BEST SUCAR FROM RUSSIA.

Holding of a Cargo at Philadelphia Causes Northern Bear to Growl.

Commercial Breach Threatened-Manfactures Bestir Themselves to Avert Such a Thing.

New York, Jan. 31 .- A special to the

Times from Philadelphia says: A cargo of beet sugar from Russia is held up at this port at the instigation of American beet sugar manufacturers, who have demanded that an increased duty be imposed upon the product. The directors of the National board of trade and the National association of manufacturers have held secret meetings here and determined upon immediate action to try and avert a commercial breach between this coun-

try and Russia. The imperial government created a flurry here among those who have tried to avoid trouble in the premises by informing the resident consul of Russia, W. R. Tucker, that if the extra duty is imposed on the cargo of Russian sugar, prohibitive tariff measures would be nstituted througho t European and Aslatic Russia against American-made goods. This caused somewhat of a panic within the circle of those in the secret.

Hurrled meetings were called, and such men as Charles H. Cramp, John H. Converse of the Baldwin Locomotive Works, Theodore C. Search and others at the head of great manufacturing establishments held a long conference. It was determined that the managers of these commercial organizations go forthwith to Washington and arrange for a conference with Secretary Gage. The trouble is caused by the demand that the clause of the Dingley law be enforced by which the bountles paid by Russia on sugar exported should be idded to the regular tariff duty on beet sugar. Edward H. Sanborn, manager of the

National association of manufacturers, the Russian vice consul, W. R. Tucker, have left for Washington to consult with Secretary Gage as to when he will give the committee

The claim is made that the Russian rovernment does not pay bounties on eet sugar. The consul states that the Russian government controls the sugar output of the empire, and thereby holds the price up to its standard rate. In order to do this the revenue tax on sugar exported at times of over-production is reduced, and this the beet sugar men of the United States assert is to all practical purposes a bounty. Secretary Gage will be asked to order the release of the cargo and thereby avoid strained relations between the manufacturers of this country and the czar's

AMERICANS AT PORT OF SPAIN. State Department Discredits Story They Are Beseiged.

The state department is inclined to discredit the report from Port of Spain to the effect that twenty-five Ameri-cans, deserted by their negro employes, are holding out against a band of at-tacking revolutionists. It is pointed out that if it were true, Minister Looin-is would certainly have notified the department. It is stated in the dis-patch that Mr. Loomis was aware of the report, and, while inclined to con-sider it exaggerated, had promised to inform the department. This would be his duty, but he has not done it, and department is, therefore, skeptical of the report,

Pageant.

Great Markets to be Closed at [End of Week-Naval Features-Royalties Arriving in the Metropolis.

London, Jan. 30 .- The queen's funeral procession in London, as indicated by the war office orders issued this evening, will be a gorgeous military pageant. Detachments of forty regiments, with an almost equal number of distinctive uniforms, embracing all arms of the service, will make a constantly changing picture. The uniforms of all the great armies of the world will appear, for, in addition to the brilliant entourages of the visiting kings and princely envoys, there will be the military attaches of the embassies and legations. All the field marshals of the army able to endure the fatigue will ride with their staffs. The naval corps will also take part in the procession,

which will be two miles long. The war office directs that Beethoven's and Chopin's funeral marches on-ly shall be played. From the time the coffin reaches London to its departure, guns will slowly boom in Hyde park. Londoners are just awakening to the full proportions of the obsequies and the result of days of mourning which to numerous tradesmen and others means absolute closure, and is causing consternation. Suddenly to stop every industry in the United Kingdom and to turn the masses into the streets with millions hoping to concentrate all along the two miles of the procession, is an undertaking which has begun to be ful-

ly appreciated by the police.

The public of London is dismayed to find that all the great markets, Covent Garden, Smithfield and others, where the food of the metropolis is supplied, to be absolutely closed at the end of the week.

The railways of the United Kingdom will reduce their arrangements to the Sunday schedules, restaurants and bara will be shut, and the crowds will have

to wander in the streets. London is a world in itself, living from hand to mouth, and the closing of the accustomed avenues for the supply and distribution of food, drink and amusement from Friday to Monday will mean a loss and inconvenience that no American city could appreciate.

The newspapers protest against the

lack of arrangements for the press in London and Windsor.

Householders along the route are ask. ing a year's rent this evening for single windows. A member of the United States embassy sent an agent to secure window for his family, but neither influence nor anything else could procure a small window even on a side street near St. James street for less than £190,

But the storekeepers mostly prefer to let single seats at £10 and £15 each. Stores and hotels in Piccadilly com-manding a view of the incline from there to St. James palace, are getting immense prices, balcony seats fetching £25 and £30.

London learned last year how totally inadequate the police and military are to protect, and the apprehensions of Saturday's crush are enough to appall Londoners, but apparently these con-siderations do not deter thousands of every rank from flocking to the
