

CUBAN REPUBLIC FAST DECLINING.

Uncle Sam Beginning to Realize
That Country Has Assumed
Ungrateful Attitude.

UNFRIENDLY TO BENEFACTOR.

Its Pending Treaty With Great Britain
Regarded as Evidence of This
Condition.

(Special to the "News.")

Washington, D. C., Nov. 21.—The government of Cuba, republic in name, democratic in form, Spanish in avarice, greed and craft, is already in a permanent decline, and is hastening to a final fall.

It has been known to President Roosevelt for many months; it was exceedingly well known to Secretary Hay, and it is known in amplitude and detail to Secretary Root, that the Cuban government has been in many diplomatic ways manifesting ingratitude to the great American giant whose strong arm and powerful hand struck down the oppressor of Cuba and lifted the Cuban people to liberty and enlightenment. It is known moreover that ingratitude has been already followed by an unfriendly disposition towards the United States. It is now known that a spirit of antagonism prevails, and it is simply a question of months, and maybe weeks, when the decaying fabric of a dishonest government will fall forth reluctantly, a death blow from the government of the United States, the government which gave life and liberty to that people.

The department of state in Washington has notified President Palma that the United States already regards as an unfriendly act the pending treaty with Great Britain, and will regard further efforts in that direction as a cause for intervention on the part of this government to prevent the wrongs which the Cuban government is doing towards the United States, and towards its own people.

Further details concerning the proposed necessary diplomatic change will be made public later on. For emphasis the statement is reiterated that we are now witnessing the decline and fall of the Cuban republic.

No pill is as pleasant and positive as DeWitt's Little Early Riser. These Famous Little Pills are so mild and effective that children, delicate adults and weak people enjoy the cleansing effect, while strong people say they are the best liver pills sold. Never grumble. Sold by F. C. Schramm, Druggist, Where the cars stop.

CATHOLIC DIOCESE.

Movement Started to Create Independent One in Nevada.

A movement is on foot to create the diocese of Nevada as an independent diocese, and a recent issue of the Nevada Journal gives the details as follows:

"Confirming the news published in the Journal some time ago, information was received yesterday from Bishop Grace that Nevada will be made a separate diocese, the western portion being separated from Sacramento, and the eastern portion from the Salt Lake diocese. The pope has also ordered that Reno be the bishop's home. This will necessitate a cathedral here instead of the church which it was proposed to erect to replace the one destroyed by fire.

It will be nearly a year, however, before the change will be made. The selection of a bishop for a new diocese was made with deliberation and great care. Meanwhile, worship will be carried on in temporary quarters. The bishop will select the site for the cathedral, and he will supervise the construction of the building. At present the eastern Nevada forms an important part of Bishop Scallan's diocese. It includes all of the state east of Reno. In it are Elko, Eureka, Austin, Corral, Tonopah, Elko, Pioche, De Lamar and a large number of minor towns. Presently the diocese of Bishop Scallan are now established at Austin, Eureka and Tonopah.

Counterfeiting the Genuine. Foley & Co., Chicago, originated money and tax as a threat and long remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for sale. Ask for FOLEY'S Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safe for children. Kidney trouble after the third month; urine may show sediment; falling vision; drowsiness; one of more of these.

BANK LOSES LETTERS.

But Checks in Them Were Non-Negotiable, Hence No Damage.

The Commercial National bank of this city lost seven letters a week ago in a very peculiar way, probably in transit to the postoffice, though just how the bank officers cannot make out. The letters contained checks stamped payable to eastern corresponding banks, and therefore non-negotiable, and of no use to anyone except that in the hands of an expert forger, the name of the payee might have been erased with acids, and even then it is doubtful if

TRANSLATION.

