MINING, BUSINESS AND STOCKS

HEAVY TONNAGE OF ORE IN SIGHT

According to Report of Nevada Con. Consulting Engineer.

DIRECTORS' MEETING HELD.

Work to Date Gives Good Ground for Confidence in Future.

The most important development at the annual stockholders' meeting of the Nevada Consolidated Copper Co., held at Portland, Me., on Tuesday, was the submission of the figures and report on the ore reserves of the property at Ely, Nev., by Pope Yeatman, the company's consulting engineer. The tonnage in sight, according to Mr. Yeatman, including the development blocked out by shafts, levels, raises and drill holes, shows 14,452,962 tons, with an average copper extraction of 40 pounds a ton and some gold and silver, for which he allows a sum of 15 cents a ton.

Out of a total of 1,100,000 shares of stock, 700,000 shares were voted and the present board of directors was re-elected. James Phillips, Jr., the president of the company, in his report to the stockholders, said that as good as Mr. Yeatman's report seemed, the development to date represented only 25 per cent of the company's holdings. "Territory contiguous to our ground," he added, "has been prospected by a diamond drill and gives indications of equaling the ore already shown up."

ORE OCCURS IN BUNCHES.

"The copper ore," says Mr. Yeatman in part, "occurs mainly as chalcocite in a secondary enrichment; this chalcocite, in the form of specks, veinlets and bunches, being in porphyry, of which there are large intrusive masses in both the Eureka and the Ruth groups. Besides copper in the form of chalcocite, there is also some chalcopyrite. Iron pyrites is associated with both minerals.

"The ore bodies in the Eureka and Ruth groups have been developed and show ore blocked out by shafts, levels, raises, and drill holes, aggregating 14,432,962 tons, with an average copper extraction of 40 pounds a ton, and some gold and silver, for which an extraction of 15 cents a ton of ore is allowed.

"Outside of the developed ore bodies there are great possibilities. These are indicated, first, by the typical porphyry croppings; second, by underground workings, which have not yet been carried out beyond the limits of the ore; third, by development by means of drill holes, which have penetrated ore bodies.

"The most important of these possibilities are: A new ore body in the Ruth section, promising because of the fact that the cross-cuts of the Ruth are still in payable ore; a large mass of copper-bearing porphyry, a portion of which has been prospected by drill holes, showing ore averaging about per cent; the extensions of the Eureka, where borings with the diamond drill have disclosed considerable bodies of good ore; and, probably the most important of all these possibilities, an ore body, lying adjacent to the main Eureka ore body and opened up by drill holes, which shows a thickness of ore averaging 142 feet, a possible length of 2,200 feet and an average assay value of 2.42 per cent copper."

DEVELOPMENT SUSPENDED.

While the report makes no mention of the work now being done at this property advices from Ely state that all mine development has been suspended, the reason given being that the mine is so far ahead of the reduction works that to spend additional money developing under the present financial stringency would be unwise. Work at the smelters is going along very slowly, no effort being made to rush work while copper remains down.

ARTICLES FILED.

Ogden Home of New Company in Sierra Madre District.

Special Correspondence.

Ogden, Nov. 12.—Articles of incorporation of the Elkhorn Gold & Copper Mining company have been filed with the county clerk.

The principal place of business of the company will be Ogden City. It is capitalized for $500,000, divided into shares of the par value of 10 cents each. The company owns several mining claims located in the Sierra Madre mining district in Boxelder county.

The officers of the company are S. W. Cragun, president; Moroni S. Poulter, vice president; Carl Allison, secretary and treasurer.

The company's property is located adjoining the Santa Maria, in which such a big strike was made recently. The prospects of the new corporation are very encouraging.

GOLD PRODUCTION FALLS OFF.

Pierre, S. D., Nov. 11.—Without giving specific figures State Mine Inspector Treweek, in his annual report to the governor, places the gold production of South Dakota at one million dollars less than for last year.

DEED GIVEN.

Four Claims in American Fork Mining District Change Hands.

A quit claim dee to four claims in the Delore mining lode of American Fork canyon, Utah county, for the consideration of $200, from A. T. Harris and wife of Stockmore, Utah, to W. E. Merrill of Heber, Utah, was filed with the county recorder today.

BRINGS GOOD REPORTS.

Bullock Mine in Good Shape and Prospects Excellent.

Provo, Nov. 12.—B. H. Bullock of the Bullock mine returned from the mine yesterday and in an interview claims that the mine is in very good condition; that the ore bodies are increasing, both in size and values; that the returns of the last car of ore shipped a few days ago netted the company, which is controlled by Provo people, a neat sum, considering the price of metal. He expects to place it shortly in the dividend column.

