REGULAR DELEGATE ELECTION

TUESDAY, NOVEMBER 7, 1882.

PEOPLE'S TICKET.

For Delegate to Congress,

JOHN T. CAINE.

FIGURES THAT DO NOT LIE.

IN another part of this paper will be found some very interesting data collected by "Historicus," which will form good reading for all who are interested in Utah affairs and have taken notice of the bostful assumptions of the so-called "Liberal" party in regard to the financial benefits its chief members have conferred upon this Territory.

From the figures presented it appears that most of the men now on the stump abusing the old settlers, misrepresenting their creed and their intentions, telling falsehoods about being unequally and unjustly taxed, and conveying the idea that they have done wonders in developing and enriching the country, are in reality non-producers and non-taxpayers, and their contributions to the general growth consists merely of "gas" giving forth no light and darkening counsel by words, words, words without knowledge and without truth.

The figures show that the Chairman of the People's Territorial Central Committee pays more taxes than the thirty-three most prominent "Liberals," whose names are given, all put together. Twenty of them pay no property taxes at all, and several of them have even evaded the payment of their poll tax. Not a cent from the whole score for the support of the district schools; and yet they are always prating about education and clamoring for free schools to be supported entirely by taxes, and also falsifying the facts in regard to the status of our public school system.

These are nice specimen bricks in the "Liberal" structure; fine examples to the community of zeal for a system of schooling by taxes; consistent declaimers about "unjust taxation!" Only four out of the whole number pay anything like a decent sum into the local treasury, and not one of them can truthfully say that he is "unequally taxed."

Now let it not be understood that we find fault with any man because he is impecunious. Poverty is no sin of itself. Lack of property is no sign of dishonor or of personal inferiority. But when men go shouting through the country about the waste of public money, unjust assessments and taxation without representation, all abominable falsehoods when applied to Utah, it is natural to inquire how much they are injured in this direction. The glaring untruth is repeated from stump to stump, that they contribute more to the revenue of the Territory than the people whom they are striving to rob of the last vestige of political liberty. They declare that it is through their presence and property that Utah has been redeemed from poverty and the barter system. These screeching pelicans, without a feather to fly with, have, according to their own mendacious showing, laid all the golden eggs that have been enjoyed in this mountain region since its occupation by the Caucasian race. It is their falsehood, their impudence, their baseless brag that we expose, not their poverty.

The rest of their assumptions will be found on investigation to rest upon as little foundation and to be justified by as little excuse as their bald and base assertions in regard to the local finances. Mind this, we are not opposed to their having full liberty to talk as much and as publicly as they please. The more they say the more they will expose their own folly and the weakness of their cause. Figures are facts and those we have given may be relied upon; the proof is in the public records and may be seen by all who wish to examine them.

RELIGIOUS TENETS AND THE DISTRICT SCHOOLS.

AMONG the numerous untruths contained in the so-called "Liberal" platform and dilated upon by the public speakers who are pouring forth floods of watery verbiage in behalf of the "Liberal" candidate, is the charge that the "Mormon power in Utah" "taxes the people to build school houses and therein teaches the tenets of the sect licensed only by the priesthood."

Now, in the first place, the "Mormon power" does not tax the people at all. The school taxes are levied by law enacted by legislators elected by the people. The territorial school tax is used entirely for the payment of school teachers. The tax for building school houses is levied by the people who pay it, in each district. It takes a two-thirds majority vote cast by the taxpayers themselves to levy a tax to build a school house. The "Mormon power," otherwise called the "Mormon Church" in the same slanderous "Liberal" document, has nothing to do with the school taxes in any way whatever.

Second. The tenets of a sect are not taught in the schools held in the school houses built by taxation, unless it may be in the Sunday schools conducted entirely independent of the District School system. The tenets of "Mormonism" are not taught to the District Schools, and the statement of the "Liberal platform" is a liberal wilful falsehood.

Third. The teachers in the District Schools are *not* licensed by the Priesthood. They are licensed by a Board of Education, regularly appointed by law who examine teachers, not on their religious belief but their secular educational qualifications for the position desired, and any person may teach in the District Schools who obtains the certificate of such Board. Thus the whole charge is false and it is false in all its details.

Now, let us take a look on the other side. On Friday a well known "Liberal" at Bountiful, was heard loudly complaining, in the presence of the Chairman of the People's County Central Committee, that he had paid over sixty dollars for the erection of a "Liberal" school house in that settlement, on the express understanding that no religion of any kind should be taught therein. And now here was his little girl come home from that "Liberal" school with a list of Bible texts and subjects to learn, as long as his arm. He was as mad as a hornet. He was asked whether his children were taught religious tenets when they went to the District School. He replied he could not say that they were.