Benjamin Bros. are manufacturers agents in Sydney, Australia. Greenwood is H. O. Greenhead, the exporter of 320 San Francisco St., San Francisco. Concerning the report that cures for Bright's Disease and Diabetes have been discovered in San Francisco, Benjamin Bros. wrote Greenwood to send a small order, and if it really did the business they would send an important order. The above cable is the reply. It did the business. They couldn't wait for a letter, but cabled. Translated it calls for the immediate shipment of nearly \$400 worth of Fulton's Compound for Bright's Disease and Diabetes. The whole world is waking up to the wonder of the discovery. You don't have to cable \$300 miles. It's right at your doors. Send for literature. F. J. Hill Drug Co., Agents, Salt Lake City.

Fifty Years the Standard DR. FOLEY'S CREAM BAKING POWDER A Cream of Tartar Powder Made From Grapes No Alum

anyone could have made use of them. The first intimation the bank had of the checks being lost was a message from the other evening from the town marshal of Florence, Colo., asking if there was any reward offered for the return of the checks, stating that they had been found on the person of a vagrant giving the name of William Comer, along with the letters.

As there was no chance really of the bank's losing anything, no reward was offered the Florence town marshal, and he turned the find over to the United States marshal, who in turn handed it over to the local postoffice inspector at Denver. But as the letters were not postmarked, it is considered doubtful if the government will take an active interest in the matter. The prisoner claims to have picked the letters up in the street while in this city, and it would be pretty difficult to prove that he did not. The bank suffers only temporary inconvenience, as the checks were not cashed, and the letters were not mailed were all in a package, and in consequence the bank officials are much perplexed as to how those seven letters were lost.

Millionaire's Poor Stomach.

The worn-out stomach of the over-fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people and they suffer far worse tortures than the millionaires unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life enjoyable. No matter what your stomach trouble, try it. Regular size, 75c. At all druggists.

IRRIGATION IN IDAHO.

Payette-Boise Project Will Soon Water 100,000 Acres of Land.

J. B. Gowen of Caldwell, Idaho, is at the Wilson, and reports that the Payette-Boise irrigation ditch will be started before long as 90 per cent of the needed land has been signed up. The project will irrigate 100,000 acres mostly in Payette county, and will cost \$1,000,000. It will be a large project, and will be a great benefit to the people of Idaho.

Rheumatism and sciatic pain yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerve and being absorbed, it replaces the blood in its healing properties are conveyed to every part of the body, and effect some wonderful cures. Sold by F. C. Schramm, Druggist, Where the cars stop.

EXPRESS CLERK HELD UP.

A. P. Ouellette, of 997 Windsor avenue, a clerk for the Pacific Express company, reported to the police last night that he had been held up by a lone masked highwayman on Fourth South between State and Second East, and robbed of \$75, the company's money.

Ouellette was unable to give the police any description of the highwayman, but he said he was suddenly confronted by the robber, who showed a gun in his face and ordered him to throw up his hands. Ouellette declared that he had collected the money during the day, and that he had neglected to bank it.

To draw the fire out of a burn, heal a cut without leaving a scar, or to cure boils, sores, tetter, eczema and all skin and scalp diseases, use DeWitt's Witch Hazel Salve. A specific for piles. Get the genuine. No remedy does such quick relief. Ask for DeWitt's the genuine. Sold by F. C. Schramm, Druggist, Where the cars stop.

PACKARD PLEASES.

Delightfully amusing Entertainment Given in Barratt Hall Last Night.

