Those Well Informed Believe Oyama's Victory Will Rouse Russian Fighting Spirit.

WAR MAY CO ON INDEFINITELY.

No One Can Foretell What Line of Conduct the Czar Will Adopt.

London, March 11 .- The announce ment of the fall of Mukden was discounted in London by the reports chronicling the progress of the great battle, but the actual occupation of the capital of Manchuria by the Japanese is the subject of comment everywhere especially in diplomatic circles. The foreign office declined to comment on the event, but there, as elsewhere, there was intense interest in the Japanese encircling movement and its possible effect upon the future progress of the war.

Few who are well informed are inclined to the belief that Oyama's magnificent victory and successful stratenificent victory and successful strate-gy will bring peace within measureable distance, the opinion being that, while the Russian fighting force is disabled and probably will be obliged to retire further than Tie pass or even Harbin, the fighting spirit of the Russian na-tion would be increased rather than reduced by defeat, and that only com-pulsion will bring the nation to its knees.

knees. Baron Suyematsu, formerly Japanese minister of the interior, in the course of an interview said that whether the victory indicated an early termination of the war was a question that Russia alone could answer. The Japanese le-gation has been inundated with con-grtulations and everywhere the prime note was praise of the genius of Oya-ma, which was conceded even by the most pro-Russian observers.

ma, which was conceded even by the most pro-Russian observers. The Spectator, in a striking article, says: "Russia, hitherto an unknown quantity to all but a few diplomats, is now revealing herself to all mankind now revealing herself to all mankind and the revelation of a great country in its hour of agony has as much a be-wildering effect as a great catastrophe, all qualities, good and bad, being ex-hibited under the intolerable light of her vast resources and astounding ca-pacity for endurance, her toiling peo-ple, the inferiority of her governing class, even the underlying ground fact of the inadequency of her food supply, all giving hints almost amounting to prophecies of the future career of the

all giving hints almost amounting to prophecies of the future career of the great Slav race." Discussing the possibilities of peace and Russia being cowed by the great defeat, the Spectator thinks that de-spite historic precedents, it does not follow that the emperor will make peace. He is credited with saying that it is only necessary to retire behind Balkal, refuse peace and rebuild the forces until he is again ready for ag-gressive action, and he may well congressive action, and he may well con-sider this course preferable to the in-explicable shame of being beaten by an explicable shame of being beaten by an Asiatio nation and the possible dangers to his dynasty involved in making peace on the terms the Japanese are likely to demand." This difficulty of predicting what line Emperor Nicholas will take is admit-ted on all sides, but there is still to

about peace, its whole thought being uncompromising prosecution of the war, though it is realized that this means months of preparation for any battle, and that perhaps Tie pass may follow Mukden. It does not even de-mand Gen. Kuropatkin's removal, but says it is first necessary to determine whether Russia has a better genral. While holding up the hands of the gov-ernment in regard to the continuation of the war, the Russ solemnly warns it of the necessity of internal raforms. AM. SUGAR COMPANY.

Wins Suit from Government Involving Five Million Dollars.

New York, March 10.-Judge Wheeler, in the United States chrouit court, to-day handed down an opinion, which, if finally sustained, will cost the United States government \$5,000,000. This money the government will have to re-fund to the American Sugar Refining company for duties paid on raw sugars imported from Cuba in 1908, and upon which the company contended that a reduction of 20 per cent should have been allowed under the then existing treaty.

treaty. The facts showed that the president was authorized by Congress to grant a reduction of 20 per cent upon all merchandise imported from Cuba to the United States on and after 10 days subsequent to the ratification by this government of the Cuba convention or treaty. This ratification occurred on March 31, 1904.

March 31, 1994. March 31, 1994. The importation upon which the test suit was brought was imported between July 14 and Sept. 9, 1903. The collector at that time assessed the sugar, de-manding the full duties, there existing at that time no law under which a re-duction could have been granted. Sub-sequently the convention was ratified and the American Sugar company ap-pealed to the general board of apprais-ers, which sustained the collector. Special Correspondence. I EW YORK, March 6 .- The exodus for Washington began Thursday, Everybody wanted. to see "Our Teddy" make his bow as president, no longer an accidental president, but the real article. So New York turned out in force to pay homage to the nation's choice. From the colony went President Mc-Quarrie and son Gray, President Mc-Farland and Elders Bone, Woolley and Porter. Congressman Howell's son, Joseph, left Friday and will meet his nother there. It is expected Mrs. Howell will visit New York before returning west. Sunday's meeting seemed rather deserted, though Elder Jacobs presided with dignity and conducted the services like an old veter-6 11.

