

# TILT BETWEEN HARRIMAN AND ROOT

Union Pacific President Criticizes Government Regulation of Railroads.

Secretary of State Replies Common Tendency of Railways to Favor Wealthy Shipper Against Weaker One.

Kansas City, Mo., Nov. 20.—The most interesting feature of the Commercial club banquet last night had not been announced beforehand, it being Edward H. Harriman's criticism of government regulation of railroads and Secy. of State Root's vigorous reply. Mr. Harriman in his address said:

"I saw in the papers that President Root of the Great Northern, in an address before the commercial bodies of Chicago said that the country needs 100,000 more miles of railway. I feel sure Mr. Root was misquoted. Two men now here who heard his speech, confirm me in that belief. As they understood it, and as he probably said, the railroads need sidings, terminals and double tracks equal to 100,000 miles of new railway."

"In his speech in Harrisburg recently President Roosevelt said that the executive and legislative departments of the government should be given additional power to deal with public organizations."

"If we are going to continue to prosper the power which President Roosevelt has added to the government, I believe, will be added to the other organizations. I hope that some of it will come our way. It is impossible for a railway company or large organization to carry on its business properly if the people are constantly criticizing and suspecting. In the Union Pacific company no one man says what the company will or will not do. I am entirely only because I must be on hand to hear conferences and try to bring a body of men to one conclusion. It is not easy if you always have to turn to the legal department and find whether you may or may not."

Here Mr. Harriman paused and turned to Secy. Root, who sat two seats rearward.

"It is often important to a city or a country whether we do certain things, whether we develop a territory. Mr. Harriman continued, 'or leave it dormant.'"

"Often we cannot give development a start because of the action of certain people for political prestige. I believe there is to be a change of attitude which soon is to be felt. The people are coming to believe in Americanism and that means fair play."

Secy. Root accepted Mr. Harriman's challenge promptly, and prefaced his reply by saying:

"Before I begin my talk on the subject which has been assigned to me I wish to make a few remarks in answer to Mr. Harriman's remarks."

"Mr. Harriman, I believe, in his speech tonight would have us give more power to the railroads."

"The experience I gained from a knowledge of railroad business in the state of Missouri at a time when the railroads were competing for business leads me to believe that the just means of regulating traffic and railway affairs is through the railways themselves. I believe that it is just to say that a law would be one that would force the railroads to combine in keeping the

San Francisco

law—a law that would prevent the railroads from breaking the law.

"I repeat that the best regulation can be brought about by the railroads themselves if they will only do it. Their power, Mr. Harriman, should be supplemented by governmental control such that would prevent them from doing wrong."

"It is countless the case that a railroad by special compensation or special rates can help to build up a bigger and better business. Nevertheless the science of government always gives a chance. The privilege of the railroads in discriminating in the matter of special rates and compensations is too often abused as we have seen."

"It is the common tendency of railroads to give advantage to the wealthy shipper against the weaker or smaller one."

"It is that tendency so often displayed—a tendency to crush the weak. For this reason I say that it is necessary, it is essential to freedom and independence that the railroads should be held under control to prevent discrimination. The slight advantage that the railroads would gain by more power—the power that Mr. Harriman asks for—would be so greatly offset by the evil that such a proposition would not be considered a moment."

### POLICEMAN KILLED.

Ex-Convict Dying as Result of Fight In Chicago Elevated Station.

Chicago, Nov. 19.—Policeman Luke Fitzpatrick is dead and Charles Hanson, an ex-convict, is dying as the result of a fight early today on an elevated railroad station.

Hanson and a companion last night blew open the safe of a Hammond, Ind., grocery store, and escaped with several hundred dollars and negotiable notes after exchanging shots with the Hammond police. Later the robbers boarded a car for Chicago. The conductor, who had heard of the robbery, and being suspicious of them, informed Police Officer Fitzpatrick upon reaching Chicago. Fitzpatrick and the conductor followed the men. Fitzpatrick ordered them to halt and they at once opened fire on him. Fitzpatrick was struck several times and fell down the stairs, but managed to empty his revolver at Hanson who ran down the stairs to escape.

