THE EVENING NEWS.

Tuesday, March 11, 1873.

PRICE OF GOLD.

Corrected daily by DESERET NATIONAL BANK, SALT LAKE CITY, March 11, 1873.

Buying at $1.13. Selling at $1.15.

LOCAL AND OTHER MATTERS.

THERMOMETER 60 degrees F. in the shade, 2 p.m. Monday. Beautiful day.

THEATRE.—There was a very good house at the Theatre last night to witness the first presentation of the play of "Hazard," with Mr. Frank Hussey and Miss Blanche Clifton in their original characters of "Tatwell" and "Eva." The plot of the piece is novel, it is worked up interestingly, and seemed to give satisfaction to the audience. Mr. Hussey is a good delineator of Negro character, and he received very good support from Messrs. Cogswell, Graham, Thorne, and others.

The piece will be repeated to-night.

FATAL.—The child of Mr. G. W. Crockett, attacked with small-pox a few days since, died yesterday morning.

The weather is still balmy and beautiful, making everything take on a bright and cheerful aspect.

COMING HOME.—A dispatch from Washington states that Hon. William H. Hooper left that city on Sunday, and it is probable he will arrive here on Saturday.

BY WAY.—We learn, by dispatch from Omaha, that Elders Erastus Snow and W. C. Staines and members of their party arrived at that point on Sunday and would resume their journey eastward yesterday.

Per Deseret Telegraph.

CLEARING THE TRACK.

LOGAN, March 11.—Over three hundred men from Cache, started yesterday morning to clear the Utah Northern track, which is now clear from Logan to a point two miles this side of Hampton's. A large force of men have started at the same time, to meet the company from Cache. We are confident it will be clear all through, in good time, to-day. The weather is mild and the snow melting fast.

FIGHT.—Alfred Parker was brought before Justice Clinton this morning for having, last Friday night, while in a state of intoxication, broken in the windows and attempted to gain a burglarious entrance to the house of Mr. Chambers, at the Point of the Mountain West. It was also alleged that he intended to do bodily harm to a young woman, the only inmate of the house at the time. He was found guilty as charged and was sentenced to pay a fine of $100, or in default to labor 10 days on the public works.

BEE MEETING.—Here are the minutes of a bee meeting, held at the 14th Ward School Rooms, Saturday, March 8th, and attended by ladies and gentlemen, for which we are indebted to the secretary:

Brother Putnam said that the past winter had been severe on bees. He thought the swarms, as a general thing, were not strong enough to keep up sufficient animal heat. He hoped the people would increase their cultivation of the country, by introducing the Linden and Alsike clovers. The former is a fine shade tree, while the latter makes a good cattle crop. He learned, through the journals, that the mortality among bees in the East has been very great during the past season.

Mrs. Thurston stated that he had just left at his home for the first time during the winter, spreading chaff over the snow, so that they would not get chilled. They seemed in pretty good condition. He feared that much honey was the cause of some loss in bees. If we could, in some way, induce queens to continue laying later in the fall we should do so, as most swarms become light during a long winter. He thought that honey made late in the season became candied readier than that made earlier. If correct in this, the early honey might be kept for winter feedings. Apiculturists say the average life of bees is seventy days. He thought that some seasons they would not live over six weeks.

C. Merkley was more than ever confirmed in the opinion that bees should be housed during winter. Those he wintered in doors ate but 3lbs of honey, while those on summer stands ate 10lbs of honey. The first part of last season his bees did well, but later they ceased to gather honey, and he was obliged to move them from the city. His queens ceased to lay eggs in September.

John Morgan said many bees in his neighborhood had died from dysentery. In a good many hives the comb cracked, and the warmth of the bees melted the honey, which covered the bottom of the hive. Nine-tenths of the bees in the East wintered out of doors had died.

Brother Bailey had wintered his bees in a cellar without loss. He thought bees should be moved from the city to the country towards the fall of the year, where food is more abundant.

