CAMP WILBERT IN GOOD SHAPE.

Rumors of Eastern Capital and Speedy

Development of Company's Property.

A message from Camp Wilhert, Ida.,

just received, is to the effect that Messrs. Young and Brown are shipping

ore from their Daisy Black group to the Salt Lake smelters. The general char-acter of both the ore and the property

is said to be improving right along. Development work on the property has

been retarded somewhat by lack of capital, but it is understood that east-ern capitalists are now busy figuring and that substantial results may be looked for.

The surrounding country affords ev-

ery facility for the successful mining of large bodies of ore and at intervals

during the past rumors to the effect that the erection of a small smelter was being contemplated, have been per-

HONORINE TO CHANGE HANDS.

Plans of U. S. S. R. & M. to Take Over

Well Known Company.

The rumor gains ground in mining circles that the U. S. Smelting, Refining & Mining company is after the Honorine property. An expert from the company is said to have just completed

a thorough examination, and it is authentically stated that within a very short time this well known property

will have gone to swell the list of good things held by the above company. Much interest is felt in the Honorine mine both by mining and other busi-ness men. It's development during the

past few months alone is remarkable, and its output has been clean and of a better grade than practically anything the U. S. company has had on its lists

BUSINESS GOOD ON 'CHANGE.

Values Normal and Brisk Trading Prev ils During Regular Morning Call.

26,000 SHARES CHANGE HANDS

May Day Not Dealt in on Call or Open Board for First Time in Many Days.

Business on 'change today was of about its usual volume and trading in a number of stocks was brisk throughout the morning. May Day seemed to lose its popularity for no reason whatever, not a share changing hands at any price; 2,800 Lower Mammoth sold at 49% and 50 and 600 Wabash brought 95 to \$1.00; 2,300 New York brought 32% to 33%, or a fraction less than yesterday's closing price. A total of 6,500 shares representing a value of \$5,856.75 were sold on the regular morning call, 19,500 changing bands on the open board, with an aggregate value of \$3,178.

into service by the militla and for several hours devoted his energies to the eral hours devoted his energies to the renovating of San Francisco's streets. He finally managed to make his escape, and capped th climax of his efforts by donating \$50 to the Commercial club relief committee upon his arrival here. Mr. Effinger appears none the worse for his experience, but expresses himself as having seen enough of the kind to last him the balance of his netural life.

ADAMS GOLDFIELD MINING CO

Holds Meeting and Elects Officers-Development Work to be Pashed. The annual meeting of the Adams The annual meeting of the Adams Goldfield Mining company was recently held in the office of the company in this city, says the Goldfield (Nev.) News. Directors were elected for the ensuing year as follows: R. L. Johns, A. C. Eisen, H. G. Bragdon, Isaac Mc-Kay, M. G. Williams. The directors will meet next Monday and elect the officers of the company.

Among other matters taken up at the annual meeting was that of plans for

annual meeting was that of plans for future development of the estate. It was decided to push operations on an extensive scale, and to prove up the ground at depth. Crosscutting is in progress from the 160-foot level, and the prospects favor the opening up of a large body of shipping ore.

WILL LEVEL MOUNTAIN.

Boston Con to Begin a Campaign of Development on Extraordinary Scale.

Manager L. S. Cates has given out a statement to the effect that preparations are being made for mining at the Boston Con, properties at Bingham on a more extensive scale than anything that has even been undertaken in the western mining region. A railroad will be built to encircle the mountain from base to summit, and five 20 ton loco-motives with 50 freight cars are part of the additional equipment that has been ordered to handle the product as fast as it is taken from the mountain by no less than three steam shoveis that will be placed in commission. The entire mountain will first be stripped of the overlying ground, and the hill made bare for the production of the copper bearing rock. In this manner the entire mountain, which is 700 feet in height, will be removed in ther fashion and sent to the mammoth milling plant at Garfield and ground up into concentrates.—Mining World.

MAY DAY CONTINUES TO GAIN. Still Shipping a Car a Day and Early

Dividend Looked For. A message from Eureka today states that the May Day mine is looking bet-ter every day, and the physical con-dition of the mine is improving to such an extent as to justify the anticipation of a dividend in the near future. A car of ore is being shipped daily and it is expected this will continue indefi-

SUIT AGAINST DALY WEST. Damages in Sum of \$40,000 Asked for Personal Injuries.

