CANNIDALISM AND CIVILIZATION

CANIDALISM AND CIVILIZATION.

Most people invo insulind its idea
that elvidation and cannitation are
en antipudat to each other that they
move could become friendly serelater; but an article in the Lundon
Chienporary Hewise, but the eminetial
Expytelogist, Dr. Prinders Pearls, is a
suggestion singeption at variance of the
tag prevailing molen. Dr. Petticle
put a sannish, nor does no silvente
the practice, but he does appling to for
it aming the people where it prevails
lie thus classifies the mutives for cauobsilient is be more for mental motres than for physical desirat.

For such

	tie.	
To obtain strength or a spir results. As a caregoup, or in sequence proston. As a pureable cut	11.1	9
From hunger or need of lead		1

Fallowing this comes a series of citations as to why various people as human desh, covering the field of Asia, Australia, Shoth America, Palyzenta, North America and Africa. In the first three continents the higher motives of homer and kinches prevail as an incentive to human fiesh eating, as in his idea expressed by the Cucumes of Bouth America that "it! is better to be inside a friend than to a versioned up by the cold sarih." After his illustrations, Dr. Patrix remarks:

These was a that, quite apart from the

of otherwises.

After reacting Dr. Petries's apploggfor sensited by the property of the continuation of

In Bearly half the tribes practising it, more or loss, it is the dual where are loss, it is the dual where are sain, and in most cases where people are killed it is the close, infless, and aged, who, it is low case of criticism, and especially among more is needed, in the loss of criticism and in the critical process of the control of

mattheir lives a burden to thom.

A CHILDREN'S ROBE.

Every effect to recteem from retenty—
untrial and investmi—the parties of
the harms is milty that by circumciances have been placed in the depths
of society is warthy of a cutting-ment
and emutation. There is still see much
in the door key way of humanising
human beings that there is room for
every emergy every influence that can
be homight to bear in took direction.

An interesting affait in the beautiful
of children lies recently taken the
form of a house for the little mere
if the clothen lies recently taken the
form of a house for the little mere
if it is called the Letter towns and is
situated at Present valley, on a hill
avelenching the Human, and must
neorital currentlings. It is presided
over by Mr. Williams, as ex-beiggmans, and is notable on seconds of the
suitzley new reviewed prevailing with
segard is discipline and training. It
may be regarded, retorably, as an experiment, grud the result should be
great interest from a philantireptic
point of view.

Same details in the home, furnished
by the New York World, will give an
indee of its methods. Only a formight
aga twenty-one fittle streat arase were
taken care of any given a house by Mr.
Williams. At that time they were
engoes, dirty, unkempt and meditiized. They had, supprently, as the
World year, by the consider of a well-directed

DESTRUCCI VE GALLSTORM.

DESTRUCTIVE HALLSTORM.

The destructiveness of hallestorms becames more apparent with the received of this year than of any previous time. In the past seconds of the year than of any previous time. In the past seconds of havy hallestorms those have been uniformly limited in exclusi, and as far comparatively little damage, with uge in some cases they have stilled animals and seen burges being. This year, however, the neavy mallestorms that have been model are remarkable for the broad extend of country they have covered, and the forther have been model are remarkable for the broad extend of the forther have been written to entitle the heavy been written to their tool have been written to entitle the have been bester director. New counse another account from South Dekonstrong that on Priday a hallstorm that destroy country and the force, and thus tunnered of farmers will lose away vestige of their field protuction in the season. If this even is true, then the effect upon the people there will lose away vestige of their field protuction in the season. If this even is true, then the effect upon the people there will lose a vary vestige of their field protuction in the season. If this rew is true, then the effect upon the people there will lose a vary vestige of their field protuction in the season. If this rew is true, then the effect upon the people interes will be appelling to its destination. If the grant is destinated by a season of the season of the globe.
