

JAPANESE NEXT OBJECTIVE POINT

In Russian Military Circles it is Believed that it will be Vladivostok

RUSSIANS ARE ALL AT SEA.

Not Sure But Their Enemies May Be Content Simply to Hold The Pass.

St. Petersburg, March 27.—The impression prevalent in some military circles that the Japanese, having removed the possibility of the main army in Manchuria assuming the initiative, will now turn their attention to the next objective of the war, Vladivostok, is strengthened by the dispatch from Gushu pass announcing the withdrawal of the Japanese from the immediate front of the Russian army for a distance of 35 miles south. It is realized, of course, that this may be merely a blind to cover flanking operations; but it is not improbable that the Japanese, having cleared southern Manchuria of Russian troops and secured a position from whence expulsion would be a long and difficult process, may be satisfied to hold the Tie pass line without further extension of communication.

While the voice of the emperor's advisers is for peace, if honorable terms are obtainable, the government, as is the part of wisdom, is going forward with all provisions for the continuance of the war. Preparations are reported to be making for the mobilization of five corps. It had been understood that the guards would be retained at St. Petersburg, but some of the officers of this crack organization believe their services have been requisitioned, and are making preparations to that end.

There has been a recrudescence of reports of a change in the head of the war office. It was stated last night in a usually well-informed source that Lieut.-Gen. Sakharoff will leave very shortly and be succeeded by Gen. Ridiger, now chief of the chancellery of the war office. It is also reported that Gen. Polivanoff will be appointed chief of the general staff. Both Polivanoff and Ridiger are of the younger school of generals, but have high reputations as theoreticians and administrators. Gen. Ridiger is the author of a number of text-books on tactics.

The government is advised that Chinese bandits are appearing in great numbers along the Siberian railroad and causing interference with the train service.

The internal situation is causing great anxiety, though it is said that the "intellectuals" and the educated classes generally disapprove of the revolutionary spirit which is permeating the peasantry and laborers in Poland. The Crimea is burning with dissent, and the strong hand of the military force has been invoked to crush the incipient revolution at Yalta, near the emperor's summer residence. The spirit of disorder has spread to Sebastopol. Moderate Liberals in St. Petersburg are becoming alarmed at the situation, reports having been received showing that an actual revolutionary propaganda is being pushed with vigor in many sections of the empire. The authorities of the

SALT RHEUM ON HANDS

Suffered Agony and Had to Wear Bandages All the Time.

ANOTHER CURE BY CUTICURA

Another cure by Cuticura is told of by Mrs. Caroline Cable, of Waupaca, Wis., in the following grateful letter: "My husband suffered agony with salt rheum on his hands, and I had to keep them bandaged all the time. We tried everything we could get, but nothing helped him until he used Cuticura. One set of Cuticura Soap, Ointment, and Pills cured him entirely, and his hands have been as smooth as possible ever since. I do hope this letter will be the means of helping some other sufferer."

government of Saratoff are closing the schools there on account of the peasant disturbances.

BALFOUR-CHAMBERLAIN QUARREL GETS INTERESTING

London, March 26.—Premier Balfour had a long conference yesterday with Lord Salisbury concerning the latter's letter to the Times relative to the late Lord Salisbury's attitude toward protection and Joseph Chamberlain's fiscal policy, which letter has created a great sensation in the lobby of parliament. It is understood that Lord Salisbury wrote the letter without consulting the premier, and that he, a member of the government, should so bluntly repudiate Mr. Chamberlain's policy and emphasize the strong divergence of views in the Unionist party on the fiscal question is considered not only an indiscreet, but a tactless move which Mr. Chamberlain and his party will be bound to resent.

A letter from Mr. Chamberlain in reply to Lord Salisbury's communication appears in the Times this morning, in which, after expressing regrets that Lord Salisbury should think he had misapprehended his father's views, he proceeds to give extracts from speeches delivered by the late Lord Salisbury between 1892 and 1895, which Mr. Chamberlain maintains show that he approved of retaliation and colonial preference. Mr. Chamberlain adds that it was only after Lord Salisbury's death in 1903 that he (Mr. Chamberlain) developed his policy beyond the lines of these two general principles.

THAT ROCKEFELLER GIFT.

Secy. of the Board Says it Came Unsolicited.

Boston, March 2.—In an interview tonight Dr. James L. Barton, secretary of the American board of commissioners for foreign missions, declared that the proposed gift of \$100,000 by John D. Rockefeller to the board, which has caused wide discussion, was unsolicited and spontaneous, originating in an interview of Mr. Rockefeller to further the work of the board. Dr. Barton said:

"The initial step toward this gift was taken by John D. Rockefeller, Jr., some two years or more ago, when he, unsolicited, asked a secretary of the American board to drop into his office at any time when in New York for a conference over matters of mutual interest. This conference was held, and the work done by the American board was inquired into most carefully."

