DESERET-EVENING NEWS: WEDNESDAY, JULY 1, 1903.

EXPERIMENTS First Series Conducted by Dr. Wiley Soncluded.

BORAX PATIENTS

THEY ARE TO BE CONTINUED

But Not Until After a: Rest of Three Months-Most of Chemicals Passed Out Through the Kidneys.

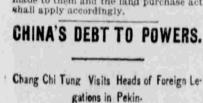

Washington, July 1 .- The first of the series of experiments to test the effects of preservative chemicals used upor foods, which the secretary of agriculture was authorized to conduct by act of Congress, has been concluded. The experiments began last December, and have proceeded continuously ever since under the personal direction of Dr. Wiley, chief of the chemical bureau, who during the entire time has spent 12 hours a day at the bureau headquarters, where three meals a days have been served. He has taken hig own meals with the boarders, but has not experi-mented on himself with the chemicals used. The preservatives used thus far are borax and borneic acid, and while it is the intention to continue the investi-ption after a set of these mentions is is gation after a rest of three months, it is not now considered that it will be neces-

not now considered that it will be neces-sary to make further use of either the borax-or the acid. Dr. Wiley said: "Our experiments have been conduct-ed with a view to ascertaining the ef-fect of the preservatives on digestion and our observations have covered the effect on the digestion of carbo-by-drates, or fat, and on the digestion of protein and gluten. We also have ob-served the effect on the assimilation of food, and we have carefully noted all increase or decrease in weight following a certain prescribed course. We have recarded with care the effect of the preservatives on the composition of the blood. I may say in a general way that blocd. I may say in a general way that we found that fully nine-tenths of the chemicals passed out through the kid-neys and most of the remainder in the

perspiration," Dr. Wiley says that salycilic acid will be the next article experimented with and that the experiments will con-tinued indefinitely.

Irish Land Bil Makes Progress.

Lonodn, July 1 .- The house of commons is making rapid progress with the consideration of the Irish land bill, both consideration of the frish land bill, both sides evidently being axious to rush the measure through. Clauses 10 to 20 were adopted last night, the only unendment of interest being that of T. W. Russell to clause 17 which was ac-cepted by Mr. Wyndham. The amend-ment provides that where three-fourths of the tenants areas to the three-fourths an estate, the remaining tenants shall be deemed to have accepted the offers made to them and the land purchase act shall anoly accordingly

submitted a request to the American Smeiling & Refining company for an eight-hour day. The request was re-fused today and President Craig of the Citizens' alliance, of which the smelter trust is a member, was summoned to the offices of the company in the Bos-ton building. The smelters will be backed in the controversy by the al-liance.

The men are backed by the Western Federation of Miners, At the same time, it is waid, the Western Federation

Pederation of Miners. At the same time, it is waid, the Western Federation of Miners is preparing to act in the case of the Colorado City mills, which are charged with ignoring the agreement made in settlement of the strike there and at Cripple Creek on March 31.
Notice has been posted by Manager Fullerton of the Telluride mill at Colorado City that wages will be reduced on July 3 to the scale that obtained before the strike. The men formerly received a minimum of \$1.80 a day and on April 3 were granted a minimum of \$1.25 a day and eight hours. There is every reason to believe the old scale will not be accepted by the men.
The Standard mills, it is charged, have not observed the oral agreement made for settlement of the strike, and the trouble there is likely to be renewed. newed

Assistant to Mr. Schwab.

New York, June 30 .- William Corry New York, June 30.-William Corry of Pittsburg, president of the Carnegle Stef company, was today made as-sistant to the president of the United States Steel corporation. An official statement says that Mr. Corry is "to perform the active duties of the president."

Cloudburst in Montana.

St. Paul, June 30.—A dispatch from Heron lake, in the vicinity of the Jack-son county tornado, says that eight persons are now known to have been killed, and adds to the list of identified dead the names of Mrs. Joseph Fritcher and two children who lived the miles and two children who lived two miles north of Heron lake.

St. Paul, June 30.-A special to the Dispatch from Helena, Mont., says a scrious cloudburst is reported from Myers, a small place east of Billings. The details are meager, but it is re-ported that a large span of the North-ern Pacific tracks has been washed out, temporarily suspending eastbound traffic. No lives are reported lost.

Tornado Sweeps Over Minnesota.

Wilder, Minn., June 30.-A tornado passed over this place tonight, killing three persons and doing much damage to property. The storm first struck the ranch of Dr. Wester, destroying all the farm buildings. From there the tornado turned eastward, taking everything in a bath 40 rods wide and about eight miles long. At the farm of Daniel Galmiles long. At the farm of Daniel Gal-lagher all the buildings were demol-ished and Gallagher and his daugh-ters, Ella and Nettie, were killed.

PETER AT THE PALACE.

Looks Upon Scene of Assassination Of Alexander and Draga.

Belgrade, June 30 .-- King Peter today visited the scene of the assassination of King Alexander and Queen Draga from the old palace

A Murder in Hawali.