"Types of Uncle Sam's People," as depicted last evening by Alton Packard, the cartoonist, in Barratt hall, before a good audience for such an unpleasant night, was more than up to expectations. Mr. Packard is not only an artist, but a natural comedian, and as such he was apparently able to "take care of himself" entirely aside from his sketching abilities. Prof. Packard has a remarkably clear conception of character peculiarities as depicted in the countenance, and the various humors of temper, and personal as well as national traits were brought out in the sketching in a way that charmed and convulsed his audience by turns. The artist has a happy faculty of rapid and yet exact work, so there is no delay whatever, and there is not the slightest suggestion of "that tired feeling" which marks the attitude of audiences at some lectures. The first of the evening was that of "Uncle Sam," followed by a series of sketches covering not only types of Americans, but of many other nationalities. The artist made his greatest hit in caricaturing the various types of the American man and woman, including the useless rube and society bad or promise. The folks of the child of fashion, the sweet girl graduate, with a girl of 40 praying for some one to love, and the city girl's first visit to the country. The orchard where children used to play, was another excellent piece of work, being an illustration of that poem. The fade of fashion as depicted by Prof. Packard kept the audience in very good humor; and he further added to the enjoyment of the evening by favoring his audience with several descriptive songs. The entertainment was one of the best provided by the M. I. A. in its lecture course.

MOVE TO PROTECT CITY'S WATERSHEDS

Mayor Morris Submits Letters
To Council and Suggests
Needed Legislation.

HOBDAV ASKS FOR STATEMENT

Wants to Know How Much Bond Money is Still Unexpended—Result of Recent Election.

At the meeting of the city council last evening Mayor Morris submitted the communications received from Secy. of the Interior Wilson, and Acting Forester Overton W. Price in regard to the assistance to be given the city in protecting its watersheds by the creation of forest reserves in Big and Little Cottonwood canyons. Both officials state that they will render every assistance possible to protect the watersheds. Mayor Morris in his communication to the council suggests that a memorial be addressed to the next Legislature asking that the jurisdiction of the city over its water sources be extended to 20 miles from the intake instead of 10 miles, as at present. The mayor's communication to the council follows:

LETTER FROM MAYOR.

"Gentlemen—In response to your protest filed with the government at Washington against the approval of any applications of private parties for reservoir sites within the Salt Lake forest reserve, I have received letters from the secretary of the interior, whose jurisdiction extends over the matter, and from the forester, promising that their department will aid in every way possible to protect the water supply of our city.

"Acting under instructions from the department, the forester has submitted an application of J. M. Thomas for the privilege of occupying for 10 years one-quarter of an acre of ground above Silver Lake, at the head of the Big Cottonwood creek. As this application will undoubtedly be followed by many others of a similar nature, it opens up the general question as to the attitude of the city in this matter.

"The neighborhood of Silver Lake has become a popular refuge for our citizens during the hot summer months, and many cottages have already been built there, some on patented lands, and some on lands under the control of the department of agriculture. To attempt to keep these people out altogether does not seem necessary at this time, if proper sanitary regulations can be enforced. I recommend, therefore, that we withhold any protest against granting such applications, provided the occupancy permits are for short periods of time only and are subject to such restrictions as may exist or may hereafter be ordered by any authority vested with power to enforce sanitary regulations on the watersheds of streams supplying the city with water.

"I recommend that the council memorialize the next session of the Legislature to amend the present statutes so as to extend the jurisdiction of this city over all streams or sources from which the city water supply is derived to a limit of 20 miles above the point of diversion instead of 10 miles as at present. Respectfully,

"RICHARD P. MORRIS, Mayor."

The letter of the secretary of agriculture follows:

FROM SECY. WILSON.

"Hon. Richard P. Morris, Mayor, Salt Lake City, Utah: Sir: I have the honor to acknowledge receipt, by reference from the secretary of the interior, of your letter of Sept. 19 to him, presenting the resolution of the city council of Salt Lake City protesting against the approval of any application for reservoir sites in the Salt Lake forest reserve.

"Your statements as to the importance of protecting the water supply of Salt Lake City are fully appreciated. Your letter has been referred to the forester for his consideration, and the forest service will closely scrutinize any application that may be made for water rights or other claims that may arise within the forest reserve.

"I wish to assure you that this department will aid in every way possible to protect and preserve the water supply of your city. Very respectfully,

"JAMES WILSON, Secy."

FROM FORESTER PRICE.

