WEBER COUNTY WANTS SMELTERS

Weber Club and Other Organizations After Deadly Fume Factories.

YOUNG GIRL HELD FOR THEFT.

Held to Account for Over \$500 Missing Money—Banks Elect Directors—Wedding Permits.

Ogden, Jan. 8.—If the smelters move from Salt Lake county to other sites where they will not be troubled with continued lawsuits because of the fumes destroying crops, it will not be the fault of the Weber club and other enterprising organizations if Weber county does not get at least one of the smelters located on the excellent sites near the Great Salt Lake on which an option has been secured by the club.

That the interest already awakened in the proposition with the managers of the big concerns should not lessen, President John Pingree and Secy. L. L. Reynolds of the Weber club, as a committee yesterday visited Salt Lake City and met the general managers of the three large smelting companies, who gave the gentlemen every encouragement.

R. H. Channing, Jr., manager of the Utah Consolidated, was the first gentleman called on. With him the plans of the ground were gone over again carefully and he expressed his satisfaction with the sites and felt sure that his associates are favorably impressed also. He had hoped to have the matter of a new site settled before now, but could

not, and now that he must leave right away for Peru on important business, the matter may not be settled until his return. However, he has laid the entire situation before his superiors, whose reports have been favorable.

Mr. George W. Heintz of the United States Mining & Smelter company informed the gentlemen that he was greatly pleased with the sites offered his company, and that he has now put the entire matter up to the Boston officials, whose report he expects in the near future.

General Manager H. L. Charles of the Bingham Consolidated, who had been unable to come to Ogden to view the sites offered, said he would come here today and go over them with representatives of the club. Each of the gentlemen admit that several other sites have been offered in other parts of the state, but all favor Ogden providing satisfactory freight rates can be secured from all points.

HELD FOR EMBEZZLEMENT.

Miss Rose Rawley in Sorry Flight—Funds Missing.

Ogden, Jan. 8.—Miss Rose Rawley, a girl of but 18 years, is held at the police station pending an investigation into the embezzling of the funds of the N. O. Ogden company of this city, regarding which she has made some damaging admissions. At first it was thought she had embezzled about \$400, but Mr. Ogden stated last evening that the shortage amounts to between \$500 and \$600. The police are endeavoring to find out what the girl has done with the money, as she tells conflicting stories concerning her doings and expenditures. It is the opinion of those

investigating the case that the girl, who was acting as cashier of the store, had someone encouraging her in the stealing game, and that they were sharing in her shameful work. Until the case is further investigated no complaint will be sworn to.

The report submitted also showed that the bank's deposits to have increased to over \$1,500,000.

WOULD STOP THE MARRIAGE.

Yesterday afternoon Wm. Carroll of Alberta, Canada, and Mrs. Cora A. Turner of this city came to the courthouse for a marriage license and to be married. They were followed to the gate by a young man, Nelson Hallett of Pleasant View, who claims to be a discarded lover of Mrs. Turner, and claims that he expected to marry her till a short time ago when she tried to get rid of him, and when he found she was about to marry another man, he decided he would prevent it. He told them, so, and that he would commit suicide, but did not make definite threats. He claimed to have a pistol on him, and that he would use it. After Mr. Carroll and a lady, who accompanied the wedding party, had failed to argue Mr. Hallett out of his intentions of violence, Mr. Carroll came in to the sheriff's office, and enlisted Deputy Sheriff Hales in a peace mission. Mr. Hales took Hallett into his office and talked to him in a fatherly way trying to show him the folly of his course, and finally he made a fool of himself, and he promised to do better in the future, and even suggested he would send the couple to the county jail to show them how he felt. Sheriff Hales took a loaded pistol and a calico dress and went to the jail, and after he had quieted down the young man, he is now being kept in the jail, and it is hoped nothing serious will happen.

SERIOUS ASSAULT CASE.

Sheriff Harmon and County Attorney John went to Pleasant Grove yesterday to investigate a case in which a young man by the name of Jesse Oler of Alex. Ellis, a Pleasant Grove man about 25 years of age, was charged with a dispute Friday over a division fence and a personal encounter followed, in which Mr. Ellis was seriously beaten and killed by Oler. One of Mr. Ellis' ribs was broken and he was rendered unconscious for a long time, and it was feared he would die. Now the doctor thinks he may recover if complications do not set in. What will be done with Oler will depend upon the outcome of Ellis' injuries. It is claimed that Oler's father-in-law, John C. Nelson, was present at the row and encouraged the young man in his attack on Ellis, and there is considerable indignation against him as well as against Oler on the part of Pleasant Grove citizens.

FAVORITE UTAH SINGER APPRECIATED.

A Boston paper has the following favorable mention of Miss Florence Jepperson of this city, who is studying music in Boston: "One of the principal numbers on the program of a public recital given by the pupils of the New England Conservatory of music last evening, was that of Miss Florence Jepperson of Provo, Utah. She sang, 'The Four Tones,' from Goetz's 'Garden of Karma,' in a delightful manner. Her rendition showed intelligent interpretation and voice control." This is not unexpected but nevertheless pleasing to the many friends of Miss Jepperson who not only in Provo, but in other parts of the state, who not only admire her great gifts as a singer, but love and respect her for her lovely womanly qualities.