These are the facts. You will find in every case that the very things the "Liberals" falsely charge the "Mormon power" with, they are guilty of themselves. It is easy to accuse. It is one of the easiest things in the world to find fault. General and sweeping accusations form the stock in trade of these pretended "Liberals." Of proof they advance nothing, or if they pretend to do so their statements are as baseless as the charges. Give them the control of the District Schools, and they would make opposition to the tenets of a Church one of the main features of the instruction imparted. Their whole movement is founded on hatred of the "Mormon" Church, and this is apparent in everything they say and everything they attempt.

TAXES! TAXES!!

WHO PAY THEM AND WHO DON'T.

WHAT THE RECORDS SAY OF THEM.

Editor Deseret News:

Among the total half hundred notorious anti-"Mormon" anarchists in this city who have and are plotting against the liberties and lives of the law-abiding "Mormons," the appended list of "Liberals" are the most prominent and mouthy, rarely opening their mouths without clap-trapping about paying most of the taxes and the immense help they are extending towards educating the local youth by the payment of large sums of school tax.

The following exhibit, taken from the official records, shows the amount of territorial, county, city, school and poll tax, each paid in 1881 by the annexed named chiefs of the self-styled "Liberal party." It will be seen that the Hon. John Sharp, chairman of the Central Committee of the People's Party of the Territory *alone* paid 496.81 *more* taxes than the aggregated 33 anti-"Mormon" dictators, and $98.79 *more* school tax than the same aggregation of usurpists.

The reader will observe the marplot chieftain of the "Liberal" party—J. R. McBride—is wholly innocent of paying any tax whatever.

In this connection it would be interesting to know what taxes the gubernatorial nominees throughout the Territory paid last year. Will the collectors please send this valuable data to the NEWS for publication and for future reference, and greatly oblige. HISTORICUS.

Now for the statistical repast:

The Territorial tax is 3 mills on the dollar.
" County " 6 " "
" City " 6 " "
" School " 2 " "
Total, - 17 " "

The poll tax assessed against only able bodied men over 21 and under 60 years is $3.00 per caplia.

$100,000 Fire.

SAN FRANCISCO, 28.—A Truckee dispatch says that fire last evening destroyed a considerable portion of the business part of the town, including the American Hotel, Sherrit House, and the Odd Fellows' building. The loss is probably upwards of $100,000; two-thirds covered by insurance. The fire started in Mercks' brewery. It is attributable to Mercks' carelessness, and under the first excitement, following the fourth general fire within the past few years, there was some talk of lynching him.

Mrs Scoville Declared Insane.

CHICAGO, 28.—The sealed verdic in the Scoville insanity case was read by the clerk at 10.05 o'clock this morning. The verdict declares that Mrs. Scoville is insane. The court room was crowded. Mrs. Scoville was not in the court room and cannot be found. Her lawyer and son declared they knew nothing of her whereabouts.

Dividend.

SAN FRANCISCO, 28.—Bodie declares a dividend of 20 cents.

The Walkers.

NEW YORK, 28.—Score: Fitzgerald, 542; Noremac, 524; Herty, 512; Hughes, 493; Hart, 482; Hart withdrawn.

12 p. m.—Score: Fitzgerald 553, Normac 536, Hertz 523, Hughes 500.

Extensive Fire.

CHESTER, Pa., 28.—The extensive works of the Eureka Caststeel Co. of Lamokin, were burned this morning and a large number of valuable patterns destroyed. Loss, $150,000.

JOHN C. CUTLER, Agent

CARD.

To the Public and Whomsoever it may Concern:

I have this day sold to the John W. Lowell Wagon Company, of which I am President and principal stockholder, my good will and stock in trade and buildings.

I take this occasion to tender my sincere thanks to the public at large for their generous patronage for the eleven years I have been in business here, and especially to those warm friends who have taken such an interest in my welfare. But few days have elapsed for years without some new customer saying to me: "I was recommended to come to you by Mr. ——, a friend of yours." Kind friends, your friendship, sympathy and assistance will never be forgotten.

Messrs. Justin E. Morse, John Farmer, Martin O. Johnson and Carlin D. Joelyn, who are the other directors and own the balance of the stock of the new company are all young men who have been in my employ from four to seven years, and are pretty well known to the general public. We shall continue the same line of business as heretofore, and I trust that the John W. Lowell Wagon Company will merit and receive a fair share of public patronage.