COPPER IN BOSTON.

James A. Pollock & Co. furnish the following, received over their private wire, this afternoon:

Boston News Bureau says: The price of copper has receded one cent per pound from the recent recovery to 15 cents and Electrolytic can now be obtained in New York at 14 cents per pound. The market at the moment is weak. There are several factors contributing to this condition. In the first place the 100,000,000 pounds taken over by a foreign syndicate a week or more ago from the United Metals Selling company was not a sale to consumers and this copper has not therefore been removed from the so-called visible supply. It has been simply transferred from the hands from one seller to another on the other side of the water. We have heard that this 100,000,000 pounds was not, strictly speaking, a sale, but that foreigners virtually loaned the Metals Selling company between $10,000,000 and $12,000,000, with the privilege of selling the copper pledged for the loan at their discretion. It is possible that the advance in Lodon bank rate may have an indirect bearing on the weakness in copper in connection with the finances on this foreign syndicate. It is the general opinion that about 25,000,000 pounds was bought by speculators at the time the 100,000,000 pound transaction was being negotiated in order to cover short contracts in copper warrants. In addition to the above it is further estimated that 50,000,000 pounds was bought by consumers at home and abroad who became suddenly alarmed that with the short end production of the metal they should suddenly find themselves unable to cover their requirements. There is nothing to indicate that the consumers in this country have stocked up beyond their immediate necessities. We know that some of the largest manufacturers have distrusted the legitimacy of the recent advance and have been in the market for only such supplies as were actually demanded to meet contracts on their books. The fact that there is being produced on the American continent today less than 50 per cent of the normal annual output of 1,200,000,000 pounds tends to keep the copper buyers on the anxious seat as it is known that the manufacturers are scrimping along with the smallest stocks of copper in their history; but against these factors there are steadily increasing evidences of a recession of business in many lines of industry.

NO DIVIDEND.

Parrot Silver & Copper Co. Passes Usual Distribution.

New York, Nov. 12.—Directors of the Parrot Silver and Copper company, one of the subsidiary companies of the Amalgamated Copper company, today voted not to declare the usual quarterly dividend of 25 cents per share. The directors announced that the omission of the dividend was due to curtailment in production, depression in the copper industry, and to the fact that the ores treated are of a lower grade than formerly.

WORK BEING PUSHED.

Mackenzie Properties Giving Good Results Right Along.

Work on all the Mackenzie properties is being pushed forward with as much energy as ever, says the Goldfield News, notwithstanding the funds of all the various companies controlled and managed by him, with the exception of the Frances Mohawk and a small percentage of the Jupiter funds, are tied up by the closing of the banks.

In the Combination Extension mine the upraise from the 400-foot level is being rapidly advanced and the face is showing the best looking and character of ore yet encountered. The management is greatly encouraged and is confident that the mine will be shipping ore at an early date.

In the Frances Mohawk mine there is a complete change in the formation. The south drift on the 330-foot level is now in a true, coarse grained quartz that appears to lie in the center of an enormous dyke. A crosscut to the footwall has disclosed a two-foot streak of heavy sulphide ore which carries but nominal values, although heavily mineralized. In addition to this crosscut a drift has been started to the west and appearances indicate that a good body of ore will soon be encountered.

In the Jupiter mine, development work is being confined to the lower levels, where the crosscut is in an excellent character of oxidized ore, that shows increasing values as the work progresses. While the force has been reduced at the Jupiter, a sufficient number of men are employed to carry forward the work in a conservative manner, consistent with good mining and the present financial conditions.

DALY WEST MINE IS AGAIN OPEN

Citizens of Park City Are Wearing a Gala Air.

FULL FORCE GOES TO WORK.

The News is Received With General Satisfaction by All.

The busy mining camp of Park City took on a gala air this morning when it was announced that work was to be resumed in the Daly West mine. This property has been closed down for some time past and for a time it looked as though the reopening might be considerably delayed. The payroll is a large one and the reopening of the property coming as it does at a time when many properties are closing down, is regarded as a matter for congratulation among all classes in the camp.

Today will be devoted to getting things into shape for the start. The mules used in the transportation of ore underground will be again lowered into the mine to recommence their daily toil. Tools, machinery, etc., will receive a thorough overhauling and the mine itself will be subjected to a rigid inspection before the first shift is sent into the workings.

The mine itself is a busy place today and the feeling of general satisfaction is shared by all. With the announcement of the resumption of work comes the assurance that the next close down is still in the realms of the dim distant future and likely to remain so for some time to come.

