SAD SUICIDE OF OGDEN YOUTH

Orson Saunders Drinks Carbolio Acid at the Pullman Bar and Dies in Few Minutes.

STREET CARS TO PLAIN CITY.

Among the Early Plans of the Rapid Transit Co.—Salt Against E. T. Woolley—Demise of Pioneer.

Ogden, Feb. 27.—With his stomach burning away with carbolio acid taken from a four-ounce bottle, and in the throes of speedy death, Orson Saunders (the 23-year-old son of Street Supervisor Orson Saunders, charged with friends in the Pullman bar, without informing them of the rash act he had committed.

It was shortly after 3 o'clock young Saunders went in the Carr Drug store and informed a clerk that his brother-in-law, William Lewis, manager of the Pullman bar, wanted some carbolio acid. The clerk gave him a four-ounce bottle of acid. From the drug store he went to the Pullman bar where he met some friends with whom he laughed and talked for some minutes. Leaving his friends young Saunders went to a toilet room where he drank about two-thirds of the contents of the carbolio acid. He then rejoined his friends at the bar and talked with them a few minutes. The smell of the acid and a few burns on his lips aroused the suspicions of one of the party and he immediately summoned Dr. Conroy, who promptly responded but Saunders' condition had gradually grown worse. Everything possible was done but to avail us he expired within 10 minutes.

Joseph Saunders, father of the boy was summoned and was heart-broken over the affair as is the mother of the boy. No motive can be ascribed for the boy committing the rash act, as he has always been of a cheerful disposition and was one that made many friends.

The company's attention at the present time is centered on the building of the Ogden canyon line. An agreement has been reached between the company and William G. Wilson, proprietor of the Harrieville and the company has been granted a right of way over his property. It is announced that the road will be ready for operation by the first of June as far as the Harrieville and possibly as far as the Canyon.

A suit was filed in the district court yesterday afternoon by the Pioneer Lumber and Lumbering company against E. T. The plaintiff alleges in the complaint that the defendant gave it the stock with the intention to defraud.

It is further alleged that the defendant knew that the stock in the said brick and tile company was used by promoters to defraud stockholders and the public and was utterly worthless. Judgment in the sum of \$500 is asked.

The Superior Brick, Tile & Milling company is the company for which a receiver was recently appointed by the court.

The Experience of a Minneapolis Women in Finding a Remedy for Indigestion.

The symptoms of stomach trouble vary. Some victims have a ravenous appetite, some in the night of food. Often there is a burning sensation in the stomach and a feeling as if weight on the chest. Sometimes the gas presses on the heart and leads the sufferer to think he has heart disease. Sick headache is a frequent and distressing symptom. The tonic treatment for stomach trouble is a comparatively new idea but it is sound in principle and shows satisfactory results in cases where other treatment had failed.

Mrs. J. S. Wilder, a saleslady, of No. 228 Ninth street, S. E., Minneapolis, Minn., found no relief from stomach trouble until she tried Dr. Williams' Pink Pills. Speaking of her case, Mrs. Wilder says:

"About four years ago I was suffering with stomach trouble, which was brought on by irregular and hurried eating. I was confined to my bed for three days at the time with headaches due to biliousness. My stomach felt as though there was a lump in it and the gas on my stomach gave me awful distress. I had severe pains in my back, my complexion was sallow and I was nervous and irritable. It made me feel that I was going to die. In the morning there would be a brown cast on my tongue.

"The doctor gave me only temporary relief and after I had been sick for a year I tried Dr. Williams' Pink Pills upon the advice of a friend. The pills worked wonders for me. They helped me after a fair trial and then made a rapid cure. I can eat a hearty meal now without distress and can work every day. I always praise Dr. Williams' Pink Pills and shall never be without them."

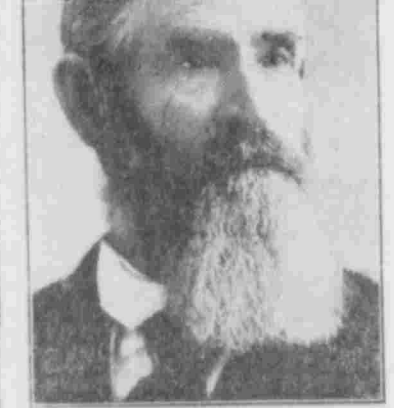

Sufferers from dyspepsia in any form, who have found their condition unrelieved by actually growing worse while using ordinary remedies, would do well to try Dr. Williams' Pink Pills. They are sold by all druggists or direct by mail, postpaid, for \$2.50. A diet book will be sent free, on application to the Dr. Williams' Medicine Company, Schenectady, N. Y.

HELD FOR MURDER.

The preliminary examination of Charles Lawhorn, charged with the murder of Daniel E. Snow, was held before Justice Noon yesterday. Lawhorn, who is now in the county jail, is about the age of 21, had a light Sunday night, Feb. 7, in which Lawhorn struck Snow on the chin with an empty can, so Lawhorn admits; but Snow, who was the first to be hit, was struck with a brick. Snow went home after the fight, and in about two hours went to bed. He only complained, however, about the cut on the chin, and remained in bed till the morning when he died. He had been an invalid for some years, and the theory of the defense is that he died from other causes than the blow received from a can. The examination was held at the residence of Dr. Herbert S. Pyne testified that he made an examination of Snow, and found a bruised condition of the chin, three teeth and a portion of the jaw bone having been carried away. The physician said that death was caused by the blow and did not result from epilepsy, from which Snow had been a sufferer.

After the evidence, the defense tried to have Justice Noon hold the defendant on a lower charge, that of voluntary manslaughter, so that he could be admitted to bail. This Mr. Noon refused to do, and he held the murder charge to await the action of the district court. The evidence will be transcribed and submitted to Judge Booth, and he will be asked to admit defendant to bail pending trial.

Mr. Hatherbrugh believes a large stream can be brought to the surface and used for irrigation and other purposes. He is so sure of this that he has made an offer to the State Mental hospital to supply that institution with water, to be delivered through a line from the point of development. And he expects to have a great deal more water than the hospital will need. The water is pure and cold and if the flow Mr. Hatherbrugh expects can be secured, it will be of great value.
