IMPORTANT TO THE TRAVELER.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and most pleasant to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Rock Island, Fort Wayne & Chicago, Kansas City and Pan Handle Routes for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route.

The Chicago and North-Western.

You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Agents in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d54

SELF-EVIDENT.—If two cans are of the same size and both are full, it is self-evident that one contains as much by measure as the other, although one being filled with heavy substances may weigh many ounces more than the other. Now, as Dr. Price's Cream Baking Powder is put up in cans as large, and hold as much by measure, as other kinds, and as baking powder is used by measure (teaspoonsful), and not by weight, if all were of the same strength, one would go as far as the other; but as Dr. Price's is as effective, by using two teaspoonsful as most kinds are with three, then it is self-evident that there is one-third saved in using his powder. Housewives will find that, aside from its excellence and healthfulness, two cans of Dr. Price's are equal to three cans of the same size of the weighty kinds. A trial will prove this, and also that Dr. Price's True Flavored Extracts are the most natural and delicate flavors made.

CONSUMPTION.

The scourge of the human family, may in its early stages be promptly arrested and permanently cured.

RAVENSWOOD, W. Va.

Dr. R. V. PIERCE, Buffalo, N. Y., writes: "For the last year I have been using your Golden Medical Discovery. I owe my life to it, having been afflicted for years. Did not use it but a short time before I was benefited; at that time I was very bad, not able to sit up much, was suffering greatly with my throat, was getting blind, had a dry cough, and much pain in my lungs. I have used twelve bottles of the Discovery and am almost well."

KATE T. WARDNER.

A son of Mr. H. Meeck, of Chatham, Four Corners, N. Y., has been cured of Consumption by Dr. Pierce's Golden Medical Discovery, says Mr. C. B. Canfield, editor of the Chatham Courier.

S. R. Egler, druggist, of West Union, O., writes to state that Dr. Pierce's Golden Medical Discovery has effected a wonderful cure of Consumption in his neighborhood.

PRICE OF GOLD.

Corrected daily by Detroit National Bank. SALT LAKE CITY, April 30, 1875. Buying at \$1.13; selling at \$1.15.

EVENING NEWS.

Friday, April 30, 1875.

Local and Other Matters.

THERMOMETER 59 degrees F. in the shade at 1 p. m. to-day. Fine, some clouds.

May Day.—To-morrow is the first of May, or May Day, as it is generally called.

"Industrial Association."—The Eighth Ward Industrial Association is conducting the manufacture of men's and boys' hats.

The Shooting Case.—The examination, before Justice Pyper, of Mr. King, on a charge of shooting William Benn, was to come off at two o'clock this afternoon.

Don't Forget.—Do not forget the Spanish class at the Sevens' Hall to night; it meets at half-past seven o'clock, and it is not too late to join it if you wish to.

Notice to Firemen.—The monthly meeting of the Hook and Ladder Co. will be held at Firemen's Hall, Saturday, May 1st, at 7:30 p. m. A prompt and punctual attendance is desired; by order of the Foreman.

Free to the Public.—We have been requested to state that Lindsey's Gardens will be open to the public free of charge to-morrow, May day. A pleasant place for a holiday.

The Races.—At the match on Agricultural Park to-morrow (Saturday) afternoon, "Butler," McKimlin's chestnut horse, will run against "Ration," the winner of the purse last Saturday.

Centerville.—A gentleman from Centerville stated yesterday that, on account of the dry spell, only about one-third of the grain had "come up," which was indicative of only a one-third crop the coming season.

Throwing Rocks.—Last night an intoxicated soldier engaged in the pastime of throwing rocks through the window of a house on Commercial street, for which he was arrested by the police and subsequently turned over to the military.

Claiming the Horses.—Twenty-seven of the horses brought from the north by deputy sheriff Florida have been recovered by the owners. Only seven unclaimed ones remained this morning. They are at the Montana Corral. If not claimed soon they will probably be sold.

To the Members of the Deseret B. B. Club.—You are hereby notified that there will be a meeting of the Deseret B. B. Club, at Barnard's room, over the Deseret Telegraph Company's Office, on Monday, May 3rd, at 7:30 p. m.

Who Has Lost a Boy?—A three-year-old boy, who was brought to the City Hall, has been found by his mother. He had been taken away from home and couldn't find his way back. He had light hair, blue eyes, and was in a white shirt, gray jacket and pants and is barefooted. He cannot tell his name, where he lives.

blashed every Saturday, at Colorado Springs, Col., commencing with April 24, to be under the editorial management of Mr. Mills, and to be "Independent and outspoken upon whatever subject pertains to the common good of all."