Honolulu, June 24, via San Francisco, June 30.—Ewa plantation was the scene of a murder and possibly a double mur-der on Monday among the Japanese laberers. Kuabara and a woman whom he is said to have "purchasel" from one Yanagi, were attacked in their home about midnight, their assailant stabbing Kuabara so that he died al-most at once, and inflicting wounds which will probably cause the death of the woman Laglause is conversed to the woman. Jealousy is supposed to have been the cause of the crime.

LIPTON INVITES PRESIDENT ToWitness Shamrock-RelianceRaces from His Boat but He Declines.

Embracing the Following Sections:

Boys' Suitings and Girls' Dresses, Druggists' Sundry Supplies, Perfumery, Stationery, Toilet Articles, Etc., Gloves, Parasols, Notions and Novelties, Ribbons, Embroidery, Etc.

In keeping with the other great sales, this one will be equally as sweeping in point of reductions. Some prices being HALF OFF, some lower and in some instances not quite half of regular prices. The United States is the Only Country Willing to Accept Payment In Silver.

London, July 1 .- The Pekin correspondent of the Times telegraphs that since the arrival of Chang Chi Tung, (director of commerce and one of the most progressive of the Yang-Tse viceroys, who was recently summoned to Pekin by the empress dowager) he has visited all the foreign heads of legations to whom he declares that China is seriously financially embarrassed, in con-sequence of which the powers should accept payment of the indemnity in sil-Chang Chi Tung says the viceroys ver. and other officials were led to believe that the indemnity was only 450,000,000 taels in silver, without any reference to fluctuating values of silver. None of the ministers except the American rep-The ministers except the American rep-resentatives would agree to the pay-ment in silver. France and Russia were ready to pay duties on a gold basis, and the legations of these two powers warned Chang Chi Tung that the powers would insist on the payment of the indemnity in gold and would take of the indemnity in gold and would take strong measures to enforce the terms of the protocol. They said that in the event of non-compliance the powers contemplated seizing the salt gabelle, or re-occupying the native city of Tien

The concensus of opinion, says the correspondent, is that China does not deserve charitable treatment. The gov-ernment has not made any attempt at financial reform, and that the corrup-tion is as great as ever. The money squandered by the court of Pekin would pay double the amount of the in-

demnity. The Shanghai correspondent of the times says the provincial authorities of Kiangsi are negotiating with a local American bank to raise a loan of a million taels for ordinary administrative purposes secured on the opium revenue of the province.

A TALKATIVE CONSUL-GENERAL

Uncle Sam Will Take No Notice of a Colombian's Wild Mouthings.

Washington, June 30,-The state de-partment is not disposed at present to take any official notice of the utter-ances attributed in the cable disputches to the Colombian consul-general at London, accribing invidious motives to the United States in connection with Panama canal project. It is said at the department that while there would be a precedent for complaining of the action of the Colombian of-ficials located in the United States, it is not at all clear that a complaint could be lodged against a Colombian official in another country. The depactment also calls attention to the fact that the alleged utterances are unofficial, which will serve to excuse it for any lack of action in this case. The statements objected to have al-teady received currency in English newspapers, although never in such tefinite form as this, and it states that the United States government is in-menting a revolution of the insular provinces

Touching the broad statement that the United States will maintain as much title to the right of way across the isthmus as it has already acquired through negotiations with Minister hrough negotiations with Herran, it is believed that this is quite sorrect, though there will be no as-iertion on this point until the Colom-ien congress has acted on the pending treaty.

Colorado Smeltermen Will Strike.

Oyster Bay, N. Y., June 30 .- Presi-dent Roosevelt has expressed his intention to witness the international yacht races between the Rejtance and the Shampock III to be sailed on Aug. 20. He will go to the course on the May-flower. Sir Thomas Lipton recently extended to the president an invitation to witness the races from his yacht, the Erin, but, while appreciating the invitation and the spirit which prompted it, President Roosevelt felt obliged to decline.

to decline. Gov. Hunt of Porto Rico, Senator Long of Kansas, and former Post-master General Bissell arrived here to-day and were the president's guests at luncheon.

The Brooklyn and Long Island will hold an open air meeting here July 26. It is expected that President Roosevelt will deliver the address of welcome. The object of the societies is to

curb the practice of profane swearing.

Corporation is Insolvent.

Newark, N. J., Jung 30,-Judge Kirk. Newark, N. J., Jung 30,--Judge Kirk-patrick today announced to counsel representing complaining bondholders of the United States Shipbuilding com-pany that he had read all the papers in the case and had decided that the corporation is insolvent and that its di-various had failed to take promot state rectors had failed to take proper steps to protect the bondholders and seemed to be without ability to raise funds. Therefore, in the interest of the bondfunds. holders, both those who appear here and complainants and all the others, he said: "I shall appoint receivers. I will hear counsel as to whom they may desire to name.

Charles C. Deming, for the defendant corporation, asked if it was not possible to postpone consideration of the ac-tual appointment until tomorrow at 2 o'clock, but both Samuel Untermeyer and R. V. Lindbury objected. It was finally agreed that the order would be signed immediately and that the counsel would have until tomorrow to agree on a suitable person for the appoint-ment, but if an agreement is not reached the court will name the re-ceiver tomorrow at 10 o'clock.

A little life may be sacrificed to an hour's delay. Cholera infantum, dysen-tery, diarrhoga come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always or hand
