

coercion of the independence of Hayti, by the presence, in the ports of that Republic, United States war vessels, and similar acts of hostility against a friendly nation, to be a usurpation of the war powers of the Constitution, and that these acts should be disavowed by the United States; and that the existing belligerent intervention is inexcusable, and should be abandoned.

WASHINGTON, 24.—Col. Huggins, of Aberdeen, Miss., Assistant U. S. Assessor of Internal Revenue, arrived in this city last evening. He reports that he was seized while making assessments in his district, in Monroe Co., Miss., recently, by a band of disguised men. He was severely horsewhipped and warned to leave the country at once. Col. Huggins has seen Commissioner Pleasanton and Secretary Boutwell, and has been assured that he and other officers shall be protected at any cost. Since his arrival here, he has received a letter from Aberdeen, stating that the schools are breaking up, and that a number of teachers are now at Aberdeen for protection. Other U. S. officers have been ordered to leave the State, under penalty of being dealt with in the same manner.

SAN FRANCISCO, 24.—The trial of Dennis Gunn, for the murder of Edward J. Murphy, was concluded in the Fourth District Court this evening. It was shown that on the 31st of December Gunn received an anonymous letter, telling him that his sister, fifteen years old, had been debauched by Murphy, who was a notorious seducer, having three wives living. Gunn immediately charged his sister with the fact, and she acknowledged it. He then took a pistol, went on the street, found Murphy and shot him down. The defence proved that Murphy's character was abominable, that he had boasted of seducing Miss Gunn under a promise of marriage, and that Gunn's character was good. The jury rendered a verdict of "not guilty," after being out a few minutes. The whole audience joined in cheers, which could not be repressed. The court instantly adjourned.

WASHINGTON, 25.—Sumner's speech will occupy the whole of Monday. It is already in type, and takes up fourteen columns of the *Globe*. Answers may or may not be made the next day, but at any rate there is no prospect of the Ku-Klux debate being resumed before the Senate till Tuesday or Wednesday.

NEW YORK, 25.—A special telegram from Panama gives further items of the terrible flood in Peru. The town of Lamboyogue, containing 20,000 inhabitants, had only three houses left standing. In Payta the water was three feet in the streets.

The people of Chili are violently opposed to the annexation of San Domingo to the United States, and the government is called on to protest against it as the first step towards annexing all of Spanish America to the Republic of the United States.

The minister to Salvador has notified that government, on behalf of England and the United States, that in the event of a Little Rock special dispatch says a most disgraceful scene occurred last night, in the lower House of the Arkansas legislature. The Clayton ring, having a majority, carried every measure sent by the Senate, regardless of law or precedent, over the protest of the Conservatives, who, seeing that all was lost, unless a quorum was defeated, at eleven o'clock, a sufficient number left to leave the House below a quorum. A call for the House was ordered, the doors locked and the sergeant-at-arms dispatched for the absentees. Then followed a scene of disorder and confusion that would have disgraced a town meeting house. Whisky flowed freely and cigars were circulated, and a dozen members were addressing the chair at once. In the midst of all, one member, Mason, who could scarcely preserve his equilibrium, was speaking when Barber, colored, rose to a point of order and proceeded to address the chair. Mason continued his remarks in a loud voice and the chair could not hear Barber. The latter left his chair, advanced up the aisle, near to the speaker's stand and said: "Mr. Speaker, his eyes flashing, by G—d, who has the floor. This drunken man, Mason, or myself? If he has not I will make him take his seat," advancing towards Mason, picking up a book and brandishing it over his head. At this point the speaker succeeded in restoring order.

Armed vigilantes entered the jail at Virginia City, this morning before day-break, covered the jailer with muskets, took out Arthur Perkins Heffnan, who killed one Smith in a saloon row a few weeks since, and hanged him. They numbered two or three hundred, armed

with muskets belonging to the national guard. They established patrols in all the streets of Virginia, and conducted everything in the most orderly manner.

RICHMOND.—Charles T. Friend, a prominent citizen of Prince George County, living near Petersburg, was murdered last night, near his house, by a band of negroes.

WASHINGTON, 26.—The President will transmit the report of the San Domingo commission to Congress, at an early day. He does not intend to recommend action on it during the present session, but desires its contents to be read by the people, in order that they may form, from official data, a judgment of the question under discussion.

The joint high commission will conclude its labors in a few weeks. Assurances come from three distinguished well-informed parties, that there will be an equitable settlement of the matters in dispute. If this shall be the result, the President will send the treaty to the Senate, should that body be in session. The subject of the fisheries is considered first, and all other important questions are also discussed, each side presenting voluminous documents, and affording every facility to each other for procuring additional information. The British commission is in constant telegraphic communication with the home government.