Yours, very respectfully,
JOHN W. LOWELL.
Salt Lake City, October 19th, 1882.

Go to the Globe Bakery for your Confectionery and CAKES, where they are to be had pure and wholesome. H. ARNOLD. d28

DIED.

HILL.—At Kaysville, at 7 a. m., October 21, 1882, of typhoid pneumonia, John William, son of John and Mary Bennett Hill, aged 23 years, 1 month, and 17 days. He was beloved and respected by all his associates. He leaves many relatives and friends to mourn his loss.

DESPAIN—At St. Joseph, Apache County, Arizona, October 20th, 1882, from the effect of a pine nut getting into his windpipe, Joseph Richard, son of Henry W. and Grace Provo Despain, aged five years, three months and fifteen days.

BEHR BROS.
UPRIGHT PIANOS

Are made of the best materials that money can purchase, and the workmanship is of the VERY HIGHEST ORDER. Their construction is of the

MOST SOLID CHARACTER,

Having a FULL iron frame with two and three doublings; a pin-block made of eight thicknesses of maple, vertically crossing and re-crossing each other; a Bessemer steel action-frame, which holds the action with such absolute firmness that no unfavorable condition of the atmosphere can in any way affect it. All these valuable improvements have been patented the present year, and now enter into the construction of these pianos, securing for them the proud distinction of the

Most Durable Piano Made.

Another valuable patented improvement is the maple bridge made of END WOOD, and the inserting of specially selected maple wood in the *capo d' astro*, producing a tone of truly wonderful richness, clear and sympathetic quality. The scale is entirely new, and is in reality that of a

GRAND PIANO

In an upright position, giving it great volume of tone and carrying power. The action and touch is precise, prompt and elastic. I speak advisedly when I say that these upright pianos

ARE UNEQUALLED

By those of other agencies in the Territory, and at a VERY MUCH LESS PRICE, which I am prepared to publicly demonstrated at any time. It will give me pleasure to furnish all who desire it, an illustrate description of the interior of the instrument in all its parts, and to personally explain, on the piano, the several points of excellences.

Sold for cash or on easy monthly payments.

SCIENCE SUCCEEDS.

Salt Lake Business Men Organizing in Support of Dwight S. Dow.

His Simple Method of Teaching the Science of Accounts Commands their enthusiastic endorsement.

Read the Names. Mark who and what these men are, and ponder what they say.

The class now in attendance at Dwight S. Dow's Commercial Night School, at the City Hall, numbers among its members manufacturers, merchants, University students, book-keepers, clerks, builders and mechanics.

At the close of the class on Tuesday evening, Oct. 24th, the pupils organized meeting for the purpose of endorsing their teacher and his method. Judge Miner, the City Attorney, rose and said that some prominent gentlemen in the school had placed in his hands the following expression of their views. He then read it, and what Judge Miner read and said brought approval and a signature from every pupil in the class.

[THE TESTIMONIAL.]

We, the pupils of Dwight S. Dows' Commercial Night School in Salt Lake City, take this opportunity to declare our appreciation of his genius.

We have received from him, in his course of instruction, not only a knowledge of business technicalities and forms, which of itself is worth the price he charges—not only a clear understanding of the practical operations of the counting room—but something beyond these, something which makes them useful. He has shown us all sides of the circle. He has made clear to us the underlying principles of the science of accounts in all their simplicity. He has taught us the reasons for every detail of book-keeping, and the way in which to apply every reason. He has made plain to us that the intelligent accountant is fettered by no arbitrary rule which he does not first understand and approve.

In a word, we have learned that book-keeping is not a trade, with complex details to be learned one by one, and retained by sheer force of memory, but is a science, governed by harmonious laws, simple but perfect, and easily understood as taught by him.

We now see that no word or figure is written in an account book except for a definite reason, and he has shown us how, by understanding the reason, the accountant need not err in the application.

Beyond this, we desire to say that Dwight S. Dow seems to us to have mastered the philosophy of teaching as thoroughly as he has the science of accounts. His method differs utterly from that of any other commercial teacher, appealing entirely to the intelligence of the pupil, and offering, as no other method does, a reason for every operation. Gifted with directness and simplicity of manner, singular eloquence and strong personal magnetism, he has so studied the art of teaching that merely to listen to him is to learn. Appreciating him thus as a teacher, we have also learned to admire him as a man of peculiar genius, and to value him as a personal friend.