STOCK EXCHANGE.

Market Strong and Volume of Business Good.

Notwithstanding the more or less uncertain quality of conditions financial, the amount of business transacted on the floor of the Salt Lake Stock and Mining Exchange today was well up to the average. The market held firm throughout both sessions and except in one or two instances there was practically no decline in prices.

A feeling of confidence appears to exist among the brokers with regard to the future and prospects are regarded as encouraging.

PRICE TENDENCY VERY INDEFINITE

New York, Nov. 12.—Moderate advances over last night were scored by the majority of stocks on dealings which were much restricted. Canadian Pacific rose 1½; Southern Pacific, Reading and American Cotton Oil about a point and Union Pacific, Atchison, Pennsylvania and Baltimore & Ohio large fractions.

The demand for stocks was fairly brisk up to certain limits, after which there was a lapse into dullness and lower prices, which wiped out most of the previous advances. These included 5 points in American Cotton Oil preferred; four in Colorado Fuel preferred, Pittsburg Coal preferred, 3; Canadian Pacific 2⅜ and Union Pacific, Atchison, Northern Pacific, Pennsylvania, Kansas City Southern preferred, U. S. Steel pfd and Republic Steel pfd. 1. American Smelting lost 1.

The reaction carried American Smelting and American Sugar 2 points lower than last night, Amalgamated Copper 1⅛, St. Paul 1⅛ and Union Pacific and Great Northern preferred a point. Baltimore & Ohio pfd. sold at a decline of 3, U. S. Rubber lost 1.

The tone was heavy at noon.

Bonds were irregular.

Heavy selling of American Smelting broke it 4½ to 62⅛. Other stocks also sold lower, with the western group being freely offered. The passing of the Parrott Silver and Copper company dividend affected the copper market. Amalgamated Copper and General Electric gave way 2, St. Paul 1⅝ and Reading, Northern Pacific and Westinghouse Electric 1.

Heavy liquidation of copper stocks continued up to 2 o'clock. The American Smelting sold at 60⅞, the lowest price of the year and 6⅛ below yesterday's closing. Amalgamated copper loss reached 3. Union Pacific and S. Paul yielded 2. American Smelting pfd. 2¼. Great Northern pfd. 1½ and New York Central and Pennsylvania 1.

The market closed easy and very dull. Northern Pacific fell 2. A rally in American Smelting and Amalgamated copper of 1 steadied the market. Prices yielded again to about the lowest.

LIVESTOCK.

CHICAGO.

Chicago, Nov. 12.—Cattle—Receipts about 11,000. Market easy. Beeves 3.50@6.50; cows 1.15@4.80; calves 5.50@6.70; Texans 3.25@4.00; westerns 3.00@5.20; stockers and feeders 2.25@4.40.

WOOL.

ST. LOUIS.

St. Louis, Nov. 12.—Wool steady. Territory and western mediums, 23@25; fine mediums, 20@22; fine, 17@19.

PRODUCE.

CHICAGO.

Chicago, Nov. 12.—December wheat today opened unchanged to 1⅛ higher at 94⅝@94½ and sold at 93½@⅞.

The corn market was firm early in the day, but prices declined shortly after the opening owing to favorable weather throughout the corn belt. December corn opened a shade lower to ⅛@¼c higher at 57⅞ to 57⅞ and sold at 56⅝.

The oats market was weak in sympathy with wheat and corn. Trading was light. December oats opened ¼ lower at 47⅝ and sold at 47⅝. The provisions market was active and prices were weak because of lower prices for live hogs and active selling by packers. January pork opened 10c lower at 13.15; lard was down 7½@8.67½ and ribs were 5 c lower at 7.07½.

Wheat—December 92⅝; May 1.01⅝@⅝.
Corn—December 55⅞; May 56⅝@⅝.
Oats—December 46⅝; May 49⅛.
Pork—January 12.90; May 13.27½.
Lard—January 8.60; May 8.00.
Ribs—January 6.87½@6.90; May 7.10@7.12½.
Barley—Cash 75@90.
Timothy—Nov. 4.20.
Rye—80.

BUTTER AND EGGS.

Chicago, Nov. 12.—Butter, strong; creameries, 22@26; dairies, 21@25.

Eggs steady at mark, cases included, 17½@20½.

EVAPORATED FRUITS.

New York, Nov. 12.—There is a slightly better demand for evaporated apples with 8¾c bid for November delivery, but little offering at that figure; spot quotations are steady, with fancy quoted at 10½c; choice, 8½@9¾c; prime, 8¾@9c; 1906 fruit at 8½@10¼c.

