TERMS IN ADVANCE.

Local and Other Matters.

FROM TUESDAY'S DAILY, SEPT. 18.

Sudden Death.—The *Dispatch* records the death, by apoplexy, on Saturday evening, of Mr. James Turner, of Ogden City.

New Strike.—A fresh strike is reported in the Empire Mine, of ore which will go from \$800 to \$900 to the ton.

Juvenile Instructor.—Another copy of this excellent magazine is before us. This number, 18, of the present volume, is not a whit behind its predecessors, but contains its usual variety of pleasing and instructive literature.

Brigham Young College.—The B. Y. College, at Logan, commences its academic year on the 13th of October. Miss Ida J. Cook, the principal, is spending a few weeks in this city, but will return north in time to resume her professional duties on that date.

Arrived-Departed.—By private telegram from Elder W. C. Staines, we learn that the company of emigrants that left Liverpool on the 6th inst., arrived in New York today, and will leave for the west tomorrow. The company of outgoing missionaries left that port to-day.

From Arizona.—Mr. W. A. Kimball, of Hayden's Ferry, Arizona, made a call on us yesterday. He speaks in terms of praise of the southern country and of the good people of his settlement, who were getting along finely. There was plenty of room for more settlers down, and a hearty welcome also. Mr. Kimball will remain here for a few months, visiting his relations.

"Leader" Lines.—The Logan Leader gives us the following items:

Franklin, Idaho, is to have a woolen factory. The building is now in course of erection.

Logan has a 10 year-old burglar. His extreme youth is all that saves him from prosecution.

Cache Valley fruit is being purchased in large quantities for shipment to Montana.

The U. O. of Hyrum is entering into an extensive lumber business.

Stabbing and Shooting.—Last Sunday night, Alexander McNeen and Wm. O'Malley got into a row in a saloon in Park City, McNeen being the aggressor. The latter loaded his opponent with abuse and vile language when the other drew his pistol. McNeen then jumped upon him with a knife and stabbed him several times. While scuffling, O'Malley fired, the ball taking effect in his assailant's neck and ranging downwards. McNeen, at last accounts, was dying, but O'Malley was around as usual. McNeen is the person who stabbed young Marsden a short time ago in this city.

Kingston United Order.—We received a call this morning from Elder Thomas E. King, representing the community of Kingston, Piute County. The United Order has been established there for over two years and is progressing very favorably, the forty families comprising the settlement, all living together in peace, and sharing in common. About 400 acres of soil are under cultivation; a grist mill, saw mill, two dairies, shoe shops, carpenter shops, etc., are busily at work, and other branches of industry are being added as fast as practicable.

Each family has its private residence, but all eat at one table in a large hall. Other household wants are supplied from the United Order

store. A board of directors preside over the affairs of the community, to whom the wants of the respective families and individuals are represented and furnished accordingly. Labor is of course divided, the various employments being given to those best adapted for their performance, and all moves along in peace and harmony. Brother King is up to the city to procure machinery for a cloth factory to be added soon to the other industries.

FROM WEDNESDAY'S DAILY, SEPT. 17.

Release.—We clip the following from the *Millennial Star* of September 1:

"On account of ill health, Elder Isaac J. Wardle is released to return with the company that will leave Liverpool on September 6th."

The Tabernacle Vane.—The vane which surmounts the spire of the New Tabernacle is in the form of an angel blowing a trumpet. The figure is over four feet in length. The design is similar to that which adorned the pinnacle of the Nauvoo Temple.

Whose Letter.—There is a letter at this office addressed to Mrs. Elizabeth Bettison or Mary Arper (or Harper). The writer, Mr. George Pengeley, would like to hear from either or both of the ladies addressed, who are his sisters. His whereabouts will be made known in the letter.

Shot Himself.—The *Chronicle* records an accident to Alfred Fennimore, son of Mr. George Fennimore, of Beaver. On the 12th inst. he was attempting to load a pistol with a cartridge too large for it, when it exploded, the ball striking the fleshy part of the thumb, ranging upward and lodging near the elbow.

