REAL ESTATE and BUILDING

Rusiness has been good during the past week in lots in the various subdivisions southeast and south of the city, inquity for such tots is brisk and vendors are kept busy running prospective buyers out to took at the Some of the additions are sold out, and the owners are boking over the field to secure other suitable tracts to plat and place on the market. As in part may be demand for these biss if may be mentioned that College View, which contains 210 lots, was mold out in three monties. Enverson Heights is also practically sold, only seven re-maining on Friday. Other additions

also practically sold, only mych to maining on Friday. Other additions are in the same condition and still the cry from the investing public is for more suburban lots, and deals are now on to seems suitable property with which to meet the demand. Friday was the busicat day this week for Building Inspector A. B. Hirth who lanued permits aggregating a tota of upwards of \$0,060. Of this amount the well known building firm of Burt A Carlyaist took out permits for the erection of 15 four-room residences and six five-room, at a total cast of \$42,500. Twelve of \$5 four-room cottages are to be built in Jefferson strest, the oth-ors will be built in different parts of the other. the city.

Meckk & McCartney report the sale of 130 lots in additions southeast of the city during the past two weeks, fully 50 per cont of which are said to have been made for the erection of homes in the spring, and not as an investment. With the brick sale of lots in all the additions in the southeast section now going on the members of this firm are sanguine that it will not be long before an ex-tension of the street car line will enter the subdivision districts, and greatly enhance their value.

The largest transaction in suburban property this week was the pur-chase by Meeks & McCartney of 253-10 acres southeast of the city for \$35,000. The saic was made through the George M. Cannon WAN made through the George M. Cannon company for a local investor, who sold out at a handsome advance after hold-ing the property only seven months. The property is located in Fitteenth East and extends about haif-way from Tenth to Eleventh South. It contains in all 270 lots, which will shortly be ulaced on the market. The county In all 270 lots, which will shortly be placed on the market. The county surveyor is already at work platting it, and the work is expected to be com-pleted next week. The land is said to be level and at such an elevation that if commands a good view of the city and other points of interest, including the Fort Douglas and the university. Kimball & Richards, land merchants, report an active suburban property Kimball & Richards, land merchauts, report an active suburban property market with a lively demand for build-ing sites among people who have in view the erection of their own homes. During the past week this firm sold 38 lots in Glenwood, Jackson Square and Burton place, the balance being in fa-vor of Glenwood, which is jocated in Twolfth South street between 2005.

tor of Gienwood, which is jocated in Twelfth South street, between Fifth and Sixth East street. Eighteen lots were sold there, the purchasers being all local people. Several of them have announced intention of building as soon as possible. An even dozen lots were sold in Jackson Spuare, between Ninth and Tenth South streets and Second and Third East streets. Tentative plans have been made for several pretentions have been made for several pretentions place ine lots were sold. Eringing the total sales of the week up to 39 lots. facifth

total sales of the work up to 39 jois. Architects who are superintending the different jobs in the city where strus-tural steel is being used, and the con-tractors who are doing the work, feel a little casier this week, with the arri-val of supplies of structural material. Contractor Dundes is now rushing its erection at the Z. C. M. I. addition. The steel frame work is up to the sec-oud floor and Rutherford and Hansen, the architects, expect to see all of the frame in place four stories high, inside of two weeks. Excellent progress has also been made at the Feit building, where the steel is now nearly all in place. The Fisher building is still dragging, and work on the Wallace building on Main struct is at a stand-atil waiting for steel. The same - ondi-tion prevails at the Xewhouse hotel, hough advices received this week from the actel for this building will leave Bowler, part of lots r and s.

George M. Cannon company report business in real estate unusually ac-tive during the past week. The trans-actions include some sales in Forest Dale, but more particularly in the new sub-division of Emerson Heights, or the brow of the east bench. In this addition Contractor Buchner has fla-blacd side walk paving on two long, and is short blocks, and is progressing with the cement monuments which mark the corners of each block, and fix in ce-ment the rame of streets and avenues at the intersection. Removing the outward symptoms is not all that is necessary to cure Contagious Blood Poison. The virulent germs which produce these exter-nal manifestations must be completely driven from the blood before a real cure can be effected. The least taint left in the circulation will sooner or later cause a fresh outbreak of the trouble, with all its hideous symptoms of elevated month and throat, copper-colored spots, falling hair, sores and ulcers, etc. Only a blood purifier can cure Contagious Blood Poison. Medicines which merely check the symptoms for a time, because of their strong mineral nature, and leave the poison smouldering in the system, have brought disappointment to thousands. The disease always returns after such troatment. S.S.S. cures Contagious Blood Poison and cures it per-manently. It some into the blood and removes avery particle of the poison auch troatment. B.S.S. Cures Contagious Blood Poison and cures it per-manently. It goes into the blood, and removes every particle of the poison, making the circulation pure, tich and healthy, nor does S.S.S. leave the slightest trace of the disease for future outbreaks. S.S.S. does not contain any mineral ingredient, but is made entirely of roots, herbs and barks, which are most valuable in their blood-purifying properties, and at the same time specifically adapted to building up the entire system. Mr. Whitney was formerly chief dispatcher at Pocatello when Mr. Calvin was superintendent of the Idaho division, and has proven by convincing experience that he is a man whose services are valuable to any road. He was later superintendent at Cheyenne, but laid off on account of his health, and spent some time in the Sandwich laiande. After recovery of his health, Mr. Whitney accepted the superint-

and spent some time in the Sandwich Islands. After recovery of his bealth, Mr. Whitney accepted the superin-tendency of the Utah division of the Union Pacific. The two men who step up after him are both considered able men, well thought of by their superior officers. The changes become effective Nov. 1, and Mr. Whitney leaves Sun-day for Oakland to go over the lines within his jurisdiction before taking official charge.