The House select committee will have another meeting, to-morrow, to discuss the Ku Klux bill.

PROVIDENCE.—A number of convicts of the State prison made an attempt to escape, last night. Morphine was put into the tea which was brought to the night watchman, but the quantity was so great that the mixture was no sooner taken than ejected. Suspicion was aroused and one of the prisoners made a confession, saying the watchman was to be stupefied, and killed if necessary, then all engaged in the conspiracy were to be let out of their cells, into the yard, when they would scale the wall and escape. The morphine was obtained by a prisoner who is occasionally employed in the dispensary.

FOREIGN.

VERSAILLES, 22.—Several Paris newspapers have removed to Versailles. The Paris insurgents obtained from the Bank of France a million of francs, against a formal deposit of treasury bonds; a requisition was made by them on Rothschild, who refused payment.

PARIS.—The *Journal Official* says that Bismarck has informed Thiers that the Germans will occupy Paris on Sunday, unless by that time Thiers is master of the situation.

VERSAILLES.—In the National Assembly to-day an adverse report was made from the committee on the bill to provide for the election of a municipality in Paris. Jules Favre read a letter from Bismarck, who says that events in Paris do not indicate the execution of the convention entered into with the German commanders when the peace convention was signed. He forbids any approach to the lines before the forts occupied by the Germans. Bismarck claims the restoration, within twenty-four hours, of the telegraph leading to Paris, which has been destroyed, or Paris will be treated as an enemy, and should there be any more proceedings in violation of preliminaries the forts will be opened on the city. Favre stated to the Assembly that he had replied to Bismarck that the insurrection in Paris was a surprise to the government, but would be repressed; and if there was any delay in its suppression it was because the government was still hopeful of avoiding bloodshed. The government had no means of repairing the telegraph, but would ask its reinstatement of the mayors of the arrondissements through which it passed.

PARIS, 22.—This evening a large number of unarmed persons reached the Rue de la Paix, at the entrance of the Place Vendome, and appealed to the sentries to give way, and not impede their passage into the districts occupied by the insurgents and the national guard, but the request was refused by the sentries. The demonstrators thereupon unfurled the colors of the nation. The sentries threatened to bayonet the flag bearer, and the crowd at once commenced to retire. Baron Nathan then seized the flag and exhorted the crowd to advance against the illegal force occupying the place. The order was obeyed, when the nationals occupying the place, beat their drums and fired in the air and the crowd retreating too slowly, three ranks of the nationals filed out from the body, and fired. There was a terrible scene for five minutes, then the crowd broke into

a terror-stricken retreat. At least 30 persons were killed and wounded. Baron Nathan received two shots in the chest. The nationals in the Place Vendome have since been reinforced. The national guards generally have been called to arms, and fighting is apprehended to-night. The affair creates a sensation among the people of Paris.

VERSAILLES.—It is reported that the people in Paris have assassinated General Raphael.

The government has requested the Germans not to bombard Paris, lest the innocent may suffer.

General Cremer has been summoned to Versailles, but, failing to appear, he will be tried for disobedience to orders.

PARIS, 22, 10 a.m.—There has been no further bloodshed since six o'clock. The armed insurgents have been reinforced, and the city is gloomy, and the excitement intense. The national guards, under orders from the central republican committee, occupied Fort Vincennes, the garrison fraternizing with them as soon as they appeared.

Gen'l. Lecompte and Thomas were buried in a ditch near the Rue de la Paix. A pool of blood marks the spot. No man's life is safe in Paris.

The *News*' special says the people are flying from Paris terror-stricken. The rebels are preparing for a desperate encounter to recover lost ground.

The *Telegraph*'s special gives the commander of the nationals a justification for the massacre in the Place Vendome. The demonstrators provoked, yelled and fired first, and killed one of the nationals. Among the victims is an American named George Tunnel.

It is rumored that Ducrot has been shot by his own troops in Paris. Paris quiet, shops closed, few pedestrians.

VERSAILLES, 23.—The government intends to appeal to the nationals and mobiles of the departments. A Paris deputy, who parleyed with the insurgents at the Hotel de Ville, says the committee is losing the upper hand of the men.

Gen. Chazey, on being set free, left for Versailles. Admiral Soissset has disbanded the loyal battalion under his command and gone to Versailles.

DIED.

In the 15th Ward, Salt Lake City, March 25th, of child-bed, PRUDENCE A., wife of Lafayette Granger.

The funeral services took place yesterday afternoon in the 15th Ward School House, which was crowded on the occasion, many being unable to obtain admission. Addresses of an appropriate character were delivered by President D. H. Wells and Elder George Q. Cannon. The demise of the deceased was a cause for regret and great surprise to her many friends, and the high esteem in which she was so generally held could not be better attested than by the very large attendance at her funeral.