Hanson fired several more shots at the officer, who died soon after.

Police Officer Birch and Wilson, who had heard the firing, arrived as Hanson was running away and fired shot him through the back inflicting a fatal wound.

The companion of Hanson, whose name is thought to be Guy Vantess, escaped.

### EIGHT DEATHS FROM STORMS IN THE SOUTH.

Memphis, Tenn., Nov. 19.—With the exception of eight deaths reported last night as a result of the storm Saturday night and Sunday which swept portions of Tennessee, Mississippi, Alabama and Arkansas, there has been no further loss of life.

Telegraphic communication is gradually being restored, but railroad traffic is greatly impaired and in many instances demoralized.

The rain continues to fall but the volume is greatly diminished. Reports from the western section of Tennessee show that the railroads have suffered greater damage than ever before. The Nashville, Chattanooga & St. Louis, the Mobile & Ohio, the Southern and the Illinois Central are unable to operate trains at all through Jackson, Tenn. Tracks are washed out for long stretches. Bridges are down and in some places the water is standing over the tracks for miles, making it impossible to operate. Farmers have suffered great loss both in crops and livestock.

Gives vigor, strength, vitality to your nerves, stomach and every part of your body. It's easy to take; swallow a little Hollister's Rocky Mountain Tea; it does the business. Tea or Tablets, 35 cents. Z. C. M. I. Drug Dept., 112-114 South Main Street.

### HEARST AS CANDIDATE.

When He Said He Wouldn't Be One Simply Meant for Governor.

Buffalo, N. Y., Nov. 19.—William K. Cunniff, chairman of the Democratic state committee, in an interview yesterday, said:

"The interview with William Randolph Hearst, sent out from San Antonio, Tex., in which he is quoted as saying, 'I will never again be a candidate,' means that he will never seek the governorship of New York again. He has told me the same thing. Mr. Hearst is, however, a loyal Democrat, and if the party demands his nomination for higher honors he will answer to the call."

### KILLED BY MUDSLIDE.

Vancouver, B. C., Nov. 19.—Tragically sudden death overtook two hand-laborers, Joseph Adams and Charles H. Colpett, who were overwhelmed by a mudslide at Knight's Inlet. The slide buried their shack in the night. The slide was 150 feet wide and buried men and cabin. Adams was from Missouri, Colpett from Maine.

### MRS. FRANK R. STOCKTON DEAD.

Washington, Nov. 19.—Mrs. Frank R. Stockton, widow of the novelist, died at her home in this city at 10:30 o'clock tonight.

### WOMAN CHARGED WITH KILLING EMPLOYER.

New York, Nov. 19.—Gustav Simon, senior member of the United Waist company, with headquarters at 604-608 Broadway, was shot in his office today, receiving a wound from which he died today. A woman, a former employee of the company, is under arrest charged with the shooting. She had called upon Simon to collect money said to be due to her from the firm.

Simon was unconscious for some time

before he died and there is doubt as to what immediately preceded the shooting.

The prisoner, who was arrested as she was leaving the building, described herself as Madame Anastasia Louise de Massey, a shirt waist designer, 33 years of age, and living in West Thirty-seventh street. She protested her innocence and in explaining her presence in Simon's office said:

"I did not shoot him. I am a designer and was employed there for five days. I came to collect \$30 due me. I said to Mr. Simon, 'I want my \$30,' and he said I would have come back, and then he said I would have to sue him for it, and I am going to sue him, too. I didn't shoot him."

According to the woman, who alleged that the shooting was witnessed, the woman approached Simon and asked for the money due her. Simon told her she would have to return sometime and a half hour later, at the usual hour when employees were paid. She retired to the hall, but at once re-entered the office, and immediately afterward the 30 women employees in an adjoining workroom were startled by the report of three shots fired in quick succession. The first bullet passed through a glass partition and between two models; the second struck Simon in the neck, and the third imbedded itself in the ceiling. During the excitement the woman, who was pointed out to the police, a revolver of large calibre, three chambers of which were empty, was taken from her by Simon's office to the main exit.

Later at police headquarters the prisoner said her maiden name was Anastasia Louise de Laubach. Neighbors and a prisoner give her a good reputation.