Sarsaparilla enjoys the distinction of being the greatest curative and preventive medicine the world has ever known. It is an all-round medicine, producing its unequalled effects by purifying, vitalizing and enriching the blood on which the health and strength of every organ, bone and tissue depend. Accept no substitute for Hood's, but insist on having Hood's AND ONLY HOOD'S.

George Williams, aged about 80 years, and a native of Wales, was buried last Wednesday, having died on Dec. 29. He joined the Church in early days, and came to America some time in the fifties, and resided in Salt Lake City Oct. 8, 1886, going first to Panguitch and thence to Beaver, where he has since resided. In his life he was somewhat retiring and unobtrusive. He was married twice and leaves two sons and two daughters.

Mrs. Mary Goodwin, who was severely burned at a Christmas tree festival on Christmas eve, is recovering nicely.

SALOON BURNED.

The New Resort saloon on Main street of this city was burned this morning, not a vestige remaining. The cause of the fire is a mystery. Fortunately the wind was from the south, otherwise the whole row of buildings would have been destroyed. The next building to the saloon was covered with effluvia, and this, coupled with the heroic efforts of the citizens, prevented the spread of the fire, the burnt building being at the north end of the row. Only a small portion of the fixtures were saved, and the stock, some \$300, was destroyed. The stock and fixtures were insured, but the loss of the building was not estimated by Mrs. C. C. Woodhouse, the owner.

SCIENTIFIC MISCELLANY.

As the banana is the staple food of the country, the plantations cannot be destroyed, and it is proposed to introduce the junglefowl to exterminate the flies, beginning the experiment on the fly-infested island of Kilmun in the Victoria Nyanza.

A heating apparatus that is cheap, efficient, sanitary, and of light and ornamental construction is claimed by Prof. Junkers, of Dessau, Germany. In his novel gas stove for hanging on the wall. The lower half of the stove contains a series of horizontal tubes, which surround the upper half of the stove. One series of openings in the casing allows the heated air to rise to the top of the room, another series projects it forward, while the heat passing downward is turned by the reflector against the floor. The gas is completely burned; the heat is used to heat the water, the strong circulation causing quick and uniform warming of the room; and the products of combustion are led from the burners to any convenient chimney flue. The stove is usually suspended at a height of 12 to 18 inches. It economizes space, dust does not collect beneath it, and it does not heat the wall behind it.

The gas is passed through a tube into a capsule closed by a membrane and having a suitable burner tube, the capsule is placed on a box with the membrane over a circular aperture, and vibrations are set up by a tuning fork at one side of the box or by a telephone membrane. A strip of paper is slowly wound from one roll to another just above the flame. While there is no vibration the paper is smoked a uniform gray color, but when the tuning fork or the telephone membrane is made to act, the flame is rapidly oscillated and the smoked record is broken up into a series of little tongues pointing in the direction of the tape's motion. The tongues vary in size and shape. Each vowel spoken into the telephone gives a characteristic series of vibrations, and words produce varying series of a second on the tape, is to be added to the apparatus.

Didn't Know I Had Kidney Trouble.

Gratefully yours, Mrs. A. L. Walker, 321 East Linden St., Atlanta, Ga.

Weak and unhealthy kidneys are responsible for many kinds of diseases, and if permitted to continue much suffering and many fatal results are sure to follow. Kidney trouble irritates the nerves, makes you dizzy, restless, sleepless and irritable. Makes you pass water often during the day and obliges you to get up many times during the night. Unhealthy kidneys cause rheumatism, gravel, catarrh of the bladder, pain or dull ache in the back, joints and muscles; make your head ache and back ache; cause indigestion, stomach and liver trouble, you get a sallow, yellow complexion, make you feel as though you had heart trouble; you may have plenty of ambition, but no strength; get weak and waste away.

To overcome these troubles take Dr. Kilmer's Swamp-Root, the world-famous kidney remedy. In taking Swamp-Root you afford natural help to Nature, for Swamp-Root is the most perfect healer and gentle aid to the kidneys that has yet been discovered.

HOW TO FIND OUT.

If there is any doubt in your mind as to your condition, take from your urine on rising, say four ounces, place it in a glass or bottle and let it stand twenty-four hours. If on examination it is milky or cloudy, if there is a brick-dust settling, or small particles float in it, your kidneys are in need of immediate attention.

SPECIAL NOTICE.—So successful is Swamp-Root in promptly overcoming even the most distressing cases, that to prove its wonderful merits you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands upon thousands of testimonial letters received from men and women who found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample bottle.

In writing to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say that you read this generous offer in the Salt Lake City Daily Deseret News. Swamp-Root is pleasant to take and you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere.