"Some months later a secretary of the board spoke upon his work in the church of Dr. Amory H. Bradford, at Montclair, N. J. In the audience was the confidential secretary of John D. Rockefeller. At the close of the service the two secretaries were introduced to each other by Dr. Bradford, and further

TEA

Tea puts youth in tired old bones, and turns wrinkles to laughter.

QUESTIONS WERE ASKED IN REGARD TO THE

questions were asked in regard to the tea which were in immediate need of support and which could not be supported by the regular receipts of the board. Such a list was produced. Still later an interview was requested for a conference regarding this list, as well as the general policy of the board. This conference was followed in time by the promise of \$100,000.

"So far as I know, no person sought a position with Mr. Rockefeller or any member of his family or any member of his staff of secretaries, and no letters were written to bring influence to bear upon him in these matters. I believe that the gift was a spontaneous one, given from his own impulse, for the purpose of the work carried on by the American board."

ELECTION IN PHILIPPINES.

To be Held Two Years After Completion of Census.

Washington, March 27.—Secy. Taft today notified President Taft that the census of the Philippine islands had been completed and published, and under the law of July 1, 1902, two years from this date the president shall direct the Philippine commission to call a general election for the choice of delegates to a popular assembly. All legislative power on the islands will thereafter be vested in a legislature consisting of the islands occupied by Moros or other non-Christian tribes. The popular election is not to extend to the Moros tribes. Two resident commissioners to the United States will be elected by a legislative council chosen by Manila. March 27.—Governor General Wright today issued a proclamation announcing that the census of the Philippine islands had been completed and that in two years, provided peace prevails, an election would be called for a general assembly.

PROF. H. V. HILPRECHT.

Dr. Peters' Charges Against Him To be Investigated.

Philadelphia, March 27.—The board of trustees of the University of Pennsylvania today held a secret meeting to discuss the charges preferred by Rev. Dr. John P. Peters of New York against Prof. Herman V. Hilprecht of the archaeological department of the university. Provost Harrison said that when the investigation is completed the result will be made public.

When Dr. Peters several months ago in a public statement called attention to alleged gross inaccuracies in Dr. Hilprecht's book on his "Ninur" discoveries, Dr. Hilprecht asked for an investigation. Several members of the board of trustees resigned in consequence of the charges. It is expected that the investigation will be completed within a week.

SUBMARINE MINES.

Germany to Make Cuxhaven Center to Train Men To Lay Them.

Berlin, March 27.—Germany having become convinced of the importance of submarine mines through the war in the far east, has decided to make Cuxhaven the center for training a special company of 200 seamen in laying mines. The company will be organized April 1. The mine laying vessel, the "Hilf", and other will be permanently stationed there, and also 12 torpedo boats for the

of such examinations daily, without cost to the patient. A sample of water sent them will receive careful analysis, and every one who suspects kidney trouble should take advantage of this offer.

Dr. Pierce's Golden Medical Discovery is a most stimulating tonic because it goes to work in the right way, assisting the stomach to assimilate the food, thus furnishing the blood proper nourishment, which in turn feeds the nerves. Neuralgia and nervous break-downs are only the "cry of the starved nerves for food." The proper food for the nerves is good, rich, red blood. The "Golden Medical Discovery" does not depend upon alcohol for a stimulating effect. It is guaranteed to contain not a particle of alcohol. It is safe for the most delicate system, as it is an alterative extract made from roots and herbs. Although we know the germs of consumption and grip are in the air we breathe in rooms, street cars, shops, in fact everywhere, yet scientists have not been able to fight these bacteria very well. The best thing we can possibly do at present is to keep ourselves individually in such a state of health as to enable us to fight the bacteria with our own vitality. The blood through our veins and arteries should contain healthy, red blood corpuscles, which are capable of warding off the attack of these germs if they get into our systems. Dr. Pierce's Golden Medical Discovery is just what is needed for such persons and it has received the praise of thousands of people throughout the United States. Read what a strenuous young Western man says on this subject:

"I have been in good health until about three years ago when I noticed my back became lame and sore," writes Hon. Walter St. John, Surveyor (Formerly Member of County Supervisors), of 619 Lawson Street, St. Paul, Minn. "The pains kept increasing, with severe twitches and slow, exhaustive aches. I also found that my urine was highly colored and it passed with great irregularity. I knew that I had the dreaded Bright's Disease and probably inflammation of the bladder. Having read in your 'Common Sense Medical Adviser' concerning this subject, decided to try your 'Golden Medical Discovery.' I found relief from the pain within ten days, the aching gradually disappeared, and I experienced simply a blessed relief. Within three months I was well once more. My appetite returned, the nervousness and irritability from which I had suffered was a thing of the past, and for over two years now I have been a strong, healthy man."