**THREW BABY OVERBOARD.**  
Swiss Governess Committed Deed During Fit of Temporary Insanity.

New York, Nov. 19.—On the arrival at New York today of the steamer New Amsterdam of the Holland-American line from Amsterdam and Boulogne, it was reported to the police that while the vessel was in mid-ocean, a Swiss governess, in a fit of temporary insanity, grasped a baby from a crowd of children at play on the deck and threw it overboard.

The prompt interference of the officers of the vessel prevented other passengers, led by the mother of the child, from inflicting serious injury upon the crazed governess. The steamer was stopped and a search was made for the infant's body, but it was not recovered.

Miss Naegle, after throwing the child into the Atlantic, cried: "She was locked up in the ship's hospital. The mother of the child, Mrs. Gavovsk, who, with her husband, was on her way from Russia to join her husband in Fargo, N. D., was prostrated over the loss of her baby."

### GILLETTE INDICTMENT UPHOLD.

New York, Nov. 19.—Justice Greenbaum, in the supreme court today, denied the application of counsel for Walter R. Gillette, of the Mutual Life Insurance company, to dismiss an indictment for perjury against Gillette.

### NATIONAL GRANGE AGAINST REFERENDUM.

Denver, Nov. 19.—The National Grange went on record as opposed to endorsing the initiative and referendum today when a resolution offered by C. E. Kegley of a Swiss lodgehouse, was voted on. The matter was referred back to the state granges upon the contention that such an innovation can only be put in operation by state governments. The principal opposition was to the proposition giving the people the right to recall representative officers, the argument being that this was too socialistic.

The greater portion of the sessions today was devoted to the report of the executive committee and consideration of the proposed revision of the grange laws, matters of interest particularly to grange members. Tomorrow the delegates will visit the agricultural college at Fort Collins.

### KILLED BY POLICEMEN.

Los Angeles, Nov. 19.—John Fustek, proprietor of a Swiss lodgehouse, was shot and instantly killed this afternoon by two policemen who had entered his place in search of a supposed "blind pig." Fustek, it is claimed, drew a pistol on the officers, whereupon they shot him.

### CHICAGO SKYSCRAPERS.

Number of Fatalities in Them Last Year Immense.

Chicago, Nov. 20.—Chicago sky scrapers during the last year exacted the heaviest toll of human life recorded in the history of building operations in the city. Figures compiled in the annual death roll of the Bridge and Structural Iron Workers' union, which was published yesterday, show the increase in fatalities among members of that craft to be surprisingly large.

Of a total membership of the union of 1,358 men, nearly 150 either lost their lives, or were totally or partially disabled as a result of their hazardous occupations.

During 1905 only 26 iron workers were killed, about the same number were so injured that they could not resume their trade, while the number of minor injuries totaled less than 80.

Secy. O'Brien attributed the added mortality to the unusual active season in the building industry. Speed required of the men, he said, had caused them to become less careful. Most of the deaths were due to falls from steel structures in the downtown district.

### N. Y. OBSERVATORY AND NAUTICAL MUSEUM.

New York, Nov. 20.—Dr. Charles Lane Poor, professor of astronomy at Columbia university in an address last night before the New York Academy of Sciences, stated that Frederick C. Bourne, Cornelius Vanderbilt and several other residents of New York, had agreed to apply to the city authorities and the state legislature for a charter to found the New York observatory and nautical museum. The same men have agreed, Dr. Poor added, to raise an endowment for the proposed institution, and to purchase all the instruments and apparatus that will be required to make the New York institution one of the best equipped in the world.

### SUICIDE'S BODY FOUND.

Portland, Or., Nov. 20.—The body of A. Dickson Henderson, formerly a newspaper man of St. Paul, Minn., and later of Seattle, was found in a lodging house in this city today. Henderson had committed suicide by taking carbolic acid; it is believed, Sunday night. No cause for the act is known.

### FIVE BURNED TO DEATH IN HOTEL FIRE.

Regina, Manitoba, Nov. 19.—The Hotel Windsor, the largest in this city, was destroyed by fire today and five people were burned to death. There were 65 guests in the hotel at the time of the fire.