Juvenile Dramatists.—On invitation of the Sunday School officers of American Fork, Brother S. L. Evans this morning took to that place the members of the Juvenile Dramatic Association of the 5th and 6th Wards, who will there give a dramatic and musical entertainment to-night and another to-morrow night.

We are informed that the greater portion of the funds with which the 5th and 6th Wards meeting-house was built were the proceeds of dramatic of concerts and entertainments given by the association named.

Twentieth Ward Institute.—Last evening Elder Geo. Q. Cannon visited the Twentieth Ward Institute, and after the exercise, which consisted of the reading of a portion of number five of the *Index*, he delivered a very instructive and encouraging address.

Noah Geo.—Randolph W. E. Geo, 130 North 3d Street, Philadelphia, Pa., is anxious to obtain information concerning Noah Geo, or any of his family, who left Philadelphia several years ago; address as above. As there is a legacy in the matter it will be to the advantage of the parties inquired for to communicate with the enquirer.

Theatre.—Don't forget the benefit of Mr. J. C. Graham, the favorite local comedian at the Theatre to-morrow night, not that the programme is "Sweethearts and Wives," "Shamus O'Brien," and "Fish Out of Water," with Mr. Graham as "Billy Lackaday" and "Sam Savor," and Laura Honey Stevenson as "Eugenia," the company supporting.

More Dog Cases.—Summonses have been issued by Justice Pyper requiring another batch of keepers of unregistered dogs to appear before him and show cause, if any there be, why they should not be fined for non-compliance with the dog ordinance. Dog owners will soon discover that the cheapest *modus operandi* is to either kill the rules or register them.

Disappointed Again.—The threatening and clouded atmosphere overhead this morning inspired people generally with the hope that the now parched ground and thirsty vegetation were about to receive a drenching from a good refreshing shower, but there was but a light sprinkling, which scarcely had the effect of laying the dust, when the sun again shone out in unobstructed splendor.

A good wholesome shower would be worth a great deal of money just now.

That Benefit.—It is very likely that the Theatre will be well filled to-morrow night on the occasion of the benefit of Mr. J. C. Graham, he being a general favorite with the fun-loving portion of the public. To say that he is a clever and amusing actor does not put it too strongly; he is frequently most irresistibly funny, and many of his renditions of character are strikingly good. He is adapted by nature for the mimic stage, and he will doubtless appear to extra advantage in the fine bill of to-morrow night, and his friends will probably turn out numerously to see him and give him a rousing benefit.

District Meeting at Sheffield.—From the *Millennial Star* we learn that a district meeting was held in the New Brunswick Hall, Sheffield, on Sunday, March 14. Services morning, afternoon, and evening. Present on the stand—Joseph F. Smith, President of the European Mission; E. N. Freeman, President of the Sheffield Conference; Elders F. M. Lyman, John Woodhouse, George L. Farrell, John Squires, Peter Barton, and Joseph H. Parry, by most of whom the meeting was addressed.

Stealing Flowers.—To-day the police obtained possession of some fine specimens of geraniums, which they took from a dumb boy, named Barnard, who had evidently stolen them. They are at the City Hall, where they can be identified and obtained by the owner. Barnard also had a fishing rod, which it is supposed he had got hold of in the same manner as the flowers.

How It Is Done.—Not long since a very barefaced mining swindle was perpetrated in Stockton district. Mr. M—y was owner of a "hole in the ground" in that locality, and set his wits to work to "make a raise" on it. He wrote to a friend in an *Eastern town*, that he had struck it, immensely rich, and asked him to meet him at a certain point and he would tell him all about it, and give him a chance. The proposed meeting took place, when M—y enlarged on the richness of the strike. He was willing to sell for \$25,000, but, as he wanted to retain an interest in it, he would dispose of two-thirds for \$15,000. The friend, elated at the prospect of making a fortune in a twinkling, went around among other friends and acquaintances and succeeded in raising \$5,000, so putting in \$1,000, some \$300, so. This was handed over to M—y with the assurance that more would be raised soon.

M—y showed that the stock that we are now receiving out of the *Stock of Spring Clothing*, consisting of the latest styles in coats, suits, and trousers, which enables us to sell from 15 to 25 per cent less than any other store in this city. We have constantly on hand the largest stock and best variety of clothing and goods for sale in this Territory. Purchasers will consult their interests by giving our prices before purchasing elsewhere. d138

Manchesteer, April 1.—I arrived in Manchesteer at 5:35 this morning from Scotland, where I have been for the last three weeks, paying a farewell visit to my friends, and having all received and treated me very kindly during my stay among them.

