'There seems to be some misapprehension in the minds of policy holders of the New York Life in this state," aif Sam P. Davis controller of Nevada and one of the insurance commis-sioners "as to the value of t..eir poloies. They are perfectly good, as there is no question as to the solvency of the company. The earnings of the company are not all going to the policy holders. I claim that some of this surplus should be distributed in dividend at require the the solvence. lividends at regular intervals. The polor holders will get every dollar promed by the company, but I do dama they should get more. To better Illustrate, in 1873 the Mu-mullife of New York collected over \$2,000, and paid of this over \$3,000,

The settlers of the Blue Bench lands in the Uintah reservation have perfected an organization to be incorporated under the name of the Blue Bench Co-operative Water company for the construction of a canal to irrigate about 20,600 acres, and through the secretary of the company, Irwin E. Pratt of this city, have filed on 200 second feet of water to be diverted. from Rock creek, a tributary of the Duchesne river.

Mr. Huburt D. Page, civil engineer, has just compiled a survey for the pro-posed irrigation canal, which is to be 15 miles in length: the scheme also includes a plan to develop 680 horse-pow-

slag out on Fourteenth South street for macadamizing that street. They are paid \$2.55 per day but they either want more pay or the privilege of hauling smaller loads of slag. For sev-eral days past some of the teamsters have only been hauling about 3.000 pounds to the load and as the distance is great the county commissioners thought that the county was getting the bad end of the bargain. They insisted upon the teams hauling at least 4.000 or 5.000 pounds each trip.
