The Question is Perplexing the Diplomats of Mexico and United States.

COMPLICATIONS THREATENED.

At Present Both Governments Doing Everything Possible To Check the River.

freaties Provide That the Colorado shall be Maintained as a Navigable Waterway.

Washington, Oct. 9 .- Who is responsible for the creation of the Salton sea in southern California, which already covers an area of 400 square miles and threatens to spread over 2,000 square miles if some means of diverting the Colorado river cannot be devised? This question is perplexing Mexican and American diplomatists, but for the time being diplomatic representations have been suspended and both the United States and Mexico are bending every effort to check the river which has been accidentally turned from its course through the efforts of the California Development company to irrinte lands in northern Mexico and southern California.

Interesting complications of an intemational nature are threatened when the two governments attempt to settle heir differences and make good the heir differences and make good the damage which has been brought by diverting the Colorado from its old channel. The California Development company originally tapped the river, Selow Yuma, Arizona, and carried water from Arizona through a canal into northern Mexico and back into a great northern Mexico and Oka inco a scalar valley in southern California. In 1904 it was found that this canal was in-adequate to supply water required for the irrigation project and a Mexican corporation, controlled by the California Development company was authornia Development company was author-ized by Mexico to take water from the Colorado in Mexico, a short distance south of Yuma. The irrigation canal was only one-fourth of a mile from a river at the point in Mexico where a ditch was cut through the sandy bank of the river connecting with the great irrigation canal. No gates were provided, and when the Colorado river was diverted from its channel, it out away its bank and went raging into the lowlands in California far below sea level. Repeated attempts have been ande to turn the river back into the nel, but without success. Again and again, the Southern Paci-e railroad has been compelled to move

Unterrified Delegates to Meet at Salt Palace to Name County And Legislative Ticket.

WILL RAY WILL WIELD GAVEL.

Ex-Mayor Morris Being Urged for State Senate and Chairman Cunningham for Recorder.

Name of George D. Pyper Being Hard Pressed This Afternoon for Office of County Clerk.

With every ticket nominated except the Democratic, Chairman M. M. Cunningham will tomorrow morning march. the Democratic hosts into the Salt Paiace for the last of the fall conventions. After that the campaign will be on the definite basis of "electing the ticket" and the discussion of relative merit among candidates.

So far the prospect isn't great for straight tickets, and the appeal is being made to vote a straight conscience instead of a straight ticket, as the Democratic party, the American party and what has been termed the "Harrington Republicans" are on platforms that more or less agree in a general way, the more radical features of the one lapping over the more conservative territory of the other.

Tomorrow the convention promises to be an interesting one. Candidates were busy today discussing favorites on the Second South street curbing, and Democratic headquarters were well filled with those who hope for places.

The party is taken over this fall bodly into the "hands of its big men." That is the leaders are out looking for a strong ticket, that can be counted on o pull most on its individual merit. TEMPORARY ORGANIZATION.

The temporary organization for tomorrow has been selected by Chairman Cunningham. It consists of Will W. Ray for chalrman, Stephen L. Richards for secretary, and Nicol Hood for sergeant-at-arms. Following the general custom the temporary organization will probably be made permanent with the addition of a vice-chairman and a few issistant secretaries.

TWENTY-FIVE PEOPLE DROWNED

El Paso, Tex., Oct. 9.—The Herald this afternoon prints a dispatch from Jalisco that as a result of high water in Santiago river in that state, 25 lives have been lost. Fifteen men, it is reported, were drowned near San Pedro Analco mines by the capsizing a boat. Dr. Rodrigues Guadalajara, a physician, was drowned. Floods have been very destructive throughout Jalis-co, and Tepic and elsewhere.

BARGES CUT ADRIFT.

Hancock, Mich., Oct. 9.-The barges Wayne and Foster were cut adrift dur-Wayne and Foster were cut adritt adr-ing last night's gale, and today they are on the shore of Lake Superior, 14 miles above the portage lake ship ca-nal. Nothing is known yet of the fate of the 14 men who were on the boats. The life saving crew has gone to the wrecks.

QUIET AT BUCKINGHAM.

Members Divided Over Financial and Army Questions,

Helsingfors, Finland, Oct, 9.-A test vote at the congress of Constitutional Democrats, now in session here, has not been taken, but the radicals claim they have a working majority, pointing out the attitude of the speakers, of whom 60 per cent advocate radical views. It is not determined, how-ever, how far the party will be left to attend to the financial boycott of the government. The extremists advocate a hold appeal to the peasantry to refuse to enter the army during the re-cruiting season, which opens this cruiting season, which opens this month. The central committee today was more strongly disposed to a commise in order to avoid a disruption of the party, but apparently they can-not hope to retain the moderates. Sixty

KANSAS VS. COLORADO.

Case Postponed Because of Constitu-

tional Question Involved.

