## BOLD BURGLARLY BY DAYLIGHT

Residence of Adam J. Farber Ransacked. Robber Slams Door in Owner's Face.

## HORRIBLE DEATH ON RAIL.

Body of Unknown Man Found by Train Crew Near Evanston—Dam. Suits Settled—News Briefs.

Ogden, April 22.—The residence of Adam J. Farber at 2375 Adams avenue, was burglarized in broad daylight yesterday afternoon by a lone robber who ransacked the house and made his getaway under the eyes of members of the family. From the nature of the robbery it is considered one of the boldest pieces of work ever pulled off in this city. The burglar had evidently watched the place for some time before he gained an entrance, as Mrs. Farber had left the home just a few minutes prior to visit the neighbor. When she returned she met the robber as he was leaving the house through the back door; he slammed the door in her face and made his escape from the front door. As he was going out the front he met a delivery man coming in the gate but calmly walked by him and dashed down the street.

A hasty examination of the premises showed that the burglar had ransacked the house, carrying away with him a large quantity of silverware, a valuable watch chain and other articles. The alarm was given and a good description was furnished the police. From the methods adopted by the robber, he is supposed by the police to be one of those who entered the home of Rev. D. M. Cushman about a week ago and carried away a valuable silver service.

## HELD UP WRONG MAN.

Ogden, April 22.—Shortly before 11 o'clock last evening T. B. Stephens was held up by two men on Washington avenue, by two masked men. Evidently the robbers had made a mistake in their man, for when they saw Stephens' face one of them remarked that he was "not the fellow we want" and then turned and walked away without searching the man.

The victim of the robbers continued on his way to his residence, 3161 Washington avenue and notified the police. A slight description of the men was given by Mr. Stephens, who said that one was a short fellow with a black suit of clothes and a black slouch hat, the other fellow was very much taller and was similarly dressed.

## HORRIBLE DEATH ON THE RAIL.

Advice were received in the city yesterday afternoon at the office of Supt. Whitney of the Union Pacific that the body of an unknown man had been found by a train crew lying beside the track at a station called Peru, seven miles west of Evanston. According to the report it was about 8 o'clock that a freight train in charge of Conductor Calland was pulling onto a side-track when the body of the man was discovered. It was assumed by the railroad officials that the unfortunate man was beating his way on a freight train when he fell from the trucks and was dragged to a horrible death by a low brakeman. The authorities at the Peru River were notified and took charge of the body. Among some papers found on the body were letters addressed to "John Joseph Griffin, 32 Parren street, San Francisco." A small silver watch and \$2 in silver were found among the effects.

## DAMAGE SUITS SETTLED.

W. O. Johnson Case Closed After Six Years' Litigation.

Ogden, April 22.—The case of W. O. Johnson against the Southern Pacific company which has been on trial in the district court for more than six years was settled yesterday by the company paying Johnson \$25,000. The case has been a long drawn out one and has been through all the high courts of the land including the United States supreme court and before the interstate commerce commission.

In 1900 Johnson was employed by the company as a brakeman. He was performing his duty at Promontory Point one day when it became necessary to attach a dining car to a freight train in order to bring it to Ogden so that it could be sent out in another train. In attempting to make the connection with a king bolt Johnson's hand was caught and crushed to such an extent that it was necessary to amputate it. He retained Judge Murphy and brought suit against the company for \$20,000.

The supreme court of the United States reversed the decision of Judge Marshall at Salt Lake City and the circuit court of appeals at St. Louis and which was in the railroad company's favor. A third new trial was granted and the case was taken to a district court in Nevada, but the company secured a change of venue and got the case in the federal court where when the company settled the case.

of the sciatic nerve. Its origin is generally rheumatic and is the direct result of taking cold.

One medical authority has described the pain of neuralgia as "the cry of the nerves for better blood." This is true because the nerves receive their nourishment through the blood. Build up the blood, the impoverished nerves are fed and the neuralgic pains disappear.

Mr. W. Q. Wilcox, a well-known jeweler, of No. 535 Main street, Coshocton, Ohio, suffered nearly two years with sciatica. "I endured intense pain," he says, "and was under the care of four doctors without benefit. Dr. Williams' Pink Pills just hit my case and two weeks after I began taking them I was a good deal better. I took them a while longer and was permanently cured."