"Hon. Richard P. Morris, Mayor, Salt Lake City, Utah: Dear Sir: Your letter of Sept. 19 has been received, and the jurisdiction over reservoir sites within the forest reserves, except for municipal or mining purposes and for the purposes of the milling and reduction of ores, is now within the department of agriculture, and all applications which fall under the excepted cases are referred to the forest service for investigation and report. Since the primary object in the creation of the Salt Lake forest reserve was to conserve the water supply of the valley and city of Salt Lake, you can rest assured that no applications of this sort will be granted before a full investigation is made on the ground by an officer of the forest service. In order that the forest service may be in possession of full information in regard to the city's water supply, for the purposes of regulating grazing and the granting or refusing occupancy applications, I would suggest that you direct the city engineer to prepare a map showing the location of all the streams, reservoirs and springs from which the water of Salt Lake is now obtained, or will be obtained in the future. Upon receipt of the map we can then make the administration service more directly the primary object of the forest service, and the proper protection of the watershed. Very truly yours,

"OVERTON W. PRICE, Acting Forester."

STATEMENT WANTED.

Hobday presented a resolution asking that the mayor and city engineer

furnish a statement of the unexpended balance of the \$550,000 water bond money not covered by contracts and also an estimate of the proposed expenditure of the balance. This resolution was referred to the finance committee with instructions to report next Monday night and also to include the bill of special counsel, F. S. Richards.

Upon recommendation of Mayor Morris the sum of \$1,000 was appropriated to the credit of Consulting Engineer A. F. Doremus as the balance of the \$1,500 due him for services rendered in connection with the special water and sewer improvements.

MORE BOND MONEY.

The council by resolution authorized Mayor Morris and Recorder Critchlow to execute 250 of the \$1,000 water bonds to be sent by express to the United States Mortgage and Trust company of New York by Dec. 1, 1905, and in turn to be delivered to the Mutual Life Insurance company upon the payment of \$250,000 plus accrued interest and the proportionate premium which the company agreed to pay for the bonds.

RESULT OF ELECTION.

The council received the report of the board of canvassers of the recent city election and duly declared that the officials receiving the highest number of votes as shown by the canvass were legally elected to the various city offices. City Recorder Critchlow was instructed to issue certificates of election to the successful candidates.

PICTURES FOR LIBRARY.

A communication was received from Gov. Cutler and others asking that a fund be appropriated to purchase the art collection for the new public library. The matter was referred to the finance and library committee.

WILKINS APPOINTED.

As Mayor Morris had signed the ordinance giving the chairman of the board of public works the power of appointing a clerk of the board, Chairman E. A. Wall submitted the appointment of the present clerk, William H. Wilkins, and the same was confirmed by the council.

FOR SMOKE CONSUMERS.

Black introduced another resolution instructing the chief of police to enforce the smoke ordinance and require smoke consumers to be placed in all furnaces as required by ordinance and thus abate the smoke nuisance. The resolution was adopted.

WANTS FINE REFUNDED.

A petition was received from T. Harry Jones, asking for the refund of a fine of \$22 imposed upon him recently for allowing his horse to stand unbridled on the public streets. He stated in his petition that he had hired the horse from a livery stable and was told by the employees of the stable that the animal would stand unbridled and that he would become restless and would probably break loose. He accordingly left the horse unbridled and was arrested and fined \$22. He served three days in jail and the horse was sold to him. He now asks for a refund of his money. A motion to refund the money was lost, so the petition was referred to the committee on police and prison.

LEAVER SUSPENDED.

Chief of Police Lynch notified the council that he had suspended Officer W. H. Leaver for five days for conduct unbecoming an officer. His action was concurred in.

FUGITIVE FUND.

Upon motion of Hobday, the sum of \$200 was placed to the credit of Chief of Police Lynch as a contingent fund to be used in going after prisoners who have fled from the city. The money thus expended will be paid back by the state, but it is necessary to have the fund at any time in order to delay in securing the money when needed.
