MONTGOMERY SHOSHONE.

Supt. Turner Says Shaft Will Be Dropped to Sulphide Zone.

Dropped to Sulphide Zone. General Supt. Bryce Turner, of the Montgomery Shoshone, says the Bull-frog Miner, who returned from New York the first of the week, admits that the newspaper statements regarding the property based on the forthcoming engineer's report to the stockholders are more or less true. The report will be made public in a few days, and at this time Mr. Turner is unwilling to go into details. The advance informa-tion stating in effect that development in the lower levels has been disappoint-ing, Mr. Turner confirms. He is none the less sanguine, however, regarding the ultimate outcome of the property. the less sanguine, however, regarding the ultimate outcome of the property.

the ultimate outcome of the property. To a Miner representative he said: "While it is a fact that the lower levels have not shown up as we ex-pected. I am fully convinced that when the sulphide zone is reached, the Sho-shone will prove to be bigger and bet-ter than ever. It is in the mining grame and we must evened these we

Mr. Turner does not believe that the engineer's report has anything to do with any stock jobbing proposition. He says that they are reputable engineers sent out by the stockholders to make an examination of the property, and he is of the opinion that they were act-ing in good faith. On his return Mr. Turner was ac-companied by Dr. Ward of Pittsburg, a director in the Montgomery Shoshone company and intimately associated with Charles Schwab. Dr. Ward visit-ed the mine and expressed himself as greatly pleased with its operation. As the guest of W. B. Milliken, he visited the Homestake mill also, and spent some time in this part of the district.

ORE AND BULLION.

The ore and bullion settlements re-ported late yesterday by McCornick & Co. were: Crude ore and concentrate \$10,000; base bullion, \$40,000. ---

GEO. Q. CANNON ASSOCIATION. BROKERS, 24 E. So, Temple, Both 'phones 919.

A. S. CAMPBELL. Stock Broker, 215 D. F. Walker Block.

F. R. Snow & Co., Stock Brokers. 22 Commercial Bik. Both 'Phones 1973

That was fine ore which the manage-nent of the Utah Mine at Fish Springs needved settlement for yesterday after-noon. There were 52,764 pounds of it and the American Smelting and Refining company, after deducting the cus-tomary charges, rendered its check tomary charges, rendered its check for \$3,165.71-more than enough to meet the usual monthly dividend.

The ore averaged 205 ounces in silver and 47 per cent lead to the ton.

SIOUX CONSOLIDATED.

Manager Holdaway Expects Good Re-

sults at Depth. A statement concerning Sloux Con-olidated was given out yesterday af-ernoon by General Manager A. N.

ternoon by General Manager A. N. Holdaway, who was in the city to confer with associates. "We have developed the Sioux Consolidated down to the 280-foot level, and have prospected thorough-ly to that depth. We have now con-cluded that at this depth the zone will not hold one for the formation is will not hold ore, for the formation is entirely too loose for that. The only course left for us, therefore, is to get to better depths, and we have decided to drive the shaft on down 200 feet deeper before stopping to cut a station. We have found the zone more or less mineralized all along, and we have encountered numerous bunches of rock that assayed a trace

in gold to as much as two ounces sil-ver. But we have not found any pay

pected. I am fully convinced that when the sulphide zone is reached, the Sho-shone will prove to be bigger and bet-ter than ever. It is in the mining game, and we must expect these re-verses. We are below the 600 foot level now, and sinking will be con-tinued until we reach the sulphides, when we confidently hope to open up something big. "In the meantime we will continue to operate the mine and treat the out-put as heretofore. The cleanup which is now being completed will be the larg-est in the history of the property. We are employing a good force of men, taking out ore and operating the mill, and this will be the program until we run out of commercial material, which is hardly probable for a long time to come." Mr. Turner does not believe that the engineer's report has anything to do with any stock jobbing proposition. He says that they are reputable engineers sent out by the stockholders to make an examination of the property, and he is of the opinion that they were act-

lleve, that eventually we will find ore; but it will take at least five months for us to sink and to drive for the point where we feel everything is fav-orable for ore. We have practically abandoned all work on the 280-foot level, but we will continue work in the winze now down 100 feet below that level. This winze is in quartzite, but I know from all the geological

CONCENTRATES.

