

confidence in the public mind—a fact which, I regret to say, would not be associated with the court over which His Honor Chief Justice McKean presides in this city.

It has been the misfortune of Judge McKean that many of his decisions against Mormons have been reversed by the Supreme Courts both of the Territory and of the United States. That His Honor could make an excellent argument in support of his own decisions and against those of Chief Justice Chase goes for nothing in the Mormon mind; "the brethren," and "sisters" too, only see in him a dangerous man on the bench who would do them much wrong—if he could. It is, therefore, fortunate in the forthcoming trials that Judge McKean has nothing to do with them, and that we have, comparatively, a new and unchallenged judge to mount the bench and expound the law.

Judge McKean excludes from the jury box a citizen because of the peculiarities of his faith. Judge Boreman has not yet so ruled. That a man should have imbibed the idea from the teachers of the Bible stories of men living with a number of wives at one time, that such association was very pleasant and amusing, does not necessarily disqualify that man from sitting in judgment upon any one who in the year of grace 1875 had violated the anti-polygamic law of Congress which was passed in 1862. — *New York Herald.*

THE SOUTH AND THE CIVIL RIGHTS BILL.

THIS is how it is proposed in Virginia to nullify the Civil Rights bill. Col. W. J. Gilman, of Richmond city, introduced the following bill in the Virginia Legislature—

First—Be it enacted by the General Assembly of Virginia, that if any person shall enter, or attempt to enter any inn, public conveyance on land or water, theatre or other place of public amusement for the purpose of injuring the business or disturbing the owners, proprietors or guests thereof, or who shall in a rude, angry, boisterous or threatening manner demand other or different accommodations, advantages, facilities or privileges than those offered or tendered by the owner or proprietor thereof, or by the agent of the owner or proprietor, or who shall in a rude, angry, threatening or offensive manner insist on such accommodations, facilities or privileges after being informed by the person or persons on whom such demand is made that the accommodations, facilities or privileges asked for or demanded cannot be furnished because of insufficient room or insufficient provision, or because other or more guests and patrons cannot be properly cared for or accommodated, or if any person shall demand or seek for such accommodation, facilities, advantages or privileges in any inn, theatre or other place of public amusement for the purpose of inciting or causing any riot, breach of the peace, or public disturbance, or if any person wickedly intending to secure gain to himself or herself or secure loss to another, or to cause, procure, or incite vexatious litigations, shall make such demand or request, knowing or believing, or having reason to know or believe, that such inn, theatre, or place of public amusement cannot accommodate other or more guests or patrons, or that his or her patronage is not desired by the proprietor or agent of such inn, theatre or place of public amusement, shall, on conviction thereof, be confined in the county or corporation jail not exceeding — months, and be fined not exceeding — dollars, or both, at the discretion of the jury; and in all prosecutions under this section, one-half of the fine shall go to the proprietors or owners of the inn, public conveyance, theatre or place of public amusement, against whom the annoyance, wrong or injury was done or attempted.

Second—Any person who shall aid, abet, or in any way encourage any person in the violation of the foregoing section, shall on conviction be fine not exceeding \$100.

Third—Proprietors of the theatres and other places of public amusement may sell tickets to specified seats, and which tickets shall not be transferable if the

words "not transferable" are written or printed thereon, and in the presentation of any ticket so marked by any other than the person to whom the same was sold, the proprietor of such place or his authorized agent may, after tending the price of such ticket, refuse the holder thereof admission, and any person holding a ticket so transferred who shall refuse to receive the price of such ticket when tendered, or who shall claim or demand the right of admission on such ticket after the same is refused, shall be deemed guilty of creating a public disturbance and shall, on conviction, be fined not exceeding — dollars, and half of which shall go to the proprietor of the theatre or other place of public amusement where the offence was committed.

Fourth—In all prosecutions under the first section of this act if it shall appear that at the time when any demand for the accommodation, advantages, facilities or privileges specified in such section was made, the person on whom such demand made informed the person who made the same, or in any way brought or gave notice to such person that the accommodations, advantages, facilities or privileges, so asked for or demanded could not be furnished, because of insufficient room, insufficient provision or inability to properly or safely care for or accommodate other or more guests or patrons, such statement shall be taken as conclusive proof of the fact so stated, and in all trials under this act the Court shall so instruct the jury.

"A Woman's Book."