The marriage of Charles Meakin and Miss Ruth Eldredge, of the "Eben Holden" company last week, was a genuine surprise to their many friends here. Both young people are from Salt Lake, and well known in eastern Salt Lake, and well known in eastern theatrical circles. Mrs. Meakin is a prominent member of the above hamed company and with Miss Blanche Thomas, who is playing lead, has done nuch towards making the piece the success it has been on the road. Mr. Meakin, who is a son of John P. Meakin, the Salt Lake lecturer, has a line record as advance areas for many Meakin, the Sail Lake fecturer, has a fine record as advance agent for many theatrical companies in the east. The best of wishes are extended to the young married pair, and friends are only waiting to show their appreciation of their worth on the return of the company to New York in April.

Miss Lulu Snow, who has been laid up all winter with a broken ankle, has steadily improved every hour of her long confinement by practising on the plane and is rapidly becoming proficient in the art. Her teacher, Prof. Lam-bert, called to see her one day last week, a thing almost unheard of for the great Lambert. He called to see and hear for himself, the exact ad-vancement his pupil was making, which is needless to say, was very encourag-ing to the lady.

There has been quite a flutter of ex-citement in the "Bonnie Brier Bush" company lately. The part of Posty, so inimitably played by Reuben Fax, has been tendered to the gentleman for the London production, which opens April 2. Mr. Fox's engagement with Kirke La Shelle does not close until May, and the gentleman is trying to figure out how he can do the same part in two different countries with the big pond different countries with the big pond between; up to last advices he hadn't quite satisfactorily solved the problem, and his American manager will no doubt keep him here.

CURED BY CUTICURA

Child Was Getting So Bad Mother Didn't Know What to Do-Hospital Physicians Said There Was No Hope-Complete and Permanent Cure by Cuticura at Expense of \$1.75.

"Words cannot express the gratitude I feel towards you for what Cuticura Soap, Ointment and Resolvent have done for me. My son had Eczema os bad as any child could have it. I had several Doctors treat him, but they helped him only for the time being, and after they discon-

tinued treating him his head would begin to get sore again, almost the next day. It got so had I really didn't know what to do. At last we took him to the Hospital, where the Doctors said he had Chronic Eczema. They gave me a wash for it, but said it was foolish to think of it ever being cured.

"The child was failing, so I thought I must do something, and reading about the Cuticura Remedies, decided to try them. I went right to the nearest drug store and purchased a bottle of Cuticura Resolvent, one box of Cuticura Ointment and a cake of Cuticura Soap, and began using it. I used half of it and found some relief and improvement. Of course that gave me consolation and courage, but I thought the change for the better was only temporary, as it had been with all the other medicines ordered by the doctors ond hospitals. I continued with Cuticura, and by the time I had used one and a half boxes of Ointment, one small bottle of Resolvent, and one cake of Soap, I found that the cure was complete and permanent from that day to this, two years and a half. My boy is now five years old, and has not had a sign of a sore since I began with Cuti. cura. I shall never be without Cuticura Soap, I find it so good for every purpose of the toilet and for the chindren."

It is impossible at present to confirm or verify the statement of the Daily Graphic, which declares that the decision is due not only to the defeat of Kuropatkin, but also to the almost unsurmountable difficulties Russia met in the last at-tempt to negotiate a loan in Paris. There is intense anxiety here to learn

the fate of kuropatkin's forces, and whether the chain Oyama has drawn around them will be strong enough to hold them. The Russian forces must be in a terrible plight, and a repetition of all the horrors of Nappleon's retreat all the hortors of Nappieon's retreat from Moscow is regarded as among the possibilities. On the other hand, the condition of the Japanese armjes, which must be suffering from exhaustion, might possibly enable Kuropatkin to gather his forces and break through. GOOD BLOOD TELLS ITS OWN STORY

And tells it eloquently in the bright eye, the supple, elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to perform the duties and capacity to enjoy the pleasures of life. The blood is the most vital part of the body;

every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forceful in its way. Itching, burning skin diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or ac-

quired, but the seat of trouble is the same-the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood, the general health is built up, all disfiguring eruptions and blemishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all dis-eases of the blood are cured by S. S. S. Book on the blood and any medical advice, free of charge.