In a number of nuclei he had raised some fine queens, and strongly recommended the raising of queens, soas to facilitate early brooding. He had taken steps to get the queen seed of England and Scotland introduced here, so that we might have a good bee-feeder. Other remarks were made on this important branch of industry, which needs experience and the fostering encouragement of the citizens of Utah.

Meeting adjourned till some suitable time during April Conference.

R. V. MORRIS, Secretary.

NEW LEGAL FIRM.—Mr. J. M. Carter, of this city, and Judge Wilson formerly Chief Justice of the Territory, have formed a copartnership, and can be consulted on all legal matters at their office, over the National Bank, East Temple Street. The professional attainments of both these gentlemen are too well established to need comment from us. The card of the firm will be found in another column.

"COOK'S EXCURSIONIST."—The first number of the American edition, a counterpart of the London *Excursionist*, devoted to matters connected with Cook's excursion tours. Published by Cook, Son & Jenkins; tourists and excursion managers, New York.

FOR EUROPE.—Elder Joseph Birch arrived from St. George, to-day, and will leave to-morrow morning for New York, from which point he expects to sail on the S. S. *Manhattan*, on the 21st, in company with Elders E. Snow and W. C. Staines and others. He will be accompanied from here by Mrs. Paul A. Schettler, who expects to join her husband, who is with the Palestine party.

Elder Birch goes on a mission to Europe, and feels gratified at having that privilege. He informs us that the new factory at Washington, just completed, is being more appreciated by the people than formerly. It is left in charge, in his absence, of Brother Jacob Gates, assisted by Adolphus R. Whitehead. The weather is very fine in the south and the people are making general preparations for staying at home and cultivating the soil. The season is very backward this year, no plowing having yet been done in the south, on account of the unusual quantity of snow which has fallen.

CREDITABLE.—A gentleman who recently visited Alpine, Utah county, informs us that, while there, he made the discovery that there was not a young man in the whole settlement addicted to the filthy habit of using tobacco in any form whatever. This is very creditable to the young men of that place, and it is to be hoped, if there be any of riper years who continue to indulge in the habit, that they will soon act upon the laudable example set them by their juniors. It would be a subject for still greater congratulation if the same could be said of the young men of all other settlements of the Territory as can be said of Alpine in this matter. Boys and young men who think it makes them appear manly to use tobacco, are grossly mistaken. Those who desire to not only appear but to be manly can best attain that point by imitating the good qualities of their seniors—it can never be done by aping their vices.

GONE.—A western dispatch, received last night, states that Mr. A. Hugan, an attorney, who had been a resident of these parts for about two years, died at Ophir, East Canyon, yesterday morning. Mr. Hugan, at one time, was U. S. prosecuting attorney for Idaho Territory.

A RUMOR.—We heard a rumor yesterday of a woman, who was scarcely recovered from smallpox, being around in the Seventh Ward yesterday and visiting several houses. The report, however, had an air of improbability about it that made it appear rather incredible. Be that as it may, any person knowing of the existence of the disease anywhere, should not fail to report to the proper quarantine authorities.

PERSONAL.—We had a call to-day from A. J. Jordan, Esq., who is here in the interest of the firm of Friedmann & Lauterjung, manufacturers and importers of Cutlery, &c., 16 Warren Street, New York. This is a most reliable and substantial firm.

THE OGDEN OUTRAGE CASE.—The examination of Robert A. Lee, charged with committing a brutal outrage on a lady at Ogden, on the 25th of February, was resumed and terminated, before Judge C. M. Hawley, in chambers, to-day. The evidence for the prosecution was heard last Saturday, and that for the defense this forenoon. The testimony for the defense was very limited and unimportant, and tended considerably more toward the crimination than to the exculpation of the prisoner. He was bound over in $5,000 to the District Court, and, in default, his Honor issued a mittimus, remanding him to the custody of the sheriff of Salt Lake County. Lee is a young man, of fair complexion and brown hair, and wears a mustache and imperial. He is a little over the ordinary height, and has a prominent nose, slightly after the eagle beak order. The only indication of mental agitation manifested by him was a perceptible tremor of his hands. His face, however, wore an expression of apparent indifference.

