Washington, 15.—The resolu-tion to print 65,000 copies of the testimony taken by the election committee in Louisiana, Florida and South Carolina and the casting of the electoral vote of Oregon, passed during the morning hour.

Many petitions were presented and referred and private bills considered. The report of the committee on rules, prescribing new rules for the government of the Senate,

was taken up.

The committee reported an amendment to the third rule, compelling senators to attend when a quorum fails.

Cockerell favored the report, and Cockerell favored the report, and even favored a constitutional amendment allowing States to appoint substitute senators in the absence of regular senators, and to draw their pay.

Ferry explained the action of the committee on rules, showing that a quorum was a majority of the whole humber of senators sworn.

whole humber of senators sworn, and not a majority of the whole number allowed by the Constitution. A quorum now is thirty-eight, but with the Louisiana va-cancy filled it would be thirty-nine. The amendment was post-

Jones, from the special silver commission, which has been con-sidering the relative value of gold, silver, etc., said the questions were broad in their scope, and should any legislation be had on the com-mittee's report, it should not be until after the committee had fully investigated the subject. He therefore submitted a concurrent resolution extending the time for the committee to submit its report from Jan. 15th to Feb. 15th; agreed to.

Windom asked leave to make a
personal explanation, and had read
at the clerk's desk an article published in the Washington Union, to-day, to the effect that last Summer charges were made against Wm. McMicken, Surveyor General of Washington Territory, of alleged malfeasance in office, and that he was retained in office through the influence of Senator Windom; also that he was retained in office through the influence of Senator Windom; also that he paid money to Senator Windom for his appointment and James Dunn, Supt., makes and sellss all retention in office, but no action had been taken upon [them, and there was disposition to keep them quiet until after Windom's re-elec- with the judges of the supreme So far as he (Windom) was tion. charged with receiving any consideration, he had only to say, that every word was without founda-

He moved that a committee of three senators be appointed to investigate that charge now on file against him in the Interior Department, and that the committee be composed exclusively of senators on the democratic side of the Chamber.

Morrill did not think it would be proper to order such an investiga-

Gordon said he had no idea that there was a senator on this floor who did not know that the charge was false. The whole country knew it, and any investigation by the Senate would signify an assault upon the senator from Minnesota. Hamlin concurred in these remarks, and said it would be an error to investigate such a dirty

character as this.

Cragin said during the last session of Congress Chapman made charges against the present governor of Washington Territory, when his acmination was pending before the Senate. The committee was unanimous in the opinion that Chapman lied, and recommended

the confirmation of the governor's nomination.

Dawes hoped that the senator from Minnesota would athdraw his motion for the appointment of a committee of three to investigate

the charge against him.

Ferry said he hoped the senator would not withdraw his motion, but he hoped the Senate would show its appreciation of the senator from Minnesota and the falsity of the charges against him by a una-nimous voting against the investi-Cockrell said if he thought there

was the least shadow of truth in the charge he would vote for an investigation, but he did not believe it, and thought it did not require the report of any committee to vindicate Windom.

Washington, 15. — Caulfield moved to suspend the rules and pass a bill providing that it shall be unlawful for more than one regiment of infantry, one company of cavalry, and one battery of artillery to be stationed at the Capital of the United States, and that no portion of that force shall be allowed wi hin halfa mile of the Capitol during the sessions of Congress.

Cochrane moved to suspend the rules and adopt a resolution instructing the judiciary committee

to enquire into the propriety of revoking any concessions and privileges held by the Western Union Telegraph Company under Congressional acts, owing to the contu-

gressional acts, owing to the contumacy of the company.

Wm. Orton was before the Bar of the House for contempt, in not preducing certain telegrams before the Louisiana investigating committee. Mr. Orton, through his counsel, Lowry, pleaded illness as an excuse for his non-attendance. The whole matter was referred to the judiciary committee, and Orton remanded to the custody of the Bergeant-at-atemptic for the custody of the Bergeant-atemptic for the dispatch sent last night to General Auger by the President. BUFFALO, 15. — The late show storm has so completely blocked the eastern reads that no live stock has been sent from this point for the western market since Friday.

New York, 15.—This city and vicinity has been visited by another snow storm, and navigation, both by land and water, is very difficult. There are six westward bound trains on the New York Central railroad blockaded by snow, and no trains have passed Lockport, New York, since early on Saturday merning. The California mails are delayed about forty-eight hours. Railroad Accident and Loss of Life.