THE BOUNDARY LINE

between health and disease can be accurately followed only by the aid of a good medical book, such as Dr. Pierce's Common Sense Medical Adviser, a work of 1008 pages; sent free on receipt of 31 one-cent stamps, to cover expense of mailing only. If the paper-covered book is desired, send 21 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y. This great work, in plain English, should be in every home, for many lives have needlessly been sacrificed through ignorance of Nature's laws.

use of the company in mine operations. The torpedoboats will be used as a special duty. A prominent naval officer today expressed the view that the mouth of the Elbe can be completely protected within 12 hours with a system of stationary and floating mines.

BRITISH WEST INDIES.

Said to be Strongly in Favor of Federation With Canada.

Toronto, Ont., March 27.—Mr. Fillian, a member of the Dominion legislature now here says the sentiment in the British West Indies is strongly in favor of federation with Canada. "There are among us," says he, "hardly any but would be glad to see some scheme inaugurated for bringing the two more closely together. I think a union would be helpful to both."

Mr. Fillian has seen Premier Laurier on the subject and is hopeful of good results and will also interview the Ontario premier.

ANDREW CARNEGIE ON LARGE AND SMALL COLLEGES

New York, March 27.—Andrew Carnegie, the guest of honor at the annual dinner of the alumni of Stevens Institute at the Hotel Astoria tonight, Premier Alexander C. Humphreys of Stevens Institute announced that Mr. Carnegie, in addition to the \$250,000 which he has already given to the institute, would give \$50,000 more, to which he himself would add \$100,000 when the alumni raised another \$100,000.

Mr. Carnegie said in part: "I want to tell you, gentlemen, that your career is much higher than a speculative one. Stock gambling is not a business; it is a mere parasite on business."

"If I had a son I should prefer to have him enter upon a professional career such as you choose rather than any other. I have been looking largely into small colleges of late and I have entered into the college business as I not long ago entered into the library business. I did a roaring business in the library stand, but I could look ahead and see the demand for libraries slacken. My secretary says that the demand is down to one library a day. I think a young man who goes to a college receives a better education than at a larger one. I like to see men not excelling in football or things pertaining to the foot, but excelling in head expansion. Sport is too general. Let the place of valuable knowledge at the big colleges."

"Since I have gone into the new business there has been a great boom. Within the past few days I have received more than 100 applications for the material I am sending to small colleges. Business, gentlemen, is promising."

HUNTING FOR CONVICTS.

Officers and Bloodhounds Are After Negroes.

Houston, Tex., March 28.—Armed men with trained bloodhounds are searching the country between the House plantation at Arcola, and Houston for 28 negro convicts who made their escape Sunday night. So far three of them have been caught. Now the city is taking the hunt for the convicts. There has been considerable alarm among the people living in the country through which the fugitives would have to pass to reach Houston or to return, and the city men have remained in their homes with their dogs and guns to protect the women and children.

MUKDEN BATTLEFIELD.

Japanese Army Clearing It and Sorting Stores Captured.

With the Japanese Left Armies in the field, March 28, 11 a. m. (via Pusan). The Japanese army near Mukden is clearing the battlefield, sorting the enormous quantities of stores and material captured and attending to the prisoners.

Engineers are rapidly repairing the railroad bridge across the Hun river, which was badly damaged by the Russians. Trains are now running to the Hun river. They will reach Mukden in a few days. The weather is very warm and the ground is thawing rapidly, making the movement of guns and transport wagons difficult.

Strikebreakers for Pittsburgh.

New York, March 28.—Several hundred strike breakers who came here to work on the Interborough line are reported to have received postal cards ordering them to be prepared to move to Pittsburgh at short notice should a strike become probable on the trolley lines there where the employers are demanding increased pay. The Interborough officials say that only one-half of the original strike breakers are now in their employ.

Gen. Lee's Daughter Dead.

New Orleans, March 27.—Miss Mildred Lee, youngest daughter of Gen. Robert E. Lee, died here tonight at the residence of Mrs. Wm. Preston Johnson while on a visit. Her death was due to apoplexy.

Canoe Upset, All Drowned.

San Diego, Cal., March 27.—Lucy and Helen Baker, young ladies of this city, and their cousin, Harry Hayes of Iowa, were drowned today by the upsetting of a canoe.

Train Kills Prospector.