THERE is a message at the Deseret Telegraph Office for Joseph Hooper.

Utah and the Mormons.

There is reason to expect difficulty with a horde of squatters who have settled themselves in a remote corner of my dominions and call themselves Latter-day Saints. They have adopted a style of religious belief unauthorized by the Constitution of the United States, and a habit of marrying their concubines, which is contrary to the practices of the patriarchs of our government. Not being able to secure the services of the Rev. Henry Ward Beecher, whose acquaintance with this branch of the clergy is profound and extensive, as a missionary for their conversion I was constrained to send unto them my pastor, the Rev. John P. Newman, an ecclesiastic to whom a private heathen is an utter abomination. I regret to confess that the reverend gentleman did not fare as successfully as he expected; that in fact he was well known and badly maltreated with a Bible in the hands of one Orson Pratt, who is a sort of champion of these heretics, and whom he confidently expected to demolish. My legal missionary also, the Hon. James B. McKean, received but little better treatment, and found the heathen posted in positions of such strength as to afford him great trouble and small satisfaction. This, of itself, as I am informed by the Secretary of State, who has studied Puffendorff until it produced a marked effect upon his department, is an offense justifying reprisals exemplary in character and amount. The matter, however, is before Congress, where, I have no doubt, such measures will be taken as will best exemplify the Christianity of the government, the superiority of our practices, and the personal purity of the pious and conscientious individuals of whom the public councils are composed.—*From a Bogus Inaugural in Washington Capital.*

LATEST BY TELEGRAPH.

NEW YORK.—Treasurer Winant, of Staten Island is said to have defaulted to the extent of $360,000. The supervisors are to sue him for the amount.

The *Times* again urges commutation of Foster's sentence. The case excites much public attention. A letter from Wm. Orton, President of the Western Union Telegraph company, is published to-day in favor of commutation, based on the statement of jurors that they never regarded the condemned as guilty of murder in the first degree.

LOUISVILLE.—On Friday night last a party of four men went to the house of an old negro woman, near Crab Orchard, in this State, and deliberately shot her to death. She recognized the murderers and lived long enough to give their names to her neighbors, who came to her assistance. Three of the villains were arrested and the officers are in pursuit of the fourth. Much excitement prevails in the community.

The investigation into the condition of the Tombs and Blackwell's Island, by one of the morning papers, shows that criminal justice here is administered in the most reckless and unjust manner. Prison discipline and management at Blackwell's Island are wanting in influences calculated to inspire any encouragement for reform in the inmates. Police justices are constantly committing prisoners in disregard of facts. It is a common thing at the Tombs to have cases disposed of at the rate of one a minute.

Prof. Jno. Tarrey, of Columbia College, formerly chief of the assay office at the sub-Treasury, died last evening.

It is now publicly charged that Mrs. Putnam received $15,000 in consideration of her appeal to Gov. Dix to have the sentence of Foster, the car hook murderer, commuted to lesser punishment. A number of gentlemen cognizant of the facts have petitioned the Governor to decide the case only on its merits.

It is stated that Secretary Robeson will succeed Bancroft as minister to Berlin, and that Edmund F. Beale, of Chester, Pa., will be Robeson's successor.

WESTERN.

SAN FRANCISCO, H.—The examination of Hoge for violation of the postal laws in opening a letter addressed to another man will be resumed on Friday next.

Assistant District Attorney McDarwin has recovered from his late dangerous illness and was on the streets this morning.