Some idea of the magnitude of mining operations in the State of Utah may be gained from the following review of dividend paying properties and the amounts distributed by them during a period of six days during April, according to the Mining World.

If any further evidence were required to convince the most skeptical of the value of the immense mineral resources of the state these figures would probably accomplish this end. Statis-Suit has been filed in the Third district court by John H. Eddy against the Daly-West Mining company for damages received by the plaintiff which he assesses at \$49,000. Complaint sets forth that on March 11, 1996, while working on the ninth level Eddy had occasion to pass a live blast, the existence of which he knew nothprobably accomplish this end. Statis-tics touching the distribution of profits by mining companies throughout the western states are not at hand but it is believed that the record just es-tablished would be hard to beat.
"A number of dividends were posted he existence of which he knew nothing and had not been warned. The explosion while he was within a few feet occasioned the loss of one eye and a portion of one hand, besides other properties of Utah. The great Silver King came forward with its usual distribution of \$100,000, which ruins the total dividends of this company up close to the \$11,000,000 mark. The Gemfini placed \$10 per share to the credit of its fortunate shareholders, or an aggregate amount of \$50,000, which makes the total of this proposition. minor injuries. Eddy claims to have been unable to work since,

E. M. West & Co., Stock Brokers, D. F. Walker Block. Tel. 1069-x; res. 3510-x.

COUNTY SCHOOL FUNDS.

an aggregate amount of \$50,000, which makes the total of this proposition \$1,600,000. Directors of the Uncle Sam Consolidated sent out checks for a \$5,000 dividend to its shareholders, while the Grand Central increased its dividend \$2,500 by posting a dividend of \$15,000, and the Victoria followed Bonds, Special Taxes and Apportionment for Current Year. suit by increasing its distribution to \$12,500. The Utah mine at Fish Springs closed the busy week by an-nouncing its regular monthly dividend

County Supt. of Schools Smith has comoiled the following statement of the state and county apportionments together with the special tax and school bonds received by the school districts of Salt Lake county for the year 1905-06:

GRANITE DISTRICT. School Population 4,178.

Probably one of the best known mining men outside Salt Lake City is Martin L. Effinger, at one time a resident here, but for the past two years engaged in the chase of the clusive nugget throughout the length and breadth of Nevada. Mr. Effinger passed through Salt Lake yesterday on his way to Pittsburg in connection with a mining deal, details of which he did not care to discuss. He left San Francisco Monday, and has many interesting tales regarding the great upheaval. At an early hour on the day of the quake he realized that food would shortly be all important, and with this in view purchased \$500 worth of provisions, which he distirbuted to the needy in Golden Gate park with the aid of an old German woman whom he impressed as a cook. This done, he was about to leave	State apportionment

GENERAL MARKET SHOWED HEAVINESS

At First There Was a Tendency To Higher Prices Because of London Quotations.

READING IN HEAVY DEMAND.

Whole List Went Up, Stocks Soon Becoming Dull on a Decline.

New York, April 25.-Opening prices in the stock market here today showed a moderate sympathetic effect from the higher range in London and there was a mixture of losses. Anaconda rose 1%. Sloss-Sheffield Steel and Colorado Fuel a point, and International Pump &. United States Steel opened down 12 and the preferred stock was % higher. The market was not very active.

was not very active.

A moderate decline from the opening indicated fight senang pressure and invited buying by the professionals, and there was a general recovery to above yesterday's closing. The recovery established a gain of 4 in Paeline Coast, 2½ in the preferred, 2 in United Railways investment preferred and 1 to 1¼ in Reading, Union Pacific, Northwestern and Colorado & Southern second preferred.

Reading came into heavy demand at an advance of 2 points, and the whole list moved upwards with an increased show of confidence. Great Northern preferred, Northern Pacific and Smeiting gained 1½ to 2.

Northern Pacific and Smeiting gained 1% to 2.

Bonds were irregular at noon.

The morning session invited profit taking and there was a general lowering of prices on sales of this character. Peacitions, however, did not run beyond half or 4 in the active features and the market became very dull on the decline.

A rebound on Reading to 121% was useless in checking the market elsewhern and a number of stocks lost their early rise, including Missouri Pacific and others. The U. S. Steel stocks again declined to below yesterday's closing. The heaviness of the general market discouraged attempts to hold Reading at the top and there was renewed profit taking in it which drove it off 14.
