BIG SLUMP IN STAR CON. TODAY

the Exchange.

Bullion-Beck Active-Dalton & Lark Weakens - Sacramento Firm-Tesora Growing Softer.

The most striking feature of today's session of the Mining Exchange was the glump in Star Con., which hit the toboggan around 50 and was carried down to 44, at which point a reaction the closing sale. Over 6,000 shares A further improvement is also noticein Sacramento which sold up to Swansea was also strong at \$4.05 45½. Swansea was also so that while Tesora weakened to 72½. Yan-kee Con, was a little softer at 26. Ajax kee Con, was a little afterwards moved opened at 98 but it afterwards moved up to \$1.92½ though it weakened to \$1.01 at the close. Grand Central was veaker at \$7.30 as was Dalton & Lark which decilned from 81/2 to 8. Lower Mammoth fell off to \$4.40 while an odd ot of Mammoth changed hands at \$2.46 Daly was traded in at \$2.17, while Daly West climbed to \$36 again today. A hundred share lot of Bullion Beck was released at \$3.85. South Swansea sold down to 72, while Silver Shield was traded in at 12 and Sunshine at 26, The closing figures were posted as

Nearly every person needs a tonic edicine at this time of year to brace up and invigorate the nervous system, to cleanse the bowels, liver and kid-neys. HERBINE is the best and safest remedy to do this, as it will cure con-stipation, regulate the liver and enrich blood, Price, 50 cents at Z. C. M. I.

STRIKE IN THE HONORINE

Sales Were Made as Low as 44 on Rich Carbonate Ore Found in the Lower Workings.

MAY DAY STILL CLIMBING. NOT THE MAIN ORE CHUTE.

Old Bullion Company Organized-The South Swansea-Emery County Items.

Arrivals from Stockton last evening reported considerable excitement in that workings of the Honorine. The ore was pronounced first class in quality and set in and carried the stock to 46% on it was thought to be an extension of the large ore chute for which the manchanged hands during the call. May agement is driving in a drift about 100 Day is still climbing. The closing feet below the tunnel level. Enquiry at sale was made on the exchange at 73. Mr. Scheu's office today confirmed the news of the strike, though Mr. Scheu says it is not within some distance of the point where the main chute is expected. The ore streak is not large in the top of the drift, but it appears to be the top of a big chute, as it is much wider in the bottom of the drift. According to assays just made the ore carries 66 per cent lead and 46 ounces silver per ton besides a large percentage of iron. The ore has none of the characteristics of the sulphide ore, which has been followed down some distance below the tunnel level. This is considered rather remarkable. The drift in the vein is being pushed as fast as possible and Manager Scheu expects to tap the rich ore chute which was followed down to the water level many years ago, about April 17th. Meantime the pumps are kept busy disgorging 1,000 gallons of water per minute from the drift in which the new strike was

OLD BULLION COMPANY Organized Today to Develop Claims in Stockton.

The Old Bullion Mining company is the name of the latest mining incor-poration formed to develop the mineral resources of Stockton. Articles of in-corporation were to be filed this after-The capital stock is placed at \$50,000, divided into 500,000 shares. Of the capital stock 200,000 shares is placed in the treasury. John F. Connor, of is president of the company; James Houston of Blackfoot, Idaho, is vice president, and J. A. Brown is sec-retary and treasurer. Dan Heaston is guperintenden company, and the other director is to be named later. The company, which owns the Parrot and Sandwich claims. has also a bond and lease on the Bullion No. 3, one of the first patented claims in the district. This property is said to have produced nearly \$100,000 years ago. It has been opened by an incline shaft to a depth of 320 feet, where water was encountered. It is the intention of the company to instal a new boiler and hofst and catch the ore chutes 100 feet or more below the pres-

AT THE SOUTH SWANSEA. Some Fine Ore Encountered South

from the New Shaft. C. V. Wheeler, who came up from Tintic last evening, reports the new South Swansea compressor in place. It will be put in operation before the week is out, and an increased output is expected as soon as connections are The management has yet about 65 feet to run from the new shaft. Some very nice ore, running from 50 to 100 ounces silver and 40 per cent lead, is being encountered in the south drift from the new shaft, which has been run about 60 feet. The water column is being put in to connect with the new pump, but it is not likely that the company will sink deeper for some time to come. It will be some time before another payment is made to the

MILL FOR CARBONATE HILL. Matter is to be Decided at a Meeting Next Monday.