### DEAD.

W. Musser, manager of Regina Milling company; L. Musser, assistant manager of Regina Milling company; Donald Walker; Harry Jones.

Several others were burned, some of them seriously. Loss \$100,000.

## THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all-important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectively, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating, or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases.

It is because of the fact that **SYRUP OF FIGS** is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

## Bothered by Biliousness?

Many people are. It is a very common form of liver trouble. Properly speaking the liver is not an organ but a gland—the largest in the body and a very important one. Its office is to secrete the bile which is carried to it by the blood. When you are bilious your liver is not working right and the best thing you can do is to take

# Beecham's Pills

because they act directly on the liver, relieve the congestion, regulate the flow of bile and carry off all the impurities.

But the good effects of Beecham's Pills do not stop with the liver. The stomach, kidneys, bowels and blood are benefited at the same time. The skin freshens, the dark circles under the eyes disappear, the head clears and the general health is greatly improved.

Beecham's Pills are purely vegetable and a safe medicine for man, woman and child. Take them as directed whenever there is need to

# S.S.S. HAS BEEN CURING CATARRH FOR FORTY YEARS

S. S. S. is not a new treatment for Catarrh; it has been curing the disease for more than forty years, and so universally successful has it been that it has won an established place in the confidence of the people as a remedy for this disgusting, troublesome and dangerous disorder.

Catarrh is not merely a stubborn or protracted cold, as some people seem to think; it is a deep-seated and serious blood disorder, more generally affecting the body than any other disease. Hardly any part of the system is exempt from the trouble; it attacks the head, throat, stomach, bowels, kidneys, bladder, lungs and other members, and its effects often completely break down and undermine the entire constitution.

This catarrhal condition is usually first noticed after the contracting of a cold. The inner skin and tissues of the body become irritated and inflamed and secrete an unhealthy matter, which is absorbed into the blood; this foreign matter corrupts and diseases the circulation, and as the blood goes to every nook and corner of the body the poisonous matter with which it is loaded is deposited to set up inflammation and disease of the different members. Catarrh has more disgusting and annoying symptoms than any other trouble. There is a constant buzzing noise in the ears, a watery discharge from the nostrils, headaches and pains in the eyes, stringy, filthy matter drops back into the throat, requiring continual hawking and spitting, the breath has an offensive odor, slight fever often accompanies the disorder, gradually the entire blood supply becomes tainted and diseased and the system completely disordered and upset. After awhile the kidneys and bladder become affected, chronic Dyspepsia or Catarrh of the stomach develops, and the disease settles in some vital place, generally the lungs, because of the constant passage of poisoned blood through them, and Catarrh terminates in consumption, a hopeless and fatal disease.

Catarrh is usually worse in Winter, because of the cold and dampness and suddenly changing temperature, but it is in no sense a disease dependent on climatic conditions for its development. Neither is it a trouble to be cured with sprays, washes, inhalations and such treatment; these merely relieve the reflex symptoms for awhile, but they are fanned into existence again at the next exposure to unfavorable weather.

As Catarrh is a deep-seated blood disease the very best constitutional treatment is required to effect a cure. S. S. S. is the greatest of all blood purifiers, and is therefore the remedy best fitted for the work of removing the cause and permanently curing the trouble. Forty years of successful service have proven the worth of this great medicine in the treatment of Catarrh. S. S. S. is peculiarly suited as a remedy for this disease. It is made entirely of healing, cleansing extracts and juices of roots, herbs and barks, without the least addition of mineral medicines. S. S. S. goes down into the blood and removes the catarrhal matter and poison, and its gentle acting vegetable properties strengthen and repair the diseased membranes and tissues so that when the cause has been removed the entire system is left in a state of perfect health. S. S. S. also tones up the stomach and digestion, and acts as a fine tonic to the entire system. S. S. S. has been curing Catarrh for more than forty years, and what it has done in the past is a guarantee of what it will do in the future. It is not an experiment, but a real blood purifier tested by time, for blood diseases like Catarrh. Write for our book which contains information about Catarrh, and ask our physicians for any medical advice you desire. No charge for either.
