

Wilbur states that at no time during the past twelve years have the indications been more favorable to perfect and continual peace. There is more fear entertained among the people of Dallas than at Umatilla, Walla Walla and other points farther east and north, where the most serious apprehensions ought to be felt if the reports are true. Six Yakima Indians, including their head chief, accompanied Mr. Wilbur.

"WASHINGTON, May 7.

"To W. P. Kellogg, Governor of Louisiana:

"The President directs me to say that he deprecates an aggressive policy, and the United States authorities are not to be used except in an emergency. The officer in command of the department in which Louisiana is included has been sent full instructions in regard to the course the President desires him to pursue. You will therefore take no action which would require the sanction of the President without orders from headquarters.

"Signed, W. T. SHERMAN, General."

CHICAGO, 8.—The *Tribune's* Washington special says private dispatches from Louisiana represent the condition of affairs there is even worse and more alarming than detailed in the general press telegrams. The McEnery party are armed and arming, and in many parts of the State it is reported that they will be able to offer successful resistance to Kellogg's forces. Up to this time Governor Kellogg has not called upon the President of the United States in the way prescribed by the constitution for assistance. According to the last decision of the acting Secretary of war, Secretary Robeson, General Emery is not authorized to use the nat'l troops until he do so, except to secure the service of forces issued by the U. S. courts.

BRUSSELS, 7.—The *Nord*, a Russian journal published in this city, in its issue this p.m., denies that the Khan of Khiva has offered unconditional submission to the Russian demands. The *Nord* says it is true that the Khan has released the prisoner held in captivity, but at the same time he demanded the withdrawal of the Russian expedition against Khiva, with other conditions which could not be accepted by the Czar.

LONDON.—The annual race for the tradesman's plate took place at Chester to-day, and was won by Field Marshal, Laburnum second, and Inversek third. The betting just before the start was sixteen to one against Field Marshal, seven to two against Laburnum, and seven to two against Inversek.

LONDON.—A correspondent of the *Daily News* ridicules the American department of the Exhibition, and gives the following as a correct list of the articles to be seen in the section assigned to the U. S.: Two cases of Colt's firearms, three binnacles, one stuffed eagle, two salt cellars, a dentist's chair, and six bottles of water taken from the Missouri River. The explanation of the meagre display is found in the former mismanagement of the American section, and it is confidently hoped now that the new commissioners and exhibitors have gone actively to work to repair evil effects, the goods from America will be speedily unpacked and that the exhibitions from that country will come up to the standard.

LONDON, 8.—A despatch from Shanghai announces the capture, by the imperialists, of the city of Talifo.

S. which is still empty. Great indignation is felt by the American exhibitors at this state of things. The public have been admitted daily since the 1st of May. The weather has been unfavorable, rain having fallen constantly since the opening, and the number of visitors thus far is below what was expected.

Owing to the scarcity of Arab horses in parts of the Ottoman empire, the Turkish government has forbidden the exportation of horses from Bagdad, Syria and Aleppo for the next seven years, to date from April 9th, 1873. From late files of London papers, a dispatch dated Bombay, April 23, says Sir Bartle Frere and mission were well received at Muscat, and report that his efforts have been successful, that Synd Turki has signed a treaty, in which the latter undertakes to forbid the importation of slaves, and declares free all negroes and other bondsmen hereafter arriving in the territory of Oman. By the provisions of this treaty he likewise agrees to put down all public slave marts, and any one who may be proved to have imported slaves is to be amenable to the law. Similar engagements have also been entered into with the sheiks at Makullah on the Sadramaunt coast. LONDON.—In the House of Commons, to-night, Sir Chas. Dilke moved a resolve that, in the opinion of the House, it is desirable to redress the irregularities in the distribution of political power in the United Kingdom. He complained that legitimate influence in large and important towns was swamped by small and decaying boroughs, in which the power of a single individual was paramount over the constituency.

George Dixon spoke in favor of the motion. He contrasted the cases of Birmingham, Liverpool and Manchester with those of several neighboring villages, showing the glaring irregularity which existed in their respective representation.

Sir Rowland Blennerhassett also supported the motion. Several spoke against it and a division of the house was finally reached and the motion was rejected by the following vote, for 76, against 268, majority against 191.

Minister, and Baron Schwarz, Director Gen. of the Exhibition, would be present. The American exhibitors have gone to work in an active manner to arrange their department and to secure a proper exhibition of their goods.

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY, MAY 6.

BAD.—There were no fewer than five cases of "drunk and disturbing the peace" before Justice Clinton this morning.

SHOULD HITCH.—Job Reading had to pay a fine of \$2.50 yesterday, for leaving his team on the street unhitched and unattended.

