EVENING NEWS.

Wednesday, - November 29, 1876.

MISCELLANEOUS LAWS CONCERNING LAND.

[CONCLUDED.]

SEC. 2342. Upon the survey of the lands described in the preceding section, the Secretary of the Interior may designate and set apart such portions of the same as are clearly agricultural lands, which lands shall thereafter be subject to pre-emption and sale as other public lands, and be subject to all the laws and regulations applicable to the same.

SEC. 2347. Every person above the age of twenty-one years, who is a citizen of the United States, or who has declared his intention to become such, or any association of persons severally qualified as above, shall, upon application to the register of the proper land office, have the right to enter, by legal subdivisions, any quantity of vacant coal lands of the United States not otherwise appropriated or reserved by competent authority, not exceeding one hundred and sixty acres to such individual person, or three hundred and twenty acres to such association, upon payment to the receiver of not less than ten dollars per acre for such lands, where the same shall be situated more than fifteen miles from any completed railroad, and not less than twenty dollars per acre for such lands as shall be within fifteen miles of such road.

PATENTS, ADJUDICATIONS.

SEC. 2448. Where patents for public lands have been or may be issued, in pursuance of any law of the United States to a person who had died, or hereafter dies, before the date of such patent, the title to the land designated therein "shall inure to and become vested in the heirs, devisees, or assignees of such deceased patentee as if the patent had issued to the deceased person during life.

SEC. 2450. The Commissioner of the General Land Office is authorized to decide upon principles of equity and justice, as recognized in courts of equity, and in accordance with regulations to be settled by the Secretary of the Treasury, the Attorney General, and the Commissioner, conjointly, consistently with such principles, all cases of suspended entries of public lands and of suspended pre-emption land claims, and to adjudge in what cases patents shall issue upon the same.

SEC. 2451. Every such adjudication shall be approved by the Secretary of the Treasury and the Attorney General, acting as a board; and shall operate only to divest the United States of the title of the lands embraced thereby, without prejudice to the rights of conflicting claimants.

SEC. 2453. The Commissioner shall arrange his decisions into two classes; the first class to embrace all such cases of equity as may be finally confirmed by the board, and the second class to embrace all such cases as the board reject and decide to be invalid.

SEC. 2454. For all lands covered by claims which are placed in the first class, patents shall issue to the claimants; and all lands embraced by claims placed in the second class shall *ipso facto* revert to and become part of the public domain.

SEC. 2456. Where patents have been already issued on entries which are confirmed by the officers who are constituted the board of adjudication, the Commissioner of the General Land Office, upon the canceling of the outstanding patent, is authorized to issue a new patent, on such confirmation, to the person who made the entry, his heirs or assigns.

SEC. 2457. The preceding provisions from section twenty-four hundred and fifty to section twenty-four hundred and fifty-six, inclusive, shall be applicable to all cases of suspended entries and locations, which have arisen in the General Land Office since the twenty-sixth day of June, eighteen hundred and fifty-six, as well as to all cases of a similar kind which may hereafter occur, embracing as well locations under bounty land warrants as ordinary entries or sales, including homestead entries and pre-emption locations; or cases where the law has been substantially complied with, and the error or informality arose from ignorance, accident, or mistake which is satisfactorily explained; and where the rights of no other claimant or pre-emptor are prejudiced, or where there is no adverse claim.

TIMBER CULTURE.

SEC. 2464. Every person who plants, protects, and keeps in a healthy growing condition for ten years forty acres of timber, the trees thereon not being more than twelve feet apart, each way, on any quarter-section of any of the public lands, shall be entitled to a patent for the whole of such quarter-section at the expiration of the ten years, on making proof of such fact by not less than two credible witnesses: *Provided*, That only one quarter in any section shall be thus granted.

SEC. 2465. Every person applying for the benefit of the preceding section shall, upon application to the register of the land office in which he is about to make such entry, make affidavit before the register or receiver that such entry is made for the cultivation of timber, and upon filing his affidavit with the register and receiver, and on payment of ten dollars, he shall be permitted to enter the quantity of land specified.

SEC. 2466. No certificate shall be given or patent issued therefor until the expiration of at least ten years from the date of such entry; and if at the expiration of such time, or at any time within three years thereafter, the person making such entry, or, if he be dead, his heirs, or legal representatives, shall prove by two credible witnesses that he has planted and for not less than ten years has cultivated and protected such quantity and character of timber, he shall receive the patent for such quarter-section of land.

SEC. 2467. If at any time after the filing of such affidavit, and prior to the issuing of the patent for the land, it is proved, after due notice to the party making such entry and claiming to cultivate such timber, to the satisfaction of the register of the land office, that such person has abandoned or failed to cultivate, protect, and keep in good condition such timber, then, and in that event, the land shall revert to the United States.