Painful Accident.—Yesterday morning, Melvin Wells, a young son of President D. H. Wells, accidentally stepped with his bare foot upon a board containing nails, the points of which were sticking upward, and ran three of them nearly through his foot, the points all but protruding from his instep. The young boy bore the pain with fortitude, the wounded member was immediately dressed, and it is to be hoped no more serious result will take place.

Arrivals.—The *Millennial Star* of Sept. 1st, has the following:

"On Friday, Aug. 29th, the following visitors from Utah, arrived on the S.S. *Wyoming*: Brothers C. R. Savage, Geo. M. Ottinger, Robt. Dye, Mrs. Dye, Mrs. May and Mrs. Driver. The latter is accompanied by one of her children, a little boy. Brother Savage is the pioneer photographer of Utah, whose scenic pictures have been much admired in nearly every part of the world. Brother Ottinger is Utah's most accomplished artist.

The party were met on the steamer by President Budge and Elders Nicholson and Cope. All appeared in good health and spirits.

The Gold Strike Again.—The Provo Cañon gold excitement now assumes another phase. A gentleman of this city, just returned from Provo Valley, informs us that the recently reported discovery is regarded there as anything but a hoax, and that those who have been forward in proclaiming the sensation to be a "bursting bubble," have been doubly deceived regarding the true status of the case. The work is said to be going ahead briskly, a town site is being staked out, boring is going on in four different places and prospecting opposite the south fork of the cañon, extends the distance of a mile.

The object of the discouraging reports circulated, is represented as the policy of the miners in that section, to keep back a rush until they shall have secured the most valuable claims for themselves. If this be true, the reason why the assayed specimens contained "no traces of either gold or silver," is a matter of easy comprehension.

Father Fordham Gone.—We have received an obituary of Father Elijah Fordham, who died at Wellsville, Cache County, on the 9th

inst., at the ripe old age of 81 years and six months. He was originally from New York, in which city he was born March 8, 1798. In 1832 he moved to Clinton River, Michigan, where he embraced the gospel next year under the hands of Elder Fosdick, and moved to Kirtland, Ohio. Here he was ordained a Seventy under the hands of the Prophet Joseph and his Counselors, Feb. 28, 1835. He was a member of Zion's Camp to Missouri. In 1837 he assisted Elder P. P. Pratt in publishing the "Voice of Warning." In 1839, at Montrose, Iowa, he was miraculously healed under the administration of the Prophet Joseph, and afterward moved to Nauvoo, where he worked on the Temple until compelled to flee with the Saints in 1846. He crossed the plains in Bishop Edward Hunter's company in 1850, and has remained in Utah ever since. He received a sunstroke in 1863, from which he never fully recovered, and has quietly passed away, firm in the faith he espoused and whose principles he maintained through a long and eventful life. The funeral was held in Wellsville, on the 11th inst.

FROM THURSDAY'S DAILY, SEPT. 18.

Ogden Victorious.—The shooting match yesterday afternoon, between the Ogden and Salt Lake clubs, was won by the former, with a score of 40 to 42. The Junction boys are now two scores ahead.

Bee Meeting.—Some time during the October Conference there will be an important Bee Meeting held in this city, which all interested in this meritorious industry are cordially invited to attend. In view of the continued ravages of foul brood among the bees in various localities, it is to be hoped that there will be a full attendance at the meeting, as it is desirable that some measures be adopted whereby said ravages may be stayed by petitioning the Legislature to pass some act that will secure this very desirable end. *Herald*, please copy.

Another Artesian Success.—A Payson correspondent writes under date of the 16th inst., of a successful experiment in well boring, on the farm of Mr. John Stahely, on the Payson bottom, north-east of that place. The well is bored on elevated ground, where it can easily be turned on any part of the farm, is 65 feet deep and has a flow of 40 gallons of water per minute, which is 2400 gallons per hour, or 57,600 per day; with the expectation of an increased volume as the well is made deeper. The Abek Brothers, of Payson, who run the machinery, are said to possess considerable inventive ability, having made an improved borer, of greater power than the one they had before, and are prepared to work on artesian wells at reasonable charges.

Land Surveys.