A. J. Davis departed this afternoon for the Seven Troughs mining district to look after mining interests.

Dr. J. J. Snider has returned from a trip to the Seven Troughs district where he has been on mining business.

W. G. Page, the mining engineer, has returned from a sojourn in California, which lasted through the winter.

George E. Gunn and Fred A. Flindt left last night for the Mason Valley mine in the Yerington, Nevada, district

Frank Salisbury, an old time Tintis miner, has secured a lease on the White Alps property in the Rosebud, Nevada, district,

The citizens of Provo are getting in-terested in the new camp of Bocard, Nevada, in which Jacob Evans has become a heavy investor,

General Manager Walter C. Orem of the Nevada Douglas Copper company is now at the Nevada Douglas mine ear Yerington, Nevada.

Harry B. Cole, the broker, who has been spending several months broad, has arrived in Chicago on his way home. He is expected in Salt Lake next week.

General Manager George W. Lam-bourne of the Daly Judge Mining company departed this atternoon for Jersey City. New Jersey, to attend the annual meeting of shareholders of the company. He was accompanied by Mrs. Lambourne. Mrs. Lambourne.

Construction work at the Homestake will is progressing very satisfactorily and both J. E. Rothwell, engineer for the Colorado Iron Works, and W. B. Milliken, who has local charge of the work, are of the opinion that the plant will be completed and ready to operate by June 1.—Builfrog Miner.

W. B. LaVellie, formerly owner of several cigar stores in this city and who was one of the original owners of the Mason Valley mine at Yerington, Nevada, has arrived in the city from California. Something over a year ago, Mr. LaVellie purchased a fruit fairm near San Diego and is now living the retired life of a citrus fruit grower.

CHICAGO. Chicago, May 14.—The local wheat market opened firm today owing to a sharp advance in corn and to a strong market for wheat at Liverpool. Demand, however, was light and prices soon eas-easy of on profit-taking. July opened '4 to 3% ligher at 90 to 90 %, sold at 90 % @ 9%, and then declined to 89%. The corn market was strong and prices advanced more than a cent com-pared with yesterday's final quotations. The advance was due to continued wet weather in the corn belt which brought out an active demand from shorts. Of-ferings were very light. July opened '4' to 15', higher at 54% to 65% and ad-vanced to 85%. May opened '4' to 15', in the corn was a sood demand for the september delivery by commission muses. The strength of corn was a bull is factor. July opened '4' higher at 4.4'. The advance in corn caused a steady making centers. July pork opened a shade lower at 12.473%. Rubs were a shade inter at 7.4'.24.73%. Rubs were a shade inter at 7.2'.24.6'.7.3'. The wheat market rallied sharply dur-market was the of the session as a re-with of active covering by shorts who ments from Argentina during the past week. Ogden Officers Go to Brigham City to Jas. A. Pollock & Co. Look at Three Men.

(Special to the "News.")

TO IDENTIFY PRISONERS.

Ogden, May 14 .- Sheriff Wilson and Patrolman Bob Burke went to Brigham City this morning to attempt to identify three men who are under arrest there charged with attempting to effect a jail delivery. The men when caught are said to have been supplied with a large number of back saws and are thought to have sought to lib-erate four companions. Ogden officers believe that the three men are mem-bers of the gang which was arrested several weeks ago for the theft of a large number of chickens, as the four men in Jail were among that gans. In the district court the trial of the case of Jacob Johnson against I. L. Chark began this morning. Johanan alleges that he fell'to the sidewalk in front of Ciark's store in January be-cause of negligence of Clark in per-mitting obstructions to remain on the sidewalk. He is asking \$15,060 damages. City Atty. James Devine has receiv-d a telegram from his brother, F. B. Devine of Lewisville, Neb., stating that he passed safely through the tornado which wisited that dity this week. Leon Bailey, charged with having re-ceived stolen property, was granted hi motion for a new trial by Judge Mar-phy this morning. It was shown after judgment had been passed that Bailay had not been arraigned nor had a plea been entered for him. In the district court today, the trial of Bob Matlock and Frank Collins was commenced this morning. The men are charged with having robbed a U. P. freight car May 4. and are thought to have sought to lib-