Mr. Van Patten, who is heavily interested in the Carbonate Hill and Carbonate Gem properties near Peterson, Morgan county, left for Ogden this afternoon after looking over the Bazonk claim in Bingham in which he is also interested. Regarding the Carbonate Hill property Mr. Van Patten says a during the past winter, and it is probable that the company will build a mill this season. This will be decided at a meeting to be held next Monday.

SAN RAFAEL COMPANY.

Has Indications that the Sorrel Mule Tunnel is Close to the Ore Chute.

For five years the San Rafael Mining company has been driving the Sorrel Mule tunned to connect with the rich ore chute running high in copper and silver values, and from present indications and the statements of those who have inspected the property recently and are acquainted with the character of the ore and formation, the face of the drift cannot be far from the chute The signs of ore are abundant, and it would not be surprising if the Mule should eventually become one of the big copper producers of the State. The ore includes gray copper, carrying sub-stantial values in silver malachite, stantiat values in silver matacrite, azurite and copper glance, and is easily milled and concentrated. Notwithstanding the presence of a minute quantity of zinc in the ore the values are high enough to admit of a respectable profit should a sufficient body of mineral his struck. The County of nineral be struck. The Sorrel Mule vein is quite extensive, and if the property of the Sun Rafael Mining company realizes expectations there are many other locations on the same vein which

GREAT LEAD PRODUCTION. Proposition to Curtail Output in

ery County Progress.

Couer d'Alenes.

While nothing has yet been done in the way of reducing the price of lead, R. S. Hamilton. it appears very probable that such a step will be taken by the American Smelting and Refining company in the near future. Manager T. R. Jones says the production is very heavy and his company has a big surplus on hand, notwithstanding that numbers of small shippers are not able to market their per ton.

is expected, thereroads are in better con iction, which will naturally have a bad n, when all naturally have a bad ton the lead market unless there conditions which offset it. The blg producers of Utah, such as the King, Daly West and others their lead output contracted for at od price, so that a cut in the price d not affect them, this year at The London market leads to the contracted for the co don market is said to be ican Smelting company, without it is rumored in Wallace, Idaho,

that the lead output of the Cogur d'Alenes will shortly be reduced on acunt of the weak condition of the mar-The Wallace correspondent of the Spokane Review, says that until the surplus now on hand is disposed of, the reduction will be about 25 to 30 per cent, and steps are being taken to make reduction in the Coeur d'Alenes, erent mining companies will pursue erent plans in making this reduction. Some of them are yet undecided what they will do white in all cases it is a tentative proposition now and may be changed if experience shows some other method to be more effective. In no case, however, will it result in a shutdown of a producing property for any own of a producing property for any

The Manmoth Mining company will ispense with all Sunday work, the nine being idle from the time the day shift goes of Saturday evening until day shift comes on Monday morn-That will not effect quite the reon necessary at this time and the remainder will be secured by reducing the force employed. In other mines it s probable that the force will be retion down to the required amount.

EMERY COUNTY NOTES.

Green River Oil Boom Continues -

Lead and Copper in Rabbit Valley. The Green River off boom continues says the Emery Progress and Recorder Anderson is earning her salary empty county treasury and coin. Following the with good hard coin. Following the twenty-five mining claims that came ver from there the early part of last week, forty-four more came over in one bunch last Saturday. The locators are mostly well-to-do Salt Lake and California men, who have the means to

evelop the property.

Megars, Powers, Straup & Lippman the lilt Lake attorneys, have obtained from Recorder Anderson abstracts and other filings in respect to the Copper-Globe company's mining claims that were sold by Sheriff Tuttle in February o Messrs Phillips and Chlies, to satisfy their claim for wages. It is thought the Copper-Globe company contemplate

redeeming the property.