THE GROESBECK CORNER.—The excavation for the basement of the proposed magnificent range of buildings to be erected on that site is approaching completion, and the rock for the foundation is being laid down on the ground.

OLD CONSTITUTION BUILDING.—This building is about to undergo a considerable number of repairs, such as the re-shingling of the roof, some improvements on the front, and several minor changes and alterations.

THE TYPES said yesterday, at the end of the minutes of the late Conference, that the latter was adjourned till Oct. 6th, 1874, when it should have been 1873.

STATISTICAL.—During the month of April the number of arrests made by the City police was 150, of which 27 were discharged. The amount of cash paid on fines during that time was \$2,365 and the amount of labor \$995.

GLASS BUSINESS.—Mr. Joshua Midgley has just received a big stock of window glass of all sizes, as he intends supplying the public with that article suitable for windows of all dimensions. Joshua has the reputation of being a reliable and conscientious man of business.

EMIGRANTS.—Two hundred emigrants arrived from the East this morning. They were a fine looking body of men, with well-filled pocket books. Some were on their way to the mines of Nevada, others to enter homesteads and preempt lands in Oregon, Washington and Montana. Many of the emigrants had families accompanying them.—*Ogden Junction*, May 5th.

STABBING.—One soldier inflicted three or four severe stabs in the back of another, in a saloon, last night, and then escaped. The wounded man was taken to Camp Douglas in an ambulance. He refused to

give the name of the party who stabbed him, but it is to be hoped the latter has been discovered, at Camp, by this time.

AT WORK.—The City hands have been at work to-day making a ditch for a new flume to convey the water from the sect to the fire tank at the junction of East Temple and First South Street, the one previously constructed not having sufficient fall to clear itself of sand and other sediment.

A number of workmen are also engaged excavating for a flume to convey water to the tank in the basement of the Z. C. M. I. buildings.

PAROWAN SUNDAY SCHOOL.—M. Richards, Jr., of Parowan, informs us that the Sunday School of that place is in excellent condition, and advances some good suggestions regarding the salutary effects of the judicious distribution of suitable prizes to scholars, as a means of stimulating the latter to punctuality and general diligence. To have the desired effect the cards redeemable by prizes of greater value should be distributed with system and regularity, which will awaken and sustain the interest of the pupil by keeping before his or her mind the prospective prize.

ANOTHER TEAM AFFAIR.—This morning a team owned by Mr. Burtoff, which had been left unhitched on the street, started off and ran into Dr. Taggart's buggy, tipping it over and throwing the Doctor out. Fortunately the latter was uninjured; a consequence of the affair, however, was that the buggy needed some repairs. Mr. Burtoff, on complaint of Dr. Taggart, was taken before Justice Clinton, who adjudicated the matter by deciding that the owner of the runaway team pay the expense of having the buggy fixed.

C. P. R. R.—This Company has made some changes in their time table. It will be seen by advertisement that on and after Sunday, May 4th, passenger trains leave Ogden daily at 5-40 p.m. for Reno (for Carson and Virginia), Sacramento, Marysville, Redding (for Portland, Oregon), Stockton, Merced (for Yosemite), Tipton (for Los Angeles), San Jose and San Francisco. A through emigrant train will also leave the same point, daily, at 5 p.m. for Sacramento and San Francisco.

ACCIDENTALLY POISONED.—We very much regret to have to record a grievous calamity to the family of Bishop D. S. Tuttle. By a sad mistake a portion of laudanum was administered to Howard, infant son of the latter, instead of syrup of Rhuibarb. The feelings of the family, when they discovered the error, may be imagined. The little one only lived three hours after taking the poison. We sympathize with Bishop and Mrs. D. S. Tuttle in their affliction and bereavement.

The funeral services will take place at St. Mark's Church to-morrow afternoon, at four o'clock.

ACCIDENT.—About noon, yesterday, Mr. Carlos Sessions had his hand severely injured at Standish's Mill, Coon's Canyon. Mr. Sessions had occasion to cross from one side of the bench to the other and to do so as quickly as possible unthinkingly placed his hand on a log which was travelling towards the saw, with which his hand came in contact before he got fairly over the bench. He was brought to the office of Dr. Benedict about five o'clock last evening, when the latter found it necessary to amputate the first finger at the joint close to the hand and the second one at the middle joint. The third finger was cut open and the bone badly splintered by the accident. The operation was performed in Dr. Benedict's usual skillful and expeditious manner of attending to such matters.

INFORMATION WANTED.—Austin Brown, of Weber County, wishes very much to know something of the relations of his father, Alfred Brown, by trade a painter and glazier, who died on the plains, when on his way from Potawatamie Co., Iowa, to this city, about twenty-three years ago. He was a native of Chataugua Co., New York, and was with the Saints at Kirtland, O., Missouri and Nauvoo. Austin wishes information concerning the family for genealogical purposes. Those who can impart the desired intelligence will confer a favor by communicating with him. Address to this office.