Washington, Oct. 9.-Because of the constitutional question involved, the suprema court of the United States today postpon-ed the hearing of the irrigation case of Kanasa versus Colorudo relating to the disposition of the waters of the Arkansas

By Salt Lake Club.

Members of the Salt Lake Rowing club which never was disbanded, are much gratified on learning that a resort is reported as likely to be established at Black Rock, where special advantages for rowing will be offered to rowing men. The club contains not a few former members of colleg crews; in fact there are enough forme college athletes in Salt Lake to make conege athletes in Sait Lake to make up three or four eight oared crews, to say nothing of fours, doubles and sin-gles; and if opportunities were offered, they would be improved. Sait Lake is the fastest water in the world, exthe fastest water in the world, ex-cept the Dead Sea, when it is quiet, as on account of the density of the water, boats sit higher, with a ten-dency to rush up over the surface, while a narrower bladed oar can be used, with a firmer grasp on the heavy water. The main objections, however, are that shells can not be used in rough

AWFUL AUTO TOOTERS.

Cause St. Vitus Dance and Frighten People Into Hysterics,

The new automobile cars received in this city are provided with siren tooters, and which can be made to emit a ombination of grunts, groans, shricks and yowls that is nothing short of dia bolical. Mothers hearing the noise grab up their children and frantically rush for places of safety, school chill dren climb the nearest trees or telephone poles, others tumble into areas or dash into the nearest doorways to escape supposed impending disaster. People rush to the windows to see what is coming, policemen grasp their clubs in anticipation of trouble, Horses object to the innovation, and "go straight up into the air;" so all 'round, sirens are creating considerabl excitement.

THE MONGOLIA ARRIVES.

San Francisco, Oct. 9.—With her for-ward hold filled with water, the big Pacific mail liner Mongolia, which went on the reef at Midway island, Sept. 15, arrived in the harbor this morning, after being obliged to remain outside a day and a night because of the heavy fog. When the Mongolia left Honoluu she had two gaping holes through her had two gaping holes through he she had two gaping noies through her double bottom and once the ship was under way, the hole began to fill rapid-ly. The day following her departure from Honolulu, Asst. Engineer Bunkers was ordered to rig a pump in the hold. They were obliged to work in water which was at times over their heads and which proces around their waiss. At

dates, John Howell, who fought Cummings for the nomination last year, and Cummings who won it, are both out, while Michael Mauss, marshal of Murray, is marching up from the south with a solid country delegation. His friends insist that his chances are good, as so many of the other offices seem to be going to the city. weather, and the salt has to be washed off the boat bottoms whenever used. COUNTY ATTORNEY.

For county attorney Ashby Snow has been an active candidate for several weeks. With his name is also mentioned that of D. O. Willey, Jr., who is also hustling for support. Frank B. Stephens was mentioned, but he has refused to make the running, giving a pressure of law business as an excuse,

FOR COMMISSIONERS.

For county commissioners those mentioned are John Clark, former mayor of Salt Lake, L. E. Hall of the Fourth precinct, and Frank Howe of Mill Creek

COUNTY CLERK.

For county clerk sentiment seems to be focussing on George D. Pyper. He was invited to run today by his sup-porters, and assured them that if elect-ed to enter the race he wouldn't refuse to do so, so that his stock is rapidly go ing up. FOR RECORDER.

For county recorder, M. M. Cumulagham, facile of pen, and county chair man, is mentioned favorably. When When interviewed Mike declared that both he and Dole had taken a solemn oath not to be candidates this fall. Other party loaders, however, declared that they will see to it that Cumning-ham will be nominated despite himself. Steve Moyle and Thos. Alston are out for the place, and each has a following.

FOR TREASURER.

For county treasurer, L. H. Young is mentioned, for county assessor, W. J. Horne and J. E. Lynch, each of whom seems to have a fair sized boom.

HARPER FOR AUDITOR.

The man for county auditor seems this afternoon to be H. S. Harper, who has encountered a boom for himself in this direction, while he had his lightning rod up for the position of day justice of the peace.

REPRESENTATIVE ASPIRANTS.

The lower house of the legislature is where the fledglings are flocking for a trial flight. The kindergarten departtrial flight. The kindergatten depart-ment of the party is well represented here, as was the case in previous onventions.

For the house Samuel Russell, dis-trict chairman of the Fifty-fourth trict chairman of the Fifty-fourth has a pledged delegation working for him, while S. L. Richards, who will act as secretary of the convention, is making a noise like a candidate. H. C. Lund is mentioned. Will G. Far-rell, former Democratic county secre-tary, is out for a place. Alex McMaster is for running. A. S. Brown, near abamelan of the state in lawn tenuis champion of the state in lawn tennis, is mentioned as are also H. C. Lund. W. W. Ray, Thomas H. Quillan, Neis Lind, Mahonri Spencer, Theo Tobla-son, F. Dale, Frank Howe, D. O. Wil-ley, Jr. W. M. Howater, George W. Riter, former city engineer, and C. | P. Overfield,