"What Women Should Know, A Woman's Book About Women," is a large, well printed and handsomely bound volume, upon a great variety of subjects interesting to all of womankind, whether maiden, wife or mother, in health or disease. It is written by a woman who has evidently studied and understands the nature, ailments and peculiarities of her sex, and hence is qualified to give them advice in relation to many matters of which numbers of them seem to be, but upon which not one ought to be, ignorant. It is essentially a woman's book, and while written in a common sense style and in plain unmistakable language, modest and ladylike delicacy pervade every page. Among the many topics treated upon in its pages are the following: "Love in its physical and moral phases;" "When and whom Women shall marry;" "Marriage and the Family;" "Trials of the Young Wife;" "The Sick Room;" "General Diseases of Women;" "Diseases of Infants;" "The Moral Responsibilities of Motherhood," and many others equally important, and the work, as a whole, is worthy of a careful perusal by, and can not fail to be interesting to lady readers in general. It is published by J. M. Stoddard & Co., Philadelphia.

News from England.—The following is extracted from a letter from Elder H. C. Fowler, now on a mission in England, to a friend in this city. The communication is dated at Emsworth, Hants, March 3d:—

"I am pleased to say the Lord is blessing the Elders in their labors. Here, in the London Conference, the fruits of their efforts are being made manifest by additions to our numbers. We are baptizing a few all the time. The Lord has begun to work upon the hearts of the people, and in many parts of the Conference many are inquiring after the truth. It seems to me a renewed interest is being taken in the principles of the gospel. There is not that dull indifference that has been manifested of late years. The people seem to be waking up, at least so it seems to me, in this Conference. In one small village down here I expect shortly to baptize seven or eight persons, and at another place where I called and preached on my way to this place they have written to President Burton to send them an Elder. The people want to hear the principles of "Mormonism" explained. Some are having significant dreams, and it appears that the Holy Spirit is operating upon and striving with them."

The health of Elder Fowler at date of writing was good, and he was taking much interest and pleasure in his missionary labors.

All classes of people, from the

Mower at Work.

Mower Folded.

Self-Rake Reaper at Work.

Showing Gearing.

The above cuts represent the celebrated **Cayuga Chief Mower and Reaper**, manufactured at Auburn, N. Y., by the **Cayuga Chief Manufacturing Company.**

The new Machine, No. 6 Combined, possesses all the advantages of the other Cayuga Chiefs in their most improved and popular form, as heretofore constructed; the leading features of which are arranged and combined in the most desirable, compact and symmetrical form, making it superior to anything of the kind heretofore produced. MR. WHEELER, whose name as an Inventor and Patentee is familiar not only to manufacturers of Reapers and Mowers, but to the agricultural community generally, has spent twenty-one consecutive seasons in the harvest field in experiment. For the past two years he has devoted his whole time to the organization and test of this Machine, which embraces all the most important and valuable improvements heretofore made and patented to him, combined in the most simple, substantial and symmetrical form, with other improvements made by him, which by practical and thorough test in the field, under his inspection and supervision, have proved valuable and successful.

In introducing them to the farming public of the Far West, we desire to call attention to some of the important features of these Standard Machines, and ask an examination of the same by all who contemplate purchasing a Mower or Combined Mower and Reaper the ensuing season, being satisfied that inspection will lead to a sale.

An examination of the Machine will show that the main or driving wheels are of large size, and are placed further apart on their axle than usual, giving the machine greater steadiness when in use, especially on rough, uneven ground.

Two frames are employed in the construction of this machine, and the same system of gearing as used in the other Chiefs, but it is arranged centrally in the frame, which serves also to shield and protect it.

The lifting devices for the finger bar are the most perfect and effective. The *Cutting Apparatus*—a very important feature—is entirely different from all others, and its advantages will be apparent on inspection. Its *Folding Arrangement* as shown in cut is the only convenient mode of transportation by which the machines can be perfectly balanced, perfectly safe, and can be driven ANYWHERE A TEAM CAN GO.

As a Reaper it has a light, compact platform, which can be quickly attached to or detached from the Machine. The Self-Rake used is the same popular Wheeler Rake, so long and successfully in use on our other Machines, and is entirely different from any other in use. In its application to this Machine, all its valuable features are retained, whilst its application is so simplified that it requires but a few moments to attach it to or detach it from the Machine. Two eye bolts serve to hold it in place, by clamping it to the pivot pins of the main shoe. These have simply to be loosened to remove it from the shoe. By the location of the Rake upon the shoe, and the hinging the shoe to the cutter frame, the platform wheel has no part of the weight of the Rake to carry, thus overcoming the difficulty experienced in Machines when the large shoe is located outside of the road wheel by the great weight carried on the platform, causing it to sag and the Machine to run hard, with often severe side draft. The platform is readily adjusted to cut at different heights, and is the most durable platform made in America.

The Gearing as shown by the cut is arranged in the centre of the Machine, in a compact and simple manner, being completely encased, thus protecting it from all dirt and grit. Every part of the Machine is duplicated, and tons of extra parts are now on hand at the different agencies in Utah.

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the **CHICAGO & NORTH-WESTERN RAILWAY** is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road bed has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route—

The Chicago and North-Western.

You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information, with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. w1