Reno, Nev., March 27.—Thomas Kane, a tourist prospector of San Francisco, was struck by a passenger train and killed at Derby today. He was driving a team and attempted to cross in front of the train. Death was instantaneous.

Self-Confessed Embezzler.

Portland, Or., March 28.—Detective Doman, of the Pittsburg, Pa., police department, will leave today for that city with P. E. Griffith, a self-confessed embezzler who surrendered himself to the Portland police rather than further labor under the mental strain of imagining every man he met was an officer sent to arrest him. Griffith embezzled from a railroad company for whom he was cashier in Pittsburg and later continued his crimes while employed by a glass company in order to make money to pay his debts. He was promised restitution to the railroad. He left Pittsburg when he could no longer conceal his shortage and has since roamed in all parts of the world.

Hawaiian Relief Expedition.

Honolulu, March 28.—The Interisland steamer Likelike, chartered by the territorial government, has left for Puna, carrying Army Surgeon Yost, eight men of the hospital corps and two nurses. It is a relief expedition, sent out on account of reports of an epidemic of the form of typhoid fever. Eight deaths have already taken place and there are other cases. There is no doctor on the entire island, outside of the practically inaccessible leper settlement. The population of the valley is small, and consists entirely of natives. Many have left since the sickness began. A. L. Atkinson, secretary of the territorial government, accompanies the expedition. One report made to Gov. Carter, which is being investigated, suggests poisoning, and says there is a native poison tree in the valley and that the deaths result from a feud.

A Universal Remedy for Pains in the Back

For pains in the region of the Kidneys or for a Weak Back the plaster should be applied as shown in illustration.

Insist Upon Having Allcock's.

REMEMBER—Allcock's Plasters have been in use over 55 years. They are the original and genuine porous plaster and have never been equalled as a pain-killer. Guaranteed not to contain belladonna, opium or any poison whatever.

SHERLOCK HOLMES OUTDISTANCED

TRUTH STRANGER THAN FICTION

This will go to show why this association is a valuable one to all business houses:

We have just collected a claim for G. D. Golden & Son of Rocky Bar, Ida., wherein we traced the debtor from Idaho to New York state, all through the eastern states, and caught him at Denver. But we had to sue the debtor and the railroad company he worked for before we got the money. But we got it—and that claim was eleven years old. Many people would have given this claim up as a "dead one"—but you can always depend on Luke. Some people don't like him, because he makes 'em pay.

Vitality and Success.

WHAT CAN BE DONE TO MEET THE DEMANDS OF A HEALTHY LIFE?

CAN a man increase his vitality? Is easily answered in the affirmative if one studies the needs of the body and the laws of health. The first thing to accomplish is to bathe the interior of the body with refreshing, invigorating pure blood. Impure blood, filled with the accumulated poisons of the body-waste, makes weak, listless and inert men and women. When the blood is filled with the impurities of the body, the kidneys and liver are unable to filter out all the tissue waste, these organs become overtaxed and cannot perform their proper functions; then it is that we feel listless, become tired quickly and the back becomes lame and sore, accompanied by nervous feelings of irritability and despondency. That is why a tonic and alterative made entirely from roots and barks, without a particle of alcohol or narcotic, such as Dr. Pierce's Golden Medical Discovery, quickly brings a healthy tone to these organs and invigorating vitality, because the blood is bathed with the tonic influence of this alterative extract. To build

up the body that has been weakened by an attack of grip, pneumonia or typhoid, write Dr. R. V. Pierce for advice giving all your symptoms, and he will give you the best medical advice possible to suit your case, and without cost. For those who are weakened by the after effects of a bad cold, cough or grip caught during the winter, nothing will increase the number of red blood corpuscles and eradicate poison from the blood so quickly as Dr. Pierce's Golden Medical Discovery.

INSTRUMENTS OF ACCURACY.

The surveyor, with the aid of his transit, can tell the height of a mountain miles away. The microscope in the hands of the expert can determine the presence of disease germs, and other newly discovered instruments are being used daily by physicians in the diagnosis of obscure diseases of the body. A scientific examination of the water is of the greatest value in determining whether or not the kidneys are doing their work properly. A finely fitted laboratory is necessary to make accurate analyses, and that is a part of the magnificent equipment of the Invalids' Hotel and Surgical Institute, at Buffalo. A staff of experienced physicians, under the control of Dr. R. V. Pierce, the founder and director of the business, make hundreds

We guarantee that Dr. Pierce's Golden Medical Discovery does not contain alcohol, opium, or any harmful drug. It is a pure compound of medicinal plants scientifically combined. Persons making false statements concerning its ingredients will be prosecuted.

World's Dispensary Medical Association,

W. V. Pierce