The accident on the Buffalo railroad killed two laborers and wounded three.

Dr. Phelps Discharged.

Judge Donohue has decided that Dr. Phelps is justified under the statute, in refusing to answer the grand jury about the Bennett-May duel, also that Judge Gildersleeve is justified in committing him for contempt, as he did not avail himself of the technicalty of the saying "his testimony would criminate himself." Judge Gildersleeve has discharged Phelps, who premises to go before the grand jury to-mor-

The Situation in Louisians.

New Orleans, 15.—The republicans are much elated over the new phase of affairs, while the lemocrats assert that the order of he President to Gen. Augur will not compel him to interfere unless to prevent bloodshed.
Nicholis' and the democratic leg-

islature will not hold Packard's proclamation of this morning, and the former will resist any attempt of Packard to recapture the courts or station houses.

Gen. Augur does not regard the order of the President, received last night, as materially changing his former instructions.

A large crowd of colored people have assembled around the State House, where the republican leaders are jubilant over the news from Washington. Governor Packard declines to state what measures, if any, he will take to secure obedi-ence to his proclamation of this morning, further than the state-ment that it is his desire to avoid bloodshed or create a bitterness are relinquished by the super-against his administration for the cept the commission of the super-vision and appointment of the gov-

Packard Playing a Dangerous

The Evening Democrat, referring to the prebability of Governor Packard's attempting the retaking of the courts and stations, says Packard, however, is playing a dangerous game. The patience of this people is well-nigh exhausted, and if they are forced into a con-flict which is calculated and designed to again rob them of the vernment of their choice the blessings of an honest and efficient administration, their wrath will be difficult to restrain, and we for one hope no hand will be able to restrain it. If Mr. Packard for-ces this conflict, we appeal to our friends to spare, as far as a final and complete victory permit, the lives of metropolitan and negro dues. We advise them to let the full weight of their vengeance fall up-on the leaders of this liniquitous, murderous and most damnable scheme, and to follow Packard into the hotel; and, if need be, into the custom house itself, and hang him from its highest window.

Violent Wind and Snow Storm:

CHICAGO, 15 .- Early this morn ng a heavy snow storm, accompanied with a violent north-east wind, set in, and has continued up to midnight, without abatement. The street cars have managed to teep their tracks clear enough for occasional trips, and the railroad trains have not been completely stopped, but all of them have been delayed greatly, and probably some freight trains will be laid off tonight. Advices from several States in the west show that the storm is very great, and that from one to three feet of snow are on the ground. The weather is moderate-ly cold. No disasters have been

Powers.

London, 15,-A dispatch from Constantinople says at to-day's sitting of the conference the Marquis of Salisbury, in the name of his European colleagues, communicated to the representatives of the Porte the last proposals of the powers, whose demands were rendered and softened. The gens d'armeie, the division of Bulgaria into two provinces, the restriction of Turkish troops to certain places, are not mentioned in the propositions sub-mitted to-day. The previous pro-positions for an international comnission and making appointment of governors of provinces subject to the consent of the powers, are considerably modified. In addition to these concessions the cession of Sewornik to Servia is left in suspense. The proposals for the aggrandizement of Montenegro are reduced to limits which the Porte has signified its willingness to accept. Thus all the contested points are relinquished by the powers exernors, and even these points are much altered. The powers now propose that the appointment of the governors of provinces be subjected to their approval only during the next five years, and that in-stead of an international commission a mixed body, composed of Europeans and Turks, be establish-

ed. After making his communica-tion, Lord Salisbury; announced that if the Porte did not agree to the proposals now made, he had in-structions to quit Constantinople. Sir Henry Elliett said he also had been instructed, in that event, to withdraw and leave the British embassy in care of charge d' af-

Safet Pasha replied. He expres ed regret that the decision of the powers should require him to refer the matter to the Porte before giv-ing a final answer, but he would say he did not think it possible for Turkey to yield upon the commission the supervision and appointment of governors, those proposals which affect the independence of the Porte having already been re-

The next sitting of the conference will reassemble on Thursday, if the Purkish answer is then ready; but it is more than probable that the meeting wont take place until Saturday. In the meanwhile a grand council of 180, composed of all the great dignitaries of the State, will meet to decide upon an answer.