UNITED STATES SURVEYOR GENERAL'S OFFICE, UTAH TERRITORY.

Salt Lake City,

Sept. 17, 1879.

Notice is hereby given that the following named township plats were this day filed in the United States Land Office.

These plats include a portion of the re-survey of the late Sanpete Indian Reservation, executed by Adolphus Jensen, United States Deputy Surveyor, under his contract No. 91:

20 south range, 1 west.
19 " " 2 east.
19 " " 1 "
18 " " 1 west.

FRED. SALOMON,

U. S. Surveyor General.
By T. C. BAILEY, Chief Clerk.

"Enquirer" Items.—The names of 140 students are registered at the B. Y. Academy.

Miss Susa Young is expected to resume her situation as music teacher at that institution.

Thirty head of cattle and three fine brood mares met their death in the flames, during the recent fires in Payson Cañon.

The Lulu mine will ship a ton of ore to Salt Lake this week. The managers say this will tell the tale. Willowtown, near Richfield, is

troubled with a disease which attacks the patient in the side and under the arm. A painful swelling appears and is said to be dangerous. One death from it is reported.

The Utah Southern extension has reached Oak Creek, near Deseret. Track-laying has stopped for want of iron, but grading still goes on.

Museum.—Mr. C. W. Henry, of Ashley's Fork, has discovered a ledge of marble which is worth looking after; it is said to be a very large deposit. From the appearance of a specimen presented to Brother I. McMurrin, of this city, there would be likely to be found varieties of useful marble. Brother McMurrin has given the specimens to the Deseret Museum; it is a mottled or figured marble, which, if properly quarried and handled, would command ready sale. It would be well for persons who make discoveries to give their names and postal address, so that those who are wanting articles could obtain them readily. Enquiries are frequently made in this city for minerals and salts which receive notice in our local columns. The question is often asked, "Where can I get crude nitre, salts of copper, green vitriol, pigments for paints," and other things, and nobody knows anything about them, although they have been brought into public notice.

NEPHRETICUM

THIS GREAT

KIDNEY AND BLADDER TONIC

SUPPLIES a want long felt by a certain class of sufferers, and has a high rank among remedial agents. It is a specific in the cure of all Kidney, Bladder and derangement of the Urinary Organs, Irritation of the neck of the Bladder, a burning sensation, retention of the urine and Brick Dust Deposit, tendency to Gravel always coupled with Pain in the Back, are sure indications of Dropsy, Diabetes and Bright's Disease of the Kidneys. A few doses will give immediate Relief, and if taken according to directions, will perfect a cure.

Price, - \$1 per Bottle
SOLD BY ALL DRUGGISTS.

Catarrhal POISON

Wei De Meyers' Treatise on Catarrh,

explains the following important facts:

1. That Catarrhal Colds become a poisonous infection, at first local, and finally constitutional.

2. That, being Constitutional, the infection is beyond the reach of mere local remedies.

3. That when ever impurities exist in the nostrils, are necessarily swallowed into the stomach and inhaled into the lungs, thus poisoning the digestive, the respiratory and the genito-urinary organs.

4. That Catarrhal virus follows the mucous membrane and causes Weak Eyes, Deafness, Dyspepsia, Chronic Diarrhoea, Bronchitis, Leucorrhoea and Consumption.

5. That Smokes, Douches, Inhalations and Insoluble Snuffs, taken into the nostrils and throat, cannot possibly remove infectious inflammation from the organs named.

6. That an antidote for Catarrh must possess an incalculable affinity for, and the capacity of being absorbed by the purulent mucous membrane wherever located.

Acting upon these theories, Dr. Wei De Meyer has found a remedy for Catarrhal diseases, which proves to be infallible. His Treatise, with overwhelming proofs and full explanations of the most important medicinal discovery since vaccination, is sent free and post paid to anybody. Dr. Wei De Meyer's Catarrh Cure is not in the hands of all Druggists. Where not thus procurable, it will be delivered to any address at \$1.50 a package. To Clubs, six packages for \$7.50. To the trade, liberal terms.

D. B. DEWEY & Co., Ag'ts, 48 Dey St., N. Y.