On Tuesday last, March 30th, I baptised and confirmed my sister, residing in Arbroath. She is at present living with my father-in-law, and I believe will be kindly treated. In all this I feel rewarded for my visit, and enjoying the best of health. And I have found that my friends and Holbrook also in good health and spirits. R. T. BURROCK.

was given a piece of ore, which was from another location, which he had assayed in this City, and which ran over \$300. These circumstances made him anxious to secure the rest of the money for M—y, who kept saying if this was not done he would sell to an English company who wanted it. Some more money was soon pocketed by the rapacious M—y, who then suddenly disappeared, and it soon began to dawn upon the man's mind that himself and friends had been duped. Four others of the stockholders came out to Utah and then the bubble was completely burst, the mine was next thing to worthless and M—y had rammed with their money. One of the dupes is M—y's own brother-in-law, and another is an inmate Dutchman, who was at Stockton the other day, venting his wrath in wordy exultations of ferocity against mining swindlers in general and M—y in particular. This is only a sample of many other cases of a similar character.

Our Country Contemporaries.

Ogden Junction, April 29—The Utah Northern bridge over Bear River is at present unusable owing to the high water. Passengers walk over, and the mails are transferred on a hand-car. It is better to use caution than to chance the destruction of a train.

Young men mind how you jump. A young fellow saw some other fellows jumping on Fifth Street a day or two ago, and thought he'd try his hand—no, his foot. Well, he jumped and put his foot out—of joint the motor pulled it in again and limned it, and now the patient is jumping around on the other foot by the aid of two sticks.

Correspondence.

Dixie Wine at Ten Cents and Laidlaw Tea.

TOQUERVILLE, KANE CO., April 30th, 1875.

Editor Deseret News:

In perusing the Semi-Weekly News of April 20th, received this morning, I find an article on Dixie by C. R. Savage, to which, with your indulgence, I would be pleased to reply. Your correspondent, upon the occasion of his visit to Toquerville, evidently had been privileged with an artists eye, the magnificent surroundings of our Dixie land, combined with the exhilarating influences occasioned by riding over the sands and volcanic deposits, between our northern and southern clime, probably assisted in the fertility of his imagination by that "plint of wine," at the unprecedently low price of "ten cents," is excusable for the assertion of thirty or forty men having consumed work and engaging in the scientific game of "Sham-bang," when your present correspondent, not lacking in intellect and honestly to feel jolly, could but view some fifteen or twenty youths and boys in social enjoyment. As in all markets the price of an article is supposed to be in proportion to its quality, so with our Dixie wine. Had our friend S. but loosened his purse strings to the distant land of Wales for a plot of Toquer's best wine, himself and two friends would probably not have experienced the stupefying effects, such as are produced by drinking "Laidlaw tea."

To dispel the idea that Toquerville has reached its decadent development, I would inform your readers there is yet room. We need a good, permanent blacksmith and shoe-maker, also a number of go-ahead families can still find room, as Toquerville has not as yet reached the climax of perfection, but is on the advance towards it to improve. Fruit and lucern are our main dependence. Of peaches some 30,000 pounds of dried fruit were produced last year, as well as several hundred bushels exported to mining towns and northern settlements, besides considerable quantities of other fruit. Lucern, which excels in Toquerville, has proved a great blessing, not only as feed for our horses and cows, but as a means of cash revenue, for which the traveller pays at ten cents per ton per night, in comparison with which "wine at ten cents per pint" sinks into insignificance.

Respectfully, ROMULUS.

The British Mission.—The following are from the *Millennial Star*—

"London, March 31.—On Sunday last I baptised seven at Pentonville, and after the evening meeting (in same place), which was well attended, other names were handed in for baptism, which will be attended to next week.

"In some of the branches in the country we are also having much encouragement, through additions to our numbers by baptism; and urgent requests for the American Elders to return at the earliest possible date, and attend to baptizing them; while others are anxious to learn something more of the gospel of Christ, as taught in and taught by the Latter-day Saints.

"The brethren who are laboring with me are in good health and are working with commendable zeal and energy. But, as you are aware, our field of labor is very large, and the laborers by no means too many.

"If an every day more and more confirmed in the opinion, expressed in the Council of Elders in Liverpool after your arrival in England, regarding the number of missionaries needed in the European Mission. It is very true that people are poor in many cases, but it is equally true that the only way to benefit them is by the earnest and devoted labors of good, faithful men, teaching the correct principles, and the blessings of the Lord will follow.

"R. T. BURROCK."