CHALLENGE!!
WE CHALLENGE ALL OTHER MAKES OF
ORGANS
Now offered for sale, at corresponding prices, in this Territory to a trial of the following points of excellence:
Power and Quality of Tone,
Variety of Effects,
Beauty of Design,
Excellence of Workmanship,
And Durability.
We claim that the
PRINCE
is the
BEST ORGAN OFFERED TO THE PUBLIC
in this market and, to convince all that we mean just what we say, we are prepared, at any time, to test our
Prince Organ against the Estey,
as follows:
$125 Prince Organ against $125 to $145 Estey
$150 " " $150 to $175 "
$170 " " $170 to $190 "
$200 " " $200 to $250 "
$250 " " $250 to $300 "
We propose to select our Organists are willing to accord the same privilege to the contestant, and therefore shall not object to any Organist in America performing on the Prince, not excepting Mr. Estey himself.
Judges, selected in equal numbers by ourselves and the contestant, and an Umpire to be agreed upon by both parties shall decide upon the merits of the Organs.
We would suggest the Music Hall, 14th Ward, as a central, convenient place in which to have the Organs tested.
J. DAYNES & SON,
Two Doors East of Godbe's Drug Store.

THE BEST THING OUT!
No Farmer should be Without Them!
H. L. SMITH has recently applied for a Patent for a
CLOD CRUSHER & WORM DESTROYER,
which is said to surpass anything ever offered to the Farming Community. The advantages claimed by Mr. Smith are as follows:
1st. It runs easier than any other land roller.
2nd. It destroys all worms and insects near the surface.
3rd. It is a better clod crusher or pulverizer than any other manufactured.
This roller is a construction of seventeen cast iron rings and may be used either as a clod crusher, land presser or cultivator, as it leaves sixteen small furrows four inches apart each time it passes over the land. Those sowing broadcast have only to sit on the back of the roller and sow the seed, which, falling in the furrows, is covered with a brush harrow. Again, it is only necessary after the seed is up to commence with the roller half a furrow out and you have a water furrow on each side of seed.
In conclusion I have only to add, where this implement is used, an increase of one third the usual crop is the result.

THIS IS THE
MEDICINE OF NATURE.
HE WHO CURES IS THE BEST PHYSICIAN.
PLANT'S
HERBAL MEDICINE STORES,
10th Ward—E. L. PLANT.

Composition Essence.
"Composition" is extensively used and much valued in Colds, Influenza, Pains in the Stomach and Bowels, Bowel Complaints, Cold Feet, Cold Sweats, &c., &c. As a general remedy it is a sure preventive of Colds, if taken freely; and the best substitute for all stimulants used by parties exposed to cold weather. By many it is used as a substitute for tea and coffee, and instead of brandy or such liquors, after dinner or supper, who find it much better than these stimulants, and without any of the bad effects intoxicating drinks produce.
The "Essence" makes a much more agreeable tea than the "Powder"—agrees better with the stomach, does not require boiling water, is made ready at once, and will keep any length of time. Families will do well to keep so useful a remedy by them for a time of need. Prepared and sold only by E. L. PLANT.

Pulmonary Lozenges.
Nothing that has yet been discovered can be compared with these Lozenges in their beneficial action upon all diseases of the respiratory organs; so simple, that they may be administered with the most perfect safety to the youngest children, yet sufficiently strong to arrest the progress of many of the most formidable pulmonary complaints, whether cough, croup, hooping cough, pneumonia, pleurisy, asthma, difficulty of breathing, and (all but) consumption. Consumption, of which over 60,000 die annually in England.—10, 25 and 50 cts. per package.

Plant's Waterdock and Bilious Pills.
As a remedy for loss of appetite, flatulency, sick headache, giddiness, acid eructations, costiveness, languor, nervous debility, heartburn, dyspepsia, oppression after eating, depression of the mind, and all the distressing symptoms dependent upon indigestion, they surpass any remedy ever before presented to the public.

Plant's Tick & Tooth-ache
Removed in one second—25 cents.
All other Diseases Speedily Cured by Herbs and Herbs alone!
E. L. PLANT, Tenth Ward.