SEC. 2468. No land acquired under the provisions of the four preceding sections shall, in any event, become liable to the satisfaction of any debt or debts contracted prior to the issuing of a patent therefor.

PROTECT YOUR BUILDINGS

Which may be done with one-fourth the usual expense, by using our

PATENT SLATE PAINT,

MIXED READY FOR USE.

Fire-proof, Water-proof, Durable, Economical and Ornamental.

A roof may be covered with a very cheap shingle, and by application of this slate be made to last from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer than new shingles without the slate, for

One-Third the Cost of Reshingling.

The expense of slating new shingles is only about the cost of simply laying them. The paint is FIRE-PROOF against sparks or flying embers, as may be easily tested by any one.

IT STOPS EVERY LEAK,

and for tin or iron has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS nor scales. Roofs covered with Tar Sheathing Felt can be made water tight at a small expense, and preserved for many years.

This Slate Paint is

EXTREMELY CHEAP.

Two gallons will cover a hundred square feet of shingle roof, while on tin, iron, felt, matched boards, or any smooth surface, from two quarts to one gallon are required to 100 square feet of surface, and although the Paint has a heavy body it is easily applied with a brush.

No Tar is used in this Composition,

therefore it neither cracks in Winter, nor runs in summer.

On decayed shingles it fills up the holes and pores, and gives a new substantial roof that will last for years. CURLED or WARPED shingles it brings to their places, and keeps them there. It fills up all holes in Felt roofs, stops the leaks—and although a slow dryer, rain does not affect it a few hours after applying. As nearly all paints that are black contain TAR, be sure you obtain our GENUINE article, which (for shingle roofs) is

CHOCOLATE COLOR,

when first applied, changing in about a month to a uniform slate color, and is to all intents and purposes SLATE. On

TIN ROOFS

our red color is usually preferred, as one coat is equal to five of any ordinary paint. For

BRICK WALLS

our BRIGHT RED is the only reliable Slate Paint ever introduced that will effectually prevent dampness from penetrating and discoloring the plaster.

These paints are also largely used on outhouses and fences, or as a priming coat on fine buildings.

Our only colors are CHOCOLATE, RED, BRIGHT RED and ORANGE.

TO CALIFORNIA.

We don't give this for *un fait accompli*, but it is very strongly rumored that Cedar Rapids is to be the *half-way* station between Chicago and Council Bluffs.

If this is to be, and some experiments have been made to that end, we suppose it is on account of the superior condition of the road. A trip on the steel railed and well ballasted road, is not any more now, if as much, wear and tear on the employes and machinery to a train, from Chicago to Cedar Rapids, 218 miles, as it was on the iron rails from Chicago to Clinton, 138 miles, in the olden time.

It is not necessary for us to say that the C. & N. W. R'y is a first-class road in every particular, that it rides as easy as sitting in a "rocking chair," that its coaches are parlors, that its employes are the most polite and affable gentlemen the travelling public can meet or will meet in a lifetime of travel—the *esprit de corps* of the employes, if we may so say, is at a high standard; we say we need not say this in a newspaper, it is self evident to every traveler on the road. *But in the future these are to be increased; we suppose the speed will be increased; if possible, the superb trains will be more superb; there is to be no train more complete, either for comfort or safety, leave the world's commercial metropolis for the* GOLDEN GATE, THAN THE GREAT TRAINS ON THE CHICAGO & NORTH-WESTERN RAILWAY—THE ONLY COMPANY RUNNING OUT OF CHICAGO THAT HAS A ROAD SO RELIABLE THAT THEY ARE NOT AFRAID TO RUN AT ANY SPEED CAPABLE OF BEING ATTAINED BY ENGINES OF THE MOST IMPROVED CONSTRUCTION, RUN WITH THE HAND OF IRON NERVE, AND A HEAD OF BRAINS, WITHOUT ANY FEAR OF ACCIDENT OR INCONVENIENCE.

Every employe on the road feels a personal interest in the North-Western Railway; it's the "clipper" road in the West, and so far as anything he can do it will continue so to be.

THIS IS THE TRANS CONTINENTAL LINK FROM THE GREAT LAKES TO THE GREAT MISSOURI RIVER.

The old time traveler speaks in high glee of the "ease and comfort" of these days of steel in contrast with the pioneer days of this pioneer road in the days of iron. *The comforts of travel on the North-Western Railway are in every traveler's mouth from the Atlantic to the Pacific.* It must be a proud compliment to the efficient management, and that is the reason every officer or employe feels so happy and obliging.

It is with pride we mention these things, and join the general shout along the line, Hurrah for the "OLD RELIABLE."—*Cedar Rapids Republican, Aug. 14, 1876.*
