WASHINGTON.

WASHINGTON, 5.—In these States where the percentage for assessing and collecting revenue is extremely high, the Commissioner of Internal Revenue will recommend to the President further consolidation.

The Secretary of the Treasury to-day called in \$1,000,000 of the three per cent. denomination, five thousand dollars in numbers between 1711 and 1830 inclusive, and ten thousand dollars in numbers of 1739 to 1844 inclusive. Between the numbers mentioned several certificates of the denomination mentioned have been returned, leaving outstanding one million dollars.

NEW YORK.

The Cuban cause growing weaker—Palikao denies the charges made by Trochu.

NEW YORK, 6.—Gen. Frederico Carada, who succeeded Gen. Jordan as commander-in-chief of the Cuban army, was captured by the Spanish a few days ago, and ere this has been murdered. Correspondents say the Cuban cause is growing weaker in consequence of the unpatriotic conduct of the leaders; but, at the same time, the Spanish troops are being fearfully decimated by disease.

Late foreign date states, that English holders of Mexican bonds have issued a protest against a mortgage on a part of the revenues of the republic, which the Mexican railway offers as security for the loan of five millions, nine hundred thousand dollars, which is a ruling in England. The bondholders aver that they have a prior claim.

Count de Palikao gives a public debate to General Trochu's charges in relation to the course pursued by the former on the 4th of September. General Trochu, in his three days' speech in the Assembly, said that when the news of the Sedan disaster arrived in Paris, Palikao said to him "General, the revolution is 'un fait accompli' if you do not take the direction of affairs it is all up with us; if you do, probably the result will be just the same." To which Trochu replied that his conduct was proper in all respects. Trochu, it will be remembered, also accused Palikao of acting unwisely in keeping Basilio at Metz, and sending reinforcements after he should have been recalled to Paris.

Telegraphic advices from the city of Mexico indicate, without clearly announcing the fact, that Benito Juarez has been re-elected President of the republic. Diaz comes second to Juarez in the vote, as far as heard from; and Lerdo de Tejada, the third candidate, is utterly defeated.

The Fourth of July at Tammany Hall, was celebrated in the usual manner. The floor of the great hall and the spacious gallery were crowded to their utmost capacity with a Democratic throng, that in general appearance would have done credit to an aristocratic gathering. A slight sprinkling of ladies was noted through the assembly, and now and then a representative of the newly enfranchised element. Mr. Tweed first addressed the audience. During his remarks he said: "We propose to let all issues of the past die; to strike forward into a bright and noble career; to once more place the power in the hands of those who have always in past time conducted the General Government in a manner satisfactory to the country."

Letters from a large number of prominent Democrats were read, among which were one from Governor Hoffman, who does not endorse the new departure, one from General McClellan, approving of the new departure, and one from Charles A. Eldridge, member of Congress from Wisconsin, who says it is of small consequence what amendments are made or enforced, while the Constitution, the very body itself and its genius and spirit, are ignored and discarded.

LONG BRANCH, 5.—Conkling arrived this evening. The President will declare the depot. The two were driven to the President's cottage, where Mr. Conkling will remain his guest. The Senator has come here to settle difficulties among the New York Republicans.

Pacific Coast Dispatches.

A Big Fire.

SAN FRANCISCO, 5.—It is reported that the Meadow Valley will declare a dividend of one dollar on the share for July.

The Italians still have their new flag flying. The demonstration last night did not result in a collision as it threatened to do at one time.

Nothing has yet been heard of the steamer Wonga Wonga from Australia, now five days over due.

Henry Hildebrand, firing ball cartridges from a pistol on Fourth St., shot Alice Benson, a young girl, in the breast, inflicting a dangerous wound.

He was arrested, charged with assault with intent to murder, but claims the shooting was purely accidental.

Of sixteen inmates of the industrial school, who escaped on the Fourth, fifteen are still at large, the other having returned voluntarily.

Patrick Henry Sullivan and Thomas Conlin were examined in the police court to-day, and sent to the county court for trial, charged with highway robbery; the bail was fixed at \$1,000 each.

James McLaughlin was examined to-day on the charge of stabbing a man in the back in Kearney street, and committed; bail fixed at \$2,000.

YAKKA, Cal. 5.—An extensive conflagration occurred in this place yesterday afternoon, commencing at 3.45, and originating in a small Chinese wash-house in Miner street. From Cleveland & Walbridge's store to the creek on the south side, including the Odd Fellows' Hall, Union Hotel and several brick buildings, all are in ruins, except Lauro's building, King's, Morrison's and Kessler's, which are somewhat damaged. The Union printing office escaped with some slight damage, but the Bank Exchange saloon underneath was gutted; as was the north side of Miner street, from Third to the theatre. By extraordinary exertions the fire was checked at Third street, saving the Telegraph office, the Franco-American Hotel, Journal office, Masonic Hall and several other brick buildings. About Third Street the post office and the store of Cleveland & Walbridge are serious damage by the fire and water; and in rear of Horseman's, Juncker's and other buildings above Fourth street, on Miners' street, much damage is done to out-houses and sheds. From Miner street southward the fire extended beyond Butte street, destroying four lively stables, a blacksmith shop, foundry, several hundred cords of firewood, the Metropolitan school-house and Catholic Church, and damaging the Sisters' Academy. Fifteen or sixteen blocks were destroyed, and many of the inmates were unable to get out even their clothes, so rapidly did the flames extend. It is impossible to estimate the loss at present, but at least one third of the town is burned up. The property destroyed will foot up probably to more than three hundred thousand dollars, on which there is about \$100,000 insurance. The firemen were still at work this morning, quenching the fire to get out of the board of trustees this morning and ordered the dangerous walls of some eighteen or twenty of the burning buildings to be pulled down. A number had their hands and faces burned endeavoring to save property. Some horses were burned in the four lively stables. The town this morning presents a deplorable appearance, several acres of ground being a field of burning embers.