Jim Jeffs came home from Grand county on Thursday, where himself and others are completing a reservoir south of Thompsons. Mr. Jeffs has a team hauling manganese ore from Little Grand, 14 miles east of Green River station, to the railroad. The ore is very much sought after by the Colorado Fuel Iron company, that desires that the production be increased to several car-loads a day. The ore lies a few inches The present output exceeds a carload a ern lambs, 5.10@5.40.

stone mountain in Rabbit Valley, and brought up a sackful of ore from his property. Some of the ore will go fully fifty per cent in lead, becides aunning well in silver. Other specimens carry a high per cent in copper. Mr. Robbins stated that there was a great deal of prospecting being done down there and several claims looked upon very promising. There is plenty of water and timber down there and several of the claims, although as yet only scratched at the surface, show shipping ore in paying quantities.

Gold Production Increasing Fast The extraordinary increase in the production of gold in modern times has given rise to the question, is gold's supremacy as a standard of value in In a recent lecture before 600 students, Professor N. S. Shaler, who holds the chair of geology in Harvard University, predicted that within the next thirty years there will be an influx of gold such as the world before has never known. If, as a result of this big production, the price of gold ciate, which is possible, holds that another metal the professor must be looked for as a token of in-ternational value. He believes the substitute will be silver, because it is not found like gold in alluvial plains and is more difficult to mine.—American Mining News,

MINING NOTES.

The Carlsa of Tintic had two cars of ore on the market today. C. B. Markland is again in charge of the Conklin sampler.

L. E. Riter has resigned as a director of the Martha Washington of Tintic. The Red Wing of Bingham reached the market today with seven cars of leasers ore.

The Taylor-Brunton reported seven cars of ore from Bingham and two cars of ore from Tintic today. A car of crude ore and a car of con-

centrates, for three tons in all, were afternoon from the Ber It is reported today on good authority

that the average values of the Star Con, ores have been rather low of late, and the slump today was due to this

Spokane Chronicle: One of the largest mining pro positions in which Spo-been interested for some teation of a compan \$6,000,000 to operate in with a capital er district. The new the Salmon R company is kn Mining & Milling npany and is com Mining & Milling company and is com-nosed of Spokane and Minnesota men The company has secured a group of 20 claims in that section.

At the annual meeting of the May Hunt was re-elect Larson, vice president treasurer and F. W cretary. J. E. Dormel Muhlenbruck, sec Mullenbruck, secretary, J. B. Dormer is the other director. Manager Hunt said today that the company has a balance of \$350 in the bank and the indebtedness has been reduced to \$2,000. During the year the company marketed 3,219 tons of ore, which brought \$30.75

Transfer of Heavy Blocks of Steelers and Burlington Made Wide Openings.

Generally Prices Were Half a Point to Two Points Below Last Night's Close,

New Yoork, April 2.-There were wide

openings on the transfer of heavy blocks in the United States Steel stocks and Burlington, the latter rising to a Paul rose a point and the majority of stocks showed a fractional gain, but there were a few outside losses. General selling followed the opening rise and Rock Island lest 24, Burlington 28, and St. Paul and Delaware & Hudson 11/2. Practically every railroad and indus-trial stock of prominence declined below yesterday's closing. When Colora-do Fuel & Iron advanced 4 points, all the steel stocks hardened. Enormous the steel stocks hardened. Enormous offerings met the rise in United States Steel stocks and they re-acted again below last night. Generally speaking, night. Quick profit taking by the bears caused some fractional railies before the end of the first hour. Stocks which had scored the largest losses advanced from 1 to 2 points when the shorts covered and the rally was helped by a rise to 142 in Sugar. Meanwhile the steel stocks were offered freely. United States steel preferred declined to 96. By noon the general undertone was & Pacific was heavily bought at an ad mated Copper gained much, Bonds were

S. C. Dallas has been chosen as the architect for the new University buildings to be erected this year. He will begin on the plans at once. R. H. Kletting the architect of the buildings now standing was given a chance to take the new buildings, but declined.

TRAP SHOOTERS' SCORE Ninth Annual Tournament Opens at Interstate Park.

