## STEEL TRUST ELECTION.

#### Corey Re-elected President and Other Officers Re-elected.

New York, April 30,---William E. Corey was re-elected president of the United States Steel corporation at the annual meeting of the board of direc-tors in this city today. All the other officers whose term expired were re-

ment, such as was made in the case of Germany, has not yet formally come before the state department, it can be announced authoritatively that if the French government desires such a commission there will be no opposi-tion in Washington. Moreover, as the agitation in France seems to be based on a fear that Germany will obtain certain advantages over France in the matter of trade through the arrange-ments which today were acted upon favorable by the upper house in Ber-lin, it may also be announced that the state department is preparing to grant to France any concessions made to Germany, provided the concessions are even on both sides. Thus, a 20 per cent reduction of duties on Germany champagne is provided for in the pending German-Américan arrange-ment and the eame privilege can bo enjoyed by French champagne if the French government is willing to make concessions to América in return simi-tar to those adopted by Germany.

New York, April 30.-The board of directors of the Society of Independent Theater Managers, consisting of Da-vid Belasco, Lee Shubert, Harrison Grey Fiske, Henry Miller and Walter N. Lawrence, after a meeting today gave out the following statement rela-live to the newly formed United States Amusement company:

live to the newly formed United States Amusement company: "We desire to correct the general misappr-hension that appears to exist, and that has found expression through-out the press that there has been a "merger" of the interests of the inde-pendent managers with what is known by the theattical syndicate.

as the theatrical syndicate. "This apprehension has grown out of the recent acquisition for vaudeville by the newly formed United States of the recent acquisition for vaudeville by the newly formed United States Amusement company of several thei-ters under the management of the Shu-bert Theatrical company, a corporation the majority of whose stock is owned by western capitalists. The theaters in question comprise several that were acquired by the Shubert Theatrical company to supplement the original circuit of independent theaters, and their withdrawal does not in any re-spect alter the general situation. For the most part these theaters are situ-ated in the cities of lesser importance It is our purpose to conduct our vari-ous enterprises on strictly independ-ent lines. Our independent interests will remain independent. "All contracts and booking obliga-tions previously entered into for the independent theaters acquired by that corporation will be fulfiled, but we desire it to be distinctly understood that the fulfilment of such obligations does not in any sense imply and should not be construed either by the press or the public as implying any agree-ment on our part that is contrary to the principles of theatrical independ-ence."

half of the new forest. The east line half of the new forest. The east line has been set approximately at the edge of the jumper and pinon belt. All of this area is heavily grazed by goats, cattle and sheep, and the woodland has been extensively cut for fuel and posts by ranchmen from all the country eastward to the Pecos river. As a re-sult, the range is steadily decreasing in capacity, the post supply is disap-pearing, and erosion is setting in, ac-companied by violent floods in the Pen-asco and other important tributaries of the Pecos. the Pecos. The Sacramento forest and the newly ostablished Guadalupe forest cover the heads of all the most important parts of the Pecos drainage basin not al-ready protected by the Lincoln and the Pecos forests. The cutting of timber, posts, and fuel will be put under regulation as soon as possible. Grazing will be ad-justed gradually, so as to occasion as little interference as possible with the use of the range by resident stock country.

where. The results aimed at are to con-serve the supply of wood of all kinds, to increase the carrying capacity of the range, and to diminish as much as possible the dangers from flood and siliage to which the extremely im-portant reclamation works in the Pecos valley are now subjected.

THE LINCOLN ALTERED.

THE LINCOLN ALTERED. THE LINCOLN ALTERED. By a proclamation signed April 24, the president materially altered ine boundaries of the Lincoln national forest in New Mexice. South and west of Lincoln an area of about 32,000 acres is added be-tween Rio Ruidoso and the Fort Stan-ton military reservation. North of Carrizo peak and extending beyond the Patos mountains is another addi-tion of about 36,000 acres. The dis-connected area north of Rio Tularosa, containing about 47,860 acres, was eliminated from the Lincoln forest by this proclamation, and was included in the Sacramento national forest, which was created by a proclamation signed April 24. The present area of the Lincoln national forest is approx-imately 627,000 acres. The larger addition, at the north contains some yellow pine, but not a great deal. The reset is all woodland. The objects almed at in making these changes are, to protect the tim-ber, nost, and fuel supply, to faelli-tat administration, and to increase the value of the Lincoln national for-est in its important office of flood re-strain above the government reser-voirs on Rio Hondo. There is also in mind a reservoir site on White Oaks creek, which under proper man-agement should provise water for a large number of cattle on Carrizozo flats.