They are all elegantly printed, and are among the latest and most popular trifles of the musical world in this country. Remember they are for sale at the store of Calder & Careless, East Temple St.

STRUCK BY LIGHTNING.—Mr. Thomas R. Welch forwards the following account of a boy being struck by lightning, at Morgan City, Morgan County, under date of May 5th, 1873:

"On Saturday last, during a thunder storm, William Simmons, aged 12 years, second son of Brother George Simmons, of this place, was struck by lightning. He had sought shelter from the storm under a wagon in the field where he was at work. Notwithstanding he had over him his father's overcoat and his jeans, coat and vest, the whole of his clothing, except his stockings and shoes, was torn to atoms. His shirt appears as if it had passed through the picker of a carding mill. When found by his father, he was unconscious, and very badly burned on the back part of his head, the whole length of his back and down one thigh, to below the knee, and also his right arm. His sufferings are very great. He became partly conscious yesterday, and he is progressing as favorably as could be expected.

"The electric fluid, after traversing the ironwork of the wagon, and blistering it in several places, descended into the earth, making a hole about 15 inches in circumference, which we traced a distance of three feet, when it diverged in three directions, and two of the holes that we followed traversed a distance of eight feet each. How far the hole went directly down we could not say."

FROM WEDNESDAY'S DAILY, MAY 7.

We understand the work of laying the additional courses is expected to be commenced within a few weeks from now.

WAGON AND MACHINERY DEPARTMENT.—Frame buildings are being erected to cover the ground immediately west of the University building, and which is occupied by the wagon and machinery department of Z. C. M. I., under the management of Mr. H. W. Nalsbitt. This will enable that gentleman to keep all of the immense stock of goods under his charge under cover. Large quantities of farming machinery are being received now.

SCHOOL MATTERS.—Here are the minutes of a meeting of the taxpayers of the 15th School district, handed to us by Mr. D. Bockholt:

Meeting of taxpayers of the 15th School district. In accordance with notice of G. W. Price, James Moyle and John Clark, trustees of the 15th School district, Salt Lake County, dated April 28th, 1873, a meeting was held on Tuesday, the 6th of May, at the schoolhouse of said district, upwards of seventy being present. The meeting was called to order by the trustees.

R. T. Burton was elected chairman and D. Bockholt secretary of the meeting, the object of which was thereupon briefly stated by the chairman.

The report of the Trustees was read and accepted.

On motion of D. Grenig, the chairman appointed Joseph Pollard, W. L. Binder and D. Grenig a committee to nominate trustees for the ensuing term.

Said committee reported the names of Angus M. Cannon, Thomas G. Griggs and John K. Hall, and after being submitted, one by one, those gentlemen were unanimously elected.

On motion, a tax of three-fourths of one per cent. was levied upon all taxable property within the district, for the purpose of liquidating the present indebtedness, and to make further necessary improvements.

It was resolved that a synopsis of the proceedings of the meeting be published in the *DESERET EVENING NEWS*, and the meeting adjourned sine die.

D. A. & M. SOCIETY.—Secretary Campbell has handed us the following:

"The Board of Directors of the Deseret Agricultural and Manufacturing Society met last night, Wilford Woodruff in the chair.

"Petitions to the County Court and City Council, soliciting aid to enable the Society to offer premiums at the forthcoming fair, were read and approved.

"It was voted unanimously that the fair in October next be kept open during the Conference, morning, noon and night, to allow people from the country an opportunity to witness the exhibition.

"Messrs. Reese, Pack and Naylor were appointed a committee to make inquiries relative to the probability of an extension of the street cars to the contemplated exhibition grounds near the Jordan bridge.

"Director R. L. Campbell was appointed General Agent of the Society to sell life membership tickets and to attend to the interests of the Society throughout the Territory.

Adjourned sine die."

We may say in connection with the foregoing, that we understand President Woodruff and the Board of Directors of the Society have secured four blocks of land, on the north side of North Temple Street, immediately east of the Jordan Bridge, for the purpose of constructing a drive and erecting suitable buildings in which the Society can hold their annual Fairs or Exhibitions. We are pleased to learn that the Society is taking steps in this direction and hope they will meet with the necessary encouragement from the County authorities and City Fathers to enable them to carry out their laudable purposes.

The cry for "Manhood Suffrage" is now general among the English advanced reformers. A great demonstration of the workingmen took place at Newcastle lately. All parts of Northumberland and Durham sent representatives to this meeting, and the miners of those districts especially attended in large numbers. The procession was several miles in length.

The "cider clause" is what is troubling the Maine prohibitionists. Politicians are obliged to take one side'r t'other.