New York, April 1.—Over eight score STONE Stone for Buildings, Curbing of the best known shots in the United STONE Cemetery Coping, Etc. New York, April 1 .- Over eight score States and Canada assembled at Interstate park today to take part in the ninth annual trap shooting tournament of the Interstate association. Weather conditions were good and the birds were a well-chosen lot of fast flyers.

J. A. R. Elliott of Kansas City was the first man to fact the traps, but after making two good kills lost his third bird, a right quarter, which fell dead out of bounds. In the second event, Ellott missed two out of twelve, which made his score for the day seventeen kills out of a possible twenty.
A good deal of interest was centered

work of Tod Sloan at the traps, The little jockey was not very fortunate, as he missed three in the first event of eight birds, and in the second event missed the same number out of eleven which he shot at. In the opening event at eight birds there was a field of 136 contestants, and

of these, thirty-one killed straight and the money was divided among them, each receiving \$21.90.

In the second event, at twelve birds, there were 151 entries, out of which twenty killed twelve straight, and thirty-three finished with eleven each. The ty-three finished with eleven each. The straight scores won \$47.50 apiece, while those with eleven each only received

The following of the contestants killed straight in both events, making total of twenty, which was the possible number. These were: Hoffman of New Germantown, N. J.; Arno, Syracuse, N. Y.; Leroy Campello, Massachusetts; Parmalee, Omaha; Malone, Baltimore; A. H. Fox, Baltimore: United, Schnec-tady, N. Y.; Crosby of Aalton, Ill.; Van Allen, Jamaica, L. I.; and Tarboro, N. Following are the high scores in to-

Ephraim Athletics.

The Baseball Grounds company held its annual meeting at the Opera House Monday evening for the purpose of hearing the report of the secretary and lecting a new board of directors The report of the secretary strated that the rental received from the grounds last season was sufficient to pay good interest on the money in-

The following members were elected as a board of directors for the ensuing year. C. J. Fisher, J. F. McCafferty, Adolph Hansen, Otto Nielsen, J. H. Thompson, Orville Peterson and M. F.

Immediately after the stockholders' meeting adjourned, the new board met and organized by electing M. F. Mur-ray president, Adolph Hansen secretary and treasurer. Preparations for the season's sports were immediately gotten under way by the appointment of the following committees: On ball ground—Otto Nielson, Adolph Hansen and Orville Peterson.
On bleycle track, C. J. Fisher, J. F.
McCafferty, J. H. Thompson.

A committee consisting of J. F. Mc-Cafferty, C. J. Fisher and M. F. Murray were appointed to have general charge of the grounds and to arrange for all races and games.

The work of getting the track and ball ground in condition has already commenced.—Ephraim Enterprise.

Baseball Matters.

It now remains for Jack Meinecke of the Park City team and Gimlin of the Ogdenites to complete the organization of these teams, and they will have to get a move on 'em if it should chance that the season opens on the 13th. Meinecke has about decided not to go East after players, as he is of the opinon that he can secure them whenever wanted. It is understood that Gimlin s contemplating a change in his line

way's formidable force, the other teams have been using their thinking apparatuses and have suddenly come to a realization of the evident proposition that they will have to go some to down the Railways. Manager Clippinger made a trip to Ogden yesterday to put up the \$250 required as a deposit by the League rules. He states that the baseball fever is raging in the Junction City, and the people are expecting great things of the coming season. Some of the boys of the Salt Lakes and Railways were out for a little practice yesterday af-ternoon. The diamond is in a pretty fair condition, considering the weather, and there is a remote possibility of a game taking place on the 13th.

AMERICAN LEAGUE CLUB. Will Institute Proceedin's Against Left Fielder John Heidrick.

Chicago, April 2.-President Comiskey of the Chicago American League club, announced today that he would begin legal proceedings in a day Louis against Left Fielder John Heidrick, to restrain him from play-ng with the St. Louis National league eam the coming season. Heidrick, it is claimed signed a contract with the Chicago American league team previo epting the terms of the St. Louis National league team.

Sharkey to Fight Fred Russell. Denver, April 2.-Tom Sharkey has een matched to fight Fred Russell at the Colorado Athletic club April 26.
