivals at Winnipeg especially were reported as being far above expectations.