There is a moderate demand for spot prunes in small lots, but apples are increasing and the market is barely steady. Quotations range from 4½@13½c for California fruit, and from 6¼c to 7c for Oregon 50s and 60s.

Apricots are unchanged at 21c for choice; 22c for extra choice, and 22@24½c for fancy.

Peaches are steady, with choice quoted at 12@12¾c; extra choice, at 13@12½c, fancy, at 13@13½c, and extra fancy, at 14@14½c.

Raisins were easy, with loose muscatels quoted at 7½@c; seeded raisins, 7¾@10½c, and London layers, 1.55@1.5.

SUGAR AND COFFEE.

New York, Nov. 12.—Sugar raw, quiet; fair refining 3.30; centrifugal 96 test 3.80; molasses sugar 2.95.

Refined quiet; crushed 5.70; powdered 5.10; granulated 5.00.

Coffee, quiet; No. 7 Rio 6; No. 4 Santos 7¾.

ROMAN ANARCHISTS

Not Permitted to Celebrate Anniversary of Death of Chicago "Martyrs."

Rome, Nov. 11.—It is the custom of anarchists of Rome to celebrate every year on the eleventh of November the execution in 1887 of the Chicago anarchistis. The date coincides with that of the anniversary of the birth of King Victor Emmanuel. This year the anarchists wanted to have a meeting and pardae through the streets of the city. This the police forbade, and today 1,500 soldiers took up advantageous positions around the building where it was purposed to hold the meeting. There was no encounter with the authorities, but nevertheless 50 anarchists were arrested. Among the prisoners are two men who were responsible for the attack upon Monsignor Merry del Val last summer. Some of the prisoners resisted arrest for a few moments, crying out "Long live anarchy," and "Long live the memory of the Chicago dartyrh."

SO. PACIFIC CUTS WAGES.

San Pedro, Cal., Nov. 11.—A cut in the wager on the Southern Pacific and the Pacific Electric railways went into effect this morning. The cut affects the section men on both roads. Wages on this division of the steam railroad are reduced from $1.25 to $1, and on the Pacific Electric from $1.40 to $1.15. The men on the electric road refused to work today.

BAD NEGRO REARRESTED.

Yuma, Ari., Nov. 11.—William Wright, colored, aged 30, who was pardoned by President Roosevelt Dec. 14, while serving a life term for an outrage concerning which there was some doubt, was re-committed to the penitentiary here today under sentence for life after conviction of assault with attempt to kill.

CAPT. AMUNDSEN WILL TRY FOR THE NORTH POLE

Chicago, Nov. 12.—Sailing under the American flag and with Polar bears as his aids instead of Esquimo dogs, Capt. Roald Amundsen of Norway, will attempt in 1919 to reach the north pole.

At a banquet given in his honor by Chicago Norwegians, Capt. Amundsen announced last night that preparations for his next journey into the frozen north were about completed. He said he would sail from San Francisco to the Bering straits and attempt to float on the ice to the north pole.

Capt. Amundsen said he would determine soon whether to have his ship built in this country or Norway. A number of American capitalists have been interested in the plan, and if the proposed deal is put through American capital will provide for a five years' voyage and it will sail under the American flag.

COMPARING PRISONS.

The Duchess of Marlborough Will Visit the Tombs.

New York, Nov. 12.—The Duchess of Marlborough, accompanied by Mrs. Clarence H. Mackey, whose guest she is, will visit the Tombs this afternoon. The duchess desires to compare conditions in American prisons with those in English prisons. She also wishes to compare the work which prison associations in the two countries have accomplished. John V. Coggey, commissioner of corrections, will personally conduct the two ladies through the place, and Warden Flynn, chaplains, physicians and Prison Reform association workers will be in the party.

MERCHANTS' NAT'L BANK OF PORTLAND, OR., FAILS.

Portland, Ore., Nov. 12.—The Merchants National Bank of this city did not open its doors for business this morning. The following notice was posted:

"Having been unable to realize on our securities rapidly enough to meet the heavy demands lately made upon us, we have been compelled to temporarily suspend payment. Since the commencement of the holidays we have liquidated about one million five hundred thousand dollars of our deposits without aid other than that granted by the clearing house association. The association loaned us up to the limit permitted by the national banking act. The bank is solvent. We have sought the advice of the controller of currency and confidently expect to resume business within a short time."

J. Frank Watson is president and Ralph W. Hoyt cashier of the Merchants National. The bank was capitalized at $250,000 and on the last call of the controller of the currency the report showed deposits of $5,216,022.11.
